

Course Overview	In Grade 1 students work to further understand the meaning of addition and subtraction, largely within the context of word problems, and working within 20. Students also explore place value by working with numbers to 20, then within 40, and lastly within 120 by the end of the year. In Grade 1 students also focus on measuring and comparing length using centimeter cubes and nonstandard units such as paper clips, think about attributes of shapes and practice composing and decomposing geometric shapes, and tell time to the hour and half hour. The year is wrapped up with students adding and subtracting within 100 and counting and writing numbers up to 120.
