Performance Objective 2: IDEA Horizon Vista will meet 90% of all Domain III sub pop targets.

High Priority

Evaluation Data Sources: STAAR Assessment results

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of teachers will have sub-pop trackers and be trained on aggressive monitoring of those sub-pops. **Strategy's Expected Result/Impact:** Sup pops will meet growth and academic achievement at high rates. **Staff Responsible for Monitoring:** School community **TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 1, 2	25%	80%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 1: A set process tackling key skills to improve vertical alignment across grade levels in ELA **Root Cause**: Current ELA curriculum uses very little scaffolding to address gaps in key skills for our struggling readers
Problem Statement 2: Greater emphasis on writing and explaining thought process of mathematical concepts. **Root Cause**: Prioritizing and defining specific times when the above can be done without sacrificing pace

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Horizon Vista College Prep will end the 22-23 school year with an average of 97% in daily attendance.

High Priority

Evaluation Data Sources: Power School Attendance Tracker
IDEA ADA Dashboard

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Build strong relationships with families and students i.e identifying a person of influence for 100% of families, committing to making one positive contact per month to 100% of families, family communication systems are monitored for use and effectiveness, incentives for teachers, students, and parents. **Strategy's Expected Result/Impact:** Strong relationships provide a foundation for student engagement and belonging. The higher the quality of the relationships students have with faculty and staff, the better their engagement in school. **Staff Responsible for Monitoring:** Asst. Principal of Operations Counselor **Problem Statements:** Demographics 2				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Effective execution of the Escalation Matrix i.e ensure that each owner is involved in the process and meetings with fidelity, norm with APO on an accountability system for follow-through, review and strategize next steps for students with chronic absences, etc. **Strategy's Expected Result/Impact:** When the Escalation Matrix is used with fidelity it holds the parents accountable for their childrens' absences and usually stops the behavior before it becomes chronic. **Staff Responsible for Monitoring:** Asst. Principal of Operations **Problem Statements:** Demographics 2				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: ADA Data Visibility i.e posted on social media, displayed in hallways, displayed on the marquee, etc.. **Strategy's Expected Result/Impact:** Data visibility brings awareness of the goal and the rationale for it. Awareness can be a tool for advocacy. It can be very powerful because it will educate parents about the topic and encourages them to participate in bringing change if change is needed. **Staff Responsible for Monitoring:** Asst. Principal of Operations Counselor **Problem Statements:** Demographics 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 2: Ongoing collaboration with students and parents to share campus vision and programs being offered. **Root Cause**: Staff was not prioritized or effective GRPI/ plan layed out

Goal 5: Increase student persistence

Performance Objective 1: IDEA Horizon Vista will welcome back 90% of its student body in the 23-24 school year and retain 90% of new enrollees.

Evaluation Data Sources: IDEA Persistence Data Dashboard
Powerschool Enrollment counts for the 23-24 school year

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Building relationships with parents i.e 100% of families will receive at minimum 1 positive contact per month, 5 contacts to parents at minimum per week from teachers, parent weekly newsletter, one family engagement event per month. **Strategy's Expected Result/Impact:** To build a shared commitment to the child's well-being and success. **Staff Responsible for Monitoring:** Counselor Asst. Principal of Operations **Problem Statements:** Demographics 2 - Perceptions 1, 2	15%	50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Building relationships with scholars i.e celebratory assemblies recognizing exemplar scholar work and Core Values, provide opportunities for genuine student interactions with faculty and staff, etc... **Strategy's Expected Result/Impact:** Strong relationships with teachers and school staff can dramatically enhance students' level of motivation and therefore promote learning. In turn, building a sense of belonging in the school community **Problem Statements:** Demographics 2 - Perceptions 1	20%	50%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Weekly meetings (Grade Level Meetings, GTL/Lead Team Tactical, ADA Huddles) i.e identify scholars who are expressing ideas of leaving the school, identify scholars with excessive absences, identify scholars who are failing one or more classes. **Strategy's Expected Result/Impact:** By using tracking systems and discussing solutions through meetings for excessive absences, failures and expressions of dissatisfaction, which are all telltale signs that a student is less likely to return, we can intervene before the final decision is made to leave the school. **Staff Responsible for Monitoring:** Counselor Asst. Principal of Operations. **Problem Statements:** Demographics 1, 2	15%	55%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Lack of after school clubs to promote investment in school. **Root Cause**: Monies were not prioritized for this initiative.
Problem Statement 2: Ongoing collaboration with students and parents to share campus vision and programs being offered. **Root Cause**: Staff was not prioritized or effective GRPI/ plan layed out
Perceptions
Problem Statement 1: Capturing parent data for campus initiatives. **Root Cause**: No plan in place to survey parents
Problem Statement 2: System breakdown when collecting data on attendance for family engagement events **Root Cause**: No plan in place to capture attendance data

Goal 5: Increase student persistence

Performance Objective 2: IDEA Horizon Vista will teach 100% of middle school students conflict resolution.

Evaluation Data Sources: Master Schedule
Friday Catalyst rotations

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Present a restorative circle leson every Friday. **Strategy's Expected Result/Impact:** A decrease in office referrals due to conflict between students **Staff Responsible for Monitoring:** Homeroom Teachers **ESF Levers:** Lever 3: Positive School Culture	50%	90%		

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 3: 90% of students meet Fitness gram standards.

Evaluation Data Sources: Minutes logged in PE.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly check-ins with PE coach to evaluate growth. **Strategy's Expected Result/Impact:** 100% of students meet their active minutes. **Staff Responsible for Monitoring:** PE coach **ESF Levers:** Lever 3: Positive School Culture				

 No Progress Accomplished Continue/Modify Discontinue

Reflections

Areas of Strength	Areas of Need
1. Alignment to the rigor and skill of end of year assessment.	1. Greater emphasis on academic class discussion--accountable talk.
2. Strong annotiation skills to display learning and key understanding of texts.	2. Strong, direct instruction on writing--mechanics, grammar, and textutal evidence.
3. Consistent feedback on gaps of student learning to improve understanding and outcomes.	3. "How to" process on tackling key skills to improve vertical alignment across grade levels.

Top 25 Percent: Comparative Closing the Gaps
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 16, 2022

Demographics

Demographics Summary

We are a full scale Kinder through 5th grade campus located on the north west side of San Antonio. Our scholars are between ages 5-12 years old. We service scholars in special programs such as Special Education, 504, and Emerging Bilingual Program.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Coding for Economically Disadvantaged students was inaccurate. **Root Cause:** Not enough accountability to ensure coding is done correctly and on time.

Problem Statement 2 (Prioritized): There is a need to increase overall student persistence (83.51%) and new student persistence (77.30%) since they were consistently below monthly benchmarks. **Root Cause:** Campus culture did not support scholars as they adjusted to the school and structure.

Student Learning

Student Learning Summary

IDEA Ingram Hills achieved a rating of 96 (A) by the TEA for the 21-22 school year and met 5 out of 5 distinctions. Most notable is an achievement of 100 in Domain 3, indicating progress for special populations. Students in pre-K through 2nd grade ended the year near grade level acheivement at 100% in Pre-K, 95% in Kinder, 89% in 1st Grade, and 98% in 2nd Grade as seen on Direct Instruction programming.

*See PDF in Addendum for more information

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There is significant data missing for Science and Humanities. **Root Cause:** Master schedule prioritized Math and ELAR instruction after the Fall semester resulting in limited exposure to Science and Humanities.

Problem Statement 2 (Prioritized): Students have shown success with multiple choice assessments only. **Root Cause:** Students have only been exposed and supported in multiple choice assessments as constructed response or writing opportunities were missing from units and lessons last year.

School Processes & Programs

School Processes & Programs Summary

Curriculum & Instruction Our school uses scripted curriculum programs such as Direct Instruction (RMT, Decoding) for reading, Eureka Math, Wit and Wisdom, and Attainment. Teachers must internalize and submit lessons with additional differentiation, strategic questioning, priority students to give formative assessments, etc. Teachers have a 30 min daily lesson rehearsal or co-planning time with a content team to further support the internalization and implementation of the given curriculum.

Professional Development Every staff member has a direct manager that coaches, gives feedback, and supports their professional development. Feedback is given on the spot in class during weekly or daily rounds and there is a 30 min one-on-one check in between manager and direct report to discuss action steps, data, and overall performance.

Communication Communication on campus is done through a weekly staff newsletter, weekly faculty meeting, schoolwide calendar, and daily Microsoft Teams chat. Feedback is given to the entire campus on selected culture areas each week such as transitions, morning meeting, uniform, cafeteria.

Extracurricular Opportunties This year, IHA has added sports and clubs on campus beginning with volleyball and dance team for girls in grades 3, 4, 5 as well as a student council.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.

- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: There needs to be an increase in the development of co-teachers to fill lead positions when vacant. **Root Cause:** Managers prioritized observations for lead teachers and co-teacher manager was not consistent during the year.

Problem Statement 2 (Prioritized): Teachers changed placements during the year and did not stay in the same content/role as when they started the school year. **Root Cause:** Lack of professional development in their content and coaching from their manager.

Problem Statement 3 (Prioritized): High turnover in RISE lead teachers and co-teachers **Root Cause:** In the last academic year, there was inconsistent management in these roles.

Perceptions

Perceptions Summary

Parent Surveys Parent survey data showed a clear area of growth in communication with campus leadership. Parents shared evidence of authentic relationships with teachers, but found that it was hard to get in direct contact with the campus lead team in times of concern. Due to COVID restrictions, many campus events were cancelled or postponed when cases rose and visitors were not allowed inside the school.

Family Communication Staff is trained in family communication through a protocol that includes listening to concerns, taking notes, responding with clear next steps and empathizing with concerns.

Staff Retention 77% of staff returned for this school year. Staff shared pride in the success of the school's academic data but cited clear feedback and an interest in being part of decision-making as important changes for the upcoming year.

New Student Persistence We track both overall and new student persistence to measure family satisfaction. This year 77% of scholars returned for the following year.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Family engagement events were cancelled or postponed throughout the last academic year. **Root Cause:** Family engagement events were not prioritized, as the focus was on academics.

Problem Statement 2: We did not hold a curriculum night to help parents understand what scholars were learning in school. **Root Cause:** Parent phone calls were used to provide homework support.

Problem Statement 3 (Prioritized): There is a weak system for parent communication in place, resulting in missing information and inadequate follow up for concerns. **Root Cause:** No clear system in place to ensure all important information is overcommunicated to families and that concerns are addressed.

Priority Problem Statements

Problem Statement 1: There is significant data missing for Science and Humanities.

Root Cause 1: Master schedule prioritized Math and ELAR instruction after the Fall semester resulting in limited exposure to Science and Humanities.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Teachers changed placements during the year and did not stay in the same content/role as when they started the school year.

Root Cause 2: Lack of professional development in their content and coaching from their manager.

Problem Statement 2 Areas: School Processes & Programs

Problem Statement 3: There is a weak system for parent communication in place, resulting in missing information and inadequate follow up for concerns.

Root Cause 3: No clear system in place to ensure all important information is overcommunicated to families and that concerns are addressed.

Problem Statement 3 Areas: Perceptions

Problem Statement 4: Coding for Economically Disadvantaged students was inaccurate.

Root Cause 4: Not enough accountability to ensure coding is done correctly and on time.

Problem Statement 4 Areas: Demographics

Problem Statement 5: There is a need to increase overall student persistence (83.51%) and new student persistence (77.30%) since they were consistently below monthly benchmarks.

Root Cause 5: Campus culture did not support scholars as they adjusted to the school and structure.

Problem Statement 5 Areas: Demographics

Problem Statement 6: Students have shown success with multiple choice assessments only.

Root Cause 6: Students have only been exposed and supported in multiple choice assessments as constructed response or writing opportunities were missing from units and lessons last year.

Problem Statement 6 Areas: Student Learning

Problem Statement 7: High turnover in RISE lead teachers and co-teachers

Root Cause 7: In the last academic year, there was inconsistent management in these roles.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Family engagement events were cancelled or postponed throughout the last academic year.

Root Cause 8: Family engagement events were not prioritized, as the focus was on academics.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Texas approved PreK - 2nd grade assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback

- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation

Goals

Goal 1: Increase staff retention to 85%

Performance Objective 1: TCP Ratings: 75% of our teachers will be Level 4 or Level 5 teachers.

High Priority

Evaluation Data Sources: We want 75% of our teachers to be Level 4 or Level 5 teachers.

GET Rubric Ratings and Weekly Student Achievement

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: APIs will provide weekly coaching and bite-sized action steps for instructional staff and coach to mastery. **Strategy's Expected Result/Impact:** Increase teacher GET ratings. **Staff Responsible for Monitoring:** APIs will implement strategy and Principal will monitor the status. **Title I:** 2.4 **- TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 2	15%	15%

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 16, 2022

Demographics

Demographics Summary

We are IDEA Ingram Hills College Prep serving our community in the North west side of San Antonio. We are campus that currently services 6th through 10th grade, offering Special Education, Intervention, Music, Art, Athletics, and other clubs. We have strong Special Education and EL services for our students that include inclusion, intervention and specific learning plans for individuals.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Our student persistence was at 70.78, so we need to drastically improve this metric. **Root Cause:** 1. School culture was weak which caused students to want to leave. 2. There was a lack of a system to try and save families when they named they wanted to leave. 3. Families felt unheard by school administration.

Problem Statement 2 (Prioritized): Ingram Hills expelled 9 students last year, and our intention is to not expel any student. **Root Cause:** 1. There were weak behavior management system. 2. There was a lack of accountability to follow the behavior management system.

Student Learning

Student Learning Summary

Idea Ingram Hills scored an overall B rating with an 89. Our domain 1 is 80, domain 2 is a 90 and domain 3 is 88. Our biggest strength has been domain 2 and closing gaps. Overall our combined math achievement score was 41, our combined ELA achievement score was 53, our combined science achievement score was 56, and humanities was 29. This data shows clear strengths and areas of growth for us to focus on this school year.

See PDF in Addendum for more information

Student Learning Strengths

See PDF in addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The percent of SpEd scholars that mastered/met in 6th and 7th grade ELA was 0. **Root Cause:** Root cause is that our SpEd population has not been prioritized from the beginning of the year and individual plans have not been created to meet each student where they are.

Problem Statement 2 (Prioritized): Our achievement average in 8th grade History was only a 29. We only had 62% pass, making it the most off track subject from us hitting our academic goals. **Root Cause:** Subject/teacher was not a priority and they did not receive coaching that was driven by data.

School Processes & Programs

School Processes & Programs Summary

At IDEA Ingram Hills Colleg Prep, we know that students learn deeply when given the opportunity to independently practice the material aligned to their end of year exam and get feedback from their teachers. To ensure all of our teachers are prepared and ready to implement this learning environment, our instructional leaders give weekly feedback to lesson plans to ensure the material is aligned to the content on the end of year exam. The instructional leaders also give feedback on the amount of student practice assigned and where teachers will be zoning in to give feedback. Additionally instructional leaders observe live insturction at least once a week and give feedback to the teacher over their lesson delivery and classroom culture of achievement. The campus principal will also give feedback to the instructional leaders as they are coaching the teachers.

Weekly, the instructional team meets for 1 hour to name the campus needs, and then decide on a PD session to best meet the needs of the teachers. The principal or a member of the instructional team will facilitate the PD either during faculty meeting or during conference periods of the teachers.

See PDF in Addundum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addundum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): 51% of the teachers from 21-22 chose not to return for the 22-23 school year. **Root Cause:** There was a lack of consistent leadership during the 21-22 school year which caused the direction of the school to shift multiple times during the school year. The teachers struggled to adapt to differing leadership styles, areas of priorities and direction of the school.

Problem Statement 2: Only 50% of the leadership team at Ingram Hills College Prep returned for the 22-23. **Root Cause:** With no consistent principal throughout the year, the leadership team did not receive quality coaching and support.

Perceptions

Perceptions Summary

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addundum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): There was no fall, winter or spring festivals planned during the 21-22 school year. **Root Cause:** The leadership team was stretched thin and chose not to prioritize these events.

Problem Statement 2 (Prioritized): Families only got to give feedback on satisfaction with the school at the end of the year. **Root Cause:** The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Priority Problem Statements

Problem Statement 1: Our student persistence was at 70.78, so we need to drastically improve this metric.

Root Cause 1: 1. School culture was weak which caused students to want to leave. 2. There was a lack of a system to try and save families when they named they wanted to leave. 3. Families felt unheard by school administration.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Ingram Hills expelled 9 students last year, and our intention is to not expel any student.

Root Cause 2: 1. There were weak behavior management system. 2. There was a lack of accountability to follow the behavior management system.

Problem Statement 2 Areas: Demographics

Problem Statement 3: Our achievement average in 8th grade History was only a 29. We only had 62% pass, making it the most off track subject from us hitting our academic goals.

Root Cause 3: Subject/teacher was not a priority and they did not receive coaching that was driven by data.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: The percent of SpEd scholars that mastered/met in 6th and 7th grade ELA was 0.

Root Cause 4: Root cause is that our SpEd population has not been prioritized from the beginning of the year and individual plans have not been created to meet each student where they are.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: 51% of the teachers from 21-22 chose not to return for the 22-23 school year.

Root Cause 5: There was a lack of consistent leadership during the 21-22 school year which caused the direction of the school to shift multiple times during the school year. The teachers struggled to adapt to differing leadership styles, areas of priorities and direction of the school.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: There was no fall, winter or spring festivals planned during the 21-22 school year.

Root Cause 6: The leadership team was stretched thin and chose not to prioritize these events.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: Families only got to give feedback on satisfaction with the school at the end of the year.

Root Cause 7: The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Problem Statement 7 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Local benchmark or common assessments data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback

Employee Data

- Staff surveys and/or other feedback
- Campus leadership data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of instructional staff will be have measurable growth in their data to ensure they feel successful.

High Priority

Evaluation Data Sources: Teach boost, Edcite, STAAR

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of all instructional staff will have a weekly observation and action step from their manager. **Strategy's Expected Result/Impact:** Consistent bite sized feedback to ensure gradual growth every week. **Staff Responsible for Monitoring:** Instructional Team Members, Principal **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 100% of instructional staff will have a weekly check in with their manager to coach them on their weekly action step. **Strategy's Expected Result/Impact:** Teachers show mastery on the weekly action step, leading to growth every week. **Staff Responsible for Monitoring:** Instructional Team Members, Principal **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs

Problem Statement 1: 51% of the teachers from 21-22 chose not to return for the 22-23 school year. **Root Cause**: There was a lack of consistent leadership during the 21-22 school year which caused the direction of the school to shift multiple times during the school year. The teachers struggled to adapt to differing leadership styles, areas of priorities and direction of the school.

Performance Objective 2: 100% of staff members will name that Ingram Hills is a Great Place to Work

High Priority

Evaluation Data Sources: Great Places to Work Survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Written praise for all teachers during tactical and sent in staff weekly. **Strategy's Expected Result/Impact:** Teachers get specific praise weekly to feel successful. **Staff Responsible for Monitoring:** Instructional Team, Principal **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Give monthly survey to staff members for job satisfaction and resources needed. **Strategy's Expected Result/Impact:** Teachers have the resources they need to teach. Teachers can give specific feedback aligned to the great places to work survey. **Staff Responsible for Monitoring:** Principal. **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 1: 51% of the teachers from 21-22 chose not to return for the 22-23 school year. **Root Cause**: There was a lack of consistent leadership during the 21-22 school year which caused the direction of the school to shift multiple times during the school year. The teachers struggled to adapt to differing leadership styles, areas of priorities and direction of the school.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of 10th graders and 80% of 9th graders will be exempt in TSI ELAR by end of school year.

High Priority

Evaluation Data Sources: TSI tracker.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide tutoring for TSI during Road to and through College Class **Strategy's Expected Result/Impact:** 100% of 10th graders and 80% of 9th graders pass ELAR **Staff Responsible for Monitoring:** RTTC teacher, College Counselor **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Demographics 1 **Funding Sources:** College Counselor - Federal Grant - $70,200		5%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Test all 9th and 10th grade scholars once a quarter on TSI **Strategy's Expected Result/Impact:** 100% of 10th graders and 80% of 9th graders pass ELAR **Staff Responsible for Monitoring:** RTTC teacher and College Counselor **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Demographics 1		5%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Our student persistence was at 70.78, so we need to drastically improve this metric. **Root Cause**: 1. School culture was weak which caused students to want to leave. 2. There was a lack of a system to try and save families when they named they wanted to leave. 3. Families felt unheard by school administration.

Goal 2: All IDEA students matriculate to college

Performance Objective 2: 98% of 8th, 9th, and 10th graders will be on track to graduate at the end of the year.

Evaluation Data Sources: OTG report, transcripts.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: College Counselor will pull low grade report weekly and send to teachers. Then monitor improvement in number of students passing their classes. **Strategy's Expected Result/Impact:** 98% of students do not can take grade level coursework and not be in credit recovery. **Staff Responsible for Monitoring:** College Counselor. **TEA Priorities:** Connect high school to career and college **Problem Statements:** Demographics 1				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Execute Credit Recovery days the last 3 weeks of each quarter. **Strategy's Expected Result/Impact:** Students are given a clear opportunity to submit missing work to increase their grade to passing before the end of the quarter. **Staff Responsible for Monitoring:** College Counselor, teachers **TEA Priorities:** Connect high school to career and college **Problem Statements:** Demographics 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Our student persistence was at 70.78, so we need to drastically improve this metric. **Root Cause**: 1. School culture was weak which caused students to want to leave. 2. There was a lack of a system to try and save families when they named they wanted to leave. 3. Families felt unheard by school administration.

Goal 3: IDEA achieves an A rating

Performance Objective 1: 100% of teachers will use daily exit tickets to drive their instructional decisions.

High Priority

Evaluation Data Sources: Internal Exit Ticket Tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of teachers will report on exit ticket data daily, name student misconception and reteach plan if mastery is under 80% **Strategy's Expected Result/Impact:** Teachers make daily data driven decisions that impact student mastery. **Staff Responsible for Monitoring:** Instructional Lead Team, Teachers **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 2		30%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use ELA interventionist to improve 6-8 Reading scores. **Strategy's Expected Result/Impact:** CSI students increase 2 years or more in their reading level. **Staff Responsible for Monitoring:** Interventionist, instructional lead team **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1 **Funding Sources:** Interventionist - Federal Grant - $57,000		40%

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: The percent of SpEd scholars that mastered/met in 6th and 7th grade ELA was 0. **Root Cause**: Root cause is that our SpEd population has not been prioritized from the beginning of the year and individual plans have not been created to meet each student where they are.
Problem Statement 2: Our achievement average in 8th grade History was only a 29. We only had 62% pass, making it the most off track subject from us hitting our academic goals. **Root Cause**: Subject/teacher was not a priority and they did not receive coaching that was driven by data.

Goal 3: IDEA achieves an A rating

Performance Objective 2: 100% of SPED teachers report on SPED exit ticket data daily, name the student misconception and reteach plan if master is under 80%.

High Priority

Evaluation Data Sources: Internal Exit Ticket Tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of SPED teachers will report on SPED exit ticket data daily, name student misconception and reteach plan if mastery is under 80% **Strategy's Expected Result/Impact:** 30% of SPED Students hit meets on the STAAR **Staff Responsible for Monitoring:** SPED teachers, instructional lead team **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1		0%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use Interventionist to increase SPED data. **Strategy's Expected Result/Impact:** 30% of SPED Students hit meets on the STAAR **Staff Responsible for Monitoring:** Interventionist, SPED teachers, instructional team **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1		30%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Use AR teacher to give reading support to all scholars in 6th and 7th grade. **Strategy's Expected Result/Impact:** ELA scores increase. **Staff Responsible for Monitoring:** AR teacher **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1		20%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 1: The percent of SpEd scholars that mastered/met in 6th and 7th grade ELA was 0. **Root Cause**: Root cause is that our SpEd population has not been prioritized from the beginning of the year and individual plans have not been created to meet each student where they are.

Goal 4: Increase student daily attendance

Performance Objective 1: Invest families in being at school every day.

High Priority

Evaluation Data Sources: Ada report with notes added.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of students not on campus will receive an ADA phone call by 8:30am daily. **Strategy's Expected Result/Impact:** Families feel noticed when their scholar is absent. Families can communicate why their scholar is absent. Staff can help convince parent to bring in their scholars. **Staff Responsible for Monitoring:** Assistant Principal of Operations **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2		75%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Celebrate perfect attendance monthly with an incentive. **Strategy's Expected Result/Impact:** Students have perfect attendance monthly. **Staff Responsible for Monitoring:** Assistant Principal of Operations **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2		0%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 2: Families only got to give feedback on satisfaction with the school at the end of the year. **Root Cause**: The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Goal 4: Increase student daily attendance

Performance Objective 2: 100% of students who are chronically absent follow the ADA matrix with consequences and next steps.

Evaluation Data Sources: ADA matrix tracker.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Launch tracking system for student absences that connects ADA matrix. **Strategy's Expected Result/Impact:** Leaders have a clear place to communicate absences and next steps with families. **Staff Responsible for Monitoring:** APO **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2		0%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use weekly tactical to communicate ADA matrix next steps and support needed from entire lead team. **Strategy's Expected Result/Impact:** Grade Level administrators are able to have conferences with families who have too many absences. **Staff Responsible for Monitoring:** APO **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2		0%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Perceptions
Problem Statement 2: Families only got to give feedback on satisfaction with the school at the end of the year. **Root Cause**: The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Goal 4: Increase student daily attendance

Performance Objective 3: Ensure 100% of students feel emotionally safe at school

Evaluation Data Sources: Move This World, student survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: All homerooms participate in move this world 4/5 days per week. **Strategy's Expected Result/Impact:** Building student capacity in self regulation and de-escalation. **Staff Responsible for Monitoring:** Iris Perales, Jordan Morrison, Grade Team Leaders	0%	40%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: 100% of grade teams will build deep relationships with families.

Evaluation Data Sources: Admin observation weekly.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Grade Team Leaders will conduct a grade level meeting weekly to bring joy, name a culture focus and name scholar of the week. **Strategy's Expected Result/Impact:** Scholars are joyfully making deep connections with both staff and each other. **Staff Responsible for Monitoring:** Grade Team Leaders, grade level administrators. **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 1				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 100% of teachers make 5 positive phone calls per week. **Strategy's Expected Result/Impact:** Families hear about the great things their students are doing, building the deep connection between family and school. **Staff Responsible for Monitoring:** College Counselor **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 1: There was no fall, winter or spring festivals planned during the 21-22 school year. **Root Cause**: The leadership team was stretched thin and chose not to prioritize these events.
Problem Statement 2: Families only got to give feedback on satisfaction with the school at the end of the year. **Root Cause**: The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Goal 5: Increase student persistence

Performance Objective 2: School Counselor creates clear flowchart with persistence concerns, and 100% of teachers uphold the flowchart.

High Priority

Evaluation Data Sources: School Counselor flow chart.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: School Counselor trains teachers on steps when they hear a student potentially leaving. **Strategy's Expected Result/Impact:** Teachers have clear expectations when they hear of persistence concern. GTL and SC can take next steps to connect with families to ultimately keep them at IDEA Ingram Hills. **Staff Responsible for Monitoring:** School Counselor. **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Perceptions
Problem Statement 2: Families only got to give feedback on satisfaction with the school at the end of the year. **Root Cause**: The parent surveys were only mandatory at the end of the year, and there was not a priority on soliciting feedback from families as a consistent operating mechanism.

Goal 5: Increase student persistence

Performance Objective 3: 100% of scholars in grades 6, 7, and 9 will hit 900 MVPA (Minutes of vigorous physical activity)

Evaluation Data Sources: MVPA data from the watches.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly update from coaches to their manager during check ins. **Strategy's Expected Result/Impact:** Data accountability and the ability to respond to the data **Staff Responsible for Monitoring:** Jennifer Neudek	0%	80%	0%

Reflections	
Areas of Strength	**Areas of Need**
1. 100% of our families attended an onboarding session.	1. Host family engagement events for all families.
2 Families were ready to start the school year knowing campus expectations.	2 Host a curriculum night that will help parents. understand.
3 Strong system in place for those scholars who registered after deadline to ensure those families were still onboarded.	3 Utilize various communication methods to over communicate events to families.

IDEA Public Schools

Judson Academy

2022-2023 Campus Improvement Plan

Accountability Rating: A

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

100% of all students going to college is not just a statement at IDEA Judson, it is a promise. IDEA Judson aims to be the highest performing school in IDEA Public Schools and the best education option for the families in the Converse community. We will motivate and challenge our scholars daily to ensure they are supported academically, emotionally, and socially. At our campus we will foster a joy of learning that will create a sense of belonging to our campus. At IDEA Judson we WILL deliver on our promise of 100% of scholars going to and through a four-year university.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

See PDF Addendum for more information

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Not able to onboard 100% of families to make them aware of the expectations for both scholars and families. **Root Cause:** Tracking operating mechanism was not in place during the 21-22 school to thoroughly track all families that attended an onboarding session.

Problem Statement 2 (Prioritized): Onboarding session was not differentiated to ensure we are hitting all of our demographics, specifically military. **Root Cause:** I did not modify the district onboarding session to meet the needs of our population.

Student Learning

Student Learning Summary

See PDF Addendum for more information

Student Learning Strengths

See PDF Addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Focus of the year was to close the achievement gap as oppose to increasing rigor to increase the number of meets and master scholars. **Root Cause:** I did not have a clear coaching plan for teachers to efficiently close gaps.

Problem Statement 2 (Prioritized): Students need to build strength in their ability to write to explain across the content. **Root Cause:** Students are not writing in all classrooms.

Problem Statement 3 (Prioritized): Scholars need to be able to make the connection across the curriculum by more effectively using similar strategies in all of their courses. **Root Cause:** Teachers were not effectively planning together to ensure cross content alignment was strong.

Problem Statement 4: Need additional programs to assist with the speaking component to assist with our ELL learners **Root Cause:** Early intervention needs to take place to help with our ELL scholars. Additional resources will be purchased to assist during the 22-23 school year.

Problem Statement 5: Math curriculum needs to be enhanced by incorporating more rigorous TEKS based instruction. **Root Cause:** Last school year teachers mainly used one resource/curriculum.

School Processes & Programs

School Processes & Programs Summary

See Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Teachers need to feel have designated time for team building with their team to create lasting partnerships and effectively impact our community together. **Root Cause:** Time last year was dedicated to closing achievement gaps as oppose to creating a strong partnership amongst teacher and the community.

Problem Statement 2 (Prioritized): Teachers need mental and emotional health checks, and access to a counselor monthly due to traumas and fears that are real in education. **Root Cause:** Admin conducting daily temp checks were not implemented during the 21-22 school year.

Perceptions

Perceptions Summary

See Addendum for more information

Perceptions Strengths

See Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): For academic engagement events, we need to increase the frequency of opportunities for families to come. **Root Cause:** We did not plan out monthly family engagement events at the beginning of the school year.

Problem Statement 2 (Prioritized): Traffic and lack of parking causes frustration for families when hosting campus-wide events. **Root Cause:** Strategy meeting with both campuses were not regularly scheduled to ensure the operations of events were efficient.

Problem Statement 3: We need to give more advanced notice for family engagement events to increase participation. **Root Cause:** In not publicizing events in the right timeframe, it decreased parent involvement.

Priority Problem Statements

Problem Statement 1: Not able to onboard 100% of families to make them aware of the expectations for both scholars and families.
Root Cause 1: Tracking operating mechanism was not in place during the 21-22 school to thoroughly track all families that attended an onboarding session.
Problem Statement 1 Areas: Demographics

Problem Statement 2: Students need to build strength in their ability to write to explain across the content.
Root Cause 2: Students are not writing in all classrooms.
Problem Statement 2 Areas: Student Learning

Problem Statement 3: Scholars need to be able to make the connection across the curriculum by more effectively using similar strategies in all of their courses.
Root Cause 3: Teachers were not effectively planning together to ensure cross content alignment was strong.
Problem Statement 3 Areas: Student Learning

Problem Statement 4: Focus of the year was to close the achievement gap as oppose to increasing rigor to increase the number of meets and master scholars.
Root Cause 4: I did not have a clear coaching plan for teachers to efficiently close gaps.
Problem Statement 4 Areas: Student Learning

Problem Statement 5: For academic engagement events, we need to increase the frequency of opportunities for families to come.
Root Cause 5: We did not plan out monthly family engagement events at the beginning of the school year.
Problem Statement 5 Areas: Perceptions

Problem Statement 6: Traffic and lack of parking causes frustration for families when hosting campus-wide events.
Root Cause 6: Strategy meeting with both campuses were not regularly scheduled to ensure the operations of events were efficient.
Problem Statement 6 Areas: Perceptions

Problem Statement 7: Teachers need to feel have designated time for team building with their team to create lasting partnerships and effectively impact our community together.
Root Cause 7: Time last year was dedicated to closing achievement gaps as oppose to creating a strong partnership amongst teacher and the community.
Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Teachers need mental and emotional health checks, and access to a counselor monthly due to traumas and fears that are real in education.
Root Cause 8: Admin conducting daily temp checks were not implemented during the 21-22 school year.
Problem Statement 8 Areas: School Processes & Programs

Problem Statement 9: Onboarding session was not differentiated to ensure we are hitting all of our demographics, specifically military.

Root Cause 9: I did not modify the district onboarding session to meet the needs of our population.

Problem Statement 9 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Communications data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of instructional will be provided support and coaching on a weekly basis following our weekly coaching cycle.

High Priority

Evaluation Data Sources: 1) Weekly action step tracker to be reviewed during our instructional power meetings\
2) Utilize Teachboost to send teacher feedback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly joint instruction rounds with all leaders for both kinder-2nd and 3rd-5th grade **Strategy's Expected Result/Impact:** During our rounds, we will be able to norm of the highest leverage action step. **Staff Responsible for Monitoring:** All instruction administrators (assistant principals, SSA, and principal) **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: Increase teacher rapport and sense of belonging to campus with 95% of teachers

High Priority

Evaluation Data Sources: 1) Monthly staff surveys
2) Great Places to Work Survey provided by district
3) Weekly check-ins with all staff members

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Monthly teambuilding sessions with 100% of staff members **Strategy's Expected Result/Impact:** During this time, we will be able to engage with 100% of our staff members and build team and family outside of the campus. Events will also include family engagement events as well. **Staff Responsible for Monitoring:** "Sunshine Committee" (mixture of teachers and our Student Success Advisor) **Title I:** 4.1 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: Ensure 90% of scholars in Kinder-2nd are on grade level by the end of the school year.

High Priority

Evaluation Data Sources: 1. DI Online
2. Campus executive data tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Script practice/lesson rehearsal to be held at minimum of 3 times a week. **Strategy's Expected Result/Impact:** Teacher will be fluent with lesson and will know how to provide intervention as needed. **Staff Responsible for Monitoring:** All k-2 instructional staff **Title I:** 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Ensure all contents in grade 3rd-5th hit 90/60/30 in reading and math on STAAR

High Priority

HB3 Goal

Evaluation Data Sources: All district/campus assessments
Daily exit ticker Tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Lesson alignment: teachers align curriculum to our TEKS on a daily basis. 2. Daily use of data tracking method to acquire student data (text feed w/OCS) 3. 90/30 mission meetings with all instructional staff to discuss the status of all Sped, 504, ELL, and RTI scholars. **Strategy's Expected Result/Impact:** Teacher will be able to implement data driven instruction on a daily basis. **Staff Responsible for Monitoring:** All instructional staff **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals, Build a foundation of reading and math **Funding Sources:** Patrick Garza -AR Facilitator - Federal Grant - $33,311.52, Craig Grubbs- Hotspot Teacher - Federal Grant - $34,404.48	75%	70%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: Daily data tracking with immediate remediation for all scholars and more specifically with our special population (special education, 504, ELL, and RTI).

High Priority

HB3 Goal

Evaluation Data Sources: 1. Daily exit ticker tracker
2. Domain 3 Tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Daily use of data tracking method to acquire student data (text feed w/OCS) 2. Tracking of Domain 3 on all district assessments **Strategy's Expected Result/Impact:** Teacher will be able to implement a solution/intervention when scholars are not at mastery **Staff Responsible for Monitoring:** All instructional staff **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals, Build a foundation of reading and math	75%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: Ensure data is visible and sent to all stakeholders daily.

High Priority

Evaluation Data Sources: 1. ADA email
2. Powerschool
3. ADA report on district website

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Share daily ADA report including PTG at GTL/Lead/Ops huddles 2. Verify Escalation Matrix fidelity during weekly check in with SIS and Principal **Strategy's Expected Result/Impact:** ADA will be higher than 97.5% and when data drops, solutions are being provided using our ADA Escalation Matrix **Staff Responsible for Monitoring:** Assistant Principal of Operations **Title I:** 2.5, 4.1, 4.2 **- TEA Priorities:** Recruit, support, retain teachers and principals	50%	50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Invest 95% of student, staff, and families with the ADA process through incentives, communication, and monthly feedback/surveys. **Strategy's Expected Result/Impact:** Ensure that ADA is above 97.5% for the entirety of the school year. **Staff Responsible for Monitoring:** Assistant Principal of Operations and SIS **Title I:** 2.5, 4.1, 4.2 **- TEA Priorities:** Recruit, support, retain teachers and principals	50%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: Hold 100% of safety drills a month ahead of schedule

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Calendar all safety drills with facility manager and assistant principal of operations during weekly check-in. **Strategy's Expected Result/Impact:** Scheduling all safety drill will ensure the drills are being conducted. **Staff Responsible for Monitoring:** Principal, Assistant Principal of Operations, and Facility Manager **TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 2: 90% of scholars receive 900MVPA minutes by end of school year

Evaluation Data Sources: 1. Daily PE tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Ensure teacher has all the proper equipment to monitor student progress **Strategy's Expected Result/Impact:** Teacher is able to track data in real time using monitors and student tracker. **Staff Responsible for Monitoring:** PE teacher **Title I:** 2.5 **- TEA Priorities:** Recruit, support, retain teachers and principals	75%	75%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Reflections	
Areas of Strength	**Areas of Need**
1 The content allowed for scholars to have true interest in history and geographical regions.	1 Teachers have a lot of complex reading to engage children in, and need creative ways to build the scholars capacity.
and worked to internalize what the scholars truly needed to know.	2 Teachers need to be able to align the TEKS for the content with other contents to deepen the layers of understanding.
3 Scholars engaged in discussion, discourse and group projects together throughout the year.	experiences in History that allow them to better gain background knowledge.

% Advanced	36%	31%	21%	30%	x
% Advanced High	55%	9%	34%	27%	x

Reflections	
Areas of Strength	**Areas of Need**
1) ELL support is across all contents	1) Purchase additonal programs to assist with the speaking component.
2) Strong emphasis on vocabulary development	2) Early interventions with Roseta Stone for scholars that have significant gaps in language.
3) Daily practice with listening, speaking, reading, and writing.	3) Additonal tutoring for our sturggling ELL scholars

Reflection	
Areas of Strength	**Areas of Need**
1) Judson retained all Teachers and leaders throughout the school year until the last quarter of the year.	1) Teachers need to know how to balance powering off after 5 to refuel and refresh themselves.
2) 85% or more of staff at IDEA Judson plan to return.	2) Teachers need to feel have designated time for team building with their team to create lasting partnerships and effectively impact our community together.
3) Teacher and leader collaboration throughout the pandemic helped strengthen social emotional needs, and academic needs of our scholars.	3) Teachers need mental and emotional health checks, and access to a counselor monthly due to traumas and fears that are real in education.

Data Source: School Culture and Climate	
Reflections	
Areas of Strength	**Areas of Need**
1 Judson remained above the Persistence goal up until the Christmas Holiday	1 Providing some onboarding for military families that helps them identify if our school will be the best fit based on their potential family relocation.
2 Every teacher and leader remained connected with families and remained consistent in responding quickly to potential leavers needs.	2 Development of a system that will assist with persistence losses now that there is a rolling enrollment, and scholars can end up enrolling at a challenging time of the year.

3 Our SSA continued to partner with the College Prep to minimize potential sibling hits as much as possible.	3 Parent partnership with teachers and leaders that help families feel a part of what is happening at the school now

Reflection	
Areas of Strength	**Areas of Need**
1. There is strong participation for celebratory events hosted on campus.	1. Traffic and lack of parking causes frustration for families when hosting campus-wide events.
2. We had strong participation from parent volunteers	2. For academic engagement events, we need to increase the frequency of opportunities for families to come.
3. Feedback received from parents was positive overall from events hosted in person.	3. We need to give more advanced notice for family engagement events to increase participation.

IDEA Public Schools

Judson College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in Social Studies
Top 25 Percent: Comparative Academic Growth

Board Approval Date: October 21, 2022
Public Presentation Date: September 7, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics

Demographics Summary

See Addendum for more information

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Consistent SEL implementation through restorative practices to improve campus culture **Root Cause:** I was not able to provide the resources and school age appropriate SEL curriculum/training for teachers

Problem Statement 2 (Prioritized): Lack of family support with restorative and SEL implementation at the campus level **Root Cause:** I did not execute consistent workshops to educate and provide families with appropriate tools for implementation

Student Learning

Student Learning Summary

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Failed to consistently track specific domain 3 data in core content subjects **Root Cause:** I did not hold leaders and teachers accountable to implement tools and resources needed to appropriately and consistently track domain 3 data.

Problem Statement 2 (Prioritized): Failed to Consistently provide ongoing support from content lead teachers to coach and support math teachers. **Root Cause:** I did not plan ahead to purchase the resources needed to provide aligned and rigorous curriculum

School Processes & Programs

School Processes & Programs Summary

See PDF Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): For the school year 21-22, new student persistence ended at 65%. **Root Cause:** I failed to provide consistent operating mechanism to ensure campus communication was streamlined.

Problem Statement 2 (Prioritized): For the school year 21-22, ADA ended at 96.5%. **Root Cause:** I failed to execute the ADA matrix consistently with grade team leads and lead team.

Perceptions

Perceptions Summary

Perceptions Strengths

See PDF Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Following the return of all students transitioning back to the building, we saw an increase in social emotional concerns and behavioral issues. **Root Cause:** I failed to provide the training and curriculum for teachers needed to execute consistent implementation and follow through for students throughout the year.

Problem Statement 2 (Prioritized): Failed to focus on consistent coaching to mastery for core content teachers. **Root Cause:** I did not provide the appropriate training for new leaders to effectively coach teachers to mastery.

Priority Problem Statements

Problem Statement 1: Failed to consistently track specific domain 3 data in core content subjects
Root Cause 1: I did not hold leaders and teachers accountable to implement tools and resources needed to appropriately and consistently track domain 3 data.
Problem Statement 1 Areas: Student Learning

Problem Statement 2: Consistent SEL implementation through restorative practices to improve campus culture
Root Cause 2: I was not able to provide the resources and school age appropriate SEL curriculum/training for teachers
Problem Statement 2 Areas: Demographics

Problem Statement 3: Lack of family support with restorative and SEL implementation at the campus level
Root Cause 3: I did not execute consistent workshops to educate and provide families with appropriate tools for implementation
Problem Statement 3 Areas: Demographics

Problem Statement 4: Failed to Consistently provide ongoing support from content lead teachers to coach and support math teachers.
Root Cause 4: I did not plan ahead to purchase the resources needed to provide aligned and rigorous curriculum
Problem Statement 4 Areas: Student Learning

Problem Statement 5: For the school year 21-22, new student persistence ended at 65%.
Root Cause 5: I failed to provide consistent operating mechanism to ensure campus communication was streamlined.
Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: For the school year 21-22, ADA ended at 96.5%.
Root Cause 6: I failed to execute the ADA matrix consistently with grade team leads and lead team.
Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Following the return of all students transitioning back to the building, we saw an increase in social emotional concerns and behavioral issues.
Root Cause 7: I failed to provide the training and curriculum for teachers needed to execute consistent implementation and follow through for students throughout the year.
Problem Statement 7 Areas: Perceptions

Problem Statement 8: Failed to focus on consistent coaching to mastery for core content teachers.
Root Cause 8: I did not provide the appropriate training for new leaders to effectively coach teachers to mastery.
Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Communications data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of instructional staff will be provided support and coaching on a weekly basis

High Priority

Evaluation Data Sources: Weekly action step tracker to be reviewed during our instructional coaching meetings
Utilize Teachboost to provide teacher feedback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly joint instructional rounds with all leaders for 6-8 and 9-12th grade. **Strategy's Expected Result/Impact:** During rounds we will be able to identify highest leverage action step. **Staff Responsible for Monitoring:** All instructional administrators. **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: 100% of resources and trainings targeted towards differentiated development for teacher improvement on TCP pathway.

Evaluation Data Sources: Utilize Teachboost to provide feedback
Teacher surveys following training and PD

Strategy 1: Identified resources and differentiated planning built for yearlong calendar to target development **Strategy's Expected Result/Impact:** Identify resources and trainings aligned to teacher growth and development on TCP pathway **Staff Responsible for Monitoring:** All instructional administrators **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of seniors are TSI exempt in Math and Reading by December 2022

High Priority

Evaluation Data Sources: TSI Senior math and reading tracker
TSI assessment

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement targeted TSI intervention groups for math and reading during RTTC and after school tutoring **Strategy's Expected Result/Impact:** Seniors participate in targeted TSI intervention groups to become exempt by December **Staff Responsible for Monitoring:** DCC, CCs, RTTC teachers, Math and Reading intervention teachers. **Title I:** 2.5, 2.6 **- TEA Priorities:** Connect high school to career and college				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: 100% of instructional and lead team members will implement daily exit ticket sorts to identify quality student work.

Evaluation Data Sources: Student work and exit ticket tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Conduct daily exit ticket sorts to identify misconceptions, lowest scored TEK, and targeted reteach plan for the following day. **Strategy's Expected Result/Impact:** Improve student data on a daily and weekly basis. **Staff Responsible for Monitoring:** Instructional staff and lead team members **Title I:** 2.4, 2.5, 2.6 - **TEA Priorities:** Build a foundation of reading and math				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: 100% of Sped students receive targeted intervention for reading and math

High Priority

Evaluation Data Sources: Domain 3 tracking data tracking for exams, assignments, and quizzes on a daily basis.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of instructional staff will track domain 3 data on a daily basis to identify priority students for intervention groups. **Strategy's Expected Result/Impact:** 70% of Special pops students approaches on STAAR for reading and math **Staff Responsible for Monitoring:** 100% Instructional staff and lead team members **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math **- Targeted Support Strategy - Additional Targeted Support Strategy**				

 No Progress Accomplished Continue/Modify Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: 100% of instructional staff will implement and update ADA matrix on a daily basis

High Priority

Evaluation Data Sources: ADA Matrix
Grade level Teams Chat

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Homeroom teachers in middle school and 1st period teachers in high school will complete ADA phone calls for students that are absent **Strategy's Expected Result/Impact:** Improve ADA each quarter by .10% **Staff Responsible for Monitoring:** 100% of instructional staff and lead team members **Title I:** 2.6				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 1: 100% of instructional staff will implement Anti-Bullying presentation by the end of quarter 2.

High Priority

Evaluation Data Sources: Workshop implementation tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of instructional staff will conduct Anti-Bullying coping mechanisms through Move this world curriculum and ruler methods during Homeroom. **Strategy's Expected Result/Impact:** Increase social emotional awareness and promote Anti-Bullying zone. **Staff Responsible for Monitoring:** All instructional staff and lead team members **Title I:** 2.5, 2.6 - **Targeted Support Strategy - Additional Targeted Support Strategy** **Funding Sources:** Brandi Shaler, School Counselor - Federal Grant - $66,040				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 2: 90% of scholars receive 900 MVPA minutes by end of school year

Evaluation Data Sources: Daily PE tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly benchmarks created to reach at least 50 MVPA minutes by the end of each week. **Strategy's Expected Result/Impact:** 50 MVPA minutes tracked for 90% of scholars on PE tracker every week **Staff Responsible for Monitoring:** Instructional staff **Title I:** 2.4				

 No Progress Accomplished Continue/Modify Discontinue

IDEA Public Schools

Kyle Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Board Approval Date: October 21, 2022
Public Presentation Date: August 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Addendums 16

Comprehensive Needs Assessment

Revised/Approved: September 9, 2022

Demographics

Demographics Summary

IDEA Kyle Academy is an open enrollment tuition-free charter school. We offer kinder through 5th-grade instruction.
IDEA Kyle offers Special Education in all grade levels and Critical Student Intervention for scholars in 3-5th grade who are two or more years behind in reading.

See the addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Inconsistent communication between Teachers and Parents **Root Cause:** No accountability for teachers to communicate with parents.

Problem Statement 2 (Prioritized): Inconsistent ADA Matrix follow through. **Root Cause:** No accountability/ tracking system for following through.

Student Learning

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Students did not meet growth goals in Math **Root Cause:** Tracking started in April

Problem Statement 2 (Prioritized): EL students had little to no growth in TELPAS **Root Cause:** Teachers did not receive appropriate training around EL scholars.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Teachers were not recognized or celebrated when students made accomplishments. **Root Cause:** We did not prioritize teacher celebrations

Problem Statement 2 (Prioritized): Teachers were not invested in big goals **Root Cause:** Leadership team did not properly track teacher goals

Priority Problem Statements

Problem Statement 1: Inconsistent communication between Teachers and Parents
Root Cause 1: No accountability for teachers to communicate with parents.
Problem Statement 1 Areas: Demographics

Problem Statement 2: Inconsistent ADA Matrix follow through.
Root Cause 2: No accountability/ tracking system for following through.
Problem Statement 2 Areas: Demographics

Problem Statement 3: Students did not meet growth goals in Math
Root Cause 3: Tracking started in April
Problem Statement 3 Areas: Student Learning

Problem Statement 4: EL students had little to no growth in TELPAS
Root Cause 4: Teachers did not receive appropriate training around EL scholars.
Problem Statement 4 Areas: Student Learning

Problem Statement 5: Teachers were not recognized or celebrated when students made accomplishments.
Root Cause 5: We did not prioritize teacher celebrations
Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Teachers were not invested in big goals
Root Cause 6: Leadership team did not properly track teacher goals
Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: We didn't have events for our families to feel part of our school
Root Cause 7: We lacked IN PERSON events.
Problem Statement 7 Areas: Perceptions

Problem Statement 8: Our families did not feel connected to our school
Root Cause 8: Lack of positive communication from teachers and leaders
Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Goals

Goal 1: Increase staff retention

Performance Objective 1: Provide teachers times where teachers can meet with me if they need to.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Celebrate staff and create a culture of joy.				
No Progress Accomplished Continue/Modify Discontinue				

Goal 2: 100% Student enrollment on FDOS

Performance Objective 1: Coach and develop my APO around recruitment.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Have weekly check-ins with APO to go over our numbers.				

  No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: 90/60/30 in 3rd grade ELA and Math

HB3 Goal

Strategy 1 Details	Reviews

Reflections	
Areas of Strength	**Areas of Need**
1 Student Engagement of Lesson Content; teachers cerated hands on activities for student learning.	1. Lessons must be aligned to the TEKs and vertically aligned to 5th grade.
2. Teacher created science club where students did science activities througout the semester.	2. Teachers must be providing additional rigorus practice as obly 50% of students were on grade level for 1st, 2nd, and 3rd grade.
3. Teacher celebrated science masters on EOY awards.	3 Small Groups of Instruction to close gaps did not occur during the school year.

Reflections	
Areas of Strength	**Areas of Need**
1 Have materials and resources available to support instruction.	1 Increase observations, coaching, and feedback needed to support teachers.
2 Students provided multiple opportunities to internalize content through partner work, projects, and other tasks.	2 Increase the level of questioning and critical thinking skills based on Blooms.
3 Teachers effectively internalized lesson plans during course collaborations.	3 Implement more strategies for ELs and Sped students to ensure all students are learning content.

Reflection	
Areas of Strength	**Areas of Need**
1. Our lead Sped teachers reurned this yr, this will allow for strong consistency in student support.	1. Due to inconsistent communication, teachers left the organization. We must improve our communication skills.
2. 100% of campus support are continuing with our campus next school year.	2. Many teachers included on their exit survey that they had left due to school culture. We must create an environment that has high expectations but also sees teachers as people first, then educators
3. 4/4 teachers that were hired from January remainded with us into the next school year. This means that the teachers that we onboarded since our start time, remaind with us	3. Investing teachers in big goals as well as celebrating them for their accomplishments.

IDEA Public Schools

Kyle College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in Mathematics
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

IDEA Kyle College Prep is a diverse school of approximately 510 scholars of many ethnicities, nationalities, religions, and orientations. The greater Kyle community is an economically diverse area, with multi-million homes adjacent to homes a fraction of the value. IDEA Kyle College Prep families include approximately 5 different home languages. Our staff is representative of our student population, including Hispanic, Caucasion, Middle-Eastern, and Black staff members. The campus focuses heavily on core instruction in middle school with the goal of moving all scholars to grade level or above in reading and mathematics by 8th grade, when students begin career-tech ed courses and other student-centered electives. Campus life offers a variety of clubs and athletics to ensure all scholars find their passion and an adult champion on campus. (See PDF in addendum for more information.)

Demographics Strengths

(See PDF in Addendum for more information.)

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): 33% of EL writing scores are beginning or intermediate **Root Cause:** Writing supports for EL students focusing on grammatical structure and academic vocab and spelling/staar writing support

Problem Statement 2 (Prioritized): ECODIS percentage decreasing **Root Cause:** Recruitment focusing on proximity

Student Learning

Student Learning Summary

IDEA Kyle CP earned an 84 on the State of Texas Accountability Report Card, while last year's rating was an A internally. Math was our biggest opportunity for growth this year, both on local and state assessments. SpEd scholars lagged behind their peers on the state assessments. (See PDF in Addendum for more information.)

Student Learning Strengths

(See PDF in Addendum for more information.)

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Campus math scores too low. **Root Cause:** Teachers not coached tightly.

Problem Statement 2 (Prioritized): SpEd achievement scores lowest demographic. **Root Cause:** SpEd teachers did not provide support that increased learning outcomes.

School Processes & Programs

School Processes & Programs Summary

IDEA Kyle College Prep has strong coaching systems in place. With a predominantly new team of teachers for the 22-23 school year, our instructional leadership team is observing teachers, providing real-time coaching, and monitoring action steps daily. High leverage lesson plan feedback is provided every week, and teacher are held accountable for turning around feedback by Friday. Weekly check ins with new teachers include pedagogy, data analysis, lesson plans, and culture building. Expecations, due dates, deliverables, and time lines are clear. (See PDF in Addendum for more information.)

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year

- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

(See PDF in addendum for more information.)

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): ADA approximately 10% below goal **Root Cause:** ADA call process not followed to fidelity

Problem Statement 2 (Prioritized): Student persistence 87% **Root Cause:** Low family engagement both in proactive communication and events.

Perceptions

Perceptions Summary

Staff retention was 56% in the 21-22 school year. Between a new lead team, health and safety concerns, and staff moving out of state due to cost of living, Kyle CP staff retention was its lowest. Staff ADA was also extremely low. Teachers tested positive for COVID at high rates, and substitute teacher vacancy fill rate was 24%, requiring present staff members to cover classes during their planning period. This caused a high burnout rate for teachers. Constant staff feedback surveys were offered. Most feedback involved "too much work...not enough time to get it all done." Teachers onboarded mid-year were required to be ready to teach immediately. Seven of eight STAAR tested subjects were taught by first-year teachers hired in January or later. At MOCK exams, Kyle CP was a projected D rated school with a 64; Kyle College Prep ended the school year with 84% (B).

Perceptions Strengths

"See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): High teacher turnover **Root Cause:** Teachers cited staff culture and work expectations/work-life balance as reasons for leaving.

Problem Statement 2 (Prioritized): The school does not partner with parents **Root Cause:** Inconsistent home communication

Priority Problem Statements

Problem Statement 1: 33% of EL writing scores are beginning or intermediate

IDEA Public Schools

La Joya Academy

2022-2023 Campus Improvement Plan

Accountability Rating: Not Rated

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Campus Pillars

I. Excellence: Be implacable with your work every day, always do your best and implement lessons learned from your setback and wins.

II. Empathy: Be committed to listening, be aware of your environment, respect everyone's beliefs and never judge.

III. Resiliency: Be committed to always push against adversity and don't allow any situation or problem hold you back from impacting your life and community.

Vision

VISION

At IDEA La Joya, we are committed to academically prepare scholars for college, and develop them to become productive, responsible, and compassionate

citizens. Every student's future will be cultivated by having high expectations for all stakeholders, and forge a strong trust relationship between teachers, parents, students and leaders to guarantee a successful path to and through college.

Former President Barack Obama said the best antipoverty program around is a world class education. Statistics show that only 22% of students in the Rio Grande Valley graduate from college. Statistics also show that only 85% of students graduate from High School in the La Joya area with only 22% of them graduating with a college degree. For the past 15 years, IDEA Public Schools has kept its promise of sending 100% of students to college with a 4 year degree graduation rate of 50%. These rates are significantly above the Rio Grande Valley and the Nation. At IDEA we are united by our shared belief that a College degree is our nation's best antipoverty solution, indeed, we believe in and have become witness to the power of education to transform lives and communities.

As the campus principal I know to be true that if the adults in the system get it right, students win. I have experienced how building nurturing relationships with students leads to confidence in them and how that can transform into a world of possibilities for our students. I believe that background does not equal destiny and that STRONGER TOGETHER, we can be the change our student need.

SCHOOL MOTTO

"Las Jabalinas unidas hasta terminar la universidad. Javelinas united to and through college."

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

IDEA La Joya Academy is currently a year 2 campus. We opened our doors to the community on August 2021. We currently offer grades Kinder, 1st, 2nd and 3rd grade, serving a total of **379 students**. We currently have a total of 16 K-3rd grade teachers, 7 K-2nd co-teachers, 3 special education teachers, 5 support staff members and 2 reading intervention teachers. Our campus consists of 7 leadership team members including 1 principal, 3 assistant principals, 1 school counselor, 1 testing coordinator and 1 administrative asssistance. We have a total of **40 instructional staff** members. We serve the community of L**a Joya TX, Penitas, Mission, Sullivan and La Grulla.**

Our student demographics consits of **98% Hispanics and 2% White.** 54% of our student population are males and 45% females. **Our daily average attendance for the 2021-2022 school year was at a 90%**. Our campus had 0 administrative withdraws and 0 out of school suspensions. Our special program population conists of **9% special education students, 94% economically disadvantage students and 45% Emergent Bilingual students.** Our overall student persistance for the 21-22 school year was at a 90% and teacher retention ended at a 94%. Our teacher to student ratios are 25:1 in 1st to 3rd grade and 10:1 in Kindergarden.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to increase parent communication specifically regarding student progress to increase parent accountability towards students daily attendance. **Root Cause:** 1. Lack of planning academic progress meetings for all parents. 2. Lack of follow ups in teacher/parent contact logs.

Problem Statement 2 (Prioritized): There is a need to focus on student morning meetings routines to increase joy and social emotional well being for 100% of students. **Root Cause:** 1. Lack of a minute by minute campus wide routine with set expectations on what should take place from 7:25-8:00 am. 2. Lack of follow ups and feedback during morning meeting routines to ensure the following are being nurtured: a. student joy b. parent ADA communication c. Social Emotional lessons

Student Learning

Student Learning Summary

This school year we bagan with 13% of students on level in Reading and ended the year at **81% of students on level**. We were able to **grow a total of +68% on students reading levels.** In end of year blind assessments in grades K-2nd, we were able to average a **92/74/55 with an achievement score of a 74** putting our campus on the top 3 schools in the RGV on student academic achievement as per district bling assessments. 7**4% of our Emergent Bilingual students showed growth** or scored Advanced High in TELPAS state assessment. **100% of our Special Education students** met IEP goals and we were able to surpass our mainstream goal as per district guidelines. Our SPED students were also able to surpass the 25+ achievent score in end of year assessments.

Our campus did not get scored on any accountability domain ratings by the state as we did not serviced 3rd grade students this past year.

See PDF in Addendum for more information

Student Learning Strengths

See PDF in Addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The percent of our 1st grade students reading on level is significantly lower than any other grade level. **Root Cause:** 1.Instruction to student and teacher gaps was not corrected immediately as learning gaps were taking place because we did not prioritize analyzing specific student and teacher gaps earlier in the school year. 2. Student independent centers were not aligned to student learning instructional gaps.

Problem Statement 2 (Prioritized): 52% of Emergent Bilingual students are at the Beginning level in Writing as per TELPAS reports. **Root Cause:** 1. Writing instruction was not prioritized as per our instructional plans because we did not have an inclusive Writing curriculum for students in K-2nd.

School Processes & Programs

School Processes & Programs Summary

Every campus instructional leader is developed following an individualized scope and sequence based on year of experience in the role and previous year proficiency ratings in our School Leadership Levers. Instructional leaders receive formal coaching on a weekly basis and work on the field is done together during campus mechanisms such as joined instructional rounds. Roles and responsibilities for each leader are established at the beginning of the year through a campus long year roadmap.

Professional development is established in a campus specific scope and sequence that is designed to address campus priorities established through our data points.

A weekly coaching cycle mechanism is established with 100% of teachers to ensure teacher receive coaching in the areas of lesson planning, instructional delivery, monitoring student learning and disecting student data. Coaching frequency is determined by student outcomes. Aside from frequence coaching interactions, teachers are coached on the spot as well though follow up weekly classroom rounds.

The programs that are established at our campus to support learning, a safe environment and highe expecations are: Reading intervention programs, Accelerated Reader elective program, Hot Spot Math Elective labs, Physical Education, Move this World Social Emotional program, campus wide culture rubric focused on student joy, culture of achievement and high expecations.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Our staff retention strategy is not comprehensive as has caused our campus to meet teacher retention targets but not co-teacher retention. **Root Cause:** 1. Staff work life balanced has not been prioritized to ensure staff stay in the same role. 2. Teachers & co-teachers have instructional, operational, social and other tasks that are added to their work load. This unrealistic to do lists does not allow our staff to fully enjoy their roles and plan to stay in their roles for a long time. The time invested at work is unsustainable.

Problem Statement 2 (Prioritized): Co-teacher retention ratio is significantly lower than teacher retention ratios. **Root Cause:** 1. Co-teachers did not have enough planning time to execute coaching expectations. 2. Co-teacher salary is significantly lower than teachers yet the lesson planning responsibilities and expectations are has high for co-teachers than

teachers. 3. Strong developmental plans that allow co-teachers to see their future goals attainable have not been clear towards co-teachers.

Perceptions

Perceptions Summary

Our overall staff retention rate for the 2021-2022 school year ended at 81%. Our teacher retention rate ended at 94%. Our co-teacher retention rate has been significantly higher than our teacher turn over rate. Our staff member's average absences for the school year is 3 absences. Survey results have indicated that our staff feels valued and appreciates the development provided by all instructional coaches. 93% of our staff members have agreed that IDEA La Joya Academy is a great place to work. Our lowest scored statement in our official campus survey was maintaining a work life balance at a 70%.

Our campus event participation has been significantly low for most parent events. 1/4 of our parents participate in cofee with principal events and parent professional development opportunities. High participation rates have occurred with events such as Winter Fesitval and EOY Awards Ceremonies. A main barrier on parent involvement in campus events is transportation, immigration status and working parents.

See PDF in Addendum for more information

Perceptions Strengths

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Less than 30% of families attended WTI or student progress meetings. **Root Cause:** 1. Campus did not planned and scheduled curriculum nights that aligned to student progress meetings. 2. Campus did not plan to align our campus curriculum nights and student progress nights to parent wants such as a student performance or family fun time.

Problem Statement 2 (Prioritized): Families that do not attend campus wide family and community involvement events are families with a high social economic need. **Root Cause:** 1. Our families are in need of transportation to get to campus for community campus events. 2. We have not invested our parents in our campus culture of high achievement by stamping clear expectations.

Priority Problem Statements

Problem Statement 1: There is a need to increase parent communication specifically regarding student progress to increase parent accountability towards students daily attendance.

Root Cause 1: 1. Lack of planning academic progress meetings for all parents. 2. Lack of follow ups in teacher/parent contact logs.

Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a need to focus on student morning meetings routines to increase joy and social emotional well being for 100% of students.

Root Cause 2: 1. Lack of a minute by minute campus wide routine with set expectations on what should take place from 7:25-8:00 am. 2. Lack of follow ups and feedback during morning meeting routines to ensure the following are being nurtured: a. student joy b. parent ADA communication c. Social Emotional lessons

Problem Statement 2 Areas: Demographics

Problem Statement 3: The percent of our 1st grade students reading on level is significantly lower than any other grade level.

Root Cause 3: 1.Instruction to student and teacher gaps was not corrected immediately as learning gaps were taking place because we did not prioritize analyzing specific student and teacher gaps earlier in the school year. 2. Student independent centers were not aligned to student learning instructional gaps.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: 52% of Emergent Bilingual students are at the Beginning level in Writing as per TELPAS reports.

Root Cause 4: 1. Writing instruction was not prioritized as per our instructional plans because we did not have an inclusive Writing curriculum for students in K-2nd.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Our staff retention strategy is not comprehensive as has caused our campus to meet teacher retention targets but not co-teacher retention.

Root Cause 5: 1. Staff work life balanced has not been prioritized to ensure staff stay in the same role. 2. Teachers & co-teachers have instructional, operational, social and other tasks that are added to their work load. This unrealistic to do lists does not allow our staff to fully enjoy their roles and plan to stay in their roles for a long time. The time invested at work is unsustainable.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Co-teacher retention ratio is significantly lower than teacher retention ratios.

Root Cause 6: 1. Co-teachers did not have enough planning time to execute coaching expectations. 2. Co-teacher salary is significantly lower than teachers yet the lesson planning responsibilities and expectations are has high for co-teachers than teachers. 3. Strong developmental plans that allow co-teachers to see their future goals attainable have not been clear towards co-teachers.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Less than 30% of families attended WTI or student progress meetings.

Root Cause 7: 1. Campus did not planned and scheduled curriculum nights that aligned to student progress meetings. 2. Campus did not plan to align our campus curriculum nights and student progress nights to parent wants such as a student performance or family fun time.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Families that do not attend campus wide family and community involvement events are families with a high social economic need.

Root Cause 8: 1. Our families are in need of transportation to get to campus for community campus events. 2. We have not invested our parents in our campus culture of high achievement by stamping clear expectations.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback

	Oct	Jan	Mar	June
Strategy 1: 80% of time will be spend on the field recruiting from September to February. Weekly benchmark goals will be tracked using campus backwards plan data tracker. If benchmark is not met for the week, plan will be modified to meet weekly target. **Strategy's Expected Result/Impact:** 2:1 applications per vacant seat. Kinder: 240 1st-3rd: 200 applications **Staff Responsible for Monitoring:** Diego Zavala **Problem Statements:** Perceptions 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Perceptions
Problem Statement 2: Families that do not attend campus wide family and community involvement events are families with a high social economic need. **Root Cause**: 1. Our families are in need of transportation to get to campus for community campus events. 2. We have not invested our parents in our campus culture of high achievement by stamping clear expectations.

Goal 3: IDEA achieves an A rating

Performance Objective 1: By June 2023 IDEA La Joya Academy will be an A rated campus as measured by STAAR assessment. 3rd Grade Math & Reading will achieve a 54 Student Achievement Score in Domain 1. 3rd Grade Math & Reading will achieve meet 100% of Domain 3 targets.

High Priority

HB3 Goal

Evaluation Data Sources: STAAR 2023

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Every teacher, leader and students will track towards Path to an A: a. Leader: Weekly Leader Board & Path to an A Tracker for UE. b. Teacher: Subpop Daily ET Tracker & Daily ET Class Mastery & Path to an A Tracker for TQ & UE. C. Students: Daily ET Tracking / Daily TEKS based tracking / Path to an A tracking for TQ & UE **Strategy's Expected Result/Impact:** A rated campus through a 54 Achievement Score for Domain 1 **Staff Responsible for Monitoring:** Belinda Gonzales Marisol Schultz **Title I:** 2.4, 2.6 **- TEA Priorities:** Improve low-performing schools **Problem Statements:** Student Learning 1, 2				

Strategy 2 Details	Reviews

	Oct	Jan	Mar	June
Strategy 2: Every teacher and leader will engage in a "Know your Data" BOY professional development session to backwards plan towards 90/60/30. **Strategy's Expected Result/Impact:** A rated campus through a 54 Achievement Score for Domain 1 and Domain 3 **Staff Responsible for Monitoring:** Belinda Gonzales Marisol Schultz **Title I:** 2.4 **- TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools **Problem Statements:** Student Learning 1, 2				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Every 2nd grade teacher will supplement Eureka & WW with STAAR Ready foundational skills during a 45 minute intervention block. **Strategy's Expected Result/Impact:** A rated campus through a 54 Achievement Score for Domain 1 **Staff Responsible for Monitoring:** Denney Trevino **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **Problem Statements:** Student Learning 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: The percent of our 1st grade students reading on level is significantly lower than any other grade level. **Root Cause**: 1.Instruction to student and teacher gaps was not corrected immediately as learning gaps were taking place because we did not prioritize analyzing specific student and teacher gaps earlier in the school year. 2. Student independent centers were not aligned to student learning instructional gaps.
Problem Statement 2: 52% of Emergent Bilingual students are at the Beginning level in Writing as per TELPAS reports. **Root Cause**: 1. Writing instruction was not prioritized as per our instructional plans because we did not have an inclusive Writing curriculum for students in K-2nd.

Goal 3: IDEA achieves an A rating

Performance Objective 2: By May 2023 60% of SPED students will reach an Approaches Level and 23% of SPED students will reach a Meets Level as measured by STAAR

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

District: To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

School:

At IDEA La Joya, we are committed to academically prepare scholars for college, and develop them to become productive, responsible, and compassionate citizens. Every student's future will be cultivated by having high expectations for all stakeholders, and forge a strong trust relationship between teachers, parents, students and leaders to guarantee a successful path to and through college.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

School Pillars:

Excellence *(Exelencia)*: Be implacable with your work every day, always do your best and implement lessons learned from your setback and wins.

Empathy *(Empatia):* **Be committed to listening, be aware of your environment, respect everyone's beliefs and never judge**.

Resiliency *(Fortaleza)***: Be committed to always push against adversity and don't allow any situation or problem hold you back from impacting your life and community.**

% Black-African-American	0
% Native-Hawaiian-Pacific-Islander	0
% White	0
% Male	46%
% Female	54%

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): The campus reached a 91.94% attendance below the goal of a 97% attendance. **Root Cause:** Lack of implementing the attendance matrix.

Problem Statement 2 (Prioritized): The campus persistence was not on track during the year, reaching a 94% before summer break and ending with a persistence of 88% below the goal by 2% points. **Root Cause:** Lack of creating a culture of joy and high expectations for students.

Student Learning

Student Learning Summary

Below is the data for ELA STAAR reuslts annd RENSTAR exam (internal lexile exam):

% Meeting CSI Goal	Reading CP CSI
% CSI (EOY Ren.)	56%
% of CSI Passing STAAR	42%
% of SPED Passing STAAR	72%

	STAAR Reading 6th
% Approaches	65%
% Meets	31%
% Masters	16%
% Student Achievement Average	37%

Consequnetly, below is the data for STAAR math results:

	STAAR Math 6th
% Approaches	71%
% Meets	36%
% Masters	13%
% Student Achievement Average	40

Further, here are the results from our internal end of year exams for science and world cultures:

	6th Grade EOY Assessment
% Passing	92%

	6th Grade EOY Assessment
% Passing	60%

Moreover, below are the results of the TELPAS exam:

TELPAS Composite Rating (Listening, Speaking, Reading, Writing)

	Listening	Speaking	Reading	Writing	% of ELL Students who grew one or more levels
% Beginning	6%	4%	10%	8%	
% Intermediate	29%	44%	40%	37%	
% Advanced	30%	48%	35%	38%	25%
% Advanced High	35%	4%	15%	17%	

Overall preliminary accountability data for the different domains:

Domain 1 (53)	Reading	Math	SAS	Letter Grade
Score	65|31|16 (37)	71|35|11 (39)	38	71 (C)

Domain 1 (53)	Reading	Math	SAS	Letter Grade
Doamin 2	Reading Met Growth	Math Met Growth	Score	Letter Grade
Score	75% (21/28)	92% (58/63)	86	94 (A)
Doamin 2 RP (48%)	SAS	% Eco Dis.		Letter Grade
Score	38	95%		82 (B)

	Academic Achievement: 30% (MEETS above)						10% TELPAS					10% Student Ach.

MATH	35%	35%	36%	55%	32%	36%						

Student Learning Strengths

Now we will review the stregth of each section above. Lets begin with English language arts STAAR strengths:

Areas of Strength

1 We met the AR goal by motivating kiddos, providing PTG weekly and providing incentives for meeting goal.

2 ELA growth from Mock to STAAR evident by more than 32% points.

3 75% of students met their reading growth goal.

Consequently, here are the strength for math STAAR:

Areas of Strength

1. Growth met from student was at a 92% and passing growth from mock to STAAR was 53% points.

2. Trackng growth and mastery of TEKS on a daily basis.

3 Math teachers were proficient at delivery and aggressive monitoring.

Moreover, here are the strength for science and world cultures end of year exam:

Areas of Strength: Science

1 Create strong annotation system for students.

2 Students recevied various checkpoints during the lessons.

Areas of Strength: World Cultures

1 Students practice the content and read over the content daily.

2 Teacher reviewed content using various delivery forms.

3. Teacher created cornell notes for students to annotate as she lecture in class.

Finally, here are the strengths for TELPAS results:

Areas of Strength

1 Implemented summit k-12 to support all EB students.

2 Provided EB student with reading intervention, such as decoding and DISE.

3 Provided EB students with graphic organizers and EB accommodations.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Campus lesson progress was below the goal of 4 lessons a week, ending with an average of 3 lessons per week. **Root Cause:** Lack of fidelity to the DI program and provide opportunities for students to master lessons.

Problem Statement 2 (Prioritized): Students weren't push to have reading and writing rigor in every content area. **Root Cause:** Increase the reading and writing rigor in all classes by implementing cross content reading and writing strategies during the year.

Problem Statement 3 (Prioritized): Alignment of the curriculum to TEKs to provide students to master a skill on a daily basis. **Root Cause:** Provide students with TEK aligned curriculum opportunities on a daily basis. Students will struggle with exam format; therefore, we must provide similar new format.

Problem Statement 4 (Prioritized): Start with basic math reteach during academic block starting in August. **Root Cause:** We didn't address math gaps early in the year. We must push for students to gain or master basic math content.

Problem Statement 5 (Prioritized): Didn't provide many experimental opportunities for students hands-on. **Root Cause:** We didn't provide hands on opportunity for student to comprehend science content.

Problem Statement 6 (Prioritized): Provide more practice time for students to master content. **Root Cause:** Teachers are using more of the time to lecture and missing time for students to practice science content. Therefore, they don't have fidelity to the time stamps of practice.

Problem Statement 7 (Prioritized): Monitor summit k-12 program with fidelity and provide feedback to teachers on implementation. **Root Cause:** We implemented the Summit k-12 program but lack to monitor progress of students by teacher and students.

Problem Statement 8 (Prioritized): Lack the implementation of literacy skills, such as think-write-discuss and accountable talk. **Root Cause:** Students lacked reading abilities; therefore, we prioritize reading strategies but must implement writing and speaking techniques.

Problem Statement 9 (Prioritized): Students need more primary and secondary source reading and annotations. **Root Cause:** Students had a lot of guided reading instruction; however, they need to be push to be doing the reading on a daily basis.

School Processes & Programs

School Processes & Programs Summary

Programs offered in the school are:

1. Math-We use the district math curriculum and supplement with All things math

2. English- We use wit and wisdom. We also provide small group support using I-Ready.

3. Math enrichment-Dreabox

4. AR program for reading comprehension and fluecy

5. Move this world for social emotional

6. Measuirng up and Forde-Ferrier -for TEK practice

7. Direct Instruction for reading intervention

8. Rosetta Stone, Direct instruction for Spanish

9. Science and English-We used district curriculum

We provide professinal development for our staff on a weekly basis. See our calendar below:

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can

provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Students scored a 60% passing on the STAAR reading exam. **Root Cause:** Master schedule is missing a time for students to receive a reading and writing intervention.

Problem Statement 2 (Prioritized): Teacher struggle with lesson planning. **Root Cause:** Teachers had a planning until the EOD. Therefore, making it hard for them to plan after going all day teaching.

Problem Statement 3: Students didn't experience all year a TEK based curriculum. **Root Cause:** Lack of TEK resources to provide intervention to students in math and reading.

Perceptions

Perceptions Summary

Here is the summary of our IDEA La Joya College prep adult and student culture:

Comprehensive Needs Assessment

College Prep

Number of teacher applicants per 2020-21 school year	35

Great places to work survey for staff: 92% of staff said IDEA La Joya College Prep was a great place to work.

Perceptions Strengths

Below are the strengths for each seciton of our student and adult climate and culture:

Areas of Strength

1. We had afterschool programs for all students.

2 We had a strong culture of achievement and strong whole wide procedures.

3 We offered monthly events for families and parents to build school culture and relationship with our families.

Moreover, here is the strengths for family and community culture:

Areas of Strength

1 We hosted monthly events for parents from fall festival to coffee with the principal.

2 Promotion of events was send in various forms, such as remind, facebook and student flyer.

3 We had teacher invesment on supporting with the event and build relationship with parents.

Finally, here are several strengths for the seciton of staff culture:

Areas of Strength

1. Building trust with relationships and coaching teachers with fidelity every week.

2. Provide all the resources needed for the teacher, including modeling and co-planning.

3 Have listening tours every quarter to capture feedback for the school.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): An area of growth is to increase parent attendance to events by HR calling each family. **Root Cause:** Teachers would send mass message via remind; however, several of our parents don't remind install or signal is poor in our community. Therefore, owning the invitation by calling will allow for us to reach more parents.

Problem Statement 2 (Prioritized): We need to increase the amount of promotional time of the event. **Root Cause:** We didn't promote events for a long time on social media and on all the forms of communication with students and families.

Problem Statement 3 (Prioritized): Have surveys for parents and students and ask if they liked the event and how we can make them better. **Root Cause:** Lack of survey on what we did good and what we can change for the next event.

Problem Statement 4 (Prioritized): We need to improve our parent communication by using a parent communication log. **Root Cause:** We didn't have a parent communication log to document all our parent outreach/support.

Problem Statement 5 (Prioritized): We need to train all teachers on how to handle all types of behavior and de-escalation. **Root Cause:** We didn't monitor during culture rounds if teachers could de-escalate situations and retrain if needed or provided clinics to address situation.

Problem Statement 6 (Prioritized): Celebrate the success of the team on a weekly basis in the teacher weekly and during staff PDs. **Root Cause:** Lack of celebrating the teachers during PD and teacher weekly.

Problem Statement 7 (Prioritized): Access the trust level of each lead team member by using a trust survey. **Root Cause:** We didn't have a trust survey for staff at various points of the week to determine what we need to change.

Problem Statement 8 (Prioritized): Student ADA was below than normal. IDEA schools typically end at a 97.5%. However, this year we landed at a 91%. **Root Cause:** Various students were out due to COVID infection and we didn't have solid ADA procedures.

Problem Statement 9 (Prioritized): We ended that year at a 94% persistence and begin the year at a 88% persistence. Missing the goal by 2 percent points. **Root Cause:** Lack a robust afterschool program and building Javelina pride on campus.

Priority Problem Statements

Problem Statement 1: An area of growth is to increase parent attendance to events by HR calling each family.

Root Cause 1: Teachers would send mass message via remind; however, several of our parents don't remind install or signal is poor in our community. Therefore, owning the invitation by calling will allow for us to reach more parents.

Problem Statement 1 Areas: Perceptions

Problem Statement 2: We need to increase the amount of promotional time of the event.

Root Cause 2: We didn't promote events for a long time on social media and on all the forms of communication with students and families.

Problem Statement 2 Areas: Perceptions

Problem Statement 3: We need to improve our parent communication by using a parent communication log.

Root Cause 3: We didn't have a parent communication log to document all our parent outreach/support.

Problem Statement 3 Areas: Perceptions

Problem Statement 4: Have surveys for parents and students and ask if they liked the event and how we can make them better.

Root Cause 4: Lack of survey on what we did good and what we can change for the next event.

Problem Statement 4 Areas: Perceptions

Problem Statement 5: Celebrate the success of the team on a weekly basis in the teacher weekly and during staff PDs.

Root Cause 5: Lack of celebrating the teachers during PD and teacher weekly.

Problem Statement 5 Areas: Perceptions

Problem Statement 6: We need to train all teachers on how to handle all types of behavior and de-escalation.

Root Cause 6: We didn't monitor during culture rounds if teachers could de-escalate situations and retrain if needed or provided clinics to address situation.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: Access the trust level of each lead team member by using a trust survey.

Root Cause 7: We didn't have a trust survey for staff at various points of the week to determine what we need to change.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Student ADA was below than normal. IDEA schools typically end at a 97.5%. However, this year we landed at a 91%.

Root Cause 8: Various students were out due to COVID infection and we didn't have solid ADA procedures.

Problem Statement 8 Areas: Perceptions

Problem Statement 9: We ended that year at a 94% persistence and begin the year at a 88% persistence. Missing the goal by 2 percent points.

Root Cause 9: Lack a robust afterschool program and building Javelina pride on campus.

Problem Statement 9 Areas: Perceptions

Problem Statement 10: Students need more primary and secondary source reading and annotations.

Root Cause 10: Students had a lot of guided reading instruction; however, they need to be push to be doing the reading on a daily basis.

Problem Statement 10 Areas: Student Learning

Problem Statement 11: Lack the implementation of literacy skills, such as think-write-discuss and accountable talk.

Root Cause 11: Students lacked reading abilities; therefore, we prioritize reading strategies but must implement writing and speaking techniques.

Problem Statement 11 Areas: Student Learning

Problem Statement 12: Monitor summit k-12 program with fidelity and provide feedback to teachers on implementation.

Root Cause 12: We implemented the Summit k-12 program but lack to monitor progress of students by teacher and students.

Problem Statement 12 Areas: Student Learning

Problem Statement 13: Provide more practice time for students to master content.

Root Cause 13: Teachers are using more of the time to lecture and missing time for students to practice science content. Therefore, they don't have fidelity to the time stamps of practice.

Problem Statement 13 Areas: Student Learning

Problem Statement 14: Didn't provide many experimental opportunities for students hands-on.

Root Cause 14: We didn't provide hands on opportunity for student to comprehend science content.

Problem Statement 14 Areas: Student Learning

Problem Statement 15: Start with basic math reteach during academic block starting in August.

Root Cause 15: We didn't address math gaps early in the year. We must push for students to gain or master basic math content.

Problem Statement 15 Areas: Student Learning

Problem Statement 16: Alignment of the curriculum to TEKs to provide students to master a skill on a daily basis.

Root Cause 16: Provide students with TEK aligned curriculum opportunities on a daily basis. Students will struggle with exam format; therefore, we must provide similar new format.

Problem Statement 16 Areas: Student Learning

Problem Statement 17: Students weren't push to have reading and writing rigor in every content area.
Root Cause 17: Increase the reading and writing rigor in all classes by implementing cross content reading and writing strategies during the year.
Problem Statement 17 Areas: Student Learning

Problem Statement 18: Campus lesson progress was below the goal of 4 lessons a week, ending with an average of 3 lessons per week.
Root Cause 18: Lack of fidelity to the DI program and provide opportunities for students to master lessons.
Problem Statement 18 Areas: Student Learning

Problem Statement 19: Teacher struggle with lesson planning.
Root Cause 19: Teachers had a planning until the EOD. Therefore, making it hard for them to plan after going all day teaching.
Problem Statement 19 Areas: School Processes & Programs

Problem Statement 20: Students scored a 60% passing on the STAAR reading exam.
Root Cause 20: Master schedule is missing a time for students to receive a reading and writing intervention.
Problem Statement 20 Areas: School Processes & Programs

Problem Statement 21: The campus persistence was not on track during the year, reaching a 94% before summer break and ending with a persistence of 88% below the goal by 2% points.
Root Cause 21: Lack of creating a culture of joy and high expectations for students.
Problem Statement 21 Areas: Demographics

Problem Statement 22: The campus reached a 91.94% attendance below the goal of a 97% attendance.
Root Cause 22: Lack of implementing the attendance matrix.
Problem Statement 22 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student Success Initiative (SSI) data for Grades 5 and 8
- Local diagnostic reading assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Class size averages by grade and subject

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Communications data

Goals

Goal 1: Increase staff retention

Performance Objective 1: Retain 85% of our teacher and staff at IDEA La Joya College Prep for the 22-23 academic year.

Evaluation Data Sources: Quarter teacher retention.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Listening tours every quarter to capture teacher/staff needs and create an action plan. **Strategy's Expected Result/Impact:** Teacher feel heard **Staff Responsible for Monitoring:** Principal, API, and Counselor **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** Perceptions 7	100%	80%	80%	

Strategy 2 Details	Reviews

	Oct	Jan	Mar	June
Strategy 2: Celebrate teachers via PD, Teacher career Pathway, and team and family celebrations and events. **Strategy's Expected Result/Impact:** Retain all teachers and they feel appreciated **Staff Responsible for Monitoring:** Principal, API, APO, and Counselor **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** Perceptions 6	50%			

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 6: Celebrate the success of the team on a weekly basis in the teacher weekly and during staff PDs. **Root Cause**: Lack of celebrating the teachers during PD and teacher weekly.
Problem Statement 7: Access the trust level of each lead team member by using a trust survey. **Root Cause**: We didn't have a trust survey for staff at various points of the week to determine what we need to change.

Goal 2: IDEA will achieve full enrollment

Performance Objective 1: IDEA La Joya will be 100% enrolled by the 11 day of school

High Priority

Evaluation Data Sources: Receive 100% of applications needed by February, Complete 100% of registrations needed by June and meet enrollment on first day.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Execute all the highest leverage recruitment strategies by February, such as block walking, super recruitment, recruitment community events and promotion of events for all the community. **Strategy's Expected Result/Impact:** Meet 100% of aplications and registatrtions needed to be 100% enrolled at IDEA La Joya College Prep. **Staff Responsible for Monitoring:** Principal and APO **Problem Statements:** Perceptions 2	95%			

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 2: We need to increase the amount of promotional time of the event. **Root Cause**: We didn't promote events for a long time on social media and on all the forms of communication with students and families.

Goal 3: IDEA achieves an A rating

Performance Objective 1: IDEA La Joya College Prep will earn an A TEA Rating for the 2022-2023 academic year.

High Priority

Evaluation Data Sources: Unit exams and semester exams and end of year STAAR scores

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement literacy professional development (5 skills) **Strategy's Expected Result/Impact:** Teacher will implement 5 high leverage literacy skills **Staff Responsible for Monitoring:** Principal, API **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 2	50%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Breakdown unit or content data to focus on reteaching lowest performing objectives. **Strategy's Expected Result/Impact:** Increase our D1 data by 20 points **Staff Responsible for Monitoring:** Principal, API and teachers **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 3, 4, 6	80%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 2: Students weren't push to have reading and writing rigor in every content area. **Root Cause**: Increase the reading and writing rigor in all classes by implementing cross content reading and writing strategies during the year.
Problem Statement 3: Alignment of the curriculum to TEKs to provide students to master a skill on a daily basis. **Root Cause**: Provide students with TEK aligned curriculum opportunities on a daily basis. Students will struggle with exam format; therefore, we must provide similar new format.

Student Learning

Problem Statement 4: Start with basic math reteach during academic block starting in August. **Root Cause**: We didn't address math gaps early in the year. We must push for students to gain or master basic math content.

Problem Statement 6: Provide more practice time for students to master content. **Root Cause**: Teachers are using more of the time to lecture and missing time for students to practice science content. Therefore, they don't have fidelity to the time stamps of practice.

Goal 3: IDEA achieves an A rating

Performance Objective 2: 50% of critical student intervention students will grow 2 years in reading RENSTAR exam by the end of the 22-23 academic year.

High Priority

Evaluation Data Sources: End of Year RenSTAR Exam

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement the DI program with fidelity to complete 4 lessons a week at mastery. **Strategy's Expected Result/Impact:** 2 year growth in Reading RENSTAR exam. **Staff Responsible for Monitoring:** Interventionist, Principal and Assistant Principal **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1 **Funding Sources:** Interventionist - Federal Grant				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 1: Campus lesson progress was below the goal of 4 lessons a week, ending with an average of 3 lessons per week. **Root Cause**: Lack of fidelity to the DI program and provide opportunities for students to master lessons.

Goal 3: IDEA achieves an A rating

Performance Objective 3: Have 42% of ELs grow at least one composite score year over year

High Priority

Evaluation Data Sources: TELPAS Scores at the end of year

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Fidelity to summit k-12 program for EB students **Strategy's Expected Result/Impact:** 42% of EL students will increase a composite scores in TELPAS Exam **Staff Responsible for Monitoring:** Principal, teacher, assistant principal. testing coordinator and school counselor **Title I:** 2.6 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 7, 8	45%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 3 Problem Statements:

Student Learning
Problem Statement 7: Monitor summit k-12 program with fidelity and provide feedback to teachers on implementation. **Root Cause**: We implemented the Summit k-12 program but lack to monitor progress of students by teacher and students.
Problem Statement 8: Lack the implementation of literacy skills, such as think-write-discuss and accountable talk. **Root Cause**: Students lacked reading abilities; therefore, we prioritize reading strategies but must implement writing and speaking techniques.

Goal 3: IDEA achieves an A rating

Performance Objective 4: 90% of our HB4545 student meet their growth goals in math and reading STAAR.

High Priority

HB3 Goal

Evaluation Data Sources: Unit Exams, semester exams

Goal 3: IDEA achieves an A rating

Performance Objective 5: 100% of our HB4545 students will receive all their intervention hours before our 2023 STAAR.

High Priority

HB3 Goal

Evaluation Data Sources: PowerSchool Tracking

Goal 3: IDEA achieves an A rating

Performance Objective 6: Reach a 23 SAS score for our special education students on the math and reading STAAR.

High Priority

Evaluation Data Sources: Unit Exams, Semester exams and STAAR exam.

Goal 4: Increase student daily attendance

Performance Objective 1: At the end of the 2022-2023 school year, IDEA La Joya College Prep will achieve a 97% average daily attendance.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement and monitor the escalation matrix for students with excessive absences. **Strategy's Expected Result/Impact:** Increase ADA students and respond to excessive absences. **Staff Responsible for Monitoring:** Principal, Assistant Principal of Operations, Teachers, SIS, API **Title I:** 2.4, 2.6 **Problem Statements:** Perceptions 8	70%			

Strategy 2 Details	Reviews

Reflections

Areas of Strength	Areas of Need
1 We met the AR goal by motivating kiddos, providing PTG weekly and providing incentives for meeting goal.	1 Increase fidelity to the DI program and provide opportunities for students to master lessons.
2 ELA growth from Mock to STAAR evident by more than 32% points.	2 Increase the reading and writing rigor in all classes by implementing cross content reading and writing strategies.
3 75% of students met their reading growth goal.	3 Provide students with TEK aligned curriculum opportunities on a daily basis. Students will struggle with exam format; therefore, we must provide similar new reading format.

Public Presentation Date: September 13, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: November 3, 2022

Demographics

Demographics Summary

IDEA Lake Houston Academy is a public charter school located in Houston, TX. The population of students that we serve are below:

- 86% Economically Disadvantaged
- 65% ELL
- 34% African-American
- 64% Hispanic
- 2% White
- 5% Special Education
- 39% Male
- 61% Female

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): High number of leavers (71/111) due to movers, transportation, or operations. **Root Cause:** High number of mobile families leaving the area for other opportunities and transportation issues.

Problem Statement 2: 49% of ELL students were reading on/above grade level. **Root Cause:** Not implementing reading, speaking, listening, and writing strategies consistently to support student needs.

Student Learning

Student Learning Summary

As a launching campus, we did not have a STAAR assessment. Please see TELPAS and math assessment data is below for K-2:

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): 80% of K-2 students met Approaches on the final math assessment. **Root Cause:** Lack of differentiated learning for special populations.

Problem Statement 2: 75% of ELL scholars grew two or more levels on TELPAS exams. **Root Cause:** Lack of feedback on lesson planning and rehearsals to incorporate listening, speaking, writing, and reading skills in math.

School Processes & Programs

School Processes & Programs Summary

IA Lake Houston develops instructional leaders by real-time coaching (RTC) during instructional walks, tactical and check-in meetings, huddles, and during coaching academies. Leaders are clear with what is expected of them because they receive feedback that is aligned with the School Leader Levers (SLLs).

Professional development is provided when patterns of behavior are trended due to a lack of knowledge or skill in specific areas that are aligned to the most pressing need at the time.

To support powerful teaching and learning our teachers and leaders are recognized for their leadership moves and best practices.

See PDF in Addendum for more information.

School Processes & Programs Strengths

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Leaders lacked support with math and special populations from the region (less than five visits from math coach and less than five visits from special populations program manager). **Root Cause:** Lack of resources from regional leaders (math coach, special populations program manager, and DLD).

Perceptions

Perceptions Summary

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): 19/111 leavers cited a lack of communication from the school. **Root Cause:** Lack of communication from teachers and leaders regarding student progress, discipline, and engagement activities.

Problem Statement 2: Zero parent surveys were sent to families for feedback. **Root Cause:** Lack of knowledge of the platform used from the national team to administer the survey.

Priority Problem Statements

Problem Statement 1: High number of leavers (71/111) due to movers, transportation, or operations.

Root Cause 1: High number of mobile families leaving the area for other opportunities and transportation issues.

Problem Statement 1 Areas: Demographics

Problem Statement 2: 80% of K-2 students met Approaches on the final math assessment.

Root Cause 2: Lack of differentiated learning for special populations.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Leaders lacked support with math and special populations from the region (less than five visits from math coach and less than five visits from special populations program manager).

Root Cause 3: Lack of resources from regional leaders (math coach, special populations program manager, and DLD).

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: 19/111 leavers cited a lack of communication from the school.

Root Cause 4: Lack of communication from teachers and leaders regarding student progress, discipline, and engagement activities.

Problem Statement 4 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Texas approved PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data

Parent/Community Data

- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Communications data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: By the beginning of the 2023-24 school year, IDEA Lake Houston Academy will maintain at least 85% of staff by having performance managers complete weekly check-ins with their direct reports, as well as conducting Fun Fridays on the first Friday of each month to recognize Gators of the Month, daily shoutouts, and highlights of a staff meeting or exceeding specific goals and exhibiting our core values.

High Priority

Evaluation Data Sources: OneNote for weekly check-ins,
Teams for shoutouts
Locus Dashboard for data retrieval

Summative Evaluation: Met Objective

IDEA Public Schools

Lake Houston College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Top 25 Percent: Comparative Academic Growth
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 23, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communitiesÂ for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 13, 2022

Demographics

Demographics Summary

Lake Houston CP was founded in 2021-2022 and currently serves students in grades 6-12. 38% of our students are ELs and in the 21-22 school year we earned a distinction for ELAR as well as met TELPAS.

	Campus %
% Average Daily Attendance	93.26
% Overall Persistence	92.13

	Campus %
% Native-Hawaiian-Pacific-Islander	0
% White	72
% Male	45
% Female	55

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is opportunity to close the gap for our African American students in math. **Root Cause:** Math scores were lower than reading this year across the board. Math teacher was new in 6th grade. Math STAAR success mechanisms and data tracking began late, with a focus on Domain III.

Problem Statement 2: There is a need to increase student persistence. **Root Cause:** High number of mobile families leaving the area due to transportation and other extracurricular opportunities.

Student Learning

Student Learning Summary

78	**91**	**83**	**89 (B)**

Campus Name	TEA Accountability Distinctions
Lake Houston CP	ELAR, Math, Comparative Academic Growth, and Postsecondary Readiness (4)

Student Learning Strengths

See PDF in Addendum for more informaiton.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): To get to an A, we must hit the Domain III cut point of 90, and this past year we were at 83. **Root Cause:** We started late with ensuring accommodations were being implemented consistently and ensuring effective interventions were in place.

Problem Statement 2: We did not hit our TELPAS Composite Score of 42%. **Root Cause:** EL training for accommodations have not been readily available and opportunities for speaking and writing were minimal.

School Processes & Programs

School Processes & Programs Summary

We develop our leaders through daily real time coaching, classroom management and culture walks, SPED ACC audits, and coaching academy. We also ensure roles and responsibilities are clear by ensuring calendars are informed by data based priorities and check-ins.

School Processes & Programs Strengths

See PDF and addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Our leader retention is an area for improvement across the region and at our campus. **Root Cause:** Leader onboarding and clarity of role at point of hire have been gaps.

Perceptions

Perceptions Summary

We conduct quarterly Great Places to Work surveys to staff, have regular check-ins to set a clear priority for the upcoming week and to build connection. Our regional values are Comptentence, Care, Connect, Clarity. We had the hightest Great Places to Work data at 83% staff satisfaction.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: 0 parent surveys administered to families for feedback. **Root Cause:** Lack of knowledge of the platform used from the national team to administer the survey.

Problem Statement 2 (Prioritized): Parents stated there was a lack of communication from the school and our campus was too strict. **Root Cause:** Lack of communication from teachers and leaders from discipline.

Priority Problem Statements

Problem Statement 1: There is opportunity to close the gap for our African American students in math.

Root Cause 1: Math scores were lower than reading this year across the board. Math teacher was new in 6th grade. Math STAAR success mechanisms and data tracking began late, with a focus on Domain III.

Problem Statement 1 Areas: Demographics

Problem Statement 2: To get to an A, we must hit the Domain III cut point of 90, and this past year we were at 83.

Root Cause 2: We started late with ensuring accommodations were being implemented consistently and ensuring effective interventions were in place.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Our leader retention is an area for improvement across the region and at our campus.

Root Cause 3: Leader onboarding and clarity of role at point of hire have been gaps.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Parents stated there was a lack of communication from the school and our campus was too strict.

Root Cause 4: Lack of communication from teachers and leaders from discipline.

Problem Statement 4 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback

- State certified and high quality staff data
- Campus leadership data

Parent/Community Data

- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Communications data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: By the beginning of the 23-24 school year, IDEA Lake Houston College Preparatory, will maintain at least 85% of staff by having performance managers complete check-ins with direct reports weekly; as well as conducting Fun Fridays on the first Friday of each month to recognized Gators of the Month, daily shout outs, and highlights of staff meeting or exceeding specific goals and exhibiting IDEA's core values.

High Priority

HB3 Goal

Evaluation Data Sources: One Note for Weekly Check-ins

IDEA Public Schools

Los Encinos Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in Mathematics
Top 25 Percent: Comparative Closing the Gaps
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Campus Funding Summary 23

Addendums 24

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

Our campus serves 764 students in Pre-Kinder to 4th grade and opened in August 2019. We have over 50 staff members (6 Instructional Leaders, 29 teachers, 18 teacher support, and 3 campus support members. We have 89.36% of staff persistence for 21-22.

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): An area of need is a focus on parent and student academic events to increase attendance to 90% attendance for families. **Root Cause:** Not all families have remind app as communication and phone numbers are not always updated on a timely manner.

Problem Statement 2 (Prioritized): An area of need is support for student social emotional behavior support for students to help develop strong student relationships. **Root Cause:** Students had gaps in social behavior supports that developed over virtual learning that caused for students to experience separation anxiety and other emotional barriers.

Student Learning

Student Learning Summary

Our campus rated at a B with an 89 average. We scored a 70/43/26 for 3rd grade Reading and a 76/53/30 for 3rd grade Math.

SPED STAAR scores for Reading and math: 60/40/0

EL STAAR scores for reading: 70/43/25 (46) Math: 77/53/33 (55)

Pk-2nd grade students On Track for DI Reading Instruction 100% PK, 100% Kinder, 90% 1st Grade, and 95% for 2nd Grade.

Student Learning Strengths

see PDF in addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): An area of need in reading is rigorous aligned instruction with effective use of higher order thinking questions. **Root Cause:** There is a need for more effective professional development for teachers and leaders in lesson planning that focuses on rigor and higher order thinking questions.

Problem Statement 2 (Prioritized): An area of need in math is student release and student practice that helps promote for students to become independent thinkers. **Root Cause:** Students did not have enough practice time independently due to more time being given to guided practice part of lesson.

Problem Statement 3 (Prioritized): There was a low attendance daily average rate for our students last year (Overall ADA: 90.78%) Grade Team totals: PK: 87.59% Kinder: 90.61% 1st: 89.84% 2nd: 91.67% 3rd: 92.52% **Root Cause:** There were a high number of absences in all grades throughout the school due to personal/family illnesses. Campus did not follow ADA matrix with fidelity to track and follow up consistently.

School Processes & Programs

School Processes & Programs Summary

Our campus develops instructional leaders by having bi-weekly, quarter, and yearly trainings that are lead by content eperts and leaders. In addition, leaders get training on our feedback platform that is Teachboost. Leaders conduct weekly observations for teachers and give weekly feedback and follow up to help them get to mastery of action items. Some of the methods used for coaching include side by side feedback, model, lesson rehearsals, and coaching practice. Our teachers attend lesson rehearsals between 2-3 times a week beside their content leader and API manager.

See PDF in Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): An area of need is to increase the engagement and quality of relationships across all campus staff. **Root Cause:** Most events/meetings were held virtually at the start of the year and there were minimal opportunities for connecting due to safety recommendations.

Problem Statement 2 (Prioritized): An area of need is to help increase teachers that are state certified at our campus to help target and support EL, SPED, and gen ed students. **Root Cause:** There are currently very few certified teachers on our staff. (less than 5)

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Afterschool programs were started late in the school year and did not allow to have the maximum amount of students to participate from each classroom. **Root Cause:** Due to covid cases and mitigating spread, we opted to open our AS programs during the 3rd & 4th quarter of the year which decreased the amount of available days open for students .

Problem Statement 2 (Prioritized): We do not have 100% of parent communication due to several families not having the REMIND app or social media applications to follow campus pages or events. **Root Cause:** Not all families like or use social media or applications when communicating. They prefer phone calls, paper notices, or in person meetings to be informed as well as needing a spanish translation of information for events.

Priority Problem Statements

Problem Statement 1: An area of need in reading is rigorous aligned instruction with effective use of higher order thinking questions.

Root Cause 1: There is a need for more effective professional development for teachers and leaders in lesson planning that focuses on rigor and higher order thinking questions.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: An area of need is to help increase teachers that are state certified at our campus to help target and support EL, SPED, and gen ed students.

Root Cause 2: There are currently very few certified teachers on our staff. (less than 5)

Problem Statement 2 Areas: School Processes & Programs

Problem Statement 3: An area of need is support for student social emotional behavior support for students to help develop strong student relationships.

Root Cause 3: Students had gaps in social behavior supports that developed over virtual learning that caused for students to experience separation anxiety and other emotional barriers.

Problem Statement 3 Areas: Demographics

Problem Statement 4: We do not have 100% of parent communication due to several families not having the REMIND app or social media applications to follow campus pages or events.

Root Cause 4: Not all families like or use social media or applications when communicating. They prefer phone calls, paper notices, or in person meetings to be informed as well as needing a spanish translation of information for events.

Problem Statement 4 Areas: Perceptions

Problem Statement 5: An area of need in math is student release and student practice that helps promote for students to become independent thinkers.

Root Cause 5: Students did not have enough practice time independently due to more time being given to guided practice part of lesson.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: Afterschool programs were started late in the school year and did not allow to have the maximum amount of students to participate from each classroom.

Root Cause 6: Due to covid cases and mitigating spread, we opted to open our AS programs during the 3rd & 4th quarter of the year which decreased the amount of available days open for students .

Problem Statement 6 Areas: Perceptions

Problem Statement 7: An area of need is a focus on parent and student academic events to increase attendance to 90% attendance for families.

Root Cause 7: Not all families have remind app as communication and phone numbers are not always updated on a timely manner.

Problem Statement 7 Areas: Demographics

Problem Statement 8: An area of need is to increase the engagement and quality of relationships across all campus staff.

Root Cause 8: Most events/meetings were held virtually at the start of the year and there were minimal opportunities for connecting due to safety recommendations.

Problem Statement 8 Areas: School Processes & Programs

Problem Statement 9: There was a low attendance daily average rate for our students last year (Overall ADA: 90.78%) Grade Team totals: PK: 87.59% Kinder: 90.61% 1st: 89.84% 2nd: 91.67% 3rd: 92.52%

Root Cause 9: There were a high number of absences in all grades throughout the school due to personal/family illnesses. Campus did not follow ADA matrix with fidelity to track and follow up consistently.

Problem Statement 9 Areas: Student Learning

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

- Section 504 data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices
- Other additional data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 90% of Los Encinos staff will be retained to and throughout the 2022-2023 school year

High Priority

Evaluation Data Sources: GPTW, Staff Retention %, and staff evaluations

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June

	Oct	Jan	Mar	June
Strategy 2: 97% of Student attendance through daily phone calls, parent meetings, support in tutorials for students that are impacted due to illness **Strategy's Expected Result/Impact:** students will be in school learning and closing gaps **Staff Responsible for Monitoring:** Principal/APO/Lead team **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture, Lever 5: Effective Instruction	0%	40%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: 50% of SPED students will pass STAAR assessment with an approaches or higher rating for 22-23 school year.

HB3 Goal

Evaluation Data Sources: Staar assessments, semester exams, and internal content exams

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Focus on IEP for SPED students and accommodations needed in classrooms to help set them up for success **Strategy's Expected Result/Impact:** SPED students score meets /masters on state assessments **Staff Responsible for Monitoring:** Principal/SPED Teachers **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 3: 100% of Pre-Kinder students will be on or above grade level in DI Reading & math for the 22-23 school year.

Evaluation Data Sources: DI data weekly reports; EOY final data report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 97% student attendance in PK classrooms to ensure that students are on grade level or above **Strategy's Expected Result/Impact:** students will be able to stay on track for weekly/daily lessons for DI Program **Staff Responsible for Monitoring:** Principal/Assistant Principal **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 3 **Funding Sources:** PK Teachers - Federal Grant - $109,750				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 3 Problem Statements:

Student Learning
Problem Statement 3: There was a low attendance daily average rate for our students last year (Overall ADA: 90.78%) Grade Team totals: PK: 87.59% Kinder: 90.61% 1st: 89.84% 2nd: 91.67% 3rd: 92.52% **Root Cause**: There were a high number of absences in all grades throughout the school due to personal/family illnesses. Campus did not follow ADA matrix with fidelity to track and follow up consistently.

Goal 4: Increase student daily attendance

Performance Objective 1: 90% of students in 3rd & 4th grade will reach Fitness ambassador goal for Physical Education for the 22-23 school year

Evaluation Data Sources: fitness gram data, active minutes report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: track minutes of Fitness goal for students 1st-4th grade **Strategy's Expected Result/Impact:** motivate students to stay fit and healthy to avoid sickness **Staff Responsible for Monitoring:** Assistant Principal/PE Coach **Title I:** 2.4, 2.6 **- TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** School Processes & Programs 2	0%	65%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 2: An area of need is to help increase teachers that are state certified at our campus to help target and support EL, SPED, and gen ed students. **Root Cause**: There are currently very few certified teachers on our staff. (less than 5)

Goal 4: Increase student daily attendance

Performance Objective 2: 97% of overall ADA will be reached campus wide for PK-4th grade for the 22-23 school year

High Priority

Evaluation Data Sources: ADA daily, weekly, monthly, and YTD reports by HR, grade level, and campus

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Daily ADA support for teachers, grade teams, and campus by assigned LT member to each grade, making daily calls with notes embedded on campus tracker , follow up 2nd call from LT-first call from teachers , and ADA Matrix implemented and followed **Strategy's Expected Result/Impact:** increase ADA for students on a daily, weekly, and monthly level **Staff Responsible for Monitoring:** Principal, Assistant Principal of Operations, and Student information systems clerk	0%	50%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: 90% of PK-4th grade classrooms will complete and participate in Move this world 15 min. daily compliance during homeroom period for the 22-23 school year.

High Priority

Evaluation Data Sources: MTW reports

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Lack of reading and writing across all contents. **Root Cause:** 1) Lack of open-ended responses as alignment to STAAR (MC) was the focus 2) No writing on the STAAR test

Problem Statement 2 (Prioritized): Lower performance for students in IEP compared to gened. **Root Cause:** 1) Lack of quality in class support for individualized support 2) lack of quality individualized support from gened teacher

School Processes & Programs

School Processes & Programs Summary

At IDEA Los Encinos CP, we follow the instructional coaching model laid out by IDEA. First-year leaders are assigned a coach from the district to support in their development using School Leadership Levers. The principal does observations in the field and coaching conversations to ensure leaders are upholding the highest standards. ALL leaders have their roles and responsibilities laid out in the summer. All teachers get their performance managers at the beginning of year professional development.

Every week, the Instructional leaders go through weekly data conversations to find the missed skill and help teachers create a reteach plan. Using daily exit tickets, Quizzes, Unit Exam, and mock exam data, teachers create tiered support for students for in-class small groups, and afterschool tutoring.

The Instructional leaders for the coaching cycle for teachers. Leaders give feedback on teacher lesson plans, observe live teaching, and use low inference data (qualitative and quantitative data) to generate the highest leverage action gap to address the teacher gap, leading to gains in student achievement. Leaders then conduct a coaching conversation using the see it, name it, do it model to ensure teachers have a chance to practice perfectly. Leaders then observe teachers based on the action step ensuring coaching to mastery.

Students participate in accelerated reader, Dreambox, imagine learning/reading and imagine math for further individualized support. Students who are behind more than two grade levels participate in critical student intervention program using direct instruction to get them on grade level.

See PDF in Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268

students met the goal for Math.

- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Lack of effective intervention for students at-risk of repeating grade level **Root Cause:** 1)Not enough intervention teachers to support ALL students 2) Programming needs to support majority of the students

Problem Statement 2 (Prioritized): Lack of Equitable coaching and growth for all teachers **Root Cause:** 1) Too many teachers to coach for each leader 2) Some teachers required intense coaching 3) Student discipline takes a lot of time

Perceptions

Perceptions Summary

Our campus is only 6th through 8th grade, yet. We have zero percent dropout rate. Our Social worker works with students for socio-emotional support, peer mediation, and parent involvement. All first year teacher get a mentor assigned. Teachers with mentors surpassed the SAS needed to attain an A rating. Last year, we met teacher retention with 3 teacher leavers. 90% staff members agree that IDEA Los Encinos CP is a great place to work.

We used teams/bluejeans call for parent attendance for events. After 1st semester, parents would sign in for events. Barriers were use of technology and COVID related health concerns. For EOY awards assembly, we used the certificates to track attendance.

See PDF in Addendum for more information.

Perceptions Strengths

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lack of parent volunteers and involvement **Root Cause:** 1) COVID related health protocols 2) Lack of protocols to onboard volunteers

Problem Statement 2 (Prioritized): Lack of parent investment in new families **Root Cause:** 1) Onboarding did not have communication systems as a check list 2) Parents did not have orientation on systems for campus related to basic IDEA tactics.

Priority Problem Statements

Problem Statement 1: Students in SPED did not progress on the State exams
Root Cause 1: 1) Inconsistent quality support for students in SPED
Problem Statement 1 Areas: Demographics

Problem Statement 2: Lack of reading and writing across all contents.
Root Cause 2: 1) Lack of open-ended responses as alignment to STAAR (MC) was the focus 2) No writing on the STAAR test
Problem Statement 2 Areas: Student Learning

Problem Statement 3: Lower performance for students in IEP compared to gened.
Root Cause 3: 1) Lack of quality in class support for individualized support 2) lack of quality individualized support from gened teacher
Problem Statement 3 Areas: Student Learning

Problem Statement 4: Lack of effective intervention for students at-risk of repeating grade level
Root Cause 4: 1)Not enough intervention teachers to support ALL students 2) Programming needs to support majority of the students
Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Lack of parent volunteers and involvement
Root Cause 5: 1) COVID related health protocols 2) Lack of protocols to onboard volunteers
Problem Statement 5 Areas: Perceptions

Problem Statement 6: Lack of Equitable coaching and growth for all teachers
Root Cause 6: 1) Too many teachers to coach for each leader 2) Some teachers required intense coaching 3) Student discipline takes a lot of time
Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Students having low ADA.
Root Cause 7: 1) COVID health-related absences 2) Lack of investment with ADA vs student well being
Problem Statement 7 Areas: Demographics

Problem Statement 8: Lack of parent investment in new families
Root Cause 8: 1) Onboarding did not have communication systems as a check list 2) Parents did not have orientation on systems for campus related to basic IDEA tactics.
Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Attendance data
- Discipline records
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data

Parent/Community Data

- Parent engagement rate

Support Systems and Other Data

- Budgets/entitlements and expenditures data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% of teachers retained

High Priority

Evaluation Data Sources: End of Year retention report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Proper support for lesson planning and delivery from BOY PD **Strategy's Expected Result/Impact:** Equitable support through coaching clinics and rehearsals to impact student achievement **Staff Responsible for Monitoring:** Principal: Raj Desai **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 2 **Funding Sources:** - Federal Grant	75%	100%	100%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Recruit highly qualified individuals for their roles **Strategy's Expected Result/Impact:** Teachers are successful in implementing curriculum **Staff Responsible for Monitoring:** Raj Desai **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 2 **Funding Sources:** - Federal Grant	100%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 2: Lack of Equitable coaching and growth for all teachers **Root Cause**: 1) Too many teachers to coach for each leader 2) Some teachers required intense coaching 3) Student discipline takes a lot of time

Goal 2: Increase enrollment in all grade levels

Performance Objective 1: Meet enrollment of 125 each grade level

High Priority

Evaluation Data Sources: enrollment and app dasboards

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Quality apps and outreach **Strategy's Expected Result/Impact:** Students persistent to first day of school **Staff Responsible for Monitoring:** APO- Sheila Flores	65%	100%	100%	

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Achieve a minimum student achievement score of a 60.

High Priority

Evaluation Data Sources: Domain 1 and Domain 2 report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Data-informed instruction through tracking and responding to data **Strategy's Expected Result/Impact:** Teachers and leaders are aware of data and adjust instruction and support daily. **Staff Responsible for Monitoring:** API: Vanessa Avendano and Michael Garcia **Title I:** 2.6 **Problem Statements:** School Processes & Programs 1	75%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 1: Lack of effective intervention for students at-risk of repeating grade level **Root Cause**: 1)Not enough intervention teachers to support ALL students 2) Programming needs to support majority of the students

Goal 3: IDEA achieves an A rating

Performance Objective 2: 100% of the students in SPED achieve approaches or higher

Evaluation Data Sources: STAAR data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Track students in SPED from day 1 with a sped teacher support in all classes **Strategy's Expected Result/Impact:** Students in SPED get daily support beyond the min requirement **Staff Responsible for Monitoring:** API: Michael Garcia **Title I:** 2.4 **Problem Statements:** Demographics 2 **Funding Sources:** Interventionist- Monica Reyna - Federal Grant - $57,700	60%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 2: Students in SPED did not progress on the State exams **Root Cause**: 1) Inconsistent quality support for students in SPED

Goal 4: Increase student daily attendance

Performance Objective 1: 97% of students will have an average daily attendance

High Priority

Evaluation Data Sources: ADA report from PS

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use the escalation matrix with fidelity **Strategy's Expected Result/Impact:** 100% of students go through the escalation matrix for support. **Staff Responsible for Monitoring:** APO: Sheila Flores **Title I:** 2.6 **Problem Statements:** Demographics 3 **Funding Sources:** - Federal Grant	75%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 3: Students having low ADA. **Root Cause**: 1) COVID health-related absences 2) Lack of investment with ADA vs student well being

Goal 4: Increase student daily attendance

Performance Objective 2: 100% of the students in PE earn their MVPA min

Evaluation Data Sources: Fitness data for MVPA minutes

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: INvestment from campus and parents for PE goals **Strategy's Expected Result/Impact:** 100% of the students in PE get their real-time MVPA min **Staff Responsible for Monitoring:** Atheltics Coordinator: Moses Stokes **Problem Statements:** School Processes & Programs 2 **Funding Sources:** - Federal Grant	85%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 2: Lack of Equitable coaching and growth for all teachers **Root Cause**: 1) Too many teachers to coach for each leader 2) Some teachers required intense coaching 3) Student discipline takes a lot of time

Goal 5: Increase student persistence

Performance Objective 1: 90% of our students persist into the next school year

High Priority

Evaluation Data Sources: Persistence reports

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Parent investment and onboarding **Strategy's Expected Result/Impact:** Parents trust the campus and stay with us **Staff Responsible for Monitoring:** Juan Carlos Garcia **Problem Statements:** Perceptions 1 **Funding Sources:** - Federal Grant	75%			

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 1: Lack of parent volunteers and involvement **Root Cause**: 1) COVID related health protocols 2) Lack of protocols to onboard volunteers

Goal 5: Increase student persistence

Performance Objective 2: 100% of lead facilitators deliver Move This World with fidelity (3 days a week)

Evaluation Data Sources: MWT report from the district

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: MWT implementation and tracking **Strategy's Expected Result/Impact:** violence prevention and intervention with support for students **Staff Responsible for Monitoring:** SW: Jacqueline Torres **Title I:** 2.6 **Problem Statements:** School Processes & Programs 1 **Funding Sources:** - Federal Grant	75%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 1: Lack of effective intervention for students at-risk of repeating grade level **Root Cause**: 1)Not enough intervention teachers to support ALL students 2) Programming needs to support majority of the students

Goal 5: Increase student persistence

Performance Objective 3: 100% implementation of Behavior threat assessment and/or CSTAG

High Priority

Evaluation Data Sources: Social worker dashboard and monthly meetings with CCT

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement BTA and train CCT team members **Strategy's Expected Result/Impact:** 100% of the students screened to provide appropriate internvention **Staff Responsible for Monitoring:** Social worker **Title I:** 2.6 **Problem Statements:** School Processes & Programs 1	100%	100%	100%	

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 3 Problem Statements:

School Processes & Programs
Problem Statement 1: Lack of effective intervention for students at-risk of repeating grade level **Root Cause**: 1)Not enough intervention teachers to support ALL students 2) Programming needs to support majority of the students

Goal 6: Increase % students meeting CCMR indicators

Performance Objective 1: 90% of the students met CCMR components.

HB3 Goal

Evaluation Data Sources: STAAR data and accountability dashboards

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Tracking student data through AP and CCMR components **Strategy's Expected Result/Impact:** meeting CCMR indicators **Staff Responsible for Monitoring:** Michael Garcia and Esteban Rodriguez **Title I:** 2.4 **Problem Statements:** Student Learning 1 **Funding Sources:** College Counselor- Esteban Rodriguez - Federal Grant - $68,893.73	50%			

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: Lack of reading and writing across all contents. **Root Cause**: 1) Lack of open-ended responses as alignment to STAAR (MC) was the focus 2) No writing on the STAAR test

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Campus Funding Summary 22

Addendums 23

Comprehensive Needs Assessment

Revised/Approved: September 9, 2022

Demographics

Demographics Summary

IDEA Mays Academy is an elementary school on the West Side of San Antonio serving 700+ students in grades K-5. IDEA Mays opened up in 2016 and has continuously grown since then. IDEA Mays is an open enrollment public charter school that prides itself in rigorous academics for underserved communities. IDEA Mays Academy also currently has 3 Special Education Classrooms for more severe scholars. IDEA Mays Academy was most recently ranked as an A Campus (96) by the TEA; one of the highest in the IDEA Public School District.

See PDF Addendum for more information.

Demographics Strengths

“See PDF in Addendum for more information."

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Lack of consistent ADA follow up protocol **Root Cause:** Systems and procedures not followed by Academy Lead Team.

Problem Statement 2 (Prioritized): Lack of celebrations for ADA/Persistence **Root Cause:** Breakdown in roll out of celebrations when SIS transitioned off campus.

Student Learning

Student Learning Summary

During the 21.22 school year, IDEA Mays Academy earned an overall rating of a 96 (A) by the TEA. They scored a 91 on Domain 1; 94 on Domain 2; and a 100 on Domain 3. This is the highest that IDEA Mays Academy has ever scored. They also grew significantly in both Special Education Data and English Learner Data. IDEA Mays Academy also earned all eligible distinctions from the TEA.

“See PDF in Addendum for more information.”

Student Learning Strengths

“See PDF in Addendum for more information.”

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Lack of consistent data tracking on a class by class level **Root Cause:** Teachers and leaders did not have one consistent place to track data

Problem Statement 2 (Prioritized): Lack of consistent intervention groups based on data **Root Cause:** Intervention/SpEd teachers getting pulled for coverage

School Processes & Programs

School Processes & Programs Summary

Teachers received weekly professional development based on trends identified by the Mays Campus Lead Team. Campus communicates via Remind(primary) and various social media outlets(secondary). Lead team and Grade Team leaders meet once a month to identify and problem solve around campus trends. Campus provides various extracurricular activities and enrichment.

“See PDF in Addendum for more information.”

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Lack of consistent professional development **Root Cause:** High leader turnover cause breakdowns in systems

Problem Statement 2 (Prioritized): Lack of celebrations for staff **Root Cause:** Systems to celebrate not adhered to i.e. Teacher of the Month/Co Teacher of the month

Problem Statement 3 (Prioritized): Lack of extracurricular activities **Root Cause:** Did not have teachers that wanted to sponsor these activities

Perceptions

Perceptions Summary

Parents and students are surveyed twice a year to give feedback to the school. This past year, student retention was finalized at 88%, below the benchmark of the goal of 90%.

“See PDF in Addendum for more information."

Perceptions Strengths

“See PDF in Addendum for more information."

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lack of clear communication systems between Academy and College Prep **Root Cause:** College prep utilizing Remind and Academy utilizing Class Dojo

Problem Statement 2 (Prioritized): Ineffective PTO **Root Cause:** Rotating leadership point of contact led to unclear vision in execution

Priority Problem Statements

Problem Statement 1: Lack of consistent ADA follow up protocol
Root Cause 1: Systems and procedures not followed by Academy Lead Team.
Problem Statement 1 Areas: Demographics

Problem Statement 2: Lack of consistent intervention groups based on data
Root Cause 2: Intervention/SpEd teachers getting pulled for coverage
Problem Statement 2 Areas: Student Learning

Problem Statement 3: Lack of consistent data tracking on a class by class level
Root Cause 3: Teachers and leaders did not have one consistent place to track data
Problem Statement 3 Areas: Student Learning

Problem Statement 4: Lack of consistent professional development
Root Cause 4: High leader turnover cause breakdowns in systems
Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Lack of celebrations for staff
Root Cause 5: Systems to celebrate not adhered to i.e. Teacher of the Month/Co Teacher of the month
Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Lack of clear communication systems between Academy and College Prep
Root Cause 6: College prep utilizing Remind and Academy utilizing Class Dojo
Problem Statement 6 Areas: Perceptions

Problem Statement 7: Ineffective PTO
Root Cause 7: Rotating leadership point of contact led to unclear vision in execution
Problem Statement 7 Areas: Perceptions

Problem Statement 8: Lack of extracurricular activities
Root Cause 8: Did not have teachers that wanted to sponsor these activities
Problem Statement 8 Areas: School Processes & Programs

Problem Statement 9: Lack of celebrations for ADA/Persistence

Root Cause 9: Breakdown in roll out of celebrations when SIS transitioned off campus.

Problem Statement 9 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

Student Data: Assessments

- State and federally required assessment information
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Running Records results
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Other additional data

Goals

Goal 1: Increase staff retention

Performance Objective 1: IDEA Mays AC will retain 85% of its staff from 2022-2023 school year for the 2023-2024 school year.

High Priority

Evaluation Data Sources: Data collection

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Monthly think tank protocol to allow for upwards feedback **Staff Responsible for Monitoring:** Principals/APIs/GTLs **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: 100% Safety Drill Execution

High Priority

Evaluation Data Sources: Monthly, Quarterly, Annually

Summative Evaluation: Some progress made toward meeting Objective

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of IDEA Mays scholars will matriculate to college in 2023.

High Priority

Evaluation Data Sources: Data collection

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly PTG with college counselors to see where we can support this goal. **Strategy's Expected Result/Impact:** 100% of scholars matriculate to college **TEA Priorities:** Connect high school to career and college **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture, Lever 5: Effective Instruction				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: All 3-5 core content subjects will earn 90% Approaches/ 70% Meets/40% Masters on STAAR Test for 2023.

High Priority

Evaluation Data Sources: STAAR Test Results

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Daily Exit Ticket Sorts and Tracking **Strategy's Expected Result/Impact:** Data Driven Instruction **Staff Responsible for Monitoring:** Interventionist **Title I:** 2.4, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals, Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 2 **Funding Sources:** - Federal Grant				

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 2: Lack of consistent intervention groups based on data **Root Cause**: Intervention/SpEd teachers getting pulled for coverage

Goal 3: IDEA achieves an A rating

Performance Objective 2: Scholars in 3rd grade will earn 90%Approaches/60%Meets/30%Masters on Reading and Math STAAR Test for 2023.

High Priority

HB3 Goal

Evaluation Data Sources: Mock STAARs and 2023 STAAR Test

Summative Evaluation: Some progress made toward meeting Objective

Goal 3: IDEA achieves an A rating

Performance Objective 3: 60% of scholars in Special Education in 3-5 grades will achieve the Approaches benchmark on STAAR 2023.

High Priority

Evaluation Data Sources: 2023 STAAR Test

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Mays will have 97% average daily attendance by end of 22-23 School Year.

High Priority

Evaluation Data Sources: Powerschool data reporting

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Weekly Celebrations of success **Strategy's Expected Result/Impact:** Increase the percentage of scholars who are attending schools daily to at least 97%. **Staff Responsible for Monitoring:** APO/SIS/Principal **TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture **Funding Sources:** Interventionist - Federal Grant				

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: IDEA Mays will have 90% of its students persist from 22-23 to 23-24 school year.

High Priority

Evaluation Data Sources: Data collection

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 5 positive contacts per week from teachers **Strategy's Expected Result/Impact:** 100% of teachers complete a positive phone call per week. **Staff Responsible for Monitoring:** Principal/API **TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture **Funding Sources:** iLearning HotSpot Facilitator - Federal Grant				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 2: IDEA Mays will have 75% of scholars achieve Fitness Ambassador.

High Priority

Evaluation Data Sources: IHT Data Collection

Summative Evaluation: Some progress made toward meeting Objective

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics

Demographics Summary

IDEA Mays sets high expectations for every student and goes the extra mile to make sure every student realizes their own potential. Personalized learning, critical thinking skills, mastery of core subjects is our recipe for success. This year we are offcially serving grades 6-12 and will be celebrating 100% of our scholars matriculating into their college or university of choice.

"See PDF addendum for more information"

Demographics Strengths

See PDF in addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Mays CP was inconsistent with how it communicated with parents. This led families to feel as though the school was not responsive. **Root Cause:** We've utilized 3 different platformers. This has often caused inconsistencies as well as delays in communication with families and staff

Problem Statement 2 (Prioritized): Scholars provided feedback that their teachers changing caused them to feel uncertain of who to approach for help. **Root Cause:** Our Staff retention hovered at around 82% last year. Shifts in staffing required internal converge which led to scholars having multiple staff members as touch points.

Problem Statement 3 (Prioritized): Rise Classroom Teacher Retention **Root Cause:** Staffing within our Rise unit has lacked consistency due to frequency of teacher change. Teacher Content Knowledge was a gap which resulted in high burnout and turnover.

Student Learning

Student Learning Summary

Mays College Prep received an overall TEA Rating of an A with a score of 93. We are particularly proud of the fact that we received 7 out of 7 possible distinctions. Our overall scores are listed below:

Overall = 93

Student Achievement = 91

School Progress = 92

Closing the Gaps = 93

Distinctions Achieved the following areas

1. Math
2. ELA/Reading
3. Science
4. Social Studies
5. Comparative Academic Growth
6. Postsecondary Readiness
7. Comparative Closing the Gaps

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Overall passing rate for Sped scholars for Mays college prep in the area of Mathematics **Root Cause:** Targeted intervention was responsive to the most pressing scholar needs.

Problem Statement 2 (Prioritized): Although 100% of our 11th grade scholars participated in AP Language, less than 10% received a 3 or higher on the exam. **Root Cause:** Curriculum for 9th grade and 10th grade that is not vertically aligned to rigor AP ELA

Problem Statement 3 (Prioritized): AP Psychology scores at a 3 or higher only increased by 2%. **Root Cause:** Lack of fidelity to the appointed benchmarks. Teacher resignation in February resulted in class inconsistency.

School Processes & Programs

School Processes & Programs Summary

At Mays we prioritize in the moment coaching. This means that every leader, teacher, and faculty member is coached at the point of error. Instructional leadership is required to have weekly check-in with all individuals they manage in order to continuously develop and promote individual growth.

See PDF in Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years

- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addendum for more information

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Teacher retention is a major gap. We're currently at 80% teacher retention. **Root Cause:** Current operating mechanisms (Duty Schedule, Exit ticket huddles, Lesson Rehearsals) are effective in ensuring day to operations but have resulted in teacher burnout.

Problem Statement 2 (Prioritized): Last minute hires resulted in additional turn over **Root Cause:** Onboarding was not responsive to teacher need as a late year hire. As a result of this, they did not feel supported within their new role.

Perceptions

Perceptions Summary

Our focus has to be on increasing staff retention. Last year we closed the year at 80%. Unfortunatly, this was a 12 % decrease from the prevrious year.

See PDF Addendum.

Perceptions Strengths

See PDF Addendum.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): PTO organizational structure allowed for inconsistency in vision. Parent volunteers were on a rotating basis which led to internal breakdown in planning. **Root Cause:** Inconsistency with which leaders facilitated PTO meetings and served as campus point of contact led to poorly executed planning.

Problem Statement 2 (Prioritized): Decrease in parent communication **Root Cause:** Too many platforms for family communication led to families feeling spammed. This resulted in numbers and platforms being blocked.

Priority Problem Statements

Problem Statement 1: Although 100% of our 11th grade scholars participated in AP Language, less than 10% received a 3 or higher on the exam.

Root Cause 1: Curriculum for 9th grade and 10th grade that is not vertically aligned to rigor AP ELA

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Overall passing rate for Sped scholars for Mays college prep in the area of Mathematics

Root Cause 2: Targeted intervention was responsive to the most pressing scholar needs.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Teacher retention is a major gap. We're currently at 80% teacher retention.

Root Cause 3: Current operating mechanisms (Duty Schedule, Exit ticket huddles, Lesson Rehearsals) are effective in ensuring day to operations but have resulted in teacher burnout.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Last minute hires resulted in additional turn over

Root Cause 4: Onboarding was not responsive to teacher need as a late year hire. As a result of this, they did not feel supported within their new role.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: PTO organizational structure allowed for inconsistency in vision. Parent volunteers were on a rotating basis which led to internal breakdown in planning.

Root Cause 5: Inconsistency with which leaders facilitated PTO meetings and served as campus point of contact led to poorly executed planning.

Problem Statement 5 Areas: Perceptions

Problem Statement 6: Decrease in parent communication

Root Cause 6: Too many platforms for family communication led to families feeling spammed. This resulted in numbers and platforms being blocked.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: AP Psychology scores at a 3 or higher only increased by 2%.

Root Cause 7: Lack of fidelity to the appointed benchmarks. Teacher resignation in February resulted in class inconsistency.

Problem Statement 7 Areas: Student Learning

Problem Statement 8: Rise Classroom Teacher Retention

Root Cause 8: Staffing within our Rise unit has lacked consistency due to frequency of teacher change. Teacher Content Knowledge was a gap which resulted in high burnout and turnover.

Problem Statement 8 Areas: Demographics

Problem Statement 9: Scholars provided feedback that their teachers changing caused them to feel uncertain of who to approach for help.
Root Cause 9: Our Staff retention hovered at around 82% last year. Shifts in staffing required internal converge which led to scholars having multiple staff members as touch points.
Problem Statement 9 Areas: Demographics

Problem Statement 10: Mays CP was inconsistent with how it communicated with parents. This led families to feel as though the school was not responsive.
Root Cause 10: We've utilized 3 different platformers. This has often caused inconsistencies as well as delays in communication with families and staff
Problem Statement 10 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Class size averages by grade and subject
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback

- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices
- Action research results

Goals

Goal 1: Increase staff retention

Performance Objective 1: Mays CP will complete the school year with teacher retention of 85% or higher

High Priority

Evaluation Data Sources: Great places to work Survey will be conducted 3 times over the course of year.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Conduct bi-weekly feedback sessions with grade level representatives **Strategy's Expected Result/Impact:** Increase in positive staff feedback in GPTW **Staff Responsible for Monitoring:** Grade Level Administrators, Grade Team Leads, Principal **Title I:** 2.5 - **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 1: Teacher retention is a major gap. We're currently at 80% teacher retention. **Root Cause**: Current operating mechanisms (Duty Schedule, Exit ticket huddles, Lesson Rehearsals) are effective in ensuring day to operations but have resulted in teacher burnout.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of seniors will matriculate to college.

High Priority

HB3 Goal

Evaluation Data Sources: 100% TSI Exemption
Acceptances and Scholarship Tracking

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Mays CP will execute quarterly senior nights in order to ensure 100% of families are aligned and aware with the scope & sequence of College Matriculation. **Strategy's Expected Result/Impact:** Increase in Parent participation All senior deadlines will be met **Title I:** 4.1 - **TEA Priorities:** Connect high school to career and college **Problem Statements:** Perceptions 2 **Funding Sources:** DCC - Federal Grant, CC - Federal Grant, CC - Federal Grant				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

IDEA Public Schools

McAllen Academy

2022-2023 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Academic Achievement in Science
Academic Achievement in Social Studies
Top 25 Percent: Comparative Academic Growth
Top 25 Percent: Comparative Closing the Gaps

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

School Pledge

Team and Family

Inspire Each Other

Grow and Learn

Ensure Equity

Regulate Your Emotions

Respect Otheres

Own Your Actions

Act with Integrity

Comprehensive Needs Assessment

Revised/Approved: September 8, 2022

Demographics

Demographics Summary

IDEA McAllen sets high expectations for every student and goes the extra mile to make sure every student realizes their own potential. Personalized learning, critical thinking skills, mastery of core subjects is our recipe for success.

Our goal is to lead a transformational school where adults work relentlessly to build balanced students: students who are academically solid and emotionally intelligent. This approach best positions students to be contributing members of their community and our larger world.

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): IDEA McAllen has not met student persistentence at 90%. IDEA McAllen has not met new student persistence at 90%. **Root Cause:** One of the highest reasons of students unenrolling in our campus was that there was a lack of parent communication between teacher and parents. Parents did not know how their students were performing or the importance of bringing their child to school daily.

Problem Statement 2 (Prioritized): The 21-22 school year reflected a significant increase in student behavioral issues. Student satisfaction data dropped from the 20-21 school year. **Root Cause:** Our students lost socialization and structure because of disrupted daily life, including invaluable interactions and expectations from their participation in school. There has not been consistency with Morning Meetings and Move this World where these skills are taught and practiced.

Student Learning

Student Learning Summary

During the Semester Exams administered in December, the campus was projected to be rated a D by TEA. Following this exam our campus made lesson preparation, data driven decisions, and tracking a priority. For the 21-22 school year our overall TEA rating was 97. Student achievement was 86. School Progress was 96, and Clsoing the Gaps was 100.

Students in the lower grades (PK-2nd) ended the year at 96% on or above grade level. All PK-2nd graders met the 90/60/30 goal in math, science, and social studies.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Students have demonstrated poor writing skills and poor command of English tenses and grammar in their student responses. Students have not demonstrated strong justification skills when speaking orally or in their writing. **Root Cause:** Our students poor writing skills are influenced by a combination of factors that include re-assignments of teachers, teacher training, school culture of accountable talk, and in-service training.

Problem Statement 2 (Prioritized): There is a lack of teacher planning for student differentiation--meeting the needs of all learners on a consistent basis. **Root Cause:** Two significant barriers to differentiation: lack of training and limited access to differentiated material.

School Processes & Programs

School Processes & Programs Summary

Our campus develops instructional leaders by creating a weekly operating mechanisms of Leader Development Time. During this time, we focus on our School Leadership Levels. Leaders are provided PD and practice skills in the field.

During our annual leader stepback managment roles and responsibilities are communicated and changes are made based on feedback.

During our weekly instructional rounds, campus trends are identifed to identify gaps in teacher knowledge and professional development is scheduled. Assistant Principal of Instructions hold monthly API time to provide professional development based on classroom observations and data.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful.

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Only 60% of our staff feel that they are encouraged to balance their work life and their personal life. Only 60% of our staff feel that their opinions count. **Root Cause:** Lack of guidance on how to maximize planning time and backwards plan for tasks and deadlines. More operating mechanisms needed on how to provide ongoing feedback to administration.

Problem Statement 2 (Prioritized): Staff feel a lack of community amongst themselves and administration **Root Cause:** There has been a lack of emphasis on team work and frequent team building.

Perceptions

Perceptions Summary

Our staff retention for the 21-22 school year was 92%. This was a drop from 100% from the previous year. We lost a total of 4 staff members with 1 staff member being a non-renewal.

See PDF in Addendum.

Perceptions Strengths

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Parents are unclear about how to best support children with our curricula. Parent satisfaction survey data has dropped from 20-21 school year. **Root Cause:** We havent' held in person currciulum nights and parents do not know the best way to support at home. Parent mindset has shifted post pandemic--it has become harder to create strong school investment.

Priority Problem Statements

Problem Statement 1: There is a lack of teacher planning for student differentiation--meeting the needs of all learners on a consistent basis.

Root Cause 1: Two significant barriers to differentiation: lack of training and limited access to differentiated material.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Students have demonstrated poor writing skills and poor command of English tenses and grammar in their student responses. Students have not demonstrated strong justification skills when speaking orally or in their writing.

Root Cause 2: Our students poor writing skills are influenced by a combination of factors that include re-assignments of teachers, teacher training, school culture of accountable talk, and in-service training.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Only 60% of our staff feel that they are encouraged to balance their work life and their personal life. Only 60% of our staff feel that their opinions count.

Root Cause 3: Lack of guidance on how to maximize planning time and backwards plan for tasks and deadlines. More operating mechanisms needed on how to provide ongoing feedback to administration.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Staff feel a lack of community amongst themselves and administration

Root Cause 4: There has been a lack of emphasis on team work and frequent team building.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: IDEA McAllen has not met student persistentence at 90%. IDEA McAllen has not met new student persistence at 90%.

Root Cause 5: One of the highest reasons of students unenrolling in our campus was that there was a lack of parent communication between teacher and parents. Parents did not know how their students were performing or the importance of bringing their child to school daily.

Problem Statement 5 Areas: Demographics

Problem Statement 6: The 21-22 school year reflected a significant increase in student behavioral issues. Student satisfaction data dropped from the 20-21 school year.

Root Cause 6: Our students lost socialization and structure because of disrupted daily life, including invaluable interactions and expectations from their participation in school. There has not been consistency with Morning Meetings and Move this World where these skills are taught and practiced.

Problem Statement 6 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- Other PreK - 2nd grade assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data

Student Data: Behavior and Other Indicators

- Attendance data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation

Goals

Goal 1: Increase staff retention

Performance Objective 1: IDEA McAllen will increase retention to be above 85% schoolwide with both instructional and operational staff members.

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Each manager will incorporate a 2 way feedback structure into each operating mechanism (check ins) **Strategy's Expected Result/Impact:** Staff retention **Staff Responsible for Monitoring:** Principal **Title I:** 2.4 **- TEA Priorities:** Recruit, support, retain teachers and principals	100%	100%	100%	

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: Conduct 2 formal touchpoints by Principal each year with 100% of staff members and implement 2-3 schoolwide changes based on feedback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Utilize feedback from touchpoints and take formal action based on what was heard most frequently **Strategy's Expected Result/Impact:** GPTW results will improve during spring administration **Staff Responsible for Monitoring:** Principal, PIR, instructional staff				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: IDEA McAllen Campus meets or exceeds enrollment target, as set by the IPS Board of Directors, by the homeroom period on the 11th day of school of the 2023-2024 school year

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Assist with recruitment and persistence efforts **Strategy's Expected Result/Impact:** Students attend and graduate from a college or university **Staff Responsible for Monitoring:** APO **Title I:** 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals, Connect high school to career and college				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Increase 3rd reading STAAR & 3rd grade math STAAR performance

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Ensure first time teach is strong, fidelity to rehearsals and strong leader lesson plan feedback **Strategy's Expected Result/Impact:** Results will improve-90/60/30 **Staff Responsible for Monitoring:** API **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: Increase math performance in grades 3-5 to ensure 100% of targets in Domain 3 are met

Goal 3: IDEA achieves an A rating

Performance Objective 3: 60%+ of our Special Education students will hit "meets" targets

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide targeted instruction based on individual needs-utilize remediation and reteach strategies daily (or as needed) to reach mastery on the concept **Strategy's Expected Result/Impact:** Increase in student meet performance **Staff Responsible for Monitoring:** PIR **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 4: Meet 42% goal of EB students growing one or more levels on TELPAS to meet TELPAS indicator for accountability

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: All grades Kinder-5th will ensure EB students meet 42% benchmark or higher **Strategy's Expected Result/Impact:** Meet TELPAS indicator for 22-23 accountability **Staff Responsible for Monitoring:** Instructional Staff, EL Coordinator, Testing Coordinator **Title I:** 2.6 **Problem Statements:** Student Learning 1 **Funding Sources:** - Federal Grant - $55,500, - Federal Grant - $57,499.99, - Federal Grant - $40,692.96	45%			

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 4 Problem Statements:

Student Learning
Problem Statement 1: Students have demonstrated poor writing skills and poor command of English tenses and grammar in their student responses. Students have not demonstrated strong justification skills when speaking orally or in their writing. **Root Cause**: Our students poor writing skills are influenced by a combination of factors that include re-assignments of teachers, teacher training, school culture of accountable talk, and in-service training.

Goal 4: Increase student daily attendance

Performance Objective 1: 100% of students absent will be contacted on a daily basis to ensure parent accountability and fidelity with district escalation matrix

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Utilize grade level chats and leverage both teachers and leaders to invest parents in being at school everyday and follow up as needed to ensure healthy attendance patterns **Strategy's Expected Result/Impact:** Attendance will be above 97% **Staff Responsible for Monitoring:** APO **Title I:** 2.5 **- TEA Priorities:** Build a foundation of reading and math	10%	45%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 4: Increase student daily attendance

Performance Objective 2: Lead team members will meet with high priority students who have excessive absences

Evaluation Data Sources: None

Goal 5: Increase student persistence

Performance Objective 1: 90% of students will persist into the following school year (23-24)

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Create a welcoming environment where students feel a great sense of belonging and WANT to be in school. Students and parents feel safe coming every day. **Strategy's Expected Result/Impact:** Persistence will show an increase from 21-22 **Staff Responsible for Monitoring:** Counselor **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math	75%	75%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 2: Teachers and lead team members will utilize mission list to prioritize students of concern and take action to meet with families and determine root causes and solutions

Annual Performance Objective

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading | Language | (Year 1 Campuses): 80% | 80% | 80%

1G. % of 2nd Students End The Year On/Above Grade Level in Reading (Year 2+ Campuses): 90%

1H. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1I. Average ACT score (Class of 2020, September 2019): 21

1J. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW

2B. %Average Daily Attendance | # Average Daily Attendance: 97.50% | 48,817

2C. Student Persistence: 90%

2D. Operating Income: $101M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 64,455

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Mission Statement

IDEA McAllen College Preparatory aims to change to the future of the students it serves by ensuring they enter college and obtain their degree. We will provide them a world class education that includes a focus on 3 components that we know makes a student successful post high school graduation. Not only are the students held to mastering these components, our teachers, leaders and parents will also be held accountable to supporting these 3 initiatives:

-High Rigor Coursework and Advancement

-Culture of Achievement for All

-World Citizen Perspective

In order to support our students through the challenge of our preparation program, we always keep in mind 2 guiding principles. These 2 ideas remind us to enjoy the process of learning and cherish the gift that it is to work with students.

- Culture of Joy for All
- "We do what is best for students"

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Vision

100% of students graduate 100% college ready and complete college in 4-5 years.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 8, 2022

Demographics

Demographics Summary

At IDEA McAllen College Prep we have 393 middle schoolers (6th, 7th and 8th grade) and 390 high schoolers (9th, 10th, 11th and 12th grade). We were founded in 2012 in McAllen Texas and have been serving students from different communities int he Rio Grande Vally.

We are an open enrollment charter school that has a unique and challenging curriculum. Once in high school students challenge over 13 AP exams and then transitioninto the International Baccalareate DP program.

Our programs include Special Educaiton, Critical Student Intervention, The Arts - Art, Music and Theatre, Athletics - Football, Volleyball, Baseball, Softball, Soccer, Track, Cross Country, Basketball, Golf and Power lifting. These programs support the students in their academics or provide an outlet for expression and development of the whole child.

See PDF in Addendum for more information.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need for stronger teacher/family communication. Our end of year survey revealed that parents felt this was a big school weakness. **Root Cause:** 1. Lack of systems and procedures on the administration level to hold teachers accountable to routine connection with parents. 2. Lack of scheduled events that invite parents into school and provides access to teachers.

Problem Statement 2 (Prioritized): There was a significant trend in student behavior concerns that resulted in expulsions or withdrawal to preempt expulsions. This affected persistence drastically. **Root Cause:** 1. Lack of consistent and clear communication around school code of conduct and the expectations of our campus. 2. Lack of student presentations to education on the dangers of illegal activity and the potential consequences at school.

Problem Statement 3: There is a need to improve frequency and quality of student engagement events. Persistence has been below goal for 2 years in a row. **Root Cause:** 1. Lack of

start of year planning of events due to COVID protocols.

Student Learning

Student Learning Summary

IDEA McAllen has excelled when it comes to student achievement. For the 21-22 school year we had the following results as per TEA:

Overall 97

Student Achievement 96

School Progress 95

Closing the Gaps 100

IDEA McAllen College Prep received all 7 out of 7 distinctions.

Our data shows that most of our students get approaches or above in all exams (91%) with only 2 subpops deviating the most (Special Ed 82) and Special Ed former 71.

Graduation rate 4 year - 100%

Annual Drop out rate - .02%

CCMR - 99%

See PDF Addendum for more information.

Student Learning Strengths

See PDF Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There is a lack of support for the large group of non-English speaking new students who will need significant intervention to be successful **Root Cause:** 1. Our staff is not set up/trained for supporting such a large cohort 2. Our English language acquisition support is focused mainly in grade 6-8, we need to adjust to the large number of high schoolers.

Problem Statement 2 (Prioritized): The data reveals math to be our weakest performing subject during the 21-22 STAAR season. **Root Cause:** 1. Weak foundational skills in students who mostly virtual during 20-21. 2. There is a lack of training and consistency in our middle school math teacher staff

Problem Statement 3: There is little to no growth in certain AP subjects that are considered hard, AP Physics, Gov, Economics **Root Cause:** 1. We have not prioritized the training and resource attainment for these classes because of competing priorities. 2. Teachers have not been motivated because of lack of exemplars in their subject.

School Processes & Programs

School Processes & Programs Summary

The instructional leaders (Assistant principals of instruction) are coached and managed by the principal with the support of the regional staff. We meet every monday for 3 hours to complete instructional rounds where we norm on instructional rating and provide support to each other for coaching teachers. We also have weekly coaching conversations and a meeting at the end of the week to review our weekly instructional progress

Each of the 3 leaders are given grade levels to coach and manage:

API 1 - Middle school 6-8

API 2 - 9th and 10th and all AP courses

API 3 - 11th and 12th and all IB courses

Professional development is planned using the input of the instructional team and the grade team/content team leaders. All of these campus leaders provide their input to the principal and then the principal executes according to the feedback.

Action steps include:

-Increased teacher coaching frequency

-Differentiated professional development

-Increased praise

-On the spot feedback

The programs at our campus including athletics, UIL, the Arts and 21st century meet biweekly to ensure that safety and mission focus are maintained. The principal is in charge of making sure all programs push towards the high expectations set by him/her at the start of the year.

See PDF in Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can

provide the talent needed to be successful

See PDF in Addendum for more information

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): There is a lack of state certified teachers, especially those with ESL or bilingual certification **Root Cause:** 1. Our campus has not incentivized or encouraged our teachers to become certified 2. We have not provided an avenue or the space for teachers to reasonably do their job and prepare for ACP.

Problem Statement 2 (Prioritized): There is a lack of new teacher support when it comes to helping them balance their management/planning with their other responsibilities. **Root Cause:** 1. Administration has not planned out the training for a new teacher, the time given to them to accomplish goals and advice for balancing it all

Perceptions

Perceptions Summary

Graduation rate by groups

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): There is a lack of opportunities for families to visit school and provide feedback **Root Cause:** 1. Fear of COVID and unwillingness to take risks 2. Limited campus meeting space that is shared with Academy

Problem Statement 2 (Prioritized): There is a lack of communication with parents about grades and progress **Root Cause:** 1. Lack of school infrastructure and time dedicated to making calls (only conference periods)

Priority Problem Statements

Problem Statement 1: There is a need for stronger teacher/family communication. Our end of year survey revealed that parents felt this was a big school weakness.

Root Cause 1: 1. Lack of systems and procedures on the administration level to hold teachers accountable to routine connection with parents. 2. Lack of scheduled events that invite parents into school and provides access to teachers.

Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a lack of support for the large group of non-English speaking new students who will need significant intervention to be successful

Root Cause 2: 1. Our staff is not set up/trained for supporting such a large cohort 2. Our English language acquisition support is focused mainly in grade 6-8, we need to adjust to the large number of high schoolers.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: There is a lack of state certified teachers, especially those with ESL or bilingual certification

Root Cause 3: 1. Our campus has not incentivized or encouraged our teachers to become certified 2. We have not provided an avenue or the space for teachers to reasonably do their job and prepare for ACP.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: There is a lack of opportunities for families to visit school and provide feedback

Root Cause 4: 1. Fear of COVID and unwillingness to take risks 2. Limited campus meeting space that is shared with Academy

Problem Statement 4 Areas: Perceptions

Problem Statement 5: There was a significant trend in student behavior concerns that resulted in expulsions or withdrawal to preempt expulsions. This affected persistence drastically.

Root Cause 5: 1. Lack of consistent and clear communication around school code of conduct and the expectations of our campus. 2. Lack of student presentations to education on the dangers of illegal activity and the potential consequences at school.

Problem Statement 5 Areas: Demographics

Problem Statement 6: The data reveals math to be our weakest performing subject during the 21-22 STAAR season.

Root Cause 6: 1. Weak foundational skills in students who mostly virtual during 20-21. 2. There is a lack of training and consistency in our middle school math teacher staff

Problem Statement 6 Areas: Student Learning

Problem Statement 7: There is a lack of new teacher support when it comes to helping them balance their management/planning with their other responsibilities.

Root Cause 7: 1. Administration has not planned out the training for a new teacher, the time given to them to accomplish goals and advice for balancing it all

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: There is a lack of communication with parents about grades and progress

Root Cause 8: 1. Lack of school infrastructure and time dedicated to making calls (only conference periods)

Problem Statement 8 Areas: Perceptions

Strategy 4: Use 2 Interventionist to work with CSI students of need daily to increase reading scores **Strategy's Expected Result/Impact:** Increase STAAR reading scores in 6-10th grade **Staff Responsible for Monitoring:** API **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 1 **Funding Sources:** Interventionist - Federal Grant - $62,500				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: There is a need for stronger teacher/family communication. Our end of year survey revealed that parents felt this was a big school weakness. **Root Cause**: 1. Lack of systems and procedures on the administration level to hold teachers accountable to routine connection with parents. 2. Lack of scheduled events that invite parents into school and provides access to teachers.
Problem Statement 2: There was a significant trend in student behavior concerns that resulted in expulsions or withdrawal to preempt expulsions. This affected persistence drastically. **Root Cause**: 1. Lack of consistent and clear communication around school code of conduct and the expectations of our campus. 2. Lack of student presentations to education on the dangers of illegal activity and the potential consequences at school.

Student Learning
Problem Statement 1: There is a lack of support for the large group of non-English speaking new students who will need significant intervention to be successful **Root Cause**: 1. Our staff is not set up/trained for supporting such a large cohort 2. Our English language acquisition support is focused mainly in grade 6-8, we need to adjust to the large number of high schoolers.

Student Learning
Problem Statement 2: The data reveals math to be our weakest performing subject during the 21-22 STAAR season. **Root Cause**: 1. Weak foundational skills in students who mostly virtual during 20-21. 2. There is a lack of training and consistency in our middle school math teacher staff
Perceptions
Problem Statement 1: There is a lack of opportunities for families to visit school and provide feedback **Root Cause**: 1. Fear of COVID and unwillingness to take risks 2. Limited campus meeting space that is shared with Academy
Problem Statement 2: There is a lack of communication with parents about grades and progress **Root Cause**: 1. Lack of school infrastructure and time dedicated to making calls (only conference periods)

Goal 4: Increase student daily attendance

Performance Objective 1: By June 2023, the percent of students who are considered 'healthy' by BMI will be 5 points higher.

High Priority

20.40	20.7	46%	30%	25%	100%

Reflections

Areas of Strength	Areas of Need
1 Individualized college application, financial, and matriculation process for each student. Focus on matching student tier and financial needs with appropriate fit for each student.	1. Developing college going identities in MS and lower CP grade levels. No plan or attempt to fill gap years in Field Lessons that were put on hold due to COVID.
2. Strategic Planning is one of our greatest strengths. We plan accordingly for goals and set benchmarks to ensure progress to goal is being met. Setting deadlines to check on progress has allowed us to be successful in QAC and Financial Aid process.	2. Area of Growth would be incorporating more ACT strategies and instruction in the classroom. Teacher collaboration between CC Team can be improved to work together towards goals such as ACT that would benefit one another.
3 Communication with all stake holders to ensure students complete all necessary tasks throughout the year. This ensures students matriculate come the start of their fall semester of college.	3 Area of growth would be to start TSI testing earlier in the year. This will allow students to be TSI exempt earlier and will not have to worry about it in May. Waiting until the end also adds more pressure to students as they already have IB exams during the month of May.

Reflections	
Areas of Strength	**Areas of Need**
1 Provided new family sessions in the fall	1 COVID restrictions during first few months made planning events very difficult. Need clearer guidance on what is allowable in the coming year, especially with fiscal constraints
2 Larger variety of sports and other events that families were able to engage in	2. Need more opportunities for families to visit school and provide feedback

IDEA Public Schools

Mesa Hills Academy

2022-2023 Campus Improvement Plan

Accountability Rating: C

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: December 2, 2022

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"

- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Enrollment numbers are decreasing. We have seen the highest persistence leavers during summer months (June-August). **Root Cause:** Scholars in the Mesa Hills community are attracted to early college and dual credit options. For the community, the idea of graduating with an associates degree has more value than attaining AP credit.

Problem Statement 2 (Prioritized): Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system. **Root Cause:** The campus does not have a clear and consistent discipline management system.

Priority Problem Statements

Problem Statement 1: EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars.

Root Cause 1: A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Special Education scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars.

Root Cause 2: A significant increased of Special Education scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Problem Statement 2 Areas: Demographics

Problem Statement 3: RTI is not being implemented effectively. No clear communication between SEL department and instructional team.

Root Cause 3: Root Cause Ownership at the campus levels was associated with the counseling department.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: While there is strong TEKS alignments, the campus has gaps implementing the ELPS.

Root Cause 4: No clear vision for ELPS and EB support across campus.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Enrollment numbers are decreasing. We have seen the highest persistence leavers during summer months (June-August).

Root Cause 5: Scholars in the Mesa Hills community are attracted to early college and dual credit options. For the community, the idea of graduating with an associates degree has more value than attaining AP credit.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system.

Root Cause 6: The campus does not have a clear and consistent discipline management system.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Communication is not being implemented effectively. No clear communication between School and Families

Root Cause 7: Ownership at the campus levels was associated with the lack in communication.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Unclear vision to reduce the threat of bullying. High volume of family and student reported bullying concerns led to persistence concerns.

Root Cause 8: The campus does not have a clear and consistent vision to educate all stakeholders on bullying. Campus does not have a clear protocol to address bullying when reported.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Observation Survey results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Section 504 data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback

- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Revised/Approved: September 9, 2022

Goal 1: Increase staff retention 90%

Performance Objective 1: Mesa Hills Academy will retain 85% of employees for the 22-23 school year.

High Priority

Evaluation Data Sources: Locus dashboard for retention

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Setting up a clear process in which teachers can give feedback and input e.i. specified office hours for feedback, feeback meetings for specific and relevant subjects, quarterly surveys **Strategy's Expected Result/Impact:** engagement **Staff Responsible for Monitoring:** Lead team **TEA Priorities:** Recruit, support, retain teachers and principals	100%	100%	20%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Bring Joy to Teachers and Staff **Strategy's Expected Result/Impact:** * Support the teachers by following up with materials needed to set the teacher up for success on their lesson delivery (e.g., manipulatives, supplemental aids, etc.) * Emphasize the glows and shout outs **Staff Responsible for Monitoring:** Lead Team **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture	100%	100%	100%	

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention 90%

Performance Objective 2: WE Bring Joy

High Priority

HB3 Goal

Evaluation Data Sources: GPTW data

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of Mesa Hills Academy will be accepted to a 4 year college or university of their choice

High Priority

Evaluation Data Sources: Mesa Hills acceptance rate in 2026

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Incentives and differentiation for varying TCP levels i.e. differentiated PD opportunities extra check ins and support for lower TCP levels , influence and public recogntion. **Strategy's Expected Result/Impact:** offering incentives and differentiated support can encourage employees to work to their full potential and more importantly, feel appreciated it. **Staff Responsible for Monitoring:** Lead team **TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA MESA HILLS ACADEMY achieves an A rating

Performance Objective 1: Mesa Hills Achieves an "A" rating

High Priority

Evaluation Data Sources: State assessment STAAR

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Active Monitoring **Strategy's Expected Result/Impact:** Active monitoring: * With teacher, create trackers that the teacher feels effective with. * Include latest data in our trackers to target CFUs (Check for Understandings) and support * Use data to create targeted seating charts with planned pathways for aggressive monitoring. **Staff Responsible for Monitoring:** Lead team **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture, Lever 5: Effective Instruction				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Data Driven Decisions **Strategy's Expected Result/Impact:** * Align w/ teachers to identify foundational gaps and scholars that need prompt support to set them up for targeted intervention. Invest parents by having constant communication on scholar results and goals. * weekly touchpoints/provide leaders w/resources, on-going communication, consistent availability to respond to leaders * Spiral in most critical TEKS into our Do Nows, Exit Tickets, and assessments **Staff Responsible for Monitoring:** Lead Team **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture, Lever 5: Effective Instruction **- Targeted Support Strategy - Additional Targeted Support Strategy**				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Effective and Purposeful 1st instruction **Strategy's Expected Result/Impact:** * Unpacking modules and Lesson Internalization * Daily lesson-rehearsals * Flag misconceptions **Staff Responsible for Monitoring:** Lead Team				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA MESA HILLS ACADEMY achieves an A rating

Performance Objective 2: Mesa Hills Academy will earn a 90/60/30 3rd and 4th STAAR math and Ela by EOY

High Priority

HB3 Goal

Evaluation Data Sources: Semester and Mock exam

Summative Evaluation: Some progress made toward meeting Objective

Comprehensive Needs Assessment

Demographics

Demographics Summary

6th: White (7), Black (1), Hispanic (59), Asian (1)

7th: American Indian (1), Asian (1), Black (4), Hispanic (74), White (2)

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): 6th grade enrollment continues to be problematic, as well as 9th **Root Cause:** Families are electing for traditional school districts in 6th grade for UIL experiences, and in 9th grade for both UIL and dual credit options.

Problem Statement 2 (Prioritized): EB enrollment has become a concern as well. **Root Cause:** Families are electing for traditional districts that specifically offer dual language programming.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Campus lacks effective Pre-AP preparation which will result in sub par AP scores. **Root Cause:** Poor onboard and implementation for AP instructional strategies in 7th and 8th grade.

Problem Statement 2 (Prioritized): EB curriculum and programming only manifests itself in Direct Instruction program DICE. **Root Cause:** Campus must contract and implement effective SIOP training.

Priority Problem Statements

Problem Statement 1: Campus offered no fine arts programming.
Root Cause 1: Campus had not contracted vendors offering quality music programming.
Problem Statement 1 Areas: Perceptions

Problem Statement 2: Campus has not met persistence goal in the past 3 academic years.
Root Cause 2: Campus deployed a punitive discipline system leading to families upset with overall campus culture.
Problem Statement 2 Areas: Perceptions

Problem Statement 3: EB curriculum and programming only manifests itself in Direct Instruction program DICE.
Root Cause 3: Campus must contract and implement effective SIOP training.
Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Campus lacks effective Pre-AP preparation which will result in sub par AP scores.
Root Cause 4: Poor onboard and implementation for AP instructional strategies in 7th and 8th grade.
Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Special education performance acquired achievement scores between 25 and 40.
Root Cause 5: Inclusion teachers must become highly skilled in writing instruction and not only math and reading curriculums.
Problem Statement 5 Areas: Student Learning

Problem Statement 6: Inefficient RTI application.
Root Cause 6: Lack of quality onboard for teachers as they navigate Move this World Social emotional curriculum.
Problem Statement 6 Areas: Student Learning

Problem Statement 7: EB enrollment has become a concern as well.
Root Cause 7: Families are electing for traditional districts that specifically offer dual language programming.
Problem Statement 7 Areas: Demographics

Problem Statement 8: 6th grade enrollment continues to be problematic, as well as 9th
Root Cause 8: Families are electing for traditional school districts in 6th grade for UIL experiences, and in 9th grade for both UIL and dual credit options.
Problem Statement 8 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

IDEA Public Schools

Mesquite Hills Academy

2022-2023 Campus Improvement Plan

Accountability Rating: Not Rated

Board Approval Date: October 21, 2022
Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

IDEA Mesquite Hills Campus Vision:

Our family puts scholars first by building relationships, creating a culture of achievement, instilling academic risk-taking, and developing a strong work ethic that prepares them for success in college and citizenship.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

IDEA Mesquite Hills is in its founding year. Launching in 2021 we started with PreK, Kinder, 1st and 2nd grades. Every year we will add another grade level till we are fully scaled to 5th grade. We are an open enrollment charter school, non profit, free tuition public school. We started with 412 scholars. We have all special programs, including general sped, RISE sped unit (self contained), 504, Bilingual, and RTI.

Our goal is to ensure every scholar is at or above grade level in reading and in math. We believe our academy provides scholars the fundamental building blocks to set a child on the path to college.

See PDF in Addendum for more information

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): More opportunities for IN PERSON family contact/communication (report card nights, parent/teacher conference nights) **Root Cause:** Limited opportunities for parents to come to our campus were offered.

Problem Statement 2 (Prioritized): More positive reinforcement/incentives for good behavior (play with friend at recess, sit with friend in cafeteria, classroom, student of the week recognition) **Root Cause:** Previous counselor was new and shared and found it hard to prioritize time to create fun events at school.

Problem Statement 3: More extracurricular activities- staff volunteer (after school programs ex: art, spanish, music (singing) **Root Cause:** Funds were prioritized for afterschool care and BOY and closing the achievement gap via tutoring, intersession classes, and Saturday School.

Student Learning

Student Learning Summary

63% of our PreK through 2nd grade met their goal of at or above reading level. Students have made huge strided in decoding, reading fluency and comprehension. In the early grades, this started with letter recognition and sounds. We did very well in Math in Prek they had 100% on level in DISTAR Math. Kinder through 2nd grade had an overall of 87% approaching grade level.

All of our scholars received intervention primarily in reading to close gaps caused by the COVID pandemic. In comparison with other year 1 schools in the district, we were 2% higher that the overall district in DI reading.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): In person training during BOY and on going training/incorpotate aggresive monitoring. Math Coach/Regional Coach visit campus on a regular basis. **Root Cause:** Most all trainings were virtual or via Roadmaps, with very little in person or hands on.

Problem Statement 2 (Prioritized): Alternate tutoring days and intervention times between math and reading for low students **Root Cause:** Reading was prioritized as the initial intervention focus.

Problem Statement 3 (Prioritized): Scholars are properly placed and consistently monitored/flagged throughout the school year by teachers based on data of mastery tests and fluency checkouts. **Root Cause:** Teachers were unfamiliar with program and the data tracking.

Problem Statement 4: Use planning time once a week to unpack upcoming lessons and prepare activities. **Root Cause:** Master schedule did not allow for more that 30 minutes of teacher planning.

Problem Statement 5: More fluency practice, start of book clubs and tracking of AR data in all ELA/Reading classrooms. **Root Cause:** AR and book clubs started late in the year.

School Processes & Programs

School Processes & Programs Summary

We start to develop instrucitonal leaders in the classroom and with grade and content team leaders. We have a Teacher Foundational Leadership program that teachers attend to understand instrucitonal leadership and management of teams. Each teacher leader has a job description with goals.

We start with a scope and sequence for professional development based on the GET (Guidance for Excellent Teaching) and its power strands and rows. We also use the Get Better Faster waterfall to ensure our teachers master certain things in classroom managment and rigor first.

As instructional leaders, we prioritize instructional rounds, following our coaching cycle and taking time to dive into data with data conversations and SWAMS (student work analysis meetings)

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Fidelity to coaching cycle to include the exemplar and modeling. **Root Cause:** Behavior interuptions took away from the coaching cycle of teachers.

Problem Statement 2 (Prioritized): Additional coaching in parent relation building, classroom behavior management and organizational systems for priortization for student results. **Root Cause:** Consistent behavior system not used as a campus. Teacher not taught how to orgnazie work or how to build relationships with parents.

Problem Statement 3: Establish team building inside and outside of work **Root Cause:** Very little team building was implemented into Pd and due to covid, gathering outside of school was not planned.

Perceptions

Perceptions Summary

We had 75% new student retention in our first year as a school. The three major reasons is Military Relocation, Movers to another State or City and Transportations.

When there is conflict we get both sides and ask for a coversation with a mediator. If a leader can not we involve HR.

In our first year we had 85% staff retention. Since it was our first, we do not have a comparison. Teachers and staff do know that the work is extensive with high expectations. Last year, we did have poor teacher attendance mostly due to COVID and other sickness.

87% of our staff Agree with statements that this is a Great Place to Work.

Perceptions Strengths

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Detailed event planning with specifics (vendors, activities, sponsors, communication materials/food) **Root Cause:** Last minute event planning and with no GRPI.

Problem Statement 2 (Prioritized): Individualize the event by class/teacher--find your teacher at the event for your activity/incentive EXC **Root Cause:** Events were not specialized by class, grade level or content.

Problem Statement 3: Capture data for attendees for all family engagement events, quarterly awards, curriculum nights, festivals etc. **Root Cause:** We did not have an effective way to campture how many attendees we had even with the use of RSVP.

Priority Problem Statements

Problem Statement 1: More positive reinforcement/incentives for good behavior (play with friend at recess, sit with friend in cafeteria, classroom, student of the week recognition)
Root Cause 1: Previous counselor was new and shared and found it hard to prioritize time to create fun events at school.
Problem Statement 1 Areas: Demographics

Problem Statement 2: More opportunities for IN PERSON family contact/communication (report card nights, parent/teacher conference nights)
Root Cause 2: Limited opportunities for parents to come to our campus were offered.
Problem Statement 2 Areas: Demographics

Problem Statement 3: In person training during BOY and on going training/incorpotate aggresive monitoring. Math Coach/Regional Coach visit campus on a regular basis.
Root Cause 3: Most all trainings were virtual or via Roadmaps, with very little in person or hands on.
Problem Statement 3 Areas: Student Learning

Problem Statement 4: Alternate tutoring days and intervention times between math and reading for low students
Root Cause 4: Reading was prioritized as the initial intervention focus.
Problem Statement 4 Areas: Student Learning

Problem Statement 5: Scholars are properly placed and consistently monitored/flagged throughout the school year by teachers based on data of mastery tests and fluency checkouts.
Root Cause 5: Teachers were unfamiliar with program and the data tracking.
Problem Statement 5 Areas: Student Learning

Problem Statement 6: Fidelity to coaching cycle to include the exemplar and modeling.
Root Cause 6: Behavior interuptions took away from the coaching cycle of teachers.
Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Additional coaching in parent relation building, classroom behavior management and organizational systems for priortization for student results.
Root Cause 7: Consistent behavior system not used as a campus. Teacher not taught how to orgnazie work or how to build relationships with parents.
Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Detailed event planning with specifics (vendors, activities, sponsors, communication materials/food)
Root Cause 8: Last minute event planning and with no GRPI.
Problem Statement 8 Areas: Perceptions

Problem Statement 9: Individualize the event by class/teacher--find your teacher at the event for your activity/incentive EXC

Root Cause 9: Events were not specialized by class, grade level or content.

Problem Statement 9 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- Campus goals
- HB3 Reading and math goals for PreK-3
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Comprehensive, Targeted, and/or Additional Targeted Support Identification data

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Communications data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% of all 22-23 staff will return on the first day of school for the 23-24 school year.

High Priority

Reflections

Areas of Strength	Areas of Need
1. Student use manipulatives during lessons for hands on activities	1. Complete set of all student workbooks and complete class set required manipulatives for each lesson and grade level.
2. Modeling for students (I do,you do, we do) On the spot coaching for both students and teachers	2. In person training during BOY and on going training/incorpotate aggresive monitoring. Math Coach/Regional Coach visit campus on a regular basis.
3. Backwards planning with unpacking the lesson, implementing lesson modifications when needed	3. Intervention days for 1st and 2nd during tutoring (Ex: alternate tutoring days between math and reading for low students.)

Reflections

Areas of Strength	Areas of Need
1. Constant training throughout the year of DI with Robyn (NIFDI) on lesson delivery, correction procedures and sounds to ensure co-teachers are trained incase of any needed coverage.	1. Complete class sets of module textbooks for Wit & Wisdom for every teacher.
2. Script Practice, held throughout the week help strengthen lesson delivery.	2. Assign a Coach, or GTL to New to IDEA teachers to ensure Lesson Delivery, DI Online, Leading Script Practice, Leading Grade Team Meetings is done correctly as of first day of instruction.
3. Backwards Planning weekly to ensure goals are targeted and met throughout the school year.	3. Scholars are properly placed and consistently monitored/flagged throughout the school year by teachers based on data of mastery tests and fluency checkouts.

Reflections

Areas of Strength	Areas of Need
1. Curriculum is very well organized and with a schedule that allows for consistent lesson progression.	1. Accurate materials for our curriculum.
2. Curriculum has fun and interactive experiements that keep students engaged.	2. Science curriculum textbooks
3. Co teachers for PreK and Kinder were given ownership of the curriculum.	3. Time during summer PD to unpack lessongs for the year (semester).
	4. Use planning time once a week to unpack upcoming lessons and prepare activities.
	5. Content leader for science for all grades to ensure that all grades are on track, answer teacher questions, and ensure we have proper materials

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics Strengths

Size of the campus gives the opportunity for students to have an individualized learning approach in all core subjects.

Our campus will continue to grow every year and scale from 6th grade to 12th grade.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): IDEA Mesquite Hills CP enrollment is impacted due to the lack of opportunity to be transported. **Root Cause:** IDEA does not offer transportation.

Problem Statement 2 (Prioritized): Mesquite Hills CP is in a high traffic location with minimal city pedestrian safety measures. **Root Cause:** City developers have not been implemented or established.

Problem Statement 3 (Prioritized): IDEA Mesquite Hills CP persistence is impacted due to the lack of opportunity to be transported. **Root Cause:** As a launching campus, we do not offer all grade levels

Student Learning

Student Learning Summary

Students need a student achievement score on relative performance of 55 or greater in math and reading to be on track of an A rated campus:

Student Learning Strengths

1. Visuals that support all students, especially students who are in special education, 504, and who are emergent bilingual.

2. Classrooms are set in cooperative seating to help with students in listening and speaking.

3. Students have an electronic device to support with visuals and in preparation to the STAAR.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Having students to be present at school 90% of the year has been a challenge. **Root Cause:** Communication between the school and the parent.

Problem Statement 2 (Prioritized): Parents are not able to send students to school when they are not able to transport. **Root Cause:** Not having transportation

Problem Statement 3 (Prioritized): IDEA Mesquite Hills CP persistence is impacted due to the lack of opportunity to be transported. **Root Cause:** As a launching campus, we do not offer all grade levels

Problem Statement 4 (Prioritized): 1 of 17 Scholars identified in special education met the Reading Language Arts target. **Root Cause:** Retention of sped staff.

Problem Statement 5 (Prioritized): The increase of special education students with different disabilities, such as autism. **Root Cause:** Not having a fulltime specialists at our campus.

School Processes & Programs

School Processes & Programs Summary

Mesquite Hills College Prep has established systems that support curriculum and instruction, Special Programs, SEL/ Mental Health, and Family Engagement.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): 1 of 17 Scholars identified in special education met the Reading Language Arts target. **Root Cause:** Retention of sped staff.

Problem Statement 2 (Prioritized): The increase of special education students with different disabilities, such as autism. **Root Cause:** Not having a fulltime specialists at our campus.

Problem Statement 3 (Prioritized): IDEA Mesquite Hills CP enrollment is impacted due to the lack of opportunity to be transported. **Root Cause:** IDEA does not offer transportation.

Problem Statement 4 (Prioritized): Mesquite Hills CP is in a high traffic location with minimal city pedestrian safety measures. **Root Cause:** City developers have not been implemented or established.

Problem Statement 5 (Prioritized): IDEA Mesquite Hills CP persistence is impacted due to the lack of opportunity to be transported. **Root Cause:** As a launching campus, we do not offer all grade levels

Problem Statement 6 (Prioritized): Having students to be present at school 90% of the year has been a challenge. **Root Cause:** Communication between the school and the parent.

Problem Statement 7 (Prioritized): Parents are not able to send students to school when they are not able to transport. **Root Cause:** Not having transportation

Problem Statement 8 (Prioritized): IDEA Mesquite Hills College Prep does not have a parent volunteer group. **Root Cause:** IDEA Mesquite Hills has not provided the opportunity for parents to engage in a parent group.

Problem Statement 9 (Prioritized): IDEA Mesquite Hills College Prep does not have partners in education that support the campus. **Root Cause:** IDEA Mesquite Hills College Prep has not extended the support to our partners to support at our campus.

Perceptions

Perceptions Summary

Mesquite Hill College Prep has monthly parent and staff surveys to provide feedback on our school culture.

Perceptions Strengths

Mesquite Hills College Prep provide multiple opportunities for community engagement to include:

1. Award Ceremonies and Recoginitions

2. Town Hall -Coffee with the Principals

3. Cultural and Ethic Celebrations

4. Curriculum Nights

Mesquite Hills is committed to providing scholars with a learning environment conducive to a phyiscally and emotional safe school.

1. Implementing SEL lesson

2. Having monthly safety drills.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): IDEA Mesquite Hills College Prep does not have a parent volunteer group. **Root Cause:** IDEA Mesquite Hills has not provided the opportunity for parents to engage in a parent group.

Problem Statement 2 (Prioritized): IDEA Mesquite Hills College Prep does not have partners in education that support the campus. **Root Cause:** IDEA Mesquite Hills College Prep has not extended the support to our partners to support at our campus.

Problem Statement 3 (Prioritized): IDEA Mesquite Hills CP enrollment is impacted due to the lack of opportunity to be transported. **Root Cause:** IDEA does not offer transportation.

Problem Statement 4 (Prioritized): Mesquite Hills CP is in a high traffic location with minimal city pedestrian safety measures. **Root Cause:** City developers have not been implemented or established.

Problem Statement 5 (Prioritized): IDEA Mesquite Hills CP persistence is impacted due to the lack of opportunity to be transported. **Root Cause:** As a launching campus, we do not offer all grade levels

Problem Statement 6 (Prioritized): Having students to be present at school 90% of the year has been a challenge. **Root Cause:** Communication between the school and the parent.

Problem Statement 7 (Prioritized): Parents are not able to send students to school when they are not able to transport. **Root Cause:** Not having transportation

Problem Statement 5: Parents are not able to send students to school when they are not able to transport.
Root Cause 5: Not having transportation
Problem Statement 5 Areas: Student Learning - School Processes & Programs - Perceptions

Problem Statement 6: 1 of 17 Scholars identified in special education met the Reading Language Arts target.
Root Cause 6: Retention of sped staff.
Problem Statement 6 Areas: Student Learning - School Processes & Programs

Problem Statement 7: The increase of special education students with different disabilities, such as autism.
Root Cause 7: Not having a fulltime specialists at our campus.
Problem Statement 7 Areas: Student Learning - School Processes & Programs

Problem Statement 8: IDEA Mesquite Hills College Prep does not have a parent volunteer group.
Root Cause 8: IDEA Mesquite Hills has not provided the opportunity for parents to engage in a parent group.
Problem Statement 8 Areas: School Processes & Programs - Perceptions

Problem Statement 9: IDEA Mesquite Hills College Prep does not have partners in education that support the campus.

Root Cause 9: IDEA Mesquite Hills College Prep has not extended the support to our partners to support at our campus.

Problem Statement 9 Areas: School Processes & Programs - Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Federal Report Card and accountability data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Compass Learning accelerated reading assessment data for Grades 6-8 (TEA approved statewide license)
- Running Records results
- Observation Survey results
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data

- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: Great Places to Work Survey will indicated that 80% of teachers and staff will rate IDEA Mesquite Hills CP as a physical and emotional safe school.

High Priority

Evaluation Data Sources: Great Places to Work Survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Culture of Joy *Monthly Core Value Awards * Thank you notes every 3 weeks. * Quarterly Team and Family nights * Building Relationships and Culture of Joy through Teacher Awards during Diamondback Rallies **Strategy's Expected Result/Impact:** 85% Staff Retention **Staff Responsible for Monitoring:** Admin Assistant				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Communication: * Teacher weekly "Diamondback Notes". * Teacher surveys that focus on successes and identify areas of support. * Weekly check-in's that focus on 2 way feedback and areas of support. * Involve teachers in the decision-making -Rallies, community events, tutoring,and scholar celebrations **Strategy's Expected Result/Impact:** 85% Staff Retention **Staff Responsible for Monitoring:** Principal and Assistant Principal of Instruction				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: 100% Enrollment FDOS

Performance Objective 1: We will be at 100% enrolled by first day of school by having ongoing recruitment events throughout the year and have 2 super recruitment days.

High Priority

Evaluation Data Sources: Stream

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Recruitment events and Parent/Scholar Touchpoints: * Schedule Campus Tours * Family Engagement Events at the local park or soccer field. * Have parents observe classroom instruction and campus culture. * Highlight events through social media * Have a touchpoint tracker to identify attendance trends. * Schedule curriculum and info nights with current teachers. * Invite scholars and parents to sports events. **Strategy's Expected Result/Impact:** FDOS at 100% **Staff Responsible for Monitoring:** Assistant Principal of Operations and Principal	45%	75%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: 90 percent of students will approach, 60 % will meet, and 30% will master current grade-level courses in Math and Reading or will attain a student achievement score on domain 2 of a 55 or greater.

High Priority

Evaluation Data Sources: STAAR Assessment

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use Co-Teacher intervention for critical student intervention pull-out groups. **Strategy's Expected Result/Impact:** 2 years reading growth **Staff Responsible for Monitoring:** Principal **Title I:** 2.4, 2.5, 2.6 - **TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Student Learning 4 - School Processes & Programs 1 **Funding Sources:** - Federal Grant				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Data Accountability: * Saturday Teacher Academies for Domain 1,2,3. * Reteach students who did not meet 75% of exit ticket criteria during current day's tutorial hours to focus on exit ticket instructional gap. 45-minute weekly check in's to review and analyze data. * Identify common misconceptions of students through daily, weekly exit tickets, assessments and find areas to reteach. * Reteach roll-out calendar to close the gap **Title I:** 2.4, 2.5, 2.6, 4.2				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Tier 1 instruction: Lesson planning, Observation and Feedback, and Coaching, **Strategy's Expected Result/Impact:** 90% approaches, 60%meets, and 30% of masters. **Staff Responsible for Monitoring:** Principal, Assistant Principal, and Teachers. **Title I:** 2.4, 2.5				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 4: 1 of 17 Scholars identified in special education met the Reading Language Arts target. **Root Cause**: Retention of sped staff.
School Processes & Programs
Problem Statement 1: 1 of 17 Scholars identified in special education met the Reading Language Arts target. **Root Cause**: Retention of sped staff.

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Mesquite Hills CP will maintain a 97% average every nine weeks.

High Priority

Evaluation Data Sources: ADA Matrix and Power School ADA Report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Establish an Attendance Escalation Matrix that will have levels of communication. **Strategy's Expected Result/Impact:** De-escalate the impact and increase of absences. **Staff Responsible for Monitoring:** All Teachers, Registrar, Assistant Principal, and Principal	50%	75%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Be at 90% student persistence

Performance Objective 1: IDEA Mesquite Hills will maintain 90% of students every nine weeks.

High Priority

Evaluation Data Sources: 1. Mission List Matrix
2. Student and parent surveys ever 9 weeks.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Positive Calls: * Block 6 persistence calls per week (approx..72 by End of Sem. 1) * Follow persistence calls protocol * Identify priority students and collaborate with counselor **Strategy's Expected Result/Impact:** 90% persistence **Staff Responsible for Monitoring:** Principal, API, Counselor, Teachers	0%	100%	100%	

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 5: Be at 90% student persistence

Performance Objective 2: Provide 100% of guidance lesson for school safety and violence prevention.

High Priority

Evaluation Data Sources: Counselor sign in/calendar and attendance

Reflections

Areas of Strength	Areas of Need
1. Specific genre reading strategies.	1. Increase the amount of small group instruction.
2. Consistent practice with finding text evidence, through reading and showing through writing.	2. Increase student ownership of learning.
3. Data analysis to identify misconceptions.	3 Make students more aware of their growth goal and progress through the year
4. Creating lesson plans that address the misconceptions.	4. Continue to collaborate with other content classes and implement strategies
5. Teaching explicit testing strategies.	5. Student conferences/Data Convos to discuss progress towards goals.
6. Excessive practice with reading, strategies, and testing.	6. Creating more STAAR aligned exit tickets.
7. Collaborating specific intervention strategies	7. Communication with parents on student reading progress throughout year
8. Creating an accepting classroom environment.

Reflections

Areas of Strength	Areas of Need
1. Intervention throughout the day.	1. Including speaking assignments into the ELA curriculum, such as presentations, socratic seminars, rigorous small group discussion.
2. Reading strategies throughout content areas	2. Practice formal grammar, spelling, and writing exercises on a regular basis.
3. Afterschool tutoring	Incorporate more TELPAS-like writing samples throughout classes to familiarize them with free writing
4. Reading Selections in Wit and Wisdom	4. Do more oral presentation assignments to stregthen their presentation and speaking s
5. Setting academic expectations	5.For speaking, having smaller testing groups because scholars are just embarassed to speak in front of their friends. More practice tests.
6. Systems and procedures	7. Students can answer in complete sentences during class both speaking and writing. Ac
7. Incentives -AR lock-in , Friday incentives, Urban Air	8.Teacher models speaking strategies
8. Independent Reading	9. Assigning writing homework that can be mastered.
9. Homework Assignments	10.Teachers preparation on writing/listening/speaking lessons.
10. CSI intevention	11.Creative Writing in all subjects
11. Presentations	12. Start a Toastmasters Speech Club - Students learn how to communicate and deliver different type of speeches.

Reflection	
Areas of Strength	Areas of Need
1. Consistent celebration of teacher achievments.	1.Have a clear time schedule. For instance, everyday end of day is at 5:15pm, so that teachers can automatically expect meetings after school.
2. Strong collaboration between content classes (ex. Math in PE) creates strong teamwork	3 Continue to provide coverage/support in class when a team member needs it.
3. Strong Team and Family Culture	4. Teambuilding PD's / Retreats
4 We have a great support system between each other	5. Having a work/home balance.
5. The help received from the moment we get here and constant feedback is great.	6. The amount of information given through videos (roadmaps), would be better in person and hands-on.
6. Having support in and out of the classroom for SpEd and non SpEd material.	7. Training for incoming SpEd Personnel
7. In-class support/training.	8. Training for incoming teachers (so they receive same training as teachers in August)
8. Communication is strong	9. Hiring process and onboarding
	10. Continue to provide checkin or checkins with each other (cross- curricular checkins)

Reflections

Areas of Strength	Areas of Need
1. Creating joy in and outside of the classroom, such as fun in class activities, snow day fun, field days, etc.	1. Consistent behavior expectations for each class.
2 There is equity across how we treat scholars and treat staff	2 Continue to incentivize good behavior with Class Dojo
3 We celebrate student and staff achievements regularly	3. Do not punish the whole group when its only a certain few
4 Strong culture of achievement from the beginning & we deliver results. Also delivering Joy	4. Alternate with the staff for fundraisers/celebrations to host more for st
5. Being consistent with what we expect from scholars.	
6. Respecting each other's ideas and opinions and those of the students as well	7 Diverse groups (student grouping)
7 High expectations and a clear vision	8. Separate big celebration and awards
	9. Recognize teachers and students more often through student of the week or teacher of the month, etc., as part of teacher motivation
8. Treated everyone equally (core values)	
9. High expectations were set, taught and applied throughout the year.	10. Diverse Staff (gender/ethnicity)
10.Building relationships with students	11.Increase Positive Reinforcemet Towards Scholars
11. High motivation to staff	12. Focus more on students who get it right instead of those who don't
12.Responsive to Parents	13. Positive incentives for students like sitting with friends in cafeteria
13. Team Communication	
14. Constant culture resets when culture did not met expectations.	
15. Activities planned for scholars and parents (rally, soccer outing, athletes vs staff, etc.	

IDEA Mesquite Hills

% Families Attended WTI	35/61 57.4%
% Families Attended Curriculum Night	51/98=53%
% Families Who Attended EOY Ceremonies	79/ 98 81%
% Families who attended Fall Festival	180/450 40%
% Families who attended Winter Festival	262/462 56.7%
% Families who attended Spring Festival	15 /98 15%

Reflection	
Areas of Strength	Areas of Need
1. Consistent family communication, such as parent weekly.	1. Have 2 report card nights, add a parent/teacher conference night midyear.
2. Communication (phone calls, remind, text messages) with parents□	2 Fun activities for students like the egg hunt for all scholars not only academy.□
3 Getting the students excited for these events so they are more likely to want to bring their family/friends	3 Create more in school events such as lunch with a parent for ADA incentives
4. Good organization and team communication/collaboration. (Having a minute by minute schedule, GRPI, walkie-talkies)	4. Quarterly Townhall Meetings to address parent concerns and inform them of upcoming events.
5. Well planned events and family and staff donations	5. Need parent volunteers or more help from staff.
6. Events that invited families and friends	6. Parent awareness on current events.
7 Communication (phone calls, remind, text messages) with parents	7 Fun activities for students like the egg hunt for all scholars not only academy.
8.Promoting the event through Remind/Social Media	8. Showcase student work from class/extracurricular activities. Gallery Walk throughout hallway
9. Efficient planning ahead of time	9.More events in which all parents are invited not just a selected few
10. Sending out invitations to parents for award ceremonies instead of a simple remind/text	10. Advertise all comunity events through social media (robotics, athletics, literacy nights, etc.
11. Constant support and teamwork between the staff to assign different roles and responsibilitie	11. Host more events like the super recruitment in which we had a basketball game and campus tours.
	12. Have a pep rally or event in which there can be competitions between parents/teachers/and students

IDEA Public Schools

Mission Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 8, 2022

Demographics

Demographics Summary

IDEA Academy Mission (IA Mission) is a pre-Kindergarten to 5th Grade, Title I elementary school serving 843 students located in the Rio Grande Valley of Texas. IA Mission is located in the small, primarily Hispanic, low-income community of Mission, Texas, situated about three miles from the United States-Mexico border. More than 95% of students are Mexican-American or Mexican Nationals and 100% are eligible to participate in the National School Lunch Program.

IA Mission was founded in 2008 on the belief that, when the adults in the system get it right, each and every child, regardless of circumstance, should receive a high-quality education that prepares them for success in college and citizenship. To that end, IA Mission campus leaders hold each of its 55+ staff members accountable to meeting ambitious goals that drive student learning outcomes and boost academic achievement. With a relentless focus on college, the carefully curated elementary program moves students from teacher-led instruction to a student-driven program while enhancing the individualization of instruction with technology-assisted learning, character education, and extra- and co-curricular activities. The ultimate goal is to design and implement a model that gets students on-grade level in order to lead them to college preparedness.

See PDF in addendum for more infomration.

Demographics Strengths

See PDF in addendum for more infomration.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Attendance (especially chronic absenteeism) was an area of concern. **Root Cause:** Due to COVID and families feeling uncomfortable with the "new normal", staff was hesitant to push families on attendance matters. In trying to show empathy, we inadvertently created a culture where families saw school as an option versus a necessity.

Problem Statement 2 (Prioritized): New student persistence (especially PK) was an area of concern at our campus. **Root Cause:** We were unable to get all parents invested in keeping their students at school in PK. This was rooted in both logistics and fear of illnesses. While many surrounding districts offer full day, Pre-K, we offer half day. This is a struggle for many of our families, who because of our high number of economically disadvantaged, work long hours and need support for child care.

Student Learning

Student Learning Summary

IA Mission received a B (89) report card rating for the 2021-2022 school year. A few areas where our campus excelled, was in School Progress and Academic Growth, recieving a respective 93 (A rating) in each. Areas of growth for our campus include Student Achievement overall data, Closing the Gaps, and Relative Performance.

Our overall STAAR achievement averages across all subjects were 72% approaches, 45% meets, and 20% of students mastering the standards tested.

IA students earned 295.5 growth points across reading and math.

When looking at our populations who did not meet the Student Success measure were those receiving special education services and those students who were not continuously enrolled at our campus. Overall, IA Mission students struggled with achievement in math as a whole.

IA Mission has an achievement gap between the test results of all students and special education students. While this is not the first year we struggle to close this achievement gap, it is the first time our results were in this shape. It is clear to our campus that changes need to be made to ensure all students are receiving a quality education.

See PDF in addendum for more infomation.

Student Learning Strengths

See PDF in addendum for more infomation.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There was minimal collaboration between general education teachers and special education teachers, resulting in fragmented learning. **Root Cause:** 1. We minimally prioritized leadership walk throughs that focused on SPED observations. 2. Leaders failed to follow through with side by side planning and feedback to ensure alignment between general education content and additional support from SPED department.

Problem Statement 2 (Prioritized): As a campus, we struggled with mastery scores across grade levels and content. **Root Cause:** 1. Teachers struggled to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

Problem Statement 3 (Prioritized): There were discrepancies in student placements in Reading-Direct Instruction. **Root Cause:** 1. There was inconsistent implementation of progress monitoring across the grade levels of DIBLES. 2. Leadership was inconsistent in administering validity checks to students and groups.

Problem Statement 4 (Prioritized): TELPAS growth was below campus expectations. **Root Cause:** 1. We did not differentiate instruction, so that teachers were able to focus on individual student needs. 2. Leaders and teachers did not promote the importance of taking and passing TELPAS, just as we promote STAAR. 3. We did not provide sufficient support/training for students to practice the format of how they should respond on the Speaking section.

School Processes & Programs

School Processes & Programs Summary

Development:

IDEA does an excellent job in preparing leaders to develop teachers by providing a year long Coaching Academy that allows new and returning leaders to become emersed in the work of what it means to be a good coach. IDEA provides coaches and individual biweekly meetings between leaders and district coaches to ensure cohesiveness, understanding, and growth are occuring at each level. At the campus level, our grade team leaders recieve development both from one on one coaching and PDs embedded into weekly GTL meetings. We develop teachers through the use of leader led instructional rounds. This allows the leadership team to identify campus trends on a weekly basis and plan PD (presented during weekly faculty meetings) that align highly with our campus needs.

Curriculum:

IA Mission aligns its curriculum to the Texas Essential Knowledge and Skills (TEKS). For reading, in the lower grades, instructional staff spend a significant amount of time teaching students to read through direct instruction activities that include building phonemic awareness, letter-sound correspondence, sounding out of words, word recognition, vocabulary, oral reading fluency, and comprehension. IA Mission consistently ensures the integration of all literacy components, and uses a comprehensive, TEKS-aligned balanced literacy approach that involves the integration of reading, writing, listening, and speaking with increasing complexity every day. For example, staff use one before, one during, and one after reading and writing strategy with each text. To facilitate speaking and listening, teachers use accountable talk consistently. This involves: speaking in complete sentences and using academic language, justifying answers with textual evidence, connecting to others' comments; and listening to and tracking the speaker. This approach was chosen because it best prepares students for success in college and citizenship.

Although a significant number of students begin the school speaking little to no English and are generally labeled as "English Language Learners" or "Special Education," the engagement strategies described above have increased the achievement levels of students, including those who speak English as their second language. ELL students acquire language through a program that focuses on academic vocabulary in isolation, in both English and Spanish. Next, key phrases are prioritized; the final stage includes conversational language. Staff members utilize many visuals to expedite ELL student learning.

IA Mission's math program is also aligned to the TEKS. In the upper grades, we use locally created curriculum in conjuntion Eureka Math because of the manner in which it builds from concrete to abstract understanding. The primary focus in the lower grades is a concrete approach which incorporates visuals and manipulatives to help students understand number patterns, utilize mixed operations, and explain math properties. The mathematical focus in the upper grades involves building skills coupled with developing students' conceptual understanding. The structure of the math classes involves students reviewing foundational content and completing tasks. The goal is to have students solve tasks using two or three methods and order them by sophistication level. This process concludes with a generalized mathematical understanding and discussion. Each class ends the day with an exit ticket, containing between one and three questions, to check for student mastery. Teachers analyze the results of the exit tickets to determine whether any additional re-teach strategies should be incorporated into the next days' plan.

The instructional approaches and built-in structures used to measure the school's effectiveness have been incredibly instrumental in helping close performance gaps. Before the start of each school year, the team uses a variety of assessment data to analyze each student's academic results. In the lower grades, we review norm-referenced test results to assess early reading skills, and learn what students already know and what they are ready to learn next. For those students who are classified as Limited English Proficient (LEP), the Texas English Language Proficiency Assessment System (TELPAS) is utilized to check progress needed in Listening, Speaking, Reading, and Writing. End-of-year mastery results and locally created assessment data also help us identify the students who will need additional urgent intervention at the start of the school year, and who would benefit from strategic grouping. We provide CSI services to our students needing critical interventions.

We provide a multitude of extra curricular activities through our coaching staff and 21st Century programming.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Instructional practices such as dress rehearsals, exit ticket huddles, and content development sessions were started late in the year and were inconsistent. This slowed teacher development. **Root Cause:** 1. Daily campus operations and an inability to create a strong and consistent logistical plan hindered instructional processes. 2. Lack of consistency to abide by set meeting schedules also hindered teacher growth.

Problem Statement 2 (Prioritized): An area of concern is our campus development of teachers and leaders, with 0% (counselor), 18% (teacher), and 50% (leader)of staff certified in their job description. **Root Cause:** 1. Promotion is not dependent on certificates held, therefore motivation is low. 2. Classroom investment and responsibilities is both high stakes and time consuming. Therefore, there is little time to think about taking on the responsibility of becoming certified.

Perceptions

Perceptions Summary

At IDEA Academy Mission , we pride ourselves on our college going identity. For the last 11 years, 100% of our senior classes have matriculated to college. This identity begins in even our youngest scholars, with College Houses named after Tier 1 and Tier 2 schools. We strive to teach students college readiness skills. In fact we begin teaching note taking and annotation skills to our students early on. We teach collaboration, presentation, and application of knowledge.

In the past, IA Mission has been very successful in family engagement events. However, in the past few years, our parental involvement and hosting of events has been on a steep decline. One way we measure parent/guardian participation rates is by overall family attendance. For the 2021-2022 school year, our overall family participation average for school events (Welcome to IDEA, Curriculum Night, End of Year Ceremonies, Fall Festival, Winter Festival) was 67%.

One barrier that prevented participation by parents/guardians at our 2021-2022 beginning of year school events was the COVID pandemic. Due to fear/restrictions, our campus outreach events such as Meet the Teacher Nights and Report Card Nights saw a significant reduction in family involvement and participation.

Perceptions Strengths

See PDF in addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): During the last few years, discipline has been a reoccurring issue on our campus, with both implementation of a plan and repeat offenses. We were reactive, rather than proactive in our approach. **Root Cause:** 1. Our discipline plan focused punitive consequences over restorative consequences. 2. There was a lack of inconsistency with implementation and follow through. 3. Leaders and teachers failed to address the root cause with repeat offenders.

Problem Statement 2 (Prioritized): During the last few years, we have struggled with parents attending school functions. This created a disconnect in our students' learning team. **Root Cause:** 1. We failed to engage students from the beginning, with poor attendance at Welcome to IDEA events. 2. We were not able to host a curriculum night this past year; as a result, parents were not as informed as they could have been about how to help their children at school. 3. Due to COVID, we did not hold many events and/or empathized with families who did not prioritize attendance.

Priority Problem Statements

Problem Statement 1: New student persistence (especially PK) was an area of concern at our campus.

Root Cause 1: We were unable to get all parents invested in keeping their students at school in PK. This was rooted in both logistics and fear of illnesses. While many surrounding districts offer full day, Pre-K, we offer half day. This is a struggle for many of our families, who because of our high number of economically disadvantaged, work long hours and need support for child care.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Attendance (especially chronic absenteeism) was an area of concern.

Root Cause 2: Due to COVID and families feeling uncomfortable with the "new normal", staff was hesitant to push families on attendance matters. In trying to show empathy, we inadvertently created a culture where families saw school as an option versus a necessity.

Problem Statement 2 Areas: Demographics

Problem Statement 3: There was minimal collaboration between general education teachers and special education teachers, resulting in fragmented learning.

Root Cause 3: 1. We minimally prioritized leadership walk throughs that focused on SPED observations. 2. Leaders failed to follow through with side by side planning and feedback to ensure alignment between general education content and additional support from SPED department.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: As a campus, we struggled with mastery scores across grade levels and content.

Root Cause 4: 1. Teachers struggled to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: There were discrepancies in student placements in Reading-Direct Instruction.

Root Cause 5: 1. There was inconsistent implementation of progress monitoring across the grade levels of DIBLES. 2. Leadership was inconsistent in administering validity checks to students and groups.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: TELPAS growth was below campus expectations.

Root Cause 6: 1. We did not differentiate instruction, so that teachers were able to focus on individual student needs. 2. Leaders and teachers did not promote the importance of taking and passing TELPAS, just as we promote STAAR. 3. We did not provide sufficient support/training for students to practice the format of how they should respond on the Speaking section.

Problem Statement 6 Areas: Student Learning

Problem Statement 7: During the last few years, we have struggled with parents attending school functions. This created a disconnect in our students' learning team.

Root Cause 7: 1. We failed to engage students from the beginning, with poor attendance at Welcome to IDEA events. 2. We were not able to host a curriculum night this past year; as a result, parents were not as informed as they could have been about how to help their children at school. 3. Due to COVID, we did not hold many events and/or empathized with families who did not prioritize attendance.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: During the last few years, discipline has been a reoccurring issue on our campus, with both implementation of a plan and repeat offenses. We were reactive, rather than proactive in our approach.

Root Cause 8: 1. Our discipline plan focused punitive consequences over restorative consequences. 2. There was a lack of inconsistency with implementation and follow through. 3. Leaders and teachers failed to address the root cause with repeat offenders.

Problem Statement 8 Areas: Perceptions

Problem Statement 9: Instructional practices such as dress rehearsals, exit ticket huddles, and content development sessions were started late in the year and were inconsistent. This slowed teacher development.

Root Cause 9: 1. Daily campus operations and an inability to create a strong and consistent logistical plan hindered instructional processes. 2. Lack of consistency to abide by set meeting schedules also hindered teacher growth.

Problem Statement 9 Areas: School Processes & Programs

Problem Statement 10: An area of concern is our campus development of teachers and leaders, with 0% (counselor), 18% (teacher), and 50% (leader)of staff certified in their job description.

Root Cause 10: 1. Promotion is not dependent on certificates held, therefore motivation is low. 2. Classroom investment and responsibilities is both high stakes and time consuming. Therefore, there is little time to think about taking on the responsibility of becoming certified.

Problem Statement 10 Areas: School Processes & Programs

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data

Goals

Goal 1: Increase staff retention

Performance Objective 1: By November 1st, 2022, IDEA Mission Academy will hire and train a fully certified counselor to support teachers with and capacity in the areas of behavior management and social emotional needs of students.

High Priority

Evaluation Data Sources: GPTW Survey, temperature check surveys, PD calendar

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: New Student Success Advisor will meet with grade teams a minimum of once a month to create list of students showing social emotional need. SSA will provide guidance to teams on strategies to better support student needs in the classroom. **Strategy's Expected Result/Impact:** Teachers and SSA will have a clear understanding of who needs support and how to best support in the classroom and outside of the classroom. **Staff Responsible for Monitoring:** SSA, Teachers **TEA Priorities:** Recruit, support, retain teachers and principals -	20%	60%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Student Success Advisor will plan and develop PD opportunities for staff around social emotional topics and opportunities. **Strategy's Expected Result/Impact:** Teachers will feel better supported in addressing student needs in their classroom. We will build teacher capacity and therefore help them feel more confident when faced with difficult situations. **Staff Responsible for Monitoring:** SSA, principal **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 3: Positive School Culture	0%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 1: Increase staff retention

Performance Objective 2: By October 1st, 2022, all teachers will be provided with intensive coaching on planning and execution.

High Priority

Evaluation Data Sources: Locus Dashboard, Edcite Reports, Teachboost observation forms

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Teachers will be provided with intensive coaching on planning and execution through the use of instructional check-ins, dress rehearsals, exit ticket huddles, and data calls. **Strategy's Expected Result/Impact:** Teachers will feel supported and be better equipped to execute lessons and close learning gaps. **Staff Responsible for Monitoring:** Principal, Assistant Principals of Instruction, Content Leaders, Grade Team Leaders **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 5: Effective Instruction	30%	70%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of students who receive a behavior infraction will participate in a restorative circle.

Evaluation Data Sources: Behavior tracker, teacher documentation

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: By August 22, 2022, IDEA Academy Mission will begin tracking student infractions, level of infraction, and parent contact on behavior tracker with fidelity. **Strategy's Expected Result/Impact:** Grade level teachers, administrators, and parents are in constant communication regarding student behavior. Student behaviors will decrease due to shared message and partnership. **Staff Responsible for Monitoring:** Teachers, Grade Team Leaders, Grade level administrator, Principal **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 1	25%	60%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Teachers and students will participate in restorative circles to rebuild relationships once criteria has been met. **Strategy's Expected Result/Impact:** Students will build stronger relationships with their teachers and peers. There will be a positive change in the number of infractions and a decrease in the number of repeated infractions due to students fully understanding the consequences of their actions and how choices affect others. **Staff Responsible for Monitoring:** Teachers, Grade Team Leaders, Grade level administrator, Principal **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 1	20%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Problem Statement 2: New student persistence (especially PK) was an area of concern at our campus. **Root Cause**: We were unable to get all parents invested in keeping their students at school in PK. This was rooted in both logistics and fear of illnesses. While many surrounding districts offer full day, Pre-K, we offer half day. This is a struggle for many of our families, who because of our high number of economically disadvantaged, work long hours and need support for child care.

Goal 5: Increase student persistence

Performance Objective 2: To meet persistence goal of 90%, various team building initiatives will be implemented throughout the year.

High Priority

Evaluation Data Sources: Monthly calendar of events, parent surveys, parent sign in sheets, student surveys

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Counselor will lead one monthly lunch bunch with New to IDEA students. **Strategy's Expected Result/Impact:** Students will feel a sense of belonging and community within our school. They will have a confidant in the counselor, and make friends with other new students who may face similar struggles acclimating. **Staff Responsible for Monitoring:** Academy Student Success Advisor, Academy Assistant Principals of Instruction and Operations **Title I:** 4.2 **- ESF Levers:** Lever 3: Positive School Culture	25%	40%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Counselor will lead quarterly meeting with parents to get feedback and build relationships. **Strategy's Expected Result/Impact:** Students and parents will feel valued in our school community. They will be able to address their concerns, share what is going well, and affect change on our campus. **Staff Responsible for Monitoring:** Academy Student Success Advisor, Academy Assistant Principals of Instruction and Operations **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 2		50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Perceptions

Problem Statement 2: During the last few years, we have struggled with parents attending school functions. This created a disconnect in our students' learning team. **Root Cause**: 1. We failed to engage students from the beginning, with poor attendance at Welcome to IDEA events. 2. We were not able to host a curriculum night this past year; as a result, parents were not as informed as they could have been about how to help their children at school. 3. Due to COVID, we did not hold many events and/or empathized with families who did not prioritize attendance.

Reflections	
Areas of Strength	**Areas of Need**
1 An area of strength was domain 2. Our teachers focused early on special pops, targeting and tracking students of concern. We saw unprecedented growth from last year to this year.	1. There was minimal collaboration between general education teachers and special education teachers, resulting in fragemented learning. We minimally prioritized leadership walk throughs that focused on SPED observations.

2 Teachers in the lower grades focused on conceptual teaching (as opposed to tricks or simply following standard algorithms) that translated into high levels of student engagment and understanding of content.	2 Leaders and teachers were not consistent in planning higher order thinking questions to enusre we were pushing the rigor that would lead to higher masters scores.
3 Our teachers collaborated with our individualized math software programs lead(in Hotspot and IXL) to ensure that the targeted standards were being implemented.	3 There needs to be more of a focus on the conceptual aspects of teaching and applications in the upper grades to ensure more students are able to comprehend the skills and knowledge that would increase the approaches scores.

% Meeting CSI Goal	**Reading AC CSI**
% CSI (EOY Ren.)	43%
% of CSI Passing STAAR	31%
% of SPED Passing STAAR	25%

Reflections	
Areas of Strength	**Areas of Need**
1 DI teachers created strong backwards plans and 2nd grade progress monitored from DIBLES to create appropriate groupings (on going) throughout the year so PK, K, and 2nd grade all met reading goals.	1 There was inconsistent implementation of progress monitoring across the grade levels of DIBLES. This led to some discrepancies in student placements in 1st grade Reading Direct Instruction.
2 Leaders focused on teacher development through side by side planning and on the spot coaching to ensure new teachers had a strong understanding of the content and could deliver strong first instruction so reading growth became a major area of strength.	2 There was minimal collaboration between general education teachers and special education teachers, resulting in fragemented learning. We minimally prioritized leadership walk throughs that focused on SPED observations, so SPED scores were an area of need.

3 An area of strength was domain 2. Our teachers focused early on special pops, targeting and tracking students of concern. We saw unprecedented growth from last year to this year.	3 Due to an entirely new ELA team in the upper grades, leaders were unable to get teachers to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery so overall approaches scores were lower.

IDEA Academy Mission

Comprehensive Needs Assessment ACADEMY						
Data Sources: Science Pk-2						
	Science Pre-K on Grade Level	**Science Kinder on Grade Level**	**Science First on Grade Level**	**Science Second on Grade Level**	**Science Third on Grade Level**	**Science Fourth on Grade Level**

Data Source: Science 3-5	
	STAAR Science Grade 5
% Approaches	79
% Meets	45
% Masters	21
% Student Achievement Average	48

Reflections	
Areas of Strength	**Areas of Need**
1 Teachers incorporated hands-on experiments to increase student comprehension of content in grades K to 4th so end of year science scores were strong.	1 Teachers struggled to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery, so 5th grade Masters scores are an area of concern.
2 Students took ownership by creating anchor charts to demonstrate mastery of concepts. Teachers posted these charts in highly visible areas and frequently updated the content also contributing to overall strong science scores in Kinder to 4th grades.	2 There was inconsistent focus on holding students accountable to use academic vocabulary in class so our Approaches levels were lower than the goal.
3 Teachers created memorable and clear first instruction that helped students retain concepts. Again, this contributed to overall strong science scores.	3 While teachers relied on district scope and sequence provided, they failed to create a backwards plan independently. This led to teachers failing to fully internalize the unit as a whole. Teachers often taught day by day and students lacked seeing the big picture, so our 3rd to 5th grade Masters scores were not as strong.

IDEA Academy Mission

Comprehensive Needs Assessment ACADEMY							
Data Sources: Humanities Pk-2							
	Humanities Pre-K on Grade Level	**Humanities Kinder on Grade Level**	**Humanities First on Grade Level**	**Humanities Second on Grade Level**	**Humanities Third on Grade Level**	**Humanities Fourth on Grade Level**	**Humanities Fifth on Grade Level**
% Students	NA	100%	100%	99%	98%	92%	98%

Reflections	
Areas of Strength	**Areas of Need**
1 Teachers planned engaging socratic seminars around classroom literature so all students were on level on the end of year social studies assessments.	1. Some resources were provided to teachers very late, therefore teachers were not able to plan in advance; this likely compromised students earning even higher scores.
2 Teachers made content accessible to all students through a variety of teaching modalities. Students were able to show what they mastered through multiple formats. This contributed to high passing rates on comprehensive end of year results	2 Teachers failed to align the writing prompts in humanities to the rigor of the writing in the ELA classes. This created some confusion for students as to what the criteria for all writing should look like. We failed to prioritize collaboration across contents for the good of the students and Masters scores were a little lower than we had hoped to achieve.
3 Teachers were able to problem solve when resources were not provided (for example, by utilizing IXL or other programs) to ensure students were successful in comprehending the content on the end of year assessment.	3 Leaders struggled to help teachers plan to the grade level standards because the material provided through the curriculum was global as opposed to what is expected to be taught at each grade level. The TEKS did not always align to the content being taught (contentwise) and this created confusion and lower scores.

IDEA Academy Mission

ACADEMY

TELPAS Composite Rating (Listening, Speaking, Reading, Writing)

	Listening	Speaking	Reading	Writing	% of ELL Students who grew one or more levels
% Beginning	11%	18%	15%	16%	43%
% Intermediate	41%	61%	47%	48%	
% Advanced	29%	20%	19%	21%	
% Advanced High	19%	1%	19%	15%	

Reflections	
Areas of Strength	**Areas of Need**
1 We got choose to 100% of students tested. We were at 97%.	1 We need to provide more support and training for students to practice the format of how they should respond on the Speaking section.
2 Students received TELPAS training by TC and SSA before testing so students were prepared.	2 Promote the importance of taking and passing TELPAS just as we promote STAAR.
3 We did better than last year on growth. The goal is for 36% of students grow in at least one component and we are currently at 43%.	3 Plan ways to motivate students to do their best. Possibly, test Listening and Speaking on a separate day than Reading. The tests are long and students do well on the first day but they are tired for the second part.

% Female	**48.71%**

Data Source: School Culture and Climate	
Reflections	
Areas of Strength	**Areas of Need**
1. We had zero admin withdrawls this past year. Any behavior issues were relatively minor.	1. Attendance (especially chronic absenteeism) was an area of concern.

2. Overall persistence in most grade levels (outside of PK) was very high and kids in K-5 are choosing to stay.	2. New student persistence (espcially PK) was an area of concern. We were unable to get all parents invested in keeping thier students at school in PK.
3. Our high ECO DISC numbers continue to be one of the highest in the district.	3. We have very homogenous demographics and a a lack of dirversity; while it might be seen as an area for opportunity, that is representative of the kids we serve.

IDEA Academy Mission

Comprehensive Needs Assessment ACADEMY	
Data Source: Family and Community Involvement	
	Percentage
% Families Attended WTI	65%
% Families Attended Curriculum Night	N/A
% Families Who Attended EOY Ceremonies	85%
% Families who attended Fall Festival	65%
% Families who attended Winter Festival	83%
% Families who attended Spring Festival	90%

Reflection	
Areas of Strength	**Areas of Need**
1. People were very invested in the end of year awards ceremonies and we had high attendance.	1. We struggled with parents attending Welcome to IDEA the first time; this resulted in the need to implement a reactive approach.
2. Our spring festival (picnic events) were a hit and brought the community together.	2 Due to COVID-related issues, the Fall festival and actitivies were not as highly attended.
3. The Winter Festival /Showcase was also highly attended and it allowed us to fundraise and bond with our community.	3. We were not able to host a curriculum night this past year; as a result, parents were not as informed as they could have been about how to help thier children at school.

IDEA Public Schools

Mission College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Academic Achievement in Science
Academic Achievement in Social Studies
Postsecondary Readiness

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 8, 2022

Demographics

Demographics Summary

IDEA Mission College Preparatory (Mission CP) is a 6th -12th Grade, Title I school serving 747 students located in the Rio Grande Valley of Texas. Mission CP is located in the small, primarily Hispanic, low-income community of Mission, Texas, situated about three miles from the United States-Mexico border. More than 98% of students are Mexican-American or Mexican Nationals and 100% are eligible to participate in the National School Lunch Program.

Mission CP was founded in 2008 on the belief that, when the adults in the system get it right, each and every child, regardless of circumstance, should receive a high-quality education that prepares them for success in college and citizenship. To that end, Mission CP campus leaders hold each of its 55+ staff members accountable to meeting ambitious goals that drive student learning outcomes and boost academic achievement. With a relentless focus on college, the carefully curated high school program moves students from teacher-led instruction to a student-driven program while enhancing the individualization of instruction with technology-assisted learning, character education, and extra- and co-curricular activities. The ultimate goal is to design and implement a model that gets students on-grade level in order to lead them to college preparedness.

See PDF in Addendeum for more information.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Attendance was an area of concern. **Root Cause:** The COVID pandemic played an integral part of our absenteeism problem. Many families felt uncomfortable sending students to school amid this "new normal". While trying to show empathy, we inadvertently created a culture were families saw school attendance as an option verses a necessity.

Problem Statement 2 (Prioritized): New student persistence was an area of concern for our campus. **Root Cause:** Families chose to not persist with IDEA Mission for several factors. a) Onboarding of new to IDEA students was minimal b) Families are not happy with IDEA's lack of dual enrollment classes c) Families are looking for students to be enrolled in more afterschool activities and resume builders.

Student Learning

Student Learning Summary

IDEA Mission College Preparatory received a B (89) report card rating for the 2021-2022 school year. A few areas where our campus excelled was in the following distinction designations: Academic Achievement in English/Language Arts/Reading, Academic Achievement in Mathematics, Academic Achievement in Science, Academic Achievement in Social Studies, and Postsecondary Readiness.

As a campus, our STAAR results were as follows: 82% approaches, 51% meets, and 24% masters across all grade levels and contents.

When looking at our populations who did not meet the Student Success measure, were those receiving special education services and those students who were not continuously enrolled at our campus. Overall, Mission CP struggled with achievement in math.

Mission CP has an achievement gap between the test results of all students and special education students. While this is not the first year, we struggle to close this achievement gap, it is the first time our results were in this shape. It is clear to our campus that changes need to be made to ensure all students receive the education they deserve.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Minimal collaboration between general education teachers and special education teachers, resulting in fragmented learning. **Root Cause:** a) We minimally prioritized leadership walk throughs that focused on SPED observations. b) Leaders failed to follow through with side by side planning and feedback to ensure alignment between general education content and additional support from SPED department.

Problem Statement 2 (Prioritized): TELPAS campus growth was below expectations. **Root Cause:** 1. We did not differentiate the instruction so that teachers focused on individual student needs. 2. Leaders did not consistently ask teachers to utilize the data to integrate more TELPAS-related instruction to assist students in their performance. 3. Our lowest scores were in the speaking domain. We needed to have spent more time practicing on the speaking component.

Problem Statement 3 (Prioritized): As a campus, we struggled with mastery scores across grade levels and content. **Root Cause:** 1. Teachers struggled to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

Problem Statement 4 (Prioritized): As a campus, we struggled with AP test mastery scores across grade levels and content. **Root Cause:** 1. Teachers struggled to fully internalize the AP exa and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

School Processes & Programs

School Processes & Programs Summary

At IDEA Mission College Preparatory, all instructional leaders are coached by a district instructional development coach as well as their school principal. This coaching process is instrumental in developing instructional leaders that are well versed in district/school priorities and normed according to district standards.

Professional development is planned by first establishing clear campus level gaps in student learning and then creating a scope and sequence to address these gaps. This is completed by instructional leaders meeting weekly to conduct structured/normed instructional observation rounds. The instructional leaders first conduct a group observation collecting low inference data and teacher/student actions. While observing, we look for where the “break” in student learning happens. Once the observation is completed, we norm as a group to provide a clear teacher action step. Then, as a team, we discuss all observations for trends so we can address at our next faculty meeting.

IDEA Mission College Preparatory offers a robust AP program. For the academic year 2021-2022, we offered 21 AP courses. For each course that is offered, students are expected to complete the AP examination at the culmination of the school year. AP teachers attended district level professional developments called “AP Share Fairs” where they were shown best practices and engagement activities to take back to their classrooms.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who

met the criteria outlined by TEA for this grant.

- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): An area of concern is our campus development of teachers and leaders, with 0% (counselors), 5% (teacher), and 0% (leader) of staff certified in their job description. **Root Cause:** 1. Promotion is not dependent on certificates held; therefore motivation is low. 2. Classroom investment and responsibilities is both high stakes and time consuming. Therefore, there is little time to think about taking on the responsibility of becoming certified.

Problem Statement 2 (Prioritized): Instructional practices such as dress rehearsals, exit ticket huddles, and content development sessions were started late in the year and were inconsistent. This slowed teacher development. **Root Cause:** 1. Daily campus operations and an inability to create a strong and consistent logistical plan hindered instructional processes. 2. Lack of consistency to abide by set meeting schedules also hindered teacher growth.

Perceptions

Perceptions Summary

At IDEA Mission College Preparatory, we pride ourselves on our college going identity. For the last 11 years, 100% of our senior classes have matriculated to college. The current dropout rate for the 2021-2022 school year was _____ and our graduation rate was _____.

One way we measure parent/guardian participation rates is by overall family attendance. For the 2021-2022 school year, our overall family participation average for school events (Welcome to IDEA, Curriculum Night, End of Year Ceremonies, Fall Festival, Winter Festival) was 67%.

One barrier that prevented participation by parents/guardians at our 2021-2022 beginning of year school events was the COVID pandemic. Due to fear/restrictions, our campus outreach events such as Meet the Teacher Nights and Report Card Nights saw a significant reduction in family involvement and participation.

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): We have struggled with parental involvement, and their inability to attend school functions. **Root Cause:** 1. We failed to engage students from the initial event: Welcome to IDEA. 2. Certain events were canceled/modified due to COVID precautions. 3. We were not able to host a curriculum night. As a result, parents were not as informed as they could have been in their child's progress.

Problem Statement 2 (Prioritized): During the last few years, discipline has been a recurring issue both with implementation of a plan and repeat offenses. **Root Cause:** 1. Discipline plan focused on punitive consequences not restorative discipline. 2. Lack of consistency in implementation and follow through. 3. Leaders and teachers failed to get to the root cause; reactive approach.

Priority Problem Statements

Problem Statement 1: New student persistence was an area of concern for our campus.

Root Cause 1: Families chose to not persist with IDEA Mission for several factors. a) Onboarding of new to IDEA students was minimal b) Families are not happy with IDEA's lack of dual enrollment classes c) Families are looking for students to be enrolled in more afterschool activities and resume builders.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Minimal collaboration between general education teachers and special education teachers, resulting in fragmented learning.

Root Cause 2: a) We minimally prioritized leadership walk throughs that focused on SPED observations. b) Leaders failed to follow through with side by side planning and feedback to ensure alignment between general education content and additional support from SPED department.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: TELPAS campus growth was below expectations.

Root Cause 3: 1. We did not differentiate the instruction so that teachers focused on individual student needs. 2. Leaders did not consistently ask teachers to utilize the data to integrate more TELPAS-related instruction to assist students in their performance. 3. Our lowest scores were in the speaking domain. We needed to have spent more time practicing on the speaking component.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: As a campus, we struggled with mastery scores across grade levels and content.

Root Cause 4: 1. Teachers struggled to fully internalize the TEKS and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: As a campus, we struggled with AP test mastery scores across grade levels and content.

Root Cause 5: 1. Teachers struggled to fully internalize the AP exa and build practice to the rigor of the standards required for student mastery. 2. Leaders and teachers were not consistent in planning higher order thinking questions to ensure we were pushing the rigor that would lead to higher masters scores. 3. There was inconsistent focus on holding students accountable to use academic vocabulary in class.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: We have struggled with parental involvement, and their inability to attend school functions.

Root Cause 6: 1. We failed to engage students from the initial event: Welcome to IDEA. 2. Certain events were canceled/modified due to COVID precautions. 3. We were not able to host a curriculum night. As a result, parents were not as informed as they could have been in their child's progress.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: During the last few years, discipline has been a recurring issue both with implementation of a plan and repeat offenses.

Root Cause 7: 1. Discipline plan focused on punitive consequences not restorative discipline. 2. Lack of consistency in implementation and follow through. 3. Leaders and teachers failed to get to the root cause; reactive approach.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Attendance was an area of concern.

Root Cause 8: The COVID pandemic played an integral part of our absenteeism problem. Many families felt uncomfortable sending students to school amid this "new normal". While trying to show empathy, we inadvertently created a culture were families saw school attendance as an option verses a necessity.

Problem Statement 8 Areas: Demographics

Problem Statement 9: An area of concern is our campus development of teachers and leaders, with 0% (counselors), 5% (teacher), and 0% (leader) of staff certified in their job description.

Root Cause 9: 1. Promotion is not dependent on certificates held; therefore motivation is low. 2. Classroom investment and responsibilities is both high stakes and time consuming. Therefore, there is little time to think about taking on the responsibility of becoming certified.

Problem Statement 9 Areas: School Processes & Programs

Problem Statement 10: Instructional practices such as dress rehearsals, exit ticket huddles, and content development sessions were started late in the year and were inconsistent. This slowed teacher development.

Root Cause 10: 1. Daily campus operations and an inability to create a strong and consistent logistical plan hindered instructional processes. 2. Lack of consistency to abide by set meeting schedules also hindered teacher growth.

Problem Statement 10 Areas: School Processes & Programs

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant information
- SAT and/or ACT assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Response to Intervention (RtI) student achievement data
- Dual-credit and/or college prep course completion data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Attendance data
- Student surveys and/or other feedback

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data

Goals

Goal 1: Increase staff retention

Performance Objective 1: By June 1, 2022, IDEA Mission College Prep will fill all vacant positions with highly qualified individuals.

Areas of Strength	Areas of Need

1. 8th Grade Reading was an overall area of strength for the campus. Leader actions that attributed to this success were that ELA was a campus priority due to having new teachers in 3rd-8th grade. Aside from ELA being a campus priority, lesson internalizations, dress rehearsals and tight loop coaching were all implemented early in the school year. Our 8th grade teacher, Amanda Munoz went all in with ensuring that lesson internalizations were completed with additional scripted CFUs to push critical thinking skills. As a result, students were challenged to analyze texts beyond a superficial level.	1. Due to unforeseen circumstances, 6th grade ELA was left for an extended teacher vacancy. Once teacher was hired, teacher struggled with internalizing TEK and integrating lesson with wit and wisdom.
2. 10th grade EOC II was an area of success due to teacher actions. Teacher incorporated hands on engaging activites, centers and groups to solidify student mastery and practice. Teacher created a weekly rotation between writing and reading followed by comprehensive review including both reading and writing. Students were able to directly see the connection between reading and writing. Lastly, there was consistent teacher and leader weekly data check-ins.	2. 11th Grade AP Language was a campus area of need due to teacher being out on maternity leave. During teacher's maternity leave, we struggled finding a strong substitute to deliver purposeful lessons. In addition to teacher being out, leader who managed teacher was also out on maternity leave, therefore causing additional instability for the subject. Overall, the biggest obstacle that arose from lack of teacher presence led to lack of student
3. 7th Grade ELA TEK internalization submerged with Wit and Wisdom was an area of strength for the campus. Throughout the year both teachers attended various trainings such as district lead trainings, Lead4ward trainings, TEK based training, as well as various manager lead trainings where both leader and teacher were able to breakdown the TEK and align TEK with Wit and Wisdom. Teachers consistently internalized the lesson the lesson and submitted them and received feedback. With these internalized lessons, teachers created engaging lesson plans and tracked student success.	3. 9th Grade ELA was a campus area of need due overl lack of teacher investment. Examples of lack of teacher investment range from effective lesson planning, student conferencing, effective active monitoring and engagement strategies.

Reflections	
Areas of Strength	**Areas of Need**
1. Algebra 1 began as an area of need for the campus because we lost our teacher prior to the beginning of the school year leaving us with a vacancy for an extended period of time. Once we were able to secure a teacher, she was new to the profession therefore lacked a skill set to be successful. Leader prioritized move in into the classroom to model and co-teach with teacher leading to significant teacher and student growth. □	1. 6th Math. Throughout the year teacher did not master teaching on a conceptual level. Teacher used a limited number of resources to plan engaging lessons.
2. Pre-Algebra Throughout the year teacher consistently internalize the lessons and created multiple opportunities for students to master the content.	2. AP Calculus was an area of need due to teacher struggling with transitioning from 6th Math Grade to an AP Calculus course. Teacher had to learn and internalize content material which led to gap in teaching.
3. AP Prob. & Statistics is a highlight at our campus. One reason for this is our teacher's ability to start instruction from the foundational skills necessary for student success. She has a way to scaffold and then build up student practices to gain student achievement. Lastly, student investment is established with engaging lessons and hands on activities.	3. SPED as a whole has been an area of concern for our campus for the past few years. Due to unforseen circumstances, we ended up with a teacher vacancy that lasted the entire year. Given the state of affairs, it was very challenging to provide the adequate support to close gaps.

Reflections

Areas of Strength	Areas of Need
1 Biology (8th grade) was an area of strength due to teacher being an expert in the content. Besides her strong content knowledge background, teacher prioritized building relationships with students. These strong relationships were key to her success.	1. Although Biology (8th grade) approaches scores were an area of strength, the masters scores are an area of need. Although teacher was able to scaffold material to ensure students were able to close their achievement gaps. She struggled with being able to build up the rigor and build critical thinking skills for our scholars.
2 7th Science Teacher had a high proficiency in content knowledge therefore, teacher was able to scaffold effectively to build student knowledge and skill.	2 6th Grade Science was an area of need due to teacher being new to the content and grade level. Teacher struggles in executing effective engaging lessons where students are able to apply the knowledge they learn in class. Teacher does not provide enough hands on opportunities like labs for students to be able to critically think and demonstrate deep understanding of topics.

3. Physics has been an area of success for our campus. One reason for this has been the consistency of Saturday tutoring. Not only did they happen with fidelity, but students were engaged with rigorous labs that helped increase mastery.	3. AP chemistry has been an area of need due to teacher pedagogy. Teacher struggles in executing effective engaging lessons where students are able to apply AP level knowledge they learn in class. Teacher does not provide enough hands on opportunities like labs for students to be able to critically think and demonstrate deep understanding of topics.

Reflections

Areas of Strength	Areas of Need
1 Due to unforseen circumstances towards the latter part of the school year, 11th grade US History was left with a teacher vacancy until almost the end of the school year. However, this ended up being an area of strength as both leader who managed teacher moved in and taught the course for some time as well as the highest performing students in the grade level taking ownership of creating daily lessons and delivering them in the presence of a permanent substitute. This model created a high investement amongst the 11th grade students as the students had to take a lot of owernships in their learning. Students were able to be successful and demonstrated that during their STAAR EOC.	1. Although 11th grade students were able to be very successful in the US History STAAR EOC, the same was not true for AP US History. Although students were able to internalize much of the STAAR EOC content, the rigor of the EOC in comparison to the AP exam are highly contrasting. Due to the teacher vacancy, students were not able to master the vast amount of content seen in the AP US History.

2. 8th Grade US History was an area of strength this year, even though teacher did not meet 90/60/30 when comparing his scores with the district, teacher ranked third place overall. Teacher builds strong relationships with students which in turn positively impact his overall passing scores.	2. An area of need for 8th grade US History would be his meets scores, only 44% of students met for his STAAR exam. A factor that contributes to this is the lack of rigor. Most of the independent practice that students engage with is low rigor and does not necessarily require critical thinking skills. Therefore, when students encount higher order questions on the STAAR exam, they are unable to apply the basic knowledge they have learned throughout the year.
3 AP Human Geography was an area of strength for the campus. Teacher was consistently focusing on both knowledge and application in his daily lessons. Students were expected to write on a daily basis strenghtening their critical thinking skills by having to consistentyl justify their resoning. Teacher had a variety of engagement strategies and provided ample opportunities for collaboration amongst students.	3 AP Goverment was an area of need for the school. Teacher was new to the content and AP classroom. One area in which the teacher struggled was ensuring students were internalizing the material being taught by being able to apply it to AP rigor style questions.

Areas of Strength	**Areas of Need**
1. We were still holding events (either virtually or in person) even though COVID restrictions faciliated innovative ways around doing the events.	1. Sometimes our communication for events was minimal (or too late) causing fewer families to show than we had hoped.
2. We received over 90% positive feedback on all events where feedback was solicited.	2. We did not survey or ask families for feedback on the types of events that would be meaningful to them. All of the events that were held were administrator driven.
3. We were able to solidify some new traditions that many felt proud and excited about.	3. We need to do a better job of creating more proactive mechanisms to have a better turnout for Welcome to

IDEA Public Schools

Monterrey Park Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Science

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

IDEA Monterrey Park Academy will create an environment that is safe, nurturing, and accountable to ensure 100% of our students are equipped with the foundational knowledge and skills needed to be successful in College Prep, Tier I and Tier II Universities, and beyond.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

IDEA Monterrey Park Academy will support all students in reaching their potential by ensuring 100% of scholars are prepared to matriculate and become college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

At IDEA Monterrey Park Academy, we stirve to be Mighty B.E.A.R.S.:

1.Bravery – We persevere and exemplify courageous character.

2.Eagerness – We forge ahead with enthusiasm to reach ambitious goals.

3.Aspiration – We demonstrate a strong desire and motivation to achieve both academic and personal goals.

4.Resilience – We recover quickly from difficulties by adapting to stressful situations.

5.Selfless – We give and think of others before ourselves without looking for personal gain.

Demographics

Demographics Summary

IDEA Monterrey Park Academy was established in 2014 and is located in west San Antonio at 222 SW 39th Street, 78237. The enrollment for the 2021-2022 school year is 729. Special populations such as English language learners make up 14% of the population and 7% of scholars receive special education services. The student body demographics reveals a lack of diversity with 89% of the student population being Hispanic and 11% made up of other races such as White, Black, Asian, and Pacific Islander. The percent of female and male students are diverse with both populations nearly even in percentage. Our school qualifies for free and reduced lunch based on the 97.9% economically disadvantaged population enrolled. For the 2022-2023 school year, the current campus enrollment is 672 enrolled students. The school retained 78.89% of new and returning students.

Demographics Strengths

Positive student connections from leaders and staff throughout the year

ADA communication plan to ensure parents are aware of absences and to provide support

Families are kept up-to-date with events and updated through our Family Newsletter

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to increase our new-to-IDEA student persistence as only 74% chose to persist with us last year. **Root Cause:** 1. Lack of consistent, annual reflection and interests surveys on what keeps students/families at campus 2. Lack of program offerings such as afterschool electives, clubs, sports, etc. 3. Lack of clear communication around IDEA's rigorous Academic model during WTI and the partnership expectations of parents and students during the onboarding process and beyond.

Problem Statement 2 (Prioritized): Increase in student metal health crisis and outcries resulting in increased absences or student code of conduct violations **Root Cause:** 1. Lack of focus on health and wellness of scholars through daily implementation of SEL program 2. Lack of consistent observations to track fidelity of SEL program being taught consistently through the week

Student Learning

Student Learning Summary

In the 21-22 school year, IDEA Monterrey Park Academy earned an 87 out of a 100 rating making the school 'B' rated. The 'B' rating is displaying recognized performance within the state of Texas as campuses with this designation serve many students well, encouraging high academic achievement and/or appropriate academic growth for most students. The campus grew 6 points from the last rating given in the 2018-19 school year of an 81.

Performance by Domain:

Domain 1- 75 (student achievement)

Domain 2- 91 (school progress)

Domain 3- 78 (Closing the Gaps)

Distinction Designation:

Academic Achievement in English Language Arts Reading

Academic Achievement in Science

Student Learning Strengths

•STAAR reading improvement higher than pre-COIVS (2018-19)
•4th and 5th grade STAAR cohorts grew from the COVID years
•5th ELL cohort showed growth in every content
•3rd Reading SPED scholars closed their gap by 19% points

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3 **Root Cause:** 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Failure to make adjustments to curriculum in a timely manner when responding to noted gaps in exit ticket data.

Problem Statement 2 (Prioritized): Only 29% of Math Critical Intervention Students passed their respective STAAR exam **Root Cause:** 1. Lack of leaders coaching teachers to urgently respond to daily exit ticket outcomes for CSI students. 2. Lack of general population and intervention teacher co-planning to create support systems in class for CSI students

School Processes & Programs

School Processes & Programs Summary

IDEA Monterrey Park Academy develops instructional leaders by having clear roles and responsibilities and opportunities to choose where they want to make an impact an impact. Our campus has a teacher leader program that allows teachers who want to grow in and out of the classroom. This program allows teachers to take on a coaching role while they stay in their teaching role, which allows them to experience the administrative role before completely transitioning over. We have team leaders that lead their grade levels, content leaders in Math, Science, Social Studies, and Reading, course leaders, mentors, hybrid leaders, and teacher advisory council members.

We have a weekly professional development meeting focusing on lesson rehearsal, script practices, and new content training. Professional development is created based on campus priorities set from the previous years and from trends found during instructional rounds. Teachers are invited to attend as a whole for priorities and as needed for trends found. Our teachers are also biweekly engaged in district content webinars that assist them in becoming instructional leaders of their classrooms.

To support powerful teaching and learning, teachers are recognized publicly every year and are identified as master teachers for others to observe and visit. Teachers are tiered according to level of support needed for coaching and lesson planning support.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Failure to retain New to IDEA staff in the 2021-2022 school year with a 46% or 7 of 15 new teachers left. **Root Cause:** 1. Lack of clarity in interview process for work load expected of new staff. 2. PD sessions were not aligned to the needs and interests of the New to IDEA staff. 3. Lack of support for balancing expectations of role and responsibilities with personal life.

Problem Statement 2 (Prioritized): Low teacher retention in special populations staff with 20% retention between intervention on SPED teachers and co-teachers **Root Cause:** 1. Lack of targeted professional development to support with added responsibilities of meeting HB4545 requirements and DI CSI intervention needs 2. Lack of partnerships between general populations teacher and the special populations to align strategies and selecting priority TEKS focus 3. Failure to provide requested materials in a timely manner for new intervention programs

Perceptions

Perceptions Summary

At IDEA Monterrey Park Academy, we value the social and emotional, health, and wellbeing of staff, students, and families. We uphold a culture and climate built on diversity, equity, and inclusion. Our school has goals centered around well being and retention.

We uphold our vision of excellence through our campus pillars:

1. Academic Quality: We prepare high quality, rigorous lessons through content unpacking, backwards planning, and rehearsing lessons before delivering to all student populations.
2. Accountable Culture: We have a collective responsibility as a campus system to act with integrity and drive accountability within self and all stakeholders in order to develop and sustain a culture of joy for students, staff, and families.
3. Everybody Learns: We provide equity to diverse and unique populations through lesson accommodations, intervention, and strong first teach.
4. Community Wellbeing: We promote a space where each person feels safe emotionally, physically, socially, and mentally to allow them to successfully grow.

Perceptions Strengths

90% retention of level 3 and 4 teachers

3 internal promotions of co teacher to lead teacher

4 of 5 or 80% successful transfer teacher retentions

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Low family participation with an average of 22% of families attending after school or Saturday family engagement events. **Root Cause:** 1. Families cited low participation due to short turnaround of event notification. The school staff failed to adequately communicate events in a timely manner. 2Families stated that event flyers were not posted in all social media channels or sent reminders for upcoming events. The school staff failed to make communication of events accessible for everyone and have a communication timeline built.

Problem Statement 2 (Prioritized): Lack of tracking and progressing students through the RtI Tier 1 and Tier 2 Behavior Plan. **Root Cause:** 1. Lack of campus training and scheduled time to visit the RtI process and behavior plans. 2. Staff did not adequately document student progress causing students to remain in Tier 1.

Priority Problem Statements

Problem Statement 1: There is a need to increase our new-to-IDEA student persistence as only 74% chose to persist with us last year.

Root Cause 1: 1. Lack of consistent, annual reflection and interests surveys on what keeps students/families at campus 2. Lack of program offerings such as afterschool electives, clubs, sports, etc. 3. Lack of clear communication around IDEA's rigorous Academic model during WTI and the partnership expectations of parents and students during the onboarding process and beyond.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Increase in student metal health crisis and outcries resulting in increased absences or student code of conduct violations

Root Cause 2: 1. Lack of focus on health and wellness of scholars through daily implementation of SEL program 2. Lack of consistent observations to track fidelity of SEL program being taught consistently through the week

Problem Statement 2 Areas: Demographics

Problem Statement 3: Only 29% of Math Critical Intervention Students passed their respective STAAR exam

Root Cause 3: 1. Lack of leaders coaching teachers to urgently respond to daily exit ticket outcomes for CSI students. 2. Lack of general population and intervention teacher co-planning to create support systems in class for CSI students

Problem Statement 3 Areas: Student Learning

Problem Statement 4: All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3

Root Cause 4: 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Failure to make adjustments to curriculum in a timely manner when responding to noted gaps in exit ticket data.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Low teacher retention in special populations staff with 20% retention between intervention on SPED teachers and co-teachers

Root Cause 5: 1. Lack of targeted professional development to support with added responsibilities of meeting HB4545 requirements and DI CSI intervention needs 2. Lack of partnerships between general populations teacher and the special populations to align strategies and selecting priority TEKS focus 3. Failure to provide requested materials in a timely manner for new intervention programs

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Failure to retain New to IDEA staff in the 2021-2022 school year with a 46% or 7 of 15 new teachers left.

Root Cause 6: 1. Lack of clarity in interview process for work load expected of new staff. 2. PD sessions were not aligned to the needs and interests of the New to IDEA staff. 3. Lack of support for balancing expectations of role and responsibilities with personal life.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Lack of tracking and progressing students through the RtI Tier 1 and Tier 2 Behavior Plan.

Root Cause 7: 1. Lack of campus training and scheduled time to visit the RtI process and behavior plans. 2. Staff did not adequately document student progress causing students to remain in Tier 1.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Low family participation with an average of 22% of families attending after school or Saturday family engagement events.

Root Cause 8: 1. Families cited low participation due to short turnaround of event notification. The school staff failed to adequately communicate events in a timely manner. 2Families stated that event flyers were not posted in all social media channels or sent reminders for upcoming events. The school staff failed to make communication of events accessible for everyone and have a communication timeline built.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student Success Initiative (SSI) data for Grades 5 and 8
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices
- Action research results

Goals

Goal 1: IDEA achieves an A rating

Performance Objective 1: Student achievement (Domain 1) and progress levels (Domain 2) will meet or exceed growth in state standards for all student groups.

High Priority

Evaluation Data Sources: Instructional rounds, Data meetings, Student Data Tracker, Exit ticket sort, instructional stepback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: We will provide resources and training to campus educators in supporting all learners through Professional Development. **Strategy's Expected Result/Impact:** All student population groups are meeting growth or 90% are meeting student achievement metrics. **Staff Responsible for Monitoring:** Campus Educators, Assistant Principals of instruction, Principal **Title I:** 2.4, 2.6 - **TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **Problem Statements:** Student Learning 1, 2		25%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3 **Root Cause**: 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Failure to make adjustments to curriculum in a timely manner when responding to noted gaps in exit ticket data.
Problem Statement 2: Only 29% of Math Critical Intervention Students passed their respective STAAR exam **Root Cause**: 1. Lack of leaders coaching teachers to urgently respond to daily exit ticket outcomes for CSI students. 2. Lack of general population and intervention teacher co-planning to create support systems in class for CSI students

Goal 1: IDEA achieves an A rating

Performance Objective 2: All STAAR tested contents will have 60% meets and 30% masters in Domain 1 student achievement

High Priority

Evaluation Data Sources: Instructional rounds, Data meetings, Student Data Tracker, Exit ticket sort, instructional stepback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use exit ticket sorts and respond urgently to data to ensure students are meeting or mastering their TEKS daily **Strategy's Expected Result/Impact:** Progress and Achievement targets are met in Domain 1 and 3. **Staff Responsible for Monitoring:** Campus educators, Assistant Principals of Instruction, Principal **Title I:** 2.4, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 1, 2 - Perceptions 2		20%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 1: All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3 **Root Cause**: 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Failure to make adjustments to curriculum in a timely manner when responding to noted gaps in exit ticket data.
Problem Statement 2: Only 29% of Math Critical Intervention Students passed their respective STAAR exam **Root Cause**: 1. Lack of leaders coaching teachers to urgently respond to daily exit ticket outcomes for CSI students. 2. Lack of general population and intervention teacher co-planning to create support systems in class for CSI students
Perceptions
Problem Statement 2: Lack of tracking and progressing students through the RtI Tier 1 and Tier 2 Behavior Plan. **Root Cause**: 1. Lack of campus training and scheduled time to visit the RtI process and behavior plans. 2. Staff did not adequately document student progress causing students to remain in Tier 1.

Goal 1: IDEA achieves an A rating

Performance Objective 3: Third-grade scholars hit 90% approaches, 60% meets and 30% masters on reading and math STAAR.

High Priority

HB3 Goal

Evaluation Data Sources: Instructional rounds, Data meetings, Student Data Tracker, Exit ticket sort, instructional stepback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Daily data tracking of student TEKS mastery across all populations. **Strategy's Expected Result/Impact:** Close gaps in reading comprehension and analyzing text for evidence **Staff Responsible for Monitoring:** All Instructional Staff, Assistant Principals of Instruction, Principal **Title I:** 2.4, 2.5 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Demographics 1, 2 **Funding Sources:** Nora Cantu - ILEARNING HOT SPOT FACILITATOR - Federal Grant - $34,436.16	20%	25%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 3 Problem Statements:

Demographics
Problem Statement 1: There is a need to increase our new-to-IDEA student persistence as only 74% chose to persist with us last year. **Root Cause**: 1. Lack of consistent, annual reflection and interests surveys on what keeps students/families at campus 2. Lack of program offerings such as afterschool electives, clubs, sports, etc. 3. Lack of clear communication around IDEA's rigorous Academic model during WTI and the partnership expectations of parents and students during the onboarding process and beyond.
Problem Statement 2: Increase in student metal health crisis and outcries resulting in increased absences or student code of conduct violations **Root Cause**: 1. Lack of focus on health and wellness of scholars through daily implementation of SEL program 2. Lack of consistent observations to track fidelity of SEL program being taught consistently through the week

Goal 1: IDEA achieves an A rating

Performance Objective 4: 60% of SPED scholars will receive approaches or meets on Math STAAR for 3rd - 5th

HB3 Goal

Evaluation Data Sources: Instructional rounds, Data meetings, Student Data Tracker, Exit ticket sort, instructional stepback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use Domain 3 trackers to track SPED performance on TEKS and Category 1-4 in Math **Strategy's Expected Result/Impact:** Progress and Achievement targets are met in Domain 1 and 3. **Staff Responsible for Monitoring:** Campus educators, Assistant Principals of Instruction, Principal **Title I:** 2.4, 2.5 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 1, 2	10%	20%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 4 Problem Statements:

Student Learning
Problem Statement 1: All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3 **Root Cause**: 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Failure to make adjustments to curriculum in a timely manner when responding to noted gaps in exit ticket data.
Problem Statement 2: Only 29% of Math Critical Intervention Students passed their respective STAAR exam **Root Cause**: 1. Lack of leaders coaching teachers to urgently respond to daily exit ticket outcomes for CSI students. 2. Lack of general population and intervention teacher co-planning to create support systems in class for CSI students

Goal 2: All IDEA students matriculate to college

Performance Objective 1: All seniors will be assigned a K-12 mentor teacher to support with application, financial aid, and matriculation process.

High Priority

HB3 Goal

Evaluation Data Sources: Tracker of applications and admissions, financial aid applications, TSI Exempt

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Monthly check ins with senior and teacher mentor to support college matriculation **Strategy's Expected Result/Impact:** 100% of scholars matriculate to college **Staff Responsible for Monitoring:** Principals, APIs, DCC, College Counselors, Instructional Staff **Title I:** 2.5 **- TEA Priorities:** Connect high school to career and college, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 1, 2 - School Processes & Programs 1		55%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: All student populations struggled in meeting or mastering Mathematics student achievement for Domain 3 **Root Cause**: 1. Failure to increase math interventions in quarter 1 of school. 2. Failure to start tutoring before Semester 2 for students 2-3 grade levels behind in math. 3. Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics

Demographics Summary

Founded in the Valley, IDEA has expanded and developed charter schools in multiple states to serve underprivileged communities. As a Title I school, with the entire population receiving free lunch, IDEA Monterrey Park starts at kindergarten and goes through 12th grade with a total population of 733. The population consists of 43% Hispanic with a variety of other races (white, black, Asian, etc.). To attend MoPa, scholars must complete the application process and provide proper documentation. If enrollment has been met, the student will be placed on a waiting list. This list is generated on a first come basis.

Monterrey Park's special programs services students academically and socially. Academically, MoPa provides supports for all special education, 504, and ELL students through accommodations and IEP/ILP meetings. Fine arts are provided to expand their minds and meet graduation requirements. Some of the courses in Fine Arts are Art I & II, AP Drawing, and AP 2D Art. Boys and girls are encouraged to get involved in extracurricular activities. Socially, students are provided with the opportunity to join athletic teams or after school clubs

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is an excessive loss of students due to behavioral issues. **Root Cause:** There were no plans on how to handle different levels of behavior. 1. Last year Educators handbook was not purchased to record behavioral incidents 2. Teachers were unable to track/ record student misconduct on any platform. 3. APIs did not communicate effectively with parents regarding their students misbehavior.

Problem Statement 2 (Prioritized): Students are not engaged and lack of drive to come to school. **Root Cause:** COVID has diminished the attendance of students. Last year students had minimal joy factors when attending class. Students are intimidated by the high rigor.

Student Learning

Student Learning Summary

Focusing on domains and our path to an A, our biggest area of opportunity was domain 3 academic achievement for our sub populations. Last year it took us until March to adjust our seating arrangements with our sub pops identified. Teachers did not differentiate instruction to accommodate all out our sub pops. This year we will put a larger emphasis on sub pops, specifically our ELLs starting in September. Last year we failed to provide accomodations for our ELLs and it effected how they did on our STAAR exams. This year we are on track to enter all appropriate paperwork to get IEPs submitted for our ELL students. We have also purchased Rosetta stone to help support those who speak little to no English. We purchased IXL licenses for 6th-10th grade to be a supplemental resource for all ELA and Math contents in those grades. This will ensure scholars are getting a double dose of math and ELA and make sure we are on track to closing the gaps. 8th grade struggled the most in the Social Studies content according to the 2022 STAAR results with only 74% of students passing in general and only 40% SPED students passing. 8th algebra 1 was 4/46 in the district and 2/12 in the region with a total of 99% of students passing in general and 100% of SPED students passing the STAAR. For 8th grade ELA, 93% of students passed the STAAR in general but only 60% of SPED students passed. For 8th grade science, 89% of students passed the STAAR in general but only 20% of SPED students passed. For 9th grade ELA, 94% of students passed in general and 100% of SPED students passed. Finally, for 9th grade Biology, 96% of students passed in general and 100% of SPED students passed the STAAR.

Students at IDEA Monterrey Park are on track to graduate each year due to weekly OTG reports to ensure scholars are maintaining highest grades needed to be successful in high school and beyond and allowing teachers and leaders to create intervention plans for our priority students. We also provide tutoring and support for our scholars as they prepare for AP exams in the Spring of each school year. Allowing all scholars to enroll and take AP exams gives them several opportunities to gain college credit while in high school. Our longitudinal graduation rate is 100% and therefore leaves no scholar behind as we prepare every scholar at IDEA Monterrey Park for college after high school. Our scholars are continuously prepared for college after high school and are TSI exempt by the time they are ready to matriculate to our nation's best colleges/universities. Scholars are enrolled in a rigorous high school graduation plan that includes college prep courses also known as AP for all.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There were few students who achieved meets or approaches in math/ELA 6th/7th grade. **Root Cause:** There were no teachers in CSI Math/ELA intervention for the whole school year. 6/7th Math had new teachers and 6 ELA had a first year teacher. APIs did not follow the GET when coaching their teachers.

Problem Statement 2 (Prioritized): Inconsistent test data between mock exam and the STAAR for 6th/7th ELA/Math. **Root Cause:** Teachers were using released STAARs for 6/7th ELA/Math as reviews that overlined to semester/unit exams. APIs were not creating effective high rigor blind assessments.

School Processes & Programs

School Processes & Programs Summary

Social Emorional Learning and Mental Health

IDEA Public Schools believes that all students should feel a sense of belonging and psychological safety to thrive in our schools and beyond. All students have access to high-quality social emotional curriculum that allows them to develop skills in identifying and regulating emotions and responsible decision-making, build sense of belonging, and foster relationships with their peers and school staff.

Campus Leadership Roles

- School Counselor (On-Model): The role of School Counselor leads the campus family engagement vision, social emotional learning program, and coordination of mental health and counseling supports for all scholars on the campus.
- Social Worker (Off-Model, hired through discretionary funds utilized by school leader): Social Workers work directly with our at-risk scholars to ensure that they graduate from IDEA and go to and through college by providing them individualized emotional, behavioral, and mental health support. Social Workers manage a caseload of at-risk scholars and provide individual and group interventions to support them independently master coping skills to address and overcome mental, behavioral, and academic challenges.

Training Provided/Final Data/Source

- Monthly Professional Learning Community led by Student Performance and Advocacy Team and Regional Manager of Student and Family support. Apricot 360: Utilized for documenting services provided to students individually and in groups

Spcial-Emotional Learning Curriculum: Move This World

- All students have access to high-quality social emotional curriculum that allows them to develop skills in identifying and regulating emotions and responsible decision-making, build sense of belonging, and foster relationships with their peers and school staff. All counselors and social workers are trained in directing campus curriculum implementation; all teachers are trained in delivering curriculum during Beginning of year PD week. School Counselor is Campus Owner; Teachers own daily delivery in their homerooms during Move This World Block

Anti-Bullying

- Awareness: 100% of students are aware of how to advocate for oneself and others, including who to reach out to for support regarding any form or allegation of bullying. Preventative Psychoeducation: 100% of students receive a health curriculum that includes evidence-based practices that will effectively address awareness, prevention, identification, self-defense in response to, and resolution of and intervention in bullying and harassment. Counseling: Campus ensures that 100% of students are aware of the school district’s policy regarding the actions a student should take to obtain assistance and intervention in response to bullying and must set out the available counseling options for a student who is a victim of or a witness to bullying or who engages in bullying. Additionally, the state mandates school counselors or school personnel to notify the parent or legal guardian of the victim of available counseling options. Staff Training: 100% of campus staff receive a minimum of four hours (new employees) and two hours (returning employees) of training on preventing, identifying, responding to, and reporting incidents of bullying before the FDOS.

Sexual Abuse Prevention

- Awareness: 100% of students are aware of how to advocate for oneself and others, including who to reach out to for support regarding any form of sexual abuse or allegations of sexual misconduct. Preventative Psychoeducation: Campus ensures that 100% of students receive age- and grade-appropriate preventative education regarding child sexual abuse prevention education for all K-12 students. Instruction shall be limited to 1) what constitutes abuse or an assault, and 2) how students may safely and confidentially report to a school official the circumstances surrounding any such abuse or assaults. Staff Training: Campus ensures 100% of employees have received training concerning

prevention techniques for and recognition of sexual abuse and all other maltreatment of children each year.

Family Engagement

- IDEA Public Schools believes that once a student enters our organization, they are a part of the team and family. It is our responsibility to ensure 100% of students go to and through college and we follow through on our commitment to families. We specifically track and monitor the duration of time each student spends in our schools and the impact family engagement has on the longevity of that relationship and ultimate success of the goal of college matriculation.
- We focus specifically on new student persistence in response to historical data showing us that students within their first year of IDEA have higher rates of leaving. This data should drive more effective recruitment, enrolling, and onboarding so that students in year 1 at IDEA stay with IDEA. Historical data also shows us that when students are with us for more than 1 year, they are more likely to stay.
- We track 2 different groups of students.
    - New Students: Defined as a student in their first year of any IDEA school.
    - Overall Student: Defined as all students present on Day 10 of one year to all students present on Day 10 for the next school year

Technology Integration

Student technology supports our mission of preparing students for college and beyond.

As schools continue to evolve to meet the needs of modern society, IDEA Public Schools is strengthening its commitment to support students on the path to and through college by providing personal technology equipment to all scholars enrolled at IDEA. Our 1 to 1 program ensures every IDEA scholar is issued a Windows or Chromebook device at no cost to families. Additionally, we offer family resources to support scholars to continue learning at home. This includes access to Microsoft Office 365 Education apps, individualized learning apps, home internet access and remote technical support.

Special Education Program

Speech Therapy: Students who qualify for educational based speech/language services are provided with therapy from an IDEA speech language pathologist according to their IEP

Occupational Therapy: Students who demonstrate an educational based need for fine motor or sensory services are provided with therapy from a certified occupational pathologist according to their IEP

Physical Therapy: Students who demonstrate an educational based need for gross motor services are provided with therapy from a certified occupational pathologist according to their IEP

Special Education Counseling: Students who qualify for counseling based on their identified educational disability are provided this service from an IDEA Licensed Specialist in School Psychology (LSSP) according to their IEP

Auditory Impairment Services: Students who require direct or consult support from an Auditory Impairment specialist will receive this service according to their IEP

Visual Impairment Services: Students who require direct or consult support from a Visual Impairment specialist will receive this service according to their IEP

Orientation & Mobility Services: Students with Visual Impairment who require support in their ability to effectively and independently navigate through a variety of settings will receive this service according to their IEP

Adaptive Physical Education (PE): Students who are unable to access the general physical education class will receive this service according to their IEP

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.

- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): There are not enough family engagement activities that include academy . **Root Cause:** There were not many plans made for families to engage with teachers . There is no communication between the campuses. SSA did not create effective plans with academy SSA to accommodate parents.

Problem Statement 2 (Prioritized): The goal to meet staff retention for teachers and leaders was not met. **Root Cause:** Staff members did not have consistent coaching or

communication. Consistent change of leaders . Too much pressure for teachers to meet their goals.

Problem Statement 3 (Prioritized): Student culture shows little empathy towards fellow students going through crisis. **Root Cause:** Our campus has not had a socio-emotional counselor in the past few years and MTW was not a priority or being implemented in classes.

Problem Statement 4 (Prioritized): Scholars not invested in health programs. **Root Cause:** Prior, students were only given shout-outs for highlights in shows and not student achievement through the fitness assessment data collected during PE.

Perceptions

Perceptions Summary

College Success Team

The College Success team designs and supports the implementation of the College Success program across all IDEA campuses at the national level. This team identifies resources, drives the creation of the Road to College curriculum, supports its implementation by counselors, and ensures that best practices are shared. The Chief College and Diversity Officer and their team are responsible for helping to create a strategy to ensure school-level goals are met and training school personnel to ensure they are on track to hit their goals. In addition, this team is charged with achieving college matriculation and graduation goals.

The Alumni Success team at IDEA Public Schools is responsible for ensuring that alumni complete college in four to six years. The team is led by a Senior Director of Alumni Affairs, who is responsible for the Managers of Alumni Affairs. Managers of Alumni Affairs begin working with senior students during their last year at IDEA in a series of workshops and a brunch series. The Alumni Affairs Team partners with colleges, most closely the University of Texas – Rio Grande Valley, to track student success and plan necessary interventions for students who may be struggling academically or personally. The team also manages IDEA's internal "Give Me 5" Scholarship program and disbursement of awards to alumni enrolled in college.

Information Systems & Technology Team ***(New Chief Area in 2021-2022 School Year)***

The Information Systems & Technology team is responsible for data security, information systems (student, staff, and business data), instructional technology (for students and staff), software development, product development, project management, technology operations. Prior to splitting into its own Chief strand in 2021, the team was under the Operations team; during that time, they created proprietary software, partnered tremendously with instructional leaders to provide views of student performance to drive decision-making, and most recently, spearheaded the district's 1:1 technology initiative to tackle the impact of the COVID-19 pandemic on education delivery. Their focus on customer service and industry standards of project management leads the way in the organization.

Operations Team

The Operations team is responsible for facilitating and executing operations management throughout the district so that the daily core foci of schools are student instruction and achievement. The team is divided into six strands: campus and regional operations, the Child Nutrition Program (CNP), enrollment and school launch operations, facilities and construction, student and community health, and transportation and warehousing. The team works with Regional VPs of Operations (RVPO) and Regional Directors of Operations (RDO) to support campus operations and regional efforts.

Schools Team

The Schools Team is responsible for supporting IDEA school leaders across all regions. The Superintendent manages Area Superintendents, who manage regional Executive Directors. Executive Directors are each responsible for the success of their region and coach and manage regional staff, including the Senior Vice Presidents of Schools who each manage a cohort of school principals.

THE ROLE OF SCHOOL-LEVEL STAFF

Campus instruction is led by a Principal or Executive Principal. They are managed by a region's ED, RS, or VP of Schools. The Principal or Executive Principal manages a minimum of 6 staff, and at full scale manages upwards of 100 staff members counting indirect staff members. The Principal relies on Assistant Principals of Instruction (APIs) to manage teachers and co-teachers for their respective portfolio according to grade level or subject, and is responsible for the execution of instructional excellence across the following facets of work: student persistence, academic results, parent engagement, student achievement, teacher's coaching and development, etc.

Campus operations are led by an Assistant Principal of Operations (APO). They are dually managed by both the Academy and College Preparatory school principals, creating an important leadership triad for each campus. The APO manages a minimum of 8 staff, and at full scale manages upwards of 40 staff members and serves 1,700 students. The APO

manages campus operations for their respective schools and is responsible for the execution of operational excellence across the following facets of work: front office management, student information systems, child nutrition, transportation, health services, business office, facility maintenance, new construction management, technology coordination, student enrollment. The APO develops operations protocols and procedures, assists with troubleshooting, and builds management capacity to ensure efficiency.

OUR CORE VALUES

Every student, teacher and staff member at IDEA Public Schools uses the core values to guide our actions and decisions:

WE ACT WITH INTEGRITY

We put the best interests of the IDEA Team & Family—and most importantly our students—at the forefront of all our decisions and actions, taking personal responsibility to model the honest and ethical behavior we want our students and each other to demonstrate every day.

WE ACHIEVE ACADEMIC EXCELLENCE

We believe ensuring college success for 100% of our students is the best way to help them succeed in life and in seeing obstacles they face as opportunities for learning and growth. Every member of the IDEA Team & Family works together to ensure each student on every campus and in every classroom receives a high-quality education.

WE DELIVER RESULTS

We set ambitious goals, hold ourselves and each other accountable for achieving results, and believe that our students will succeed to and through college. Our results show what's possible when the adults in the system get it right and represent the collective effort and focus of the entire IDEA Team & Family.

WE ENSURE EQUITY

We set high expectations and share compassion and empathy for every member of the IDEA Team & Family. We differentiate our support and resources, proactively address racism and discrimination, and advocate alongside our students and staff to empower them with the opportunities to succeed and ensure the respect they deserve

WE BUILD TEAM & FAMILY

We foster a sense of belonging and inclusivity by treating every member of the IDEA Team & Family—our students, staff, families, and community—with compassion, respect, and humility. We maximize our individual best efforts through collaboration and support of each other in the focused pursuit of our collective mission.

WE BRING JOY

We create a positive, uplifting, and joyful environment for every member of the IDEA Team & Family, every single day. We operate with a sense of optimism, and our traditions celebrate learning, growth, and the accomplishments of our students, staff, and community.

WE SWEAT THE SMALL STUFF

We embrace that achieving excellence lies in paying attention to and carrying out the details—the 'small stuff'—that go into effective execution and positive implementation. Every step of the way, the IDEA Team & Family prioritizes actions contributing to our mission of College for All.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): The is no parent engagement to hold students accountable at home. **Root Cause:** Lack of communication between staff and parents. Campus did not communicate with parents in timely manner. Staff did not build relationships with student parents. No systems built to keep parents engaged.

Problem Statement 2 (Prioritized): Lack of celebrations, events and informational for the senior classroom. **Root Cause:** Counseling team did not plan ahead of time for any events. Counseling team/Lead team spent more time closing other gaps and did not prioritize family engagement.

Priority Problem Statements

Problem Statement 1: Inconsistent test data between mock exam and the STAAR for 6th/7th ELA/Math.

Root Cause 1: Teachers were using released STAARs for 6/7th ELA/Math as reviews that overlined to semester/unit exams. APIs were not creating effective high rigor blind assessments.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: There are not enough family engagement activities that include academy .

Root Cause 2: There were not many plans made for families to engage with teachers . There is no communication between the campuses. SSA did not create effective plans with academy SSA to accommodate parents.

Problem Statement 2 Areas: School Processes & Programs

Problem Statement 3: The is no parent engagement to hold students accountable at home.

Root Cause 3: Lack of communication between staff and parents. Campus did not communicate with parents in timely manner. Staff did not build relationships with student parents. No systems built to keep parents engaged.

Problem Statement 3 Areas: Perceptions

Problem Statement 4: There were few students who achieved meets or approaches in math/ELA 6th/7th grade.

Root Cause 4: There were no teachers in CSI Math/ELA intervention for the whole school year. 6/7th Math had new teachers and 6 ELA had a first year teacher. APIs did not follow the GET when coaching their teachers.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Students are not engaged and lack of drive to come to school.

Root Cause 5: COVID has diminished the attendance of students. Last year students had minimal joy factors when attending class. Students are intimidated by the high rigor.

Problem Statement 5 Areas: Demographics

Problem Statement 6: The goal to meet staff retention for teachers and leaders was not met.

Root Cause 6: Staff members did not have consistent coaching or communication. Consistent change of leaders . Too much pressure for teachers to meet their goals.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Lack of celebrations, events and informational for the senior classroom.

Root Cause 7: Counseling team did not plan ahead of time for any events. Counseling team/Lead team spent more time closing other gaps and did not prioritize family engagement.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: There is an excessive loss of students due to behavioral issues.

Root Cause 8: There were no plans on how to handle different levels of behavior. 1. Last year Educators handbook was not purchased to record behavioral incidents 2. Teachers were unable to track/ record student misconduct on any platform. 3. APIs did not communicate effectively with parents regarding their students misbehavior.

Problem Statement 8 Areas: Demographics

Problem Statement 9: Student culture shows little empathy towards fellow students going through crisis.

Root Cause 9: Our campus has not had a socio-emotional counselor in the past few years and MTW was not a priority or being implemented in classes.

Problem Statement 9 Areas: School Processes & Programs

Problem Statement 10: Scholars not invested in health programs.

Root Cause 10: Prior, students were only given shout-outs for highlights in shows and not student achievement through the fitness assessment data collected during PE.

Problem Statement 10 Areas: School Processes & Programs

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant achievements by race, ethnicity, gender, etc.
- Section 504 data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data

- Attendance data
- Discipline records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% all staff retention.

IDEA Public Schools

Montopolis Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in Science
Top 25 Percent: Comparative Academic Growth
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Montopolis Academy will be the #1 choice elementary school in the city of Austin.

Vision

Montopolis Academy K-5 will be a model for elementary education reform in the city of Austin. We WILL be the Austin Icon for choice schools. As we grow, other IDEA Austin schools will come learn from our traditions and not have to travel to the valley. We will be the first choice school to send 100% of scholars to college.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

IDEA Montopolis Academy is a Kinder through 5th grade campus that serves 712 students in Austin, Texas. Our population is made up of 51% female and 49% male. About 88% of our students are economically disadvantaged and 87% of our students are english learners. In 2022, we retained 84% of our instructional staff/

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to increase new and overall student persistence because we did not meet goal for the 2021-22 school year and numbers have significantly declined in the past year. **Root Cause:** Lack of parent engagement events and communication around student's academic performance.

Problem Statement 2 (Prioritized): There is a need to increase staff retention for the 2022-23 school specifially our Co-Teachers. We did not mee the goal of retaining 85% of our instructional staff. **Root Cause:** There has not been enough attention to healthy work/life balance for teachers. Co-teachers are expected to perform similar tasks as lead teachers without the same compentation or time to plan.

Student Learning

Student Learning Summary

We are in the top 25% of silimar schools for comparative academic growth. We recived both the academic achievement in science and postsecondary readiness distinction.

Student Learning Strengths

See PDF in Addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There has been minimal growth for critical and SPED student in reading. **Root Cause:** We have not prioritzed comprehension skills in CSI via book studies and TEKS based reteaches.

Problem Statement 2 (Prioritized): Number sense learning gaps are significant because of COVID and our most Signifcant growth in math happens during the second semester of schools when mastery machine ramps up. **Root Cause:** TEKs Sprial Block needs to begin in August not December with a scope and sequence that closes significant number sense gaps.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): We lost 3 of our highly qualified SPED/Intervention teachers at the end of the school year. **Root Cause:** Planning time is not long enough to plan for student, track and identify misconceptions, internalize CSI lessons and complete SPED paperwork for compliance.

Problem Statement 2 (Prioritized): We consistently lose co-teacher during and after the school year. **Root Cause:** They are expected to complete lead teacher tasks without the same pay, planning time or TCP incentives.

Priority Problem Statements

Problem Statement 1: There is a need to increase staff retention for the 2022-23 school specifially our Co-Teachers. We did not mee the goal of retaining 85% of our instructional staff.

Root Cause 1: There has not been enough attention to healthy work/life balance for teachers. Co-teachers are expected to perform similar tasks as lead teachers without the same compentation or time to plan.

Problem Statement 1 Areas: Demographics

Problem Statement 2: We lost more than 16% of our new familes throughout the year and over the summer.

Root Cause 2: We did not have a consistent method of garnering family feedback over the course of the year like surveys, PTO meetings, Coffee with the Principal and other feedback events.

Problem Statement 2 Areas: Perceptions

Problem Statement 3: We lost more than 8% of our students over the summer.

Root Cause 3: We did not effectively engage and inform parents throughout the year and over the summer months.

Problem Statement 3 Areas: Perceptions

Problem Statement 4: There is a need to increase new and overall student persistence because we did not meet goal for the 2021-22 school year and numbers have significantly declined in the past year.

Root Cause 4: Lack of parent engagement events and communication around student's academic performance.

Problem Statement 4 Areas: Demographics

Problem Statement 5: There has been minimal growth for critical and SPED student in reading.

Root Cause 5: We have not prioritzed comprehension skills in CSI via book studies and TEKS based reteaches.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: Number sense learning gaps are significant because of COVID and our most Signifcant growth in math happens during the second semester of schools when mastery machine ramps up.

Root Cause 6: TEKs Sprial Block needs to begin in August not December with a scope and sequence that closes significant number sense gaps.

Problem Statement 6 Areas: Student Learning

Problem Statement 7: We lost 3 of our highly qualified SPED/Intervention teachers at the end of the school year.

Root Cause 7: Planning time is not long enough to plan for student, track and identify misconceptions, internalize CSI lessons and complete SPED paperwork for compliance.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: We consistently lose co-teacher during and after the school year.

Root Cause 8: They are expected to complete lead teacher tasks without the same pay, planning time or TCP incentives.

Problem Statement 8 Areas: School Processes & Programs

Goals

Goal 1: Increase staff retention (85%)

Performance Objective 1: IDEA Montopolis will retain 85% of staff staff by the end of the 2022-23 school year.

High Priority

Evaluation Data Sources: GPTW, End of year staff retention data (LOCUS)

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Weekly staff retention activity decided at weekly lead team tacical. **Strategy's Expected Result/Impact:** Increase morale and job satisfaction **Staff Responsible for Monitoring:** Interventionists (S. Crockett and E. Tijerina) **TEA Priorities:** Recruit, support, retain teachers and principals	0%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. Prioritize and protect time for leaders to complete the coaching cycle so that teachers are adaquetly developed and see success. **Strategy's Expected Result/Impact:** Increase job satisfaction and staff retention **Staff Responsible for Monitoring:** APIs **Title I:** 2.5 - **TEA Priorities:** Recruit, support, retain teachers and principals	75%			

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 3. Maintain upwards feedback systems. Have GTLs collect upwards feedback for tracker every Tuesday. Every Wednesday, the lead team opens and addresses the feedback left in the tracker. **Strategy's Expected Result/Impact:** Increase staff retention				

Staff Responsible for Monitoring: Princial and API **TEA Priorities:** Recruit, support, retain teachers and principals	100%	100%	100%	

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of IDEA Montopolis students will matriculate to college in 2023.

High Priority

Evaluation Data Sources: 2023 Matriculation data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Build excitement around going to college- Open all DI lesson with students stating their college house, their big to get to college and why it's important to them. **Strategy's Expected Result/Impact:** Ensure 100% of Montopolis scholars matriculate to college. **Staff Responsible for Monitoring:** SSA **TEA Priorities:** Connect high school to career and college	90%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. Send 5th graders on 1 local college visit. **Strategy's Expected Result/Impact:** Ensure 100% of Montopolis scholars matriculate to college. **Staff Responsible for Monitoring:** SSA **Title I:** 2.5 - **TEA Priorities:** Connect high school to career and college	0%			

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 3. Plan and execute strong transition activities for 5th graders going to 6th grade. **Strategy's Expected Result/Impact:** Ensure 100% of Montopolis scholars matriculate to college. **Staff Responsible for Monitoring:** SSA **Title I:** 2.5 - **TEA Priorities:** Connect high school to career and college	0%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: IDEA Montopolis Academy will achive an A rating for 3rd-5th Reading, math and 5th grade Science

High Priority

HB3 Goal

Evaluation Data Sources: Semester Exams, Mock Exams, STAAR and TELPAS

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Math and reading inventionist pushing into all priority reading, math and writing classes. **Strategy's Expected Result/Impact:** We will earn an A rating for the 2022-23 school year. **Staff Responsible for Monitoring:** APIs **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. Special Education teachers will push in to all STAAR tested subject classes to provide accomodations and in class support for SPED students. **Strategy's Expected Result/Impact:** We will earn an A rating for the 2022-23 school year. **Staff Responsible for Monitoring:** Principal **Title I:** 2.6 - **TEA Priorities:** Build a foundation of reading and math				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 3. Math and Reading teachers will have shared planning periods for daily exit ticket huddles and content collaboration. **Strategy's Expected Result/Impact:** We will earn an A rating for the 2022-23 school year. **Staff Responsible for Monitoring:** APIs **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math				

 No Progress Accomplished Continue/Modify Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Montopolis Academy will end the 2022-23 school year with a 97% ADA.

High Priority

Evaluation Data Sources: Daily attendance data.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Teachers and leaders make daily ADA calls **Strategy's Expected Result/Impact:** Increase ADA to 97% by the end of the year **Staff Responsible for Monitoring:** APO **Title I:** 2.6 **- TEA Priorities:** Build a foundation of reading and math				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. We will have monthly attendance incentives for students **Strategy's Expected Result/Impact:** Increase ADA to 97% by the end of the year **Staff Responsible for Monitoring:** APO **Title I:** 2.6 **- TEA Priorities:** Build a foundation of reading and math				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 3. Clear systems and procedures for parent communication **Strategy's Expected Result/Impact:** Increase ADA to 97% by the end of the year **Staff Responsible for Monitoring:** APO **Title I:** 2.6 **- TEA Priorities:** Build a foundation of reading and math				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 1: IDEA Montopolis Academy will retain 90% of its new and returning students for the 2022-23 school year.

High Priority

Evaluation Data Sources: Daily persistence data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Build authentic relationships with all scholars, familes and stakeholders. **Strategy's Expected Result/Impact:** Increase new and returning student persistence students **Staff Responsible for Monitoring:** SSA **Title I:** 4.1 **- TEA Priorities:** Improve low-performing schools	95%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. Plan and execute meaningful parent/scholar events **Strategy's Expected Result/Impact:** Increase new and returning student persistence students **Staff Responsible for Monitoring:** SSA **Title I:** 4.1 **- TEA Priorities:** Build a foundation of reading and math	100%	100%	100%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 3. Onboard 100% of family by September **Strategy's Expected Result/Impact:** Increase new and returning student persistence students **Staff Responsible for Monitoring:** SSA **Title I:** 4.1 **- TEA Priorities:** Build a foundation of reading and math	100%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 2: IDEA Montopolis will hold monthly campus crisis team meetings with assigned team members to address safety and security.

High Priority

Evaluation Data Sources: HUB tracking system and safety drill tracking system.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Hold a monthly team meeting to debrief and norm on safety and security systems. **Strategy's Expected Result/Impact:** Increased student persistence **Staff Responsible for Monitoring:** APO **Title I:** 4.1 **- TEA Priorities:** Connect high school to career and college				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 3: 90% of stuents will become fitness ambassadors by the end of the 2022-23 school year.

Evaluation Data Sources: IHT reporting system

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Teachers will target and track priority students to focus on each week **Strategy's Expected Result/Impact:** Increased student persistence **Staff Responsible for Monitoring:** SSA **Title I:** 2.5 **- TEA Priorities:** Build a foundation of reading and math	85%

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

Reflections	
Areas of Strength	**Areas of Need**
1 Vertical alignment of K-5 Math Systems and Procedures: power laps, IP time, show call, guided discourse, etc.	1 Need to create and/or research a year long CSI/remediation curriuclum that closes covid number sense gaps. Provide a TEKs based resource for teachers to pull from at the BOY for all K-5.

2 "Math Maintenance rounds": 100% of math teachers posted CFS/Teach to the future statements and stamped key points before releasing scholars into IP. All IP laps were rooted in CFS sequential order.	2 All MOY Systems such as weekly lesson rehearsals, ET huddles, content meetings, student goal setting conversations, need to occur at the BOY.
3 Weekly TEKs Cluster Quizzes aligned to K-5 incentive system (Monthly Math Olympics).	3 "TEKs Sprial Block" needs to begin in August not December with a scope and sequence that closes significant number sense gaps.

Data Source: School Culture and Climate	
Reflections	
Areas of Strength	**Areas of Need**
1. We are on track to exceed our overall persistence goal. Our current stduents and families trust us and want to stay year after year.	1. We would like to have one on one meetings with all familes by the end of September to ensure all familes are properly welcomed and know how to successfully navigate school at Montop.
2. We are on track to meeting our new student persistence goal. We worked hard to ensure all familes attending WTI.	2. We need to better invest the new students and ensure they feel connected to their new school by end of August.

3. We had monthly parent engagement events and increased the number of face to face parent teacher conferences so that families could monitor the academic and behavioral progress of their scholars.	3. We need to reactivate our PTO to get family input.

Campus Name

Comprehensive Needs Assessment ACADEMY	
Data Source: Family and Community Involvement	
	Percentage
% Families Attended WTI	63%
% Families Attended Curriculum Night	57%
% Families Who Attended EOY Ceremonies	68%
% Families who attended Fall Festival	N/A
% Families who attended Winter Festival	N/A
% Families who attended Spring Festival	N/A

Reflection	
Areas of Strength	**Areas of Need**
1. Welcome to IDEA planning and communication	1. More in person parent engagement events.
2. Leveraging teachers to lead academic sessions for WTI.	2. Having a consistent method of garnering family feedback over the course of the year.
3. Differentiating academic sessions by grade level and preferred language at WTI.	3. We need to have individual meetings with families to ensure they understand how to navigate our communication systems.

IDEA Public Schools

Montopolis College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Academic Achievement in Social Studies
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Staff professional development execution does provide teachers with the skills to execute a diverse classroom **Root Cause:** Staff development does not come from experts in the area of concern Staff development meetings did not allow enough time for staff to practice their new learnings Staff development trainings were not differentiated to meet different teacher needs

Problem Statement 2 (Prioritized): Curriculum available for staff does not provide the scaffolding for all contents to close previous year gaps before moving into grade level content. **Root Cause:** All staff are at different proficiency levels which impacts some of their ability to integrate scaffolded material.

Priority Problem Statements

Problem Statement 1: Special Education scholars are not meeting their personal goal or campus goal.

Root Cause 1: Special Education teachers did not receive efficient content aligned trainings. Special Education teachers and core teachers did not have enough opportunities to co-plan. Instructional Coaching lacked the skills to coach and develop their core teachers on how to differentiate instruction.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Students between grades 6-12 are not all hitting approaching grade level for Math

Root Cause 2: Students lack the foundational math skills needed to meet the grade level expectation students struggle with basic manipulation of numbers students struggle with multi -step problems

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Staff professional development execution does provide teachers with the skills to execute a diverse classroom

Root Cause 3: Staff development does not come from experts in the area of concern Staff development meetings did not allow enough time for staff to practice their new learnings Staff development trainings were not differentiated to meet different teacher needs

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Fidelity to the curriculum is not meeting the needs of all scholars.

Root Cause 4: Instructional leaders struggle with coaching teachers on how to differentiate the curriculum for all scholars The curriculum does not include modifications for all subpopulations

Problem Statement 4 Areas: Perceptions

Problem Statement 5: CSI scholars which are 2 or more years behind in Reading and Math did not receive small group instruction or additional instructional to close their individual gaps.

Root Cause 5: The number of CSI scholars were unable to be served by the one CSI teacher for both Reading and Math

Problem Statement 5 Areas: Demographics

Problem Statement 6: AP scholars struggle reading literature and completing FRQ at the AP Level

Root Cause 6: Leaders did not hold teachers accountable to the use of District curriculum which provides Pre-AP alignment

Problem Statement 6 Areas: Student Learning

Problem Statement 7: Curriculum available for staff does not provide the scaffolding for all contents to close previous year gaps before moving into grade level content.

Root Cause 7: All staff are at different proficiency levels which impacts some of their ability to integrate scaffolded material.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Bi-Weekly virtual Course Collaboration does not effectively develop teacher crafts along with curriculum corner.

Root Cause 8: Virtual trainings and self-development on how to use "district curriculum" continues to be a struggle for new teacher and leaders. Navigating the tools and collaborating virtually does not meet the individual learning needs of the adults in front of our kids.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Goals

Goal 1: Increase staff retention

Performance Objective 1: Increase staff retention by 14% points

Evaluation Data Sources: weekly tactical updates and teacher monthly touchpoints

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: monthly touchpoints with all staff	100%	100%	100%	

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of high school scholars will meet CCMR

HB3 Goal

Evaluation Data Sources: TSI benchmarks, ACT testing

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: ACT and TSI bootcamps monthly **Funding Sources:** - Federal Grant - $82,000.01, - Federal Grant - $57,000, - Federal Grant - $68,000	100%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Staff will actively monitor and respond to special populations scholar data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: train staff on special pop tracking and how to meet scholar individual needs	100%	100%	100%	

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: build partnerships with families around ADA and the impact on our mission of college for their scholar

Evaluation Data Sources: daily ADA calls and tracking, At-risk tracker next steps

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: schedule monthly townhalls, parent calls weekly	100%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: 90% of students achieve fitness ambassador status and campus hold socioemotional, bully, violence prevention assemblies.

Evaluation Data Sources: tracking minutes in PE, monthly awareness events

Strategy 1 Details	Reviews			
Strategy 1: hold weekly check ins with coach to identify if we are on track and next steps, schedule awareness events in advance	Formative			Summative
	Oct	Jan	Mar	June
	100%	100%	100%	

Strategy 2 Details	Reviews			
Strategy 2: Hold monthly strategy meetings with CCT	Formative			Summative
	Oct	Jan	Mar	June
	0%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Areas of Strength	Areas of Need
100% of ELA Teachers were proficient or above in writing exemplar responses and pre- identifying the misconception.	ELA Team will identify and create vertical aligned anchor charts for STAAR and AP ELA at BOY during 1st content team meeting (example: Thinking Jobs, How to summarize a paragrah, Annotations)
Identifyng annotation criteria for mastery for passage and question.	ELA will start Monitoring Quality of Student work with tracker week 3 of school by planning during first two weeks of school.

100% of ELA teachers have build strong relationships with scholars and invested scholars in their reading and writing goals.	ELA create standard writing criteria for mastery by grade level that vertically aligns and builds the rigor from 6th -12th grade during BOY content team time.

IDEA Public Schools

Najim Academy

2022-2023 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Top 25 Percent: Comparative Academic Growth

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

IDEA Najim Academy prepares students from underserved communities for success in college and citizenship. We aim to empower our students to become leaders so that they may work to improve their communities.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

IDEA Public Schools is on track to becoming the largest producer of low-income college graduates in the Texas. At IDEA Najim, we will build a culture where scholars and families are invested in their scholars academic success and social/emotional development, while also bringing the joy,

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 15, 2022

Demographics

Demographics Summary

IDEA Najim Academy focuses on recruitment, enrollment and retention of minority children in low socioeconomic households. Boasting 100% college for all with 100% of our scholars going to and through college; we pride ourselves in providing academic growth for all scholars and closing the achievement gap between minority demographics and "White" and "Asian" students across the nation. For the 2021-2022 school year, Najim Academy enrolled 92% economically disadvantaged students, 5% special education, 63% Hispanic, 31% African American, and 5% White. We obtain this data through surveys completed by parents or guardians at the time of enrollment. IDEA Carver serves 13% of its scholars in an emergent early exit bilingual program and has received an "A" rating from the Texas Education Agency for the 2021-2022 School year. Najim was able to accomplish this by retaining 85% of its teachers from 2021-2022. The student to teacher ratio at Najim academy is 28 to 1.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Parents inconsistently received a call back to address concerns within 24 hours upon reaching out. **Root Cause:** 1. There has been a lack of consistent communication systems which has caused the disconnect between families and the school. 2. There has been turnover in leadership that has contributed to the lack of consistent communication between families and school.

Problem Statement 2 (Prioritized): We had 80% of new family persistence and 83% overall student persistence. **Root Cause:** 1. Families are leaving because there was a lack of communication between campus and families. 2. Lack of consistent and clear communication around school culture and expectations to parents and students during the family onboarding process.

Problem Statement 3: Our Average daily attendance was at 92% for the school year. **Root Cause:** 1. There is a lack of consistency in following up with families of chronic absent students. 2. Attendance Matrix protocols have not been enforced consistently

Student Learning

Student Learning Summary

Najim Academy has improved from a C rated campus in 2019 to an A rated campus for the 21-22 school year. Najim Academy reached 73% of scholars reach approaches/43% reach meets/22% reach masters in all subjects. This led to a score of 74 in Domain1. Najim Academy recieved a 94 in domain 2 for academic growth and a 79 in domain 3. Najim Academy received distinctions for Academic acheivement in Reading/Language arts and top 25% Comparative growth. Sholars in grades Pre K-2nd grade ended with 89% of the scholars reading on grade level and had signifcant growth from previous school year. Our campus received 2 distinctions for the 21-22 SY.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): We had 33% of Sped scholars reach approaches on math STAAR, 28% of Sped scholars reach approaches in reading STAAR. **Root Cause:** 1. There was Inconsistency in focusing on these particular sub pop groups. 2. The was a lack of targeted intervention based on sub pop groups. 3. Teachers failed to provide enough differentiation to help meet the needs of all sub pops.

Problem Statement 2: There was inconsistent lesson plan feedback, which led to misalignment for a good part of the school year. **Root Cause:** 1. Tight coaching to mastery and aligning instruction started too late in the school year. 2. There was inconsistent targeted lesson plan feedback which led to inconsistency in alignment.

Problem Statement 3 (Prioritized): Data tracking systems were not utilized consistently, which made it difficult to respond to gaps. **Root Cause:** 1. Daily assignment and assessment tracking was not consistent. 2. Individualized Student trackers were not implemented consistently 3. There was a lack of daily reflection on data which kept teachers and leaders from making necessary adjustments.

School Processes & Programs

School Processes & Programs Summary

At Najim academy, leaders are developed through on the spot coaching, observation feedback meetings, and instructional rounds which allow the leaders and teachers to receive timely feedback to help improve daily practices. During instructional rounds, leaders are assigned different tasks during observations so that observations are targeted and intentional. After instructional rounds leaders come up with immediate next steps for classes and receive feedback from other leaders. At Najim academy professional developments are planned and delivered based on the campus needs/gaps. We use a daily exit ticket tracker and assessment tracker that allows us to track student acheivement data on a daily basis. Once we analyze data, we plan our professional developments to help respond to gaps. Leaders then provide appropriate follow up coaching for teachers. Leaders conduct observations daily and diagnose high leverage action steps for teachers that support student acheivement. During these observations, leaders take low-inference data from student answers, participation, or student work and provide action step based on the data. Along with rigorous instruction and coaching, we have recently increased the amount of time dedicated to social-emotional learning at the school. Students engage in daily SEL lessons which help students understand their emotions and to respond to situations in a healthy way.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): We had 50% leader retention and 85% teacher retention. **Root Cause:** 1. School has failed to successfully onboard new leaders and staff. 2. Lack of consistency in implementing daily operating mechanisms 3. School leadership has failed to consistently follow through with coaching to mastery. 4. Leaders have often felt unsupported and overwhelmed.

Problem Statement 2 (Prioritized): Our student persistence strategies have not produced the intended results, so have lost about 100 students each year for the past 2 years. **Root Cause:** 1. Lack of communication to families

Perceptions

Perceptions Summary

Najim Academy has met their teacher retention goal of 85% of teachers returning for the last two years. Based on the GPTW survey admistered last year 49% of people said that they were encouraged to balance their work and life. 44% of staff said that this is a fun place to work. 53% of teachers stated that everyone has an opportunity to receive special recognition. 50% of teachers stated that the look forward to coming to work each day. 43% of teachers stated that this is an emotionally and psychologically healthy place to work. Family participation is averaging around 50% of families participating consistently in community/school events. Najim had 60% of it's familiies attend EOY awards ceremonies, 30% of families attend curriculum night, and 60% of families attended spring festival. These calculations were measured through sign in sheets at each event.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Over the years, GPTW data has shown that staff satisfaction is low. **Root Cause:** 1. High leadership turnover 2. Lack of consistency with coaching teachers on campus culture/instruction

Problem Statement 2 (Prioritized): Only 50% of teachers stated that this is an emotionally and psychologically healthy place to work. **Root Cause:** 1. High leader turnover, which has led to different expectations each year and more work as a result.

Priority Problem Statements

Problem Statement 1: Parents inconsistently received a call back to address concerns within 24 hours upon reaching out.

Root Cause 1: 1. There has been a lack of consistent communication systems which has caused the disconnect between families and the school. 2. There has been turnover in leadership that has contributed to the lack of consistent communication between families and school.

Problem Statement 1 Areas: Demographics

Problem Statement 2: We had 33% of Sped scholars reach approaches on math STAAR, 28% of Sped scholars reach approaches in reading STAAR.

Root Cause 2: 1. There was Inconsistency in focusing on these particular sub pop groups. 2. The was a lack of targeted intervention based on sub pop groups. 3. Teachers failed to provide enough differentiation to help meet the needs of all sub pops.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: We had 50% leader retention and 85% teacher retention.

Root Cause 3: 1. School has failed to successfully onboard new leaders and staff. 2. Lack of consistency in implementing daily operating mechanisms 3. School leadership has failed to consistently follow through with coaching to mastery. 4. Leaders have often felt unsupported and overwhelmed.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Our student persistence strategies have not produced the intended results, so have lost about 100 students each year for the past 2 years.

Root Cause 4: 1. Lack of communication to families

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: We had 80% of new family persistence and 83% overall student persistence.

Root Cause 5: 1. Families are leaving because there was a lack of communication between campus and families. 2. Lack of consistent and clear communication around school culture and expectations to parents and students during the family onboarding process.

Problem Statement 5 Areas: Demographics

Problem Statement 6: Data tracking systems were not utilized consistently, which made it difficult to respond to gaps.

Root Cause 6: 1. Daily assignment and assessment tracking was not consistent. 2. Individualized Student trackers were not implemented consistently 3. There was a lack of daily reflection on data which kept teachers and leaders from making necessary adjustments.

Problem Statement 6 Areas: Student Learning

Problem Statement 7: Over the years, GPTW data has shown that staff satisfaction is low.

Root Cause 7: 1. High leadership turnover 2. Lack of consistency with coaching teachers on campus culture/instruction

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Only 50% of teachers stated that this is an emotionally and psychologically healthy place to work.

Root Cause 8: 1. High leader turnover, which has led to different expectations each year and more work as a result.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data

Goals

Goal 1: Increase staff retention

Performance Objective 1: IDEA Najim Academy will have at least 85% staff retention by June 2023.

High Priority

Evaluation Data Sources: Teacher Weekly, Teacher Liveschool, Praise Tracker, Quarterly Pulse Checks, and GPTW

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Reset adult culture **Strategy's Expected Result/Impact:** 1. Teacher results in GPTW survey to improve from 46% to 85% satisfaction. **Staff Responsible for Monitoring:** Assistant principals, counselor, assistant principal of operations, and school principal. **TEA Priorities:** Recruit, support, retain teachers and principals		50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Bringing Joy to campus to help invest adults in campus culture. **Strategy's Expected Result/Impact:** 1. Increase staff morale and investment which will lead us to meet goal of 85% staff retention. **Staff Responsible for Monitoring:** Assistant Principals, Principal, Counselor, and Assistant Principal of Operations **TEA Priorities:** Recruit, support, retain teachers and principals		50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of IDEA seniors matriculate to college by August 2023.

High Priority

Evaluation Data Sources: Persistence Tracker, HB 4545 Tracker, Executive Tracker, Mission 90/30 Document/Meetings, STAAR Domain 2 and 3 tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Track and Respond to student achievement data using HB4545 and STAAR Domain 2 and 3 tracker. **Strategy's Expected Result/Impact:** 1. We will be able to identify gaps in scholar's learning and will allow us to create strategic plans to close gaps. **Staff Responsible for Monitoring:** Principal, Assistant Principals, Teachers, and Reading and Math Interventionists **Title I:** 2.6 **- TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use Mission 90/30 tracker/meetings to identify HP scholars that are at risk of leaving and create plans to re-invest them. **Strategy's Expected Result/Impact:** 1. We will be able to proactively identify and re-invest scholars who are wanting to leave our school. **Staff Responsible for Monitoring:** Counselor, Teachers, Assistant Principals, Assistant Principal of Operations, and Principal **Title I:** 2.6 **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: IDEA Najim will achieve an A rating for the 22-23 SY.

High Priority

HB3 Goal

Evaluation Data Sources: Exit ticket trackers, Assessment trackers, HB4545 tracker, domain 1,2,3 tracker, executive tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Coaching and developing teachers **Strategy's Expected Result/Impact:** We will have strong teachers that will be able to teach our students effectively and achieve results. **Staff Responsible for Monitoring:** Assistant Principals, Principals, and Teachers **TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Targeted Data Tracking **Strategy's Expected Result/Impact:** 1. The targeted Data tracking will allow us to identify learning gaps and respond to them with targeted interventions. **Staff Responsible for Monitoring:** Teachers, Assistant Principals, and Principal **Title I:** 2.4, 2.6 - **TEA Priorities:** Improve low-performing schools				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: TEKS alignment **Strategy's Expected Result/Impact:** 1. Students will practice 100% aligned TEKs material which will help them prepare for STAAR test. **Staff Responsible for Monitoring:** Teachers, Assistant Principals, and Principal **Title I:** 2.4, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools		95%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: IDEA Najim will increase Student Achievement Average in 3rd Grade Reading and 3rd Grade Math STAAR from 41 to 55 on 22-23 STAAR test.

High Priority

HB3 Goal

Evaluation Data Sources: Exit Ticket Trackers, ET Huddles, CSI tracker, Domain 1, 2, and 3 tracker, executive tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Leverage Lesson rehearsals and first teach observations to ensure high quality lessons. **Strategy's Expected Result/Impact:** Scholars will be able to score high on first teach, which will lower the amount of intervention or reteaching needed. **Staff Responsible for Monitoring:** Assistant Principals of Instruction and Principal **TEA Priorities:** Improve low-performing schools	0%	60%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Utilize Data Tracking, Daily Exit Ticket Sorts, Exit Ticket Huddles and Assessment Data Dives to identify gaps in student learning and respond to gaps. **Strategy's Expected Result/Impact:** We will be able to identify gaps in student learning and create intervention/ reteach plans. **Staff Responsible for Monitoring:** Teachers, Assistant Principals of Instruction and Principal **TEA Priorities:** Recruit, support, retain teachers and principals, Build a foundation of reading and math, Improve low-performing schools	0%	80%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 3: IDEA Najim Academy will increase performance in Domain 3 Student Achievement for all sub pops on 22-23 STAAR test.

High Priority

HB3 Goal

Evaluation Data Sources: ET Tracker, Domain 3 Tracker, CSI Tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 1. Track student data by subpop using Domain 3 tracker and use data to create targeted intervention plans . **Strategy's Expected Result/Impact:** We will see an increase in student achievement data for all subpops. **Staff Responsible for Monitoring:** Teachers, Interventionists, Assistant Principals of Instruction, and Principal **TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools	0%	30%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use CSI and targeted Teks based intervention to help support special education scholars close instructional gaps. **Strategy's Expected Result/Impact:** We will see an increase in special education scholars who achieve meets on both reading and math STAAR test. **TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools	0%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Najim will attain a 97% or higher average daily attendance by June 2023.

High Priority

Evaluation Data Sources: Power BI ADA daily, daily ADA reports, weekly data tracker, and attendance matrix tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Idea Najim Academy will use Attendance Matrix with fidelity to ensure accountability. **Strategy's Expected Result/Impact:** 1. At least 97% students in attendance on a daily basis 2. Parents will comply with sending scholars to school on a daily basis. **Staff Responsible for Monitoring:** Teachers, Assistant Principal of Operations, SIS coordinator, API's, and Principal **Title I:** 2.6 - **TEA Priorities:** Improve low-performing schools		15%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Attendance data will be presented and visible in a variety of ways to increase awareness and investment from staff. **Strategy's Expected Result/Impact:** 1. Staff will be aware or ADA and will be invested to improve ADA. **Staff Responsible for Monitoring:** Assistant Principal of Operations, SIS Coordinator, Teachers, API's, and Principal **Title I:** 2.6 - **TEA Priorities:** Improve low-performing schools		50%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Culture of Achievement Incentives for grade-levels and individuals that are meeting pre-determined Attendance goals. **Strategy's Expected Result/Impact:** 1. Scholars will be motivated and invested to attend school daily. **Staff Responsible for Monitoring:** SIS Coordinator, Assistant Principal of Operations, and Teachers **Title I:** 2.6 **- TEA Priorities:** Improve low-performing schools				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 1: IDEA Najim will retain at least 90% of scholars by August 2023

High Priority

Evaluation Data Sources: Family surveys, student leaver log, classroom culture tracker, student persistence tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: IDEA Najim will increase the amount of family communication from previous years. **Strategy's Expected Result/Impact:** 1. Parents will receive updates on scholar progress, school celebrations, and school events consistenty 2. The expected impact will be to retain at least 90% of scholars from year to year. **Staff Responsible for Monitoring:** Counselor, Assistant Principals, Teachers and Principals **Title I:** 4.1 **- TEA Priorities:** Improve low-performing schools				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: IDEA Najim Academy will bring the joy through the use of weekly culture observations, implementing fab Friday, and the use of Liveschool to help invest scholars. **Strategy's Expected Result/Impact:** 1. Scholars will be happy and want to come to school everyday. 2. The impact will be that scholars will want to come back year after year. **Staff Responsible for Monitoring:** Counselor, Assistant Principals, Teachers and principals **TEA Priorities:** Improve low-performing schools				

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: IDEA Najim Academy will increase the amount of time dedicated to Social/Emotional learning and support through the implementation of Move this World. **Strategy's Expected Result/Impact:** 1. Scholars will gain emotional intelligence and be able understand how to deal with emotions. 2. The impact will be less student behaviors and more time for instruction. **Staff Responsible for Monitoring:** Counselor, Teachers, Assistant Principals, and Principal **Title I:** 2.5, 2.6 **- TEA Priorities:** Improve low-performing schools				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student persistence

Performance Objective 2: IDEA Najim will provide a physically and emotionally safe school by training 100% of staff in Crisis Management/Emergency Response Training and conducting monthly, quarterly and annually safety drills, and implementing social/emotional curriculum with fidelity during the 22-23 school year.

High Priority

Evaluation Data Sources: Safety Drill Trackers, Monthly Safety/Compliance evaluation, SEL tracker, SEL weekly observations,

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of Staff will complete Crisis Management/Emergency response training and participate in monthly/ quarterly fire drills, lockdown drills, shelter in place, and hold drills. **Strategy's Expected Result/Impact:** Staff will know what to do in a crisis to keep students and themselves safe.	0%	100%	100%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: 2. Idea Najim will achieve a proficient or higher score on the Campus safety score with emphasis in the areas of Intruder Assessment, physical building safety, compliance, and climate and culture. **Strategy's Expected Result/Impact:** Najim academy will be a physically safe school for all scholars. **Staff Responsible for Monitoring:** Assistant Principal of Operations, Facilities Manager, and Principal	0%	80%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Najim Academy will implement SEL curriculum with fidelity to ensure that social emotional learning is prioritized throughout school day. **Strategy's Expected Result/Impact:** Scholars will understand emotions and develop emotional intelligence that will help them through situations and help with behavior. **Staff Responsible for Monitoring:** Campus Counselor	0%	0%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 3: IDEA Najim Academy will prioritize physical health and well-being of all scholars throughout the 22-23 school year by promoting healthy kids initiative.

Evaluation Data Sources: Weekly PE lesson plans, DVOA(fit bit) minutes tracker, cafeteria monthly menus

Strategy 1 Details	Reviews

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

IDEA Najim is a college prepatory charter campus serving 400 students 6th -11th grade. We are a scaling campus with our 1st graduating class expected in 2024. We were established in 2017. Students participate in Pre AP and AP course offerings. In addition to RISE skills program and special education services. Ethnic distribution is 43.3% Hispanic, 49.2% African American, 1% White, .63% Asian and 1.2% two or more races. Data shows Limited English Proficiency (LEP) as a moderate category with 16 student designations. Najim CP is a Title I School and receives State Compensatory Education (SCE) funds.

Demographics Strengths

Najim CP has Met Standard by the Texas Education Agency. The 2021-2022 campus accountability rating is an A. We are committed to improving student academic performance to exceed this level of performance.

We met 6/7 state distinctions. District assessments are administered and tracked. In addition, campus formative and summative data collection is reviewed daily/weekly. 3, 6, 9 week assessments are used to measure progress and intervention groups.

Biology EOC scores was at 98%. • Algebra I EOC: 100% • AP: Humanities 40% pass, • Telpas: met targeted %, SPED increased 10 pts, met targeted %.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Persistence goals and benchmarks were not met and did yield 90%. Landed 70% range at the close of the 21-22SY **Root Cause:** 1. Inconsistent follow up from principal 2. Did not leverage PWI to close the loop with families seeking to withdraw 3. Lack of follow up with recapture families to articulate mission of college for all

Problem Statement 2 (Prioritized): ADA goal landed below goal at 92% **Root Cause:** 1. ADA escalation matrix was a slow process 2. APO did not drive this campus goal with fidelity 3. Lack of attention to campus trackers and ADA calls at the onset 4. Principal had continuous schedule changes affecting OATP

Problem Statement 3 (Prioritized): Professional Development was geared to campus wide initiatives and not targeted to areas of deficiencies **Root Cause:** 1. Lack of PLCs on data; non-performance of data deep dives after each ELA assessment. 2. Untimely feedback and classroom observations. 3. No evidence of tracking tutorial attendance of at risk students.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Operating mechanisms on campus have been inconsistent and foster low accountability from all stakeholders. **Root Cause:** Retention of top level leadership to govern campus programs and processes.

Problem Statement 2 (Prioritized): Did not have a strong start at BOY with onboarding new to IDEA families grounded into our mission. **Root Cause:** AC/CP principal was not collaborative with campus onboarding plan for sibling families.

Priority Problem Statements

Problem Statement 1: ADA goal landed below goal at 92%

Root Cause 1: 1. ADA escalation matrix was a slow process 2. APO did not drive this campus goal with fidelity 3. Lack of attention to campus trackers and ADA calls at the onset 4. Principal had continuous schedule changes affecting OATP

Problem Statement 1 Areas: Demographics

Problem Statement 2: Persistence goals and benchmarks were not met and did yield 90%. Landed 70% range at the close of the 21-22SY

Root Cause 2: 1. Inconsistent follow up from principal 2. Did not leverage PWI to close the loop with families seeking to withdraw 3. Lack of follow up with recapture families to articulate mission of college for all

Problem Statement 2 Areas: Demographics

Problem Statement 3: Professional Development was geared to campus wide initiatives and not targeted to areas of deficiencies

Root Cause 3: 1. Lack of PLCs on data; non-performance of data deep dives after each ELA assessment. 2. Untimely feedback and classroom observations. 3. No evidence of tracking tutorial attendance of at risk students.

Problem Statement 3 Areas: Demographics

Problem Statement 4: IDEA Najim only achieved 22% masters in reading.

Root Cause 4: 1. Level of rigor in the classroom was not enough. 2. CFUs was not in alignment with highest peak of Blooms.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Scholars exude low accountability for owning his/her learning and no tracking mechanisms to chart progress.

Root Cause 5: Low teacher and parent investment. No data visibility

Problem Statement 5 Areas: Student Learning

Problem Statement 6: Operating mechanisms on campus have been inconsistent and foster low accountability from all stakeholders.

Root Cause 6: Retention of top level leadership to govern campus programs and processes.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Did not have a strong start at BOY with onboarding new to IDEA families grounded into our mission.

Root Cause 7: AC/CP principal was not collaborative with campus onboarding plan for sibling families.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Retention of students in transitional grade levels (6th and 9th) was below benchmark.

Root Cause 8: 1. Did not hold 100% of onboarding meetings with fidelity of NTI students. 2. Tracking and fidelity to transition meetings for students and families in grades 6th and 8th not consistent

Problem Statement 8 Areas: Perceptions

Problem Statement 9: Parent engagement yielded 28% attendance at after school events.

Root Cause 9: 1. campus did not market activities in a timely manner 2. low percentage of parent survey for feedback

Problem Statement 9 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Effective Schools Framework data
- Federal Report Card and accountability data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Student failure and/or retention rates
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback

- Teacher/Student Ratio
- Campus leadership data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of instructional staff will be provided support and coaching on a weekly basis.

High Priority

Evaluation Data Sources: action step tracker, teachboost feedback, instructional coaching meeting

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of resources and training targeted towards differentiation development for TCP pathway. **Strategy's Expected Result/Impact:** retain exemplar teachers, increase teacher development, build level 4 and 5 teachers **Staff Responsible for Monitoring:** Principal, APIs, **TEA Priorities:** Recruit, support, retain teachers and principals	35%	40%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Conduct daily exit ticket sorts to identify misconceptions, lowest scored TEK, and targeted reteach plan for the following day. **Strategy's Expected Result/Impact:** Improve student data on a weekly and weekly basis. **TEA Priorities:** Recruit, support, retain teachers and principals	35%	60%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: GPTW will reflect 85% on "This is a fun place to work" metric

Evaluation Data Sources: celebrations and recognitions

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Teacher celebrations and recognition (teacher or the month, core value awards, shout outs in staff weekly) **Strategy's Expected Result/Impact:** build capacity in staff; celebrate the wins, increase morale **Staff Responsible for Monitoring:** Principal, API, lead team **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 3: Positive School Culture	40%	70%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 96% of students are on track to graduate.

High Priority

Evaluation Data Sources: Weekly grade audits, review progress and grade reports; EOC tracking, review of all transcripts to confer credits

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 80% of class of 2024 (juniors) will be TSI exempt by May **Strategy's Expected Result/Impact:** Implement targeted intervention groups for math and reading to support TSIA; afterschool and during RTTC **Staff Responsible for Monitoring:** DCC, tutors, teachers **TEA Priorities:** Connect high school to career and college	0%	30%		

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 2: 80% of juniors will be TSI math exempt

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Scholars will attend TSI tutorials and Saturday clinics to sharpen skills in math	25%	15%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Grades 6 through 9 will hit 90% approaches, 60% meets, and 30% masters on Reading and Math STAAR, Biology EOC, Algebra 1 EOC.

High Priority

Evaluation Data Sources: 90|60|30 meetings; Mock testing; benchmarks; TEKS tracking

Strategy 1 Details	Reviews			
	Formative			Summative

Reflections	
Areas of Strength	**Areas of Need**
1. All teachers consistently model all learning with clear and concise key points.	1. 7th grade teacher needed to improve on their culture of achievement and holding students to meeting campus - wide culture expectations
2. All teachers used logical scope and sequences to build strong mathematical foundations each unit.	2. 6th and 7th Grade teachers needed to place more of an emphasis on independent practice. Students needed more practice time and less teacher talk.
3. All teachers taught students multiple strategies to attack various types of problems.	3. Math intervention needs to be more purposeful with track mechanisms in place to hold teachers accountable for increasing student outcomes

IDEA Public Schools

North Mission Academy

2022-2023 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Top 25 Percent: Comparative Academic Growth
Top 25 Percent: Comparative Closing the Gaps
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 12, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics

Demographics Summary

Open enrollment charter school

Bilingual/ESL, Special Education, Fine Arts, PE

See PDF in Addendum for more information

See the demographics Section

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to increase student enrollment with students other than just Hispanic students. **Root Cause:** 1) Lack of consistent and clear communication around recruiting to promote students from all demographics other than Hispanic. 2)Lack of annual surveys to see what will attract students/families of other demographics to IDEA North Mission and what programs to offer.

Problem Statement 2: There is a need to ensure equitable training to teachers and parents for students in the special populations. **Root Cause:** 1)There has not been enough training for teachers on how to support students with Autism or severe behavior. 2)Lack of staff and parent surveys to see what kind of training they need to better support their students.

Problem Statement 3 (Prioritized): There is a need to train parents and follow up on the mission to and through college. **Root Cause:** Parents of this area/demographics are not invested on the road to college and tend to be more tardy and absent.

Student Learning

Student Learning Summary

1) There has been a lot of progess by students going from F ratings on semester and IA exams to achieving an A rating at the end of the year. Student Achievement was an 83, School Progress a 96, and Closing the Gaps at 89. Our overall scaled score was a 94.

2) Student scores have gone up from an 86 from last STAAR ratings to this year at a 94.

3) Prek-3rd grade students ended the year on track in reading and math assessments. 100% of Prek and K on track in reading; 1st grade at 92%, and 2nd grade at 96%. 81% of student in Critical student intervention met the 2-0 years growth in Reading and 81% in Math.

4) We outperformed group of schools of similar type, size. We performed better than the 5 elementary schools on the same street as us in Mission iSd. We receibed 5/6 achievement distinctions.

5) 100 of graduating seniors enrolled in college.

Student Learning Strengths

See PDF in Addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The percent of approaches, meets, and masters for STAAR math in 3rd-5th has increased minimally over the past several years. **Root Cause:** Instruction is often lacking staar alignment.

Problem Statement 2 (Prioritized): We did not earn a distinction in Science and did not meet the 90/60/30 in 5th grade. **Root Cause:** 1)There is a lack of vertical alignment and collaboration meetings with all Prek-5th grade Science teachers to see how the test looks in 5th grade to see what we can add to our curriculum. 2)Not enough staar aligned student practice resources. 3)We do not have interactive Science Journals across all grade levels.

Problem Statement 3 (Prioritized): We need to improve student expectations and accountability. **Root Cause:** Teachers are doing all the heavy lifting with expectations and are guiding too much.

School Processes & Programs

School Processes & Programs Summary

1. Instructional leaders are developed in their roles. I have provided API time with them weekly where we work on current campus trends based on instructional rounds. Instructional rounds are all around campus priorities. Every systems and operating mechanism has a gripi with clear roles, expectations, and responsibilities.

2. We have yearly PD calendar for all staff meetings on Thursdays and during their conference once a week to address any teacher misconceptions based on observations.

3. During instructional rounds and check in, I coach leaders to coach teachers on the spot based on most pressing problem in their Teachboost. We used this program to document all action steps given to teachers. Leaders are trained every year on SIOP refreshers and Leap4ward for content they lead.

4. We have RMT and DI in the lower grades, Amplify for Science, Witt and Wisdom for reading, Being a Writer for writing, and Eureka math. All these programs are aligned to the national standards and used to help student get higher scores on AP exams. The programs are rigorous and we do have to supplement the programs with more staar aligned practice. They are aligned to our mission and vision to prepare all students for college. We do not just focus on passing a STAAR but on success in college and life beyond high school graduation.

See PDF in Addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.

- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Our staff retention in operations is not as strong as our instructional retention. **Root Cause:** 1. We do not have a system for celebrating and acknowledging the operations team like the cafeteria staff, bus drivers, and custodians. 2. As a school, we tend to do more for teachers in all areas and forget to also include operations.

Problem Statement 2: There are more co-teacher leavers than teachers in the instructional retention. **Root Cause:** 1. The goal given from the district focuses on teachers only so co-teachers are set aside. 2. It is hard to compete with the co-teachers not leaving when they are not getting paid enough for the work that they do.

Perceptions

Perceptions Summary

1. This was our first year with seniors and 100% of the students graduated from 12th grade.

2. We have not had conflict escalate to high level. If there is an issue, we make sure address right away and bring in staff to talk. We assign new teachers a teacher mentor and our assistant principal have differentianted side by side planning for anyone that is new.

3. We do not have a big staff turnaround. We average 2-3 teachers a year and late between 94-97% teacher retention in the last 3 years. An average of teacher absences is from 3-5 absences. This does not include maternity leaves. We average 8-10 teahers on maternity leaves in a year.

4. We measure parent and community participation by having sign in sheets at parent meetings, teacher/parent conferences, and school events.

5. Barriers that could be preventing them from joining is transportation to the school and we have families that work late hours.

See PDF in Addendum for more information

Perceptions Strengths

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Parent attendance to academic events are less compared to more fun events like fall festival. **Root Cause:** 1. In past years we have not been consistent with aligning academic event tied to a fun activity to bring in parents. 2. Family events were limited due to covid safety.

Problem Statement 2 (Prioritized): There has been an increase in mental health issues with our students. **Root Cause:** 1. There has been a lack of training, curriculum, and programming to build social emotional skills. 2. Our campus has not been consistent with a qualified school counselor to support students social and emotional needs.

Priority Problem Statements

Problem Statement 1: There is a need to increase student enrollment with students other than just Hispanic students.

Root Cause 1: 1) Lack of consistent and clear communication around recruiting to promote students from all demographics other than Hispanic. 2)Lack of annual surveys to see what will attract students/families of other demographics to IDEA North Mission and what programs to offer.

Problem Statement 1 Areas: Demographics

Problem Statement 2: The percent of approaches, meets, and masters for STAAR math in 3rd-5th has increased minimally over the past several years.

Root Cause 2: Instruction is often lacking staar alignment.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: We did not earn a distinction in Science and did not meet the 90/60/30 in 5th grade.

Root Cause 3: 1)There is a lack of vertical alignment and collaboration meetings with all Prek-5th grade Science teachers to see how the test looks in 5th grade to see what we can add to our curriculum. 2)Not enough staar aligned student practice resources. 3)We do not have interactive Science Journals across all grade levels.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Our staff retention in operations is not as strong as our instructional retention.

Root Cause 4: 1. We do not have a system for celebrating and acknowledging the operations team like the cafeteria staff, bus drivers, and custodians. 2. As a school, we tend to do more for teachers in all areas and forget to also include operations.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Parent attendance to academic events are less compared to more fun events like fall festival.

Root Cause 5: 1. In past years we have not been consistent with aligning academic event tied to a fun activity to bring in parents. 2. Family events were limited due to covid safety.

Problem Statement 5 Areas: Perceptions

Problem Statement 6: There has been an increase in mental health issues with our students.

Root Cause 6: 1. There has been a lack of training, curriculum, and programming to build social emotional skills. 2. Our campus has not been consistent with a qualified school counselor to support students social and emotional needs.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: We need to improve student expectations and accountability.

Root Cause 7: Teachers are doing all the heavy lifting with expectations and are guiding too much.

Problem Statement 7 Areas: Student Learning

Problem Statement 8: There is a need to train parents and follow up on the mission to and through college.

Root Cause 8: Parents of this area/demographics are not invested on the road to college and tend to be more tardy and absent.

Problem Statement 8 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Communications data
- Study of best practices

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

1. Parents do attend when the event is fun or there child is receiving an award or performing.	1. More family events. It was limited because of covid.
2. Parent attendance to welcome to idea is very low.	2. Parent training and investment on academic goals.
3. Parents trust the school, teachers, and leaders.	3.Parents do not attend academic events.

IDEA Public Schools

North Mission College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:
Academic Achievement in Social Studies
Top 25 Percent: Comparative Academic Growth
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

ICP North Mission is an open-enrollment public charter school that serves grades 6 - 12. We share a campus with North Mission Academy, too.

The student body consists of:

- 96% Hispanic
- 94.72% of our students are economically disadvantaged and qualify to receive free or reduced meals.
- 91% of the Class 2022 are first generation college students.
- 100% of our class of 2022 graduated from high school and were accepted to college.

See PDF in addendum for more information.

Demographics Strengths

See PDF in addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Students are not showing up to campus at a rate needed to master content. **Root Cause:** There was a lack of accountability (outside of the COVID reasons) with parents.

Problem Statement 2 (Prioritized): Students did not have access to as many AP courses their freshmen year. **Root Cause:** Alignment with Spanish Courses in grades 8 - 12 were not aligned, along with our Computer Science AP courses.

Problem Statement 3: Although new student persistence increased, there is still a need to retain students or increase our persistence for students. **Root Cause:** The biggest trend for students leaving, especially new students, is inconsistent onboarding once the school year starts.

Student Learning

Student Learning Summary

The last year we were rated by TEA, pre-pandemic, our school rating was an 87 (B), however, in 2022, we received a 90 (A) rating. In the school year 2021-22, we had our first graduating class of seniors. All of the students graduated and were accepted to colleges across the courny. Although we service a large population of Emergent Bilingual students, or English Language Learners, we hit every supopulation in TEA's Domain 3 categories for our ELA courses. Our special education population performed at a 23 Student Achievement Score this past year on the state testing, which is an improvement from COVID years.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Percent of AP Scholar rates per class increases less than double digit percentage points per year from Freshmen to Senior year. **Root Cause:** There has been a lack of scheduling AP courses in 9th and 10th grade years for students.

Problem Statement 2 (Prioritized): Subpopulations in mathematics struggled with achieving the Meets status on the state exams. **Root Cause:** Mathematics gaps increased tremendously over the COVID pandemic year and acceleration plans were not enough to catch students up on content missed.

Problem Statement 3: EL (English Language Learners) students struggle with speaking and writing on the TELPAS exams. **Root Cause:** There is a lack of training for staff to embed more opportunities for speaking and writing in all content areas & a strong enough plan with an online resource to give students multiple opportunities to practice.

Problem Statement 4 (Prioritized): Special Education students in general education (mainstream) performed below average on state exams. **Root Cause:** There is a lack of collaboration with core content areas and special education teachers on a weekly basis.

Problem Statement 5 (Prioritized): Students are not scoring above a 21 on the ACT as an average for cohorts. **Root Cause:** There is a lack of a strategy for our ACT plan with students.

School Processes & Programs

School Processes & Programs Summary

At North Mission College Prep, roles and responsibilities are clearly defined with the administration team each May & June by reflecting on the past year, team members strengths and opportunities for improvement. Leaders name their gaps at the end of each year and sign up for opportunities to develop (Relay, trainings within IDEA like Coaching Academy, or trainings outside of IDEA like NACAC (National Association for College Admission Counseling)). We prioritize areas of concern at the end of the year to designate staff professional development opportunities and have a focus with on-the-spot coaching. We don't look to wait for professional development to be the only source of developing staff and leaders in the school, but have a focus on the administration team coaching in-the-moment to address gaps.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: There is a lack of an onboarding process for students enrolled once the school year starts in August to ensure there are correct touch points to support with proper onboarding criteria for success. **Root Cause:** There is a lack of a plan in place and tracking system to ensure onboarding is taking place correctly and there is clear and impactful touch point with certain personnel (DCC/API - scheduling, Grade Level Admin. - Culture, SSA/Counselor - Social Emotional Support).

Problem Statement 2 (Prioritized): There is a lack of empathy used with all administrators and staff on campus. **Root Cause:** Some staff are very data driven at all costs, but don't consider the other perspective at times.

Perceptions

Perceptions Summary

Throughout the year, we send out surveys to staff, students and parents to receive feedback on multiple areas to support our culture and climate. For example, there are Teacher Lunch Bunches where teachers reflect on areas of strength, areas of need, or any area that they suggest a change to support with work-life balance. We have had over 85% staff retention for the past 6 years, with this past year being our lowest retention yet. We did implement a clearer picture of our non-negotiables through a book study on The Ideal Team Player, where we implemented humble, hungry and (people) smart as our non-negotiables through the staff hiring process.

We also have Student Lunch Bunches with new students to support with the transition to IDEA when they are coming from campuses outside of IDEA. Although we fell a tad short on New Student Persistence, it has increased from the prior 2 years. At North Mission, we have a process for Peer Mediation Groups with student conflicts as well.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): There has been a lack of Town Halls with Families and Students to gain their feedback... **Root Cause:** There was a lack of planning for monthly parent meetings and student space for feedback throughout the year.

Problem Statement 2 (Prioritized): Attendance has declined over the past year from prior years. **Root Cause:** There is a lack of accountability tracking with phone calls home for students, along with follow through on dropping students.

Priority Problem Statements

Problem Statement 1: Students are not showing up to campus at a rate needed to master content.
Root Cause 1: There was a lack of accountability (outside of the COVID reasons) with parents.
Problem Statement 1 Areas: Demographics

Problem Statement 2: Subpopulations in mathematics struggled with achieving the Meets status on the state exams.
Root Cause 2: Mathematics gaps increased tremendously over the COVID pandemic year and acceleration plans were not enough to catch students up on content missed.
Problem Statement 2 Areas: Student Learning

Problem Statement 3: Special Education students in general education (mainstream) performed below average on state exams.
Root Cause 3: There is a lack of collaboration with core content areas and special education teachers on a weekly basis.
Problem Statement 3 Areas: Student Learning

Problem Statement 4: Attendance has declined over the past year from prior years.
Root Cause 4: There is a lack of accountability tracking with phone calls home for students, along with follow through on dropping students.
Problem Statement 4 Areas: Perceptions

Problem Statement 5: There is a lack of empathy used with all administrators and staff on campus.
Root Cause 5: Some staff are very data driven at all costs, but don't consider the other perspective at times.
Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Students are not scoring above a 21 on the ACT as an average for cohorts.
Root Cause 6: There is a lack of a strategy for our ACT plan with students.
Problem Statement 6 Areas: Student Learning

Problem Statement 7: Students did not have access to as many AP courses their freshmen year.
Root Cause 7: Alignment with Spanish Courses in grades 8 - 12 were not aligned, along with our Computer Science AP courses.
Problem Statement 7 Areas: Demographics

Problem Statement 8: There has been a lack of Town Halls with Families and Students to gain their feedback...
Root Cause 8: There was a lack of planning for monthly parent meetings and student space for feedback throughout the year.
Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- SAT and/or ACT assessment data
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data

Student Data: Student Groups

- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data

- Campus department and/or faculty meeting discussions and data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Budgets/entitlements and expenditures data

Goals

Goal 1: Increase staff retention

Performance Objective 1: Staff (teachers, co-teachers, administrators and operations team) retention will increase 5 % from 2021-2022 school year to 2022-2023.

High Priority

Evaluation Data Sources: Locus Tracking

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Empathy Interviews **Strategy's Expected Result/Impact:** Through continued empathy interviews with staff throughout the year, direct managers will have a sense of understanding when giving new directives/initiatives and staff will be heard or validated in their concerns. **Staff Responsible for Monitoring:** Direct Managers **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture **Problem Statements:** School Processes & Programs 2	100%	100%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Throughout the year, staff will gather each Tuesday whole group and in-person to celebrate each other & increase comradery amongst the team. **Strategy's Expected Result/Impact:** Staff retention will increase by 5% & staff will refer 1 high quality candidate for the upcoming year. **Staff Responsible for Monitoring:** All administrators and all teachers/co-teachers. **TEA Priorities:** Recruit, support, retain teachers and principals	100%	100%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Staff Professional development days will rotate to address the 4 priority areas on campus (Content Teams for vertical alignment, Grade Team for horizontal planning and culture, whole group training on effective teaching strategies, and then family connections). **Strategy's Expected Result/Impact:** Staff will have differentiated professional development, along with more of a work-life balance. **Staff Responsible for Monitoring:** Administrators **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 5: Effective Instruction	100%	100%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 2: There is a lack of empathy used with all administrators and staff on campus. **Root Cause**: Some staff are very data driven at all costs, but don't consider the other perspective at times.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: Increasing ACT average to a 21 average for the class of 2023.

High Priority

HB3 Goal

Evaluation Data Sources: ACT testing dates

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Prior to each ACT testing date (Oct. 4th) for our juniors and seniors, all students will have aligned practice toward ACT exams and a boot camp to support content rigor and testing skills. **Strategy's Expected Result/Impact:** Through Boot Camps, students will increase ACT Composite from prior exam. **Staff Responsible for Monitoring:** RTTC 3/ACT Teacher and College Counselors **TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college - **Problem Statements:** Student Learning 5 **Funding Sources:** ACT Teacher - Federal Grant - $59,300, College Counselor - Federal Grant - $74,361.44, College Counselor - Federal Grant - $62,894	100%	100%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use College Counselor to improve ACT scores for junior class, class of 2024, throughout the 2022-23 school year. **Strategy's Expected Result/Impact:** The class of 24 will meet their ACT goal of a 20 as a class average **Staff Responsible for Monitoring:** College Counselor **Problem Statements:** Student Learning 5 **Funding Sources:** College Counselor - Federal Grant - $74,361.44, College Counselor - Federal Grant - $62,894, Teacher - Federal Grant - $59,300	100%	100%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Use College Counselor to improve ACT scores for the senior class, class of 2023, throughout the 2022-23 school year. **Strategy's Expected Result/Impact:** The class of 2023 will hit a 21 ACT average throughout testing for ACT in 2022-23 school year. **Staff Responsible for Monitoring:** College Counselor **Problem Statements:** Student Learning 5 **Funding Sources:** Teacher - Federal Grant - $59,300, College Counselor - Federal Grant - $74,361.44, College Counselor - Federal Grant - $62,894				
No Progress Accomplished Continue/Modify Discontinue				

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 5: Students are not scoring above a 21 on the ACT as an average for cohorts. **Root Cause**: There is a lack of a strategy for our ACT plan with students.

Goal 3: IDEA achieves an A rating

Performance Objective 1: Subpopulations in Mathematics will hit at least 80% of cut scores in Academic Achievement for state testing in 2023.

High Priority

HB3 Goal

Evaluation Data Sources: TEA Accountability Report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Exit Ticket Tracking and Huddles for subpopulation students (including SPED & EL) throughout the entire year will happen weekly. **Strategy's Expected Result/Impact:** Students will achieve 80% of subpopulation scores in Domain 3 from TEA Accountability Report under Academic Achievement **Staff Responsible for Monitoring:** Assistant Principals and Math Teachers for grades 6 - 8 and Algebra 1 interventionist. **Title I:** 2.4, 2.6 **- TEA Priorities:** Build a foundation of reading and math **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 2	35%	40%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 2: Subpopulations in mathematics struggled with achieving the Meets status on the state exams. **Root Cause**: Mathematics gaps increased tremendously over the COVID pandemic year and acceleration plans were not enough to catch students up on content missed.

Goal 3: IDEA achieves an A rating

Performance Objective 2: All student scores will be tracked for each district exam, with an emphasis on subpopulations, throughout the 2022-23 school year.

High Priority

HB3 Goal

Evaluation Data Sources: Campus STAAR/EOC tracing

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Each check-in, teachers will bring a tracking document to their direct manager with data for each student from the most recent district exam. **Strategy's Expected Result/Impact:** Teachers will know which students to prioritize and there will be a quick way to identify trends over time with students of concern. **Staff Responsible for Monitoring:** All STAAR/EOC teachers and managers. **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 2, 4	100%	100%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 2: Subpopulations in mathematics struggled with achieving the Meets status on the state exams. **Root Cause**: Mathematics gaps increased tremendously over the COVID pandemic year and acceleration plans were not enough to catch students up on content missed.
Problem Statement 4: Special Education students in general education (mainstream) performed below average on state exams. **Root Cause**: There is a lack of collaboration with core content areas and special education teachers on a weekly basis.

Goal 4: Increase student daily attendance

Performance Objective 1: Throughout the 2022-23 school year, Attendance will increase 4 percentage points from the 2021-22 school year, therefore ending above 97% attendance rate.

High Priority

Evaluation Data Sources: Locus Dashboard and PEIMS daily emails

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Incorporate strategies with homeroom teachers, grade level administrators and operations team for accountability measures with attendance and family follow up. **Strategy's Expected Result/Impact:** By the end of 2022-23 school year, grades 6th - 12th grade will be above a 97% attendance rate. **Staff Responsible for Monitoring:** Homeroom Teachers, Grade Level Administrators and Operations Team (Irma & Ginna) **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1	40%	75%		

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Students are not showing up to campus at a rate needed to master content. **Root Cause**: There was a lack of accountability (outside of the COVID reasons) with parents.

Goal 4: Increase student daily attendance

Performance Objective 2: Each month there will be either a principal meeting or a counselor meeting with parents to increase parental involvement.

High Priority

Evaluation Data Sources: Students will be showing up to school at a 97% rate throughout the school year as a result.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Add in an operating mechanism for parent meetings on a monthly basis in person. **Strategy's Expected Result/Impact:** Both student attendance and student persistence will increase (Persistence to above 90% and ADA to over 97%). **Staff Responsible for Monitoring:** Principal, Counselors and Student Success Advisors **Title I:** 4.1 **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1 **Funding Sources:** College Counselor - Federal Grant - $62,894, College Counselor - Federal Grant - $74,361.44				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Students are not showing up to campus at a rate needed to master content. **Root Cause**: There was a lack of accountability (outside of the COVID reasons) with parents.

Goal 5: Increase student persistence

Performance Objective 1: By the start of 2023-24 school year, over 90% of our new students and overall students will continue their educational pursuit with North Mission College Prep.

High Priority

Evaluation Data Sources: Locus Dashboard

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: By the end of Quarter 1, all homerooms will Implement Circles daily throughout North Mission College Prep in grades 6th - 12th grade. **Strategy's Expected Result/Impact:** Cultivate strong relationships that will keep students wanting to stay at North Mission College Prep. **Staff Responsible for Monitoring:** All Homeroom Teachers **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1	75%	30%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Students are not showing up to campus at a rate needed to master content. **Root Cause**: There was a lack of accountability (outside of the COVID reasons) with parents.

Goal 5: Increase student persistence

Performance Objective 2: Decrease the amount of expulsions for the 2022-23 school year by 2 students (4 students in 2021-22 school year).

Evaluation Data Sources: PEIMS data reporting/Internal Tracking

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: All staff will implement restorative circles with discipline approach towards students rather than simply punitive measures for discipline. **Strategy's Expected Result/Impact:** Student behavior will change and there will be less Level 2 and 3 offenses on campus from students. **Staff Responsible for Monitoring:** All staff, but grade level administrators will be responsible for the follow through. **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1 - School Processes & Programs 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Students are not showing up to campus at a rate needed to master content. **Root Cause**: There was a lack of accountability (outside of the COVID reasons) with parents.

School Processes & Programs
Problem Statement 2: There is a lack of empathy used with all administrators and staff on campus. **Root Cause**: Some staff are very data driven at all costs, but don't consider the other perspective at times.

Goal 5: Increase student persistence

Performance Objective 3: After-school program participation will increase for both athletics and extra-curriculars by 10% for the 2022-23 school year.

Evaluation Data Sources: Attendance data from Athletics and After-School Programs.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: The After-Schools Program Coordinator and the Athletic Coordinator will post weekly flyers and actively recruit students during lunch on a weekly basis. **Strategy's Expected Result/Impact:** There will be an increase of 10% with student participation for after-school programs. **Staff Responsible for Monitoring:** Athletic Coordinator and After-Schools Program Coordinator **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 2	50%	50%

Reflections	
Areas of Strength	**Areas of Need**
Math team is strong in content knowledge.	Students struggled with Critical Thinking Skills.
Most of math content has IDEA curriculum, which helps teachers in planning and creating rescources.	Teachers would benefit from more rescourses like easel pads to show an exemplar of work.
Anchor Charts are an area of strength with clear access points for students to reference.	Building habits of checking work and verifying processes needs to be reinforced throughout the year.

Reflections

Areas of Strength	Areas of Need
Exit Ticket Tracking helped identify areas of growth and areas of need on a daily basis.	Word wall with visuals were not consistent across all science classes and the need to include a vocabulary wall with visuals/spanish names for every unit
Anchor Charts & Word Walls were used to reinforce vocabulary and content information.	Options for students to articulate observations and learning from experiments needs to be reinforced daily.
There was consistent reteach based off the exit ticket data analysis.	Vertical Alignment of important Science Skills & lab work needs to be a focal point to help keep teaching consistent throughout different grade levels.

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

At IDEA Owassa we provide a dynamic learning experience that encourages critical thinking, inspires confidence, and nurtures the intellectual and social and emotional development necessary for success in college, career, and life.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

We believe… in the potential of ALL students to be their best selves. We believe that a Bronc embodies the values of bravery, strength, perseverance, and honesty.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 13, 2022

Demographics

Demographics Summary

Owassa Academy serves about 800+ students in grades Pre-K-5th in Pharr Texas. We are a public charter school that works by having open enrollment throughout the year. We have a great curriculum in our lower grades Pre-K-2nd that is tailored to each student's need and we also have a great Special Education program with qualified teachers that lets us provide instruction to all students. We are currently at 100% teacher retention so we are proud to say that every year that we retain our teachers, our students are getting the best education possoble because our teachers know the curriculum and use best practices to teach our students the skills that they need to know to get one step closer to college. Our school demographics consists of:

African American:0.01%

Hispanic:1.35%

White:71.40%

Asian:0.16%

Economically Disadvantaged:92.40%

EL:49.49%

SPed:5.32%

Female:47.72%

Male:52.27%

Demographics Strengths

Owassa Academy has a strong culture and climate where students, staff, and parents feel a good sense of belonging, feel valued and proud to be a Bronc. Everyone is always willing to help each other anywhere asssitance is needed regardless of the task that needs to be completed.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a lack of schoolwide celebrations for students, teachers, and staff resulting in our teacher retention at a 79%. **Root Cause:** Teachers, leaders, and staff were scared to do physical gatherings or celebrations due to the high cases of COVID. We were very limited as leaders of the school to make decisions that would ultimately keep our staff and students safe.

Problem Statement 2 (Prioritized): There is a lack of follow through ADA Minute by Minute plan to increase attendance resulting with our ADA at 89%. **Root Cause:** Lack of stakeholders not properly trained early in the year so that the plan is carried out with fidelity. Not executing the Escalation Matrix by the 4th week of school (or earlier, if needed). Residual challenges with the COVID-19 pandemic including teacher absences, student quarantines, health concerns, and virtual fatigue has suppressed intervention efforts to improve services and investment

Problem Statement 3 (Prioritized): There is a lack of investment to increase student persistence for current families, therefore ending at 90.66% **Root Cause:** Lack of consistent and clear communication around school culture and expectations to parents and students during the entire onboarding process Lack of consistent annual reflection and interest surveys on what keep students/families at IDEA and what programmatic offerings we need to consider and incorporate

Student Learning

Student Learning Summary

Owassa Academy recieved an A Rating for the 2021-2022 School year earning 4/5 distinctions. Our school has made tremendous growth from the begining of the year in STAAR grade levels. We knew our students were left with an educational gap after the pandemic hit so we made sure to do everything we could to provided students with extra tutoring and close the learning gaps. Our Pre-K through 2nd grade students ended the year in Reading at 84% on level. Teachers worked tirelessly and collaboratively to make sure that these gaps were closed and students were learning everyday. Pre-K through 2nd grade students ended the year in Math with more than 90% of our students meeting our 90/60/30 goal. Learing standards were aligned and mutliple at-bats were given to students for additional independent and group practice. Our 3rd grade ELA team landed at a 80/55/31 and our 4th grade ELA team at a 84/56/29 with an overall for reading and math at a 79/36/28 and a 48 achievement score.

Student Learning Strengths

Students are provided with extra intervention and invidualized homework to cater to their individual needs. In every classroom students are provided with anchor charts for access points and their Criteria for Success during the lessons to be able to execute and master the objective of the day. Students in the upper grade learned how to use dictionaries effectively on a daily basis. Do now's were given to students so that they could arrange words in alphabetical order, giving them daily practice that would help them navigate comfortably a dictionary. Our leaders focused Practice session for teachers in areas of the lesson that would be most beneficial to our student learning. Teachers unpacked assesments a week in advance to find any gap or misconception that they could include in their lesson to address them beforehand. Teachers also collaborated across grade levels based on student needs providing extra support during different times of the day.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There is a lack of consistent intervention strategies for Pre-K-5th graders in reading and math. **Root Cause:** Lack of training on strategies for leaders to implement and monitor through out the year.

Problem Statement 2 (Prioritized): There is a lack of training in higher order thinking questions that fluctuate rigor based on student needs. **Root Cause:** Lack of training for teachers and leaders on what rigor looks like in the classroom.

School Processes & Programs

School Processes & Programs Summary

Programs:

- DI curriculum
- Special Education
- Traditional
- Bilingual
- ESL

Processes:

- Bi-weekly staff meetings
- Weekly observations as instructional leaders
- Weekly feedback in person as well as in teachboost
- Weekly targeted practice sessions with manager

School Processes & Programs Strengths

- Existing processes are followed with fidelity and involve the input of all stakeholders
- Processes have served to assist campus in the early identification of students needing special services such as, speech, 504, etc
- Teacher Development processes continue throughout the year to strengthen teachers skills related to instructional delivery
- Student identification for Bilingual and ESL services through timely LAS testing

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): There is a lack of staff retention because it decreased approximately 14% from the previous year. **Root Cause:** The lack of alignment between what is expected from teachers/ staff and the communication is being sent out in regards to work/life balance.

Problem Statement 2 (Prioritized): There is a lack of content or bilingual certified teachers at Owassa Academy currently having 0% **Root Cause:** At time of hiring teachers were not required to be certified. There is a need for teachers to be certified.

Perceptions

Perceptions Summary

Whenever we have come across situations, I believe that teachers do a really good job talking to students to try and resolve issues in a respectful and friendly manner. When teachers have an issue with any stakeholder, they bring it up to their manager and together talk about solutions that can benefit everyone involved. Our SSA is involved tremendously in every situation and our staff and parents feel very comfortable to be approached by her or any staff member during crucial times.

Perceptions Strengths

At IDEA Owassa we have a good behavior plan consistent across grade levels. Our teachers have great communication with parents and that leads to successful family engagement events where teachers and staff are present. We also have strong partnerships with community leaders and businesses that help out during events or lend a helping hand when needed.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): There is a lack of consistent resources in training for our teachers to assist the high rise in students mental health behavior concerns **Root Cause:** There has been a lack of staff resources, training, and curriculum specifically to build social emotional skills and build student mental health.

Problem Statement 2 (Prioritized): There is a lack of learning due to chronic absenteeism in the last couple of years in our school. **Root Cause:** There has been many challenges with the COVID 19 pandemic including teacher absences, student quarantines that have resulted in not only chronic absenteeism but creating wide academic gaps.

Priority Problem Statements

Problem Statement 1: There is a lack of follow through ADA Minute by Minute plan to increase attendance resulting with our ADA at 89%.

Root Cause 1: Lack of stakeholders not properly trained early in the year so that the plan is carried out with fidelity. Not executing the Escalation Matrix by the 4th week of school (or earlier, if needed). Residual challenges with the COVID-19 pandemic including teacher absences, student quarantines, health concerns, and virtual fatigue has suppressed intervention efforts to improve services and investment

Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a lack of schoolwide celebrations for students, teachers, and staff resulting in our teacher retention at a 79%.

Root Cause 2: Teachers, leaders, and staff were scared to do physical gatherings or celebrations due to the high cases of COVID. We were very limited as leaders of the school to make decisions that would ultimately keep our staff and students safe.

Problem Statement 2 Areas: Demographics

Problem Statement 3: There is a lack of investment to increase student persistence for current families, therefore ending at 90.66%

Root Cause 3: Lack of consistent and clear communication around school culture and expectations to parents and students during the entire onboarding process Lack of consistent annual reflection and interest surveys on what keep students/families at IDEA and what programmatic offerings we need to consider and incorporate

Problem Statement 3 Areas: Demographics

Problem Statement 4: There is a lack of consistent intervention strategies for Pre-K-5th graders in reading and math.

Root Cause 4: Lack of training on strategies for leaders to implement and monitor through out the year.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: There is a lack of training in higher order thinking questions that fluctuate rigor based on student needs.

Root Cause 5: Lack of training for teachers and leaders on what rigor looks like in the classroom.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: There is a lack of staff retention because it decreased approximately 14% from the previous year.

Root Cause 6: The lack of alignment between what is expected from teachers/ staff and the communication is being sent out in regards to work/life balance.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: There is a lack of content or bilingual certified teachers at Owassa Academy currently having 0%

Root Cause 7: At time of hiring teachers were not required to be certified. There is a need for teachers to be certified.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: There is a lack of consistent resources in training for our teachers to assist the high rise in students mental health behavior concerns

Root Cause 8: There has been a lack of staff resources, training, and curriculum specifically to build social emotional skills and build student mental health.

Problem Statement 8 Areas: Perceptions

Problem Statement 9: There is a lack of learning due to chronic absenteeism in the last couple of years in our school.

Root Cause 9: There has been many challenges with the COVID 19 pandemic including teacher absences, student quarantines that have resulted in not only chronic absenteeism but creating wide academic gaps.

Problem Statement 9 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data

- Campus leadership data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Communications data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of full time staff members complete all tasks within IDEA's staff development cycle including: goal setting, 2x2 an annual performance review.

High Priority

Evaluation Data Sources: Formative Evaluation includes benchmark progress on a weekly basis and Cornerstone

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Communication regarding each staff development cycle is sent a month in advance of each cycle's start date. **Strategy's Expected Result/Impact:** Completion and investment in staff development **Staff Responsible for Monitoring:** Campus Level: All Direct report Managers. District Level: Human Assets-Talent Development Team VP of Talent Management-Elise Gilbert **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** Demographics 1 - School Processes & Programs 1	25%	30%		

Strategy 2 Details	Reviews

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

Reflections

Areas of Strength	Areas of Need
1. The students learned how to use dictionaries effectively and used them on a daily basis.	1. Teachers had a difficult time finding intervention strategies that tie in with students IEP plans.
2. The teachers consistently used graphic organizers in their classroom with STAAR aligned questions for students to practice.	2. Teachers were not using higher order questions to target sped students in the classroom.
3. Anchor charts and CFS were always posted up and students referred back to during class and were always visible for students.	3. Writing: Teacher are not able to provide feedback to all students on the spot when drafting their writing creating a gap in students being able to go back when editing and combining information.

4. Teachers unpacked assessments to target key points in each lesson to ensure mastery.	4. Comprehension: Students are unable to analyze and make inferences about stories they read or listen to and usually have a hard time connecting their ideas to what is relevant in the story. □
5. The students showed their evidence by underlining and circling key words during the reading then they supported their understanding by going back to the text and annotating where they found their answers.	5. Teachers didn't provide students enough challenges to be able to have more students starting in first being word masters and royal readers
6. Students fluency decresed in time while doing check outs and when taking DIBELS test. □	6. Teachers and staff didn't track word count from the beginning of the school year.
7. All teachers collaborated based on student needs providing extra support during recess to low groups.□

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Our school core values are servant leadership, honor, unity, and perserverance. These are the founding core pillars of our school.

Demographics

Demographics Summary

IDEA Owassa College Prep is a charter school located in Pharr, Texas. IDEA Owassa was founded in 2018 and currently has grades 6-10th. We are an open enrollment charter school. At IDEA Owassa we focus on Data Driven Instruction. We set numerical goals and we track our progress towards those goals on a daily, weekly and monthly basis. We also look at trends in student misconceptions, and we use the data to adjust instruction in real time to best meet the needs of our students. We offer intervention classes and tutoring to students in need. Our population has a large number of first generation college students as well as students who commute from Mexico. We offer support and tutoring on the daily. We celebrate wins by recognizing incremental and individual growth.

At IDEA Owassa we love our students. We have a culture of joy engaging students by investing programs, classes tailored to their interests and passions. We offer CTE courses, after school electives and clubs like National Honor Society and Student Counsel. We work on having a culture of achievement where we set high expectations of all stakeholders.We are an A campus, selected from our peers as best scaling campus. We currently have 6th-10th grade students and we have 2 AP scholars. We offer Advance Placement Courses for all students. We strive to meet and exceed high academic expectations. We teach students these skills though core values, culture checks, professional development for teachers and administrative presence. We will keep standards high and tailor our strategies to help every child reach their full potential.

See PDF addendum for more information.

Demographics Strengths

See Addendum PDF for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): We did not meet ADA goal of 97% **Root Cause:** There was a lack of investment from parents and students around ADA. Parents had concerns regarding COVID and wanted virtual option. We started ADA matrix very late in the year due to COVID.

Problem Statement 2 (Prioritized): Student persistence was not met. **Root Cause:** Root Cause: (1) lack of consistent and clear communication around campus activities. 25% of students left IDEA Owassa stating lack of school electives. Root Cause: (2) lack of interest surveys on what students/families at IDEA Owassa needs to offer for extra-curricular activities, athletics, or clubs.

Problem Statement 3 (Prioritized): There is a lack of student centered school culture. **Root Cause:** Root Cause (1) school culture geared more towards middle school activities, lacking high school student participation Root Cause (2) lack of interest surveys on what students perceive as the high school experience and building cultural events that are high school student centered.

Problem Statement 4: Not a focus on developing new teachers to adjust to school culture. **Root Cause:** Root Cause (1) Discipline issues increased significantly 4 students were

withdrawn due to disciplinary concerns. Root Cause (2) Founding students withdrew stating that they no longer liked the culture at school due to disrespect in the classroom with new to IDEA teachers.

Student Learning

Student Learning Summary

Domain ratings Domain 1-83, Domain 2-91, Domain 3-99. Our overall score from our STAAR ratings was a 95. Our students are 90.6% Hispanic and 95.5 economically disadvantaged. We have met 6/7 distinctions. We met all math, ela, SPED and EL targets. We met disctinctions for top 25% of schools in academic growth. Our top performing domain is domain 3. This was the highest our students have performed in previous years. Our hispanic and EL populations outperformed other schools with similar demographics. The only disctinction we did not meet was Social Studies. We also did not meet the continuously enrolled target. Student performance on STAAR aligns with what student performed on benchmarks. Each benchmark students met greater than expected growth.

Our students are currently on track to graduate. Our current passing rates are 99% for classes.

We currently do not have CCMR.

Student Learning Strengths

See PDF addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): There is a lack of student progress in math as students progress through grade levels. **Root Cause:** Root Cause 1: Lead team has not provided enough time for content teams to align on strategies that align and work across all grade levels. Root Cause 2: Content leader was not holding content team accountable for transferable skills and strategies.

Problem Statement 2 (Prioritized): Support around instructional strategies that can be used across the content in all grade levels was not provided. **Root Cause:** (1) Teachers needed more time to collaborate as a content to share best practices. (2) Vertical aligned between 6th History and AP World History needs to be prioritized to help close gaps in student learning. (3) Norming on scoring open-ended needs to be implemented.

Problem Statement 3 (Prioritized): Overall student growth on TELPAS has been minimal. **Root Cause:** (1) Students need more opportunities to practice speaking in class in order through a variety of class discussions/collaboration. (2) Teachers need to be held accountable to apply instructional strategies that are presented during PDs to support ELs. (3) Teachers need more training around TELPAS expectations so that they can implement best practices throughout the school year.

Problem Statement 4 (Prioritized): Middle school Science struggled to meet its STAAAR Goal. **Root Cause:** Root Cause 1: The amount of EL students at our campus is above 90% all of these students struggled with vocabulary. Root Cause 2: Lead Team and Content Team need to do a better job at consistently using EL Strategies to help all of our students be successful. Root Cause 3: Sped students need to be pushed to consistently use accommodations, graphic organizers, tables, to be successful.

Problem Statement 5: Lack of collaboration between all stakeholders who support students in ELA. **Root Cause:** 1. Content vertical alignment and norming needs to be implemented from middle school to high school. 2. Collaboration between ELA teachers for 8th grade and up with AR is not implemented. 3. ELA teachers and CSI teachers need to work together to develop a strong tutoring plan for students.

School Processes & Programs

School Processes & Programs Summary

We develop instructional leaders by using the School Leadership Levers which is a rubric designed to help coach key leadership skills. All leaders have a leadership plan in which we decide which levers to focus on for the year. Those levers are then observed and rated throughout the year and feedback is given to the leader on what to improve. All roles and responsibilities are made clear from the beginning of the year using a RASI. Each leader is given their scope of work along with goals and metrics for that goal.

All of staff PD is planned by collecting data during instructional rounds and from our metrics such as ADA, Persistence, and state assessments. We utilize this data to create a scope and sequence of PD sessions for our teachers. Every week we look at low assessment data and prioritize coaching for those teachers. We also utilize the GET rubric to determine the topics covered for teachers. Some of the key actions we take are providing coaching and models for the teachers. We provide examples and criteria for success for teachers. We also rehearse with teachers to ensure that they have mastered these key skills. We make sure that all teachers have feedback on their lesson plans so that they have engaging lessons for students.

Some of the academic progams that we have in place are Imagine Learning/Math, DI/DISE, and Accelerated Reader. These programs all support our core classes and have goals and metrics for them. We track progress of all of these programs. They supplement the learning of the students and provide equity by providing access to the struggling students.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.

- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful.

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): There is a lack of accountability among staff members **Root Cause:** Root Cause 1: Pandemic protocols limited opportunities for team building Root Cause 2: There was a lack of participation in planned events due to pandemic Root Cause 3: There were no trainings in crucial conversations for staff

Problem Statement 2 (Prioritized): Lack of clear procedures for disciplinary action. **Root Cause:** (1) Level of infractions were not shared and clarified with teachers and grade team leaders. (2) Roles and responsibilities were not clarified with staff members. (3) Lack of communication and follow up between teachers and administrators.

Problem Statement 3 (Prioritized): Teachers state a lack of work life balance in their lives. **Root Cause:** Root Cause (1) clear communication roles and responsibilities to alleviate misconceptions. Root Cause (2) lack of mentorship relationships with veteran teachers and new to IDEA teachers.

Perceptions

Perceptions Summary

We currently do not have graduation or drop out rates since we are a scaling campus.

When conflict arises on campus, we use de-escalation techniques with students. When students are not getting along with eachother, we have peer mediations and discuss how to resolve conflict appropriately. We also offer couseling services and social-emotional curriuculum to teach students healthy conflict resoultion skills.

Our recent staff turnover was 85%. This is a little bit lower than previous years in which we were above 90%. Staff members do have high academic expectations for students. Absences have increased due to Covid. Overall staff perceptions are positive.

Parent/guardian/community participation is measured by having surveys after parent engagement events and sign in sheets. Some barriers that prevent participation may be transportation for some parents or working schedules. Most of our population is economically disadvantaged so they may have lack of transportation. We have offered virtual options for parents to accommodate.

Perceptions Strengths

See PDF addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lacks focus on mental health, concerns have consistently grown year to year. **Root Cause:** Root Cause (1) There has been a lack of a mental health counselor on campus. Root Cause (2) There has been a lack of training provided for teachers on how to address issues of mental health. Root Cause (3) mental health curriculum provided from the district has not be implemented with fidelity by campus. Root Cause (4) Parent centered programs for mental health not available to families.

Problem Statement 2 (Prioritized): Connection with families with school is lacking. **Root Cause:** Root Cause (1) Time limitations, work conflicts and childcare needs are causing lack of participation in family events.

Problem Statement 3 (Prioritized): Lack of clear visions and goals of family engagement events that lack tracking of family demographic participation. **Root Cause:** Root Cause (1) There is no tracking of family participation in family events. Root Cause (2) Lack of surveys on family engagement events geared towards our demographic.

Priority Problem Statements

Problem Statement 1: We did not meet ADA goal of 97%

Root Cause 1: There was a lack of investment from parents and students around ADA. Parents had concerns regarding COVID and wanted virtual option. We started ADA matrix very late in the year due to COVID.

Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a lack of student progress in math as students progress through grade levels.

Root Cause 2: Root Cause 1: Lead team has not provided enough time for content teams to align on strategies that align and work across all grade levels. Root Cause 2: Content leader was not holding content team accountable for transferable skills and strategies.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Support around instructional strategies that can be used across the content in all grade levels was not provided.

Root Cause 3: (1) Teachers needed more time to collaborate as a content to share best practices. (2) Vertical aligned between 6th History and AP World History needs to be prioritized to help close gaps in student learning. (3) Norming on scoring open-ended needs to be implemented.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Overall student growth on TELPAS has been minimal.

Root Cause 4: (1) Students need more opportunities to practice speaking in class in order through a variety of class discussions/collaboration. (2) Teachers need to be held accountable to apply instructional strategies that are presented during PDs to support ELs. (3) Teachers need more training around TELPAS expectations so that they can implement best practices throughout the school year.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Middle school Science struggled to meet its STAAAR Goal.

Root Cause 5: Root Cause 1: The amount of EL students at our campus is above 90% all of these students struggled with vocabulary. Root Cause 2: Lead Team and Content Team need to do a better job at consistently using EL Strategies to help all of our students be successful. Root Cause 3: Sped students need to be pushed to consistently use accommodations, graphic organizers, tables, to be successful.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: Student persistence was not met.

Root Cause 6: Root Cause: (1) lack of consistent and clear communication around campus activities. 25% of students left IDEA Owassa stating lack of school electives. Root Cause: (2) lack of interest surveys on what students/families at IDEA Owassa needs to offer for extra-curricular activities, athletics, or clubs.

Problem Statement 6 Areas: Demographics

Problem Statement 7: There is a lack of student centered school culture.

Root Cause 7: Root Cause (1) school culture geared more towards middle school activities, lacking high school student participation Root Cause (2) lack of interest surveys on what students perceive as the high school experience and building cultural events that are high school student centered.

Problem Statement 7 Areas: Demographics

Problem Statement 8: There is a lack of accountability among staff members

Root Cause 8: Root Cause 1: Pandemic protocols limited opportunities for team building Root Cause 2: There was a lack of participation in planned events due to pandemic Root Cause 3: There were no trainings in crucial conversations for staff

Problem Statement 8 Areas: School Processes & Programs

Problem Statement 9: Lack of clear procedures for disciplinary action.

Root Cause 9: (1) Level of infractions were not shared and clarified with teachers and grade team leaders. (2) Roles and responsibilities were not clarified with staff members. (3) Lack of communication and follow up between teachers and administrators.

Problem Statement 9 Areas: School Processes & Programs

Problem Statement 10: Teachers state a lack of work life balance in their lives.

Root Cause 10: Root Cause (1) clear communication roles and responsibilities to alleviate misconceptions. Root Cause (2) lack of mentorship relationships with veteran teachers and new to IDEA teachers.

Problem Statement 10 Areas: School Processes & Programs

Problem Statement 11: Lack of clear visions and goals of family engagement events that lack tracking of family demographic participation.

Root Cause 11: Root Cause (1) There is no tracking of family participation in family events. Root Cause (2) Lack of surveys on family engagement events geared towards our demographic.

Problem Statement 11 Areas: Perceptions

Problem Statement 12: Lacks focus on mental health, concerns have consistently grown year to year.

Root Cause 12: Root Cause (1) There has been a lack of a mental health counselor on campus. Root Cause (2) There has been a lack of training provided for teachers on how to address issues of mental health. Root Cause (3) mental health curriculum provided from the district has not be implemented with fidelity by campus. Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data

- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Annual dropout rate data
- Attendance data
- Mobility rate, including longitudinal data

Goals

Goal 1: Increase staff retention

Performance Objective 1: Increase staff retention from 87% to 90%.

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide more opportunities for staff mixers **Strategy's Expected Result/Impact:** Staff well continue to build relationships with each other and will intern create trust during the work hours. **Staff Responsible for Monitoring:** Principal, Assistant Principals **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2, 3	35%	50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Onboard, train, and Promote Teachers to ensure that they feel that all their needs are met professionally. **Strategy's Expected Result/Impact:** Teachers will grow professionally and in their roles through training keeping more teachers at our campus. **Staff Responsible for Monitoring:** Principal, Assistant Principals **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2, 3	85%	85%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: create and facilitate professional development for all teachers. **Strategy's Expected Result/Impact:** to provide teachers with the necessary skills to have effective instruction **Staff Responsible for Monitoring:** principal, APIS				

Title I: 2.4 **- TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 1: There is a lack of accountability among staff members **Root Cause**: Root Cause 1: Pandemic protocols limited opportunities for team building Root Cause 2: There was a lack of participation in planned events due to pandemic Root Cause 3: There were no trainings in crucial conversations for staff
Problem Statement 2: Lack of clear procedures for disciplinary action. **Root Cause**: (1) Level of infractions were not shared and clarified with teachers and grade team leaders. (2) Roles and responsibilities were not clarified with staff members. (3) Lack of communication and follow up between teachers and administrators.
Problem Statement 3: Teachers state a lack of work life balance in their lives. **Root Cause**: Root Cause (1) clear communication roles and responsibilities to alleviate misconceptions. Root Cause (2) lack of mentorship relationships with veteran teachers and new to IDEA teachers.

Goal 1: Increase staff retention

Performance Objective 2: Increase Org Health Survey from 88% to 93%..

High Priority

Evaluation Data Sources: org health survey data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Ensure that all staff members have what they need in order to be successful in their role **Strategy's Expected Result/Impact:** Teachers will feel like they are provided the tools for them to be successful, and will rate our organization a better place to work. **Staff Responsible for Monitoring:** Administrative Assistant, Business clerk , Principals, Assistant Principals **TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools **Problem Statements:** School Processes & Programs 1, 2, 3	20%	50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Provide Monthly Lunch bunch with grade levels to allow them to express grow and glows of the campus and organization. **Strategy's Expected Result/Impact:** Teachers will know that their opinions are being heard and that they matter when making school wide decisions. **Staff Responsible for Monitoring:** Principal, Assistant Principals, College Conuselor **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2, 3	100%	45%	100%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: Ask for referrals from current staff members for vacancies to recruit teachers **Strategy's Expected Result/Impact:** recruit highly effective teachers and like minded individuals **Staff Responsible for Monitoring:** principal, APIs **TEA Priorities:** Recruit, support, retain teachers and principals	25%	45%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 1: There is a lack of accountability among staff members **Root Cause**: Root Cause 1: Pandemic protocols limited opportunities for team building Root Cause 2: There was a lack of participation in planned events due to pandemic Root Cause 3: There were no trainings in crucial conversations for staff
Problem Statement 2: Lack of clear procedures for disciplinary action. **Root Cause**: (1) Level of infractions were not shared and clarified with teachers and grade team leaders. Problem Statement 3: Teachers state a lack of work life balance in their lives. **Root Cause**: Root Cause (1) clear communication roles and responsibilities to alleviate misconceptions. Root Cause (2) lack of mentorship relationships with veteran teachers and new to IDEA teachers.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 96% of students will be on track to graduate by passing all classes.

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: College Counselor will track this data and provide intervention for students not on track. **Strategy's Expected Result/Impact:** 100 percent of students matriculate to college **Staff Responsible for Monitoring:** James Martinez, Samantha Rivera, Principal, and Assistant, Principal **Title I:** 2.5 **- TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college, Improve low-performing schools **Funding Sources:** College Counselor - Federal Grant	75%	80%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Teachers will create intervention plans to support students who are not on track to passing their class. **Strategy's Expected Result/Impact:** 100% of students will pass all classes with a 70% or higher. **Staff Responsible for Monitoring:** Teachers, College Counselors, Assistant Principals **Title I:** 2.5 **- TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college, Improve low-performing schools **Problem Statements:** Demographics 2 - Student Learning 1 **Funding Sources:** College Counselor - Federal Grant	45%	70%		

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 2: Student persistence was not met. **Root Cause**: Root Cause: (1) lack of consistent and clear communication around campus activities. 25% of students left IDEA Owassa stating lack of school electives. Root Cause: (2) lack of interest surveys on what students/families at IDEA Owassa needs to offer for extra-curricular activities, athletics, or clubs.

Student Learning

Problem Statement 1: There is a lack of student progress in math as students progress through grade levels. **Root Cause**: Root Cause 1: Lead team has not provided enough time for content teams to align on strategies that align and work across all grade levels. Root Cause 2: Content leader was not holding content team accountable for transferable skills and strategies.

Goal 2: All IDEA students matriculate to college

Performance Objective 2: 50% of Freshman class will pass TSI.

High Priority

Evaluation Data Sources: TSI benchmarks and assessment data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: A tutor will be hired and the tutor will work with small group of students on specific subjects **Strategy's Expected Result/Impact:** Tutor will work with students and prepare them in a smaller group setting in order for students to pass and receive TSi Credit **Staff Responsible for Monitoring:** Tutors, College counselor, RTTC teacher **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college, Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Demographics 2 - Student Learning 2	50%	60%

	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: provide reading interventions for at-risk students. **Strategy's Expected Result/Impact:** increase the amount of at-risk students reading on grade level **Staff Responsible for Monitoring:** Interventionists, principal, API **TEA Priorities:** Build a foundation of reading and math **- ESF Levers:** Lever 5: Effective Instruction **Problem Statements:** Student Learning 2, 3 **Funding Sources:** Interventionist - Federal Grant	90%	90%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 2: Support around instructional strategies that can be used across the content in all grade levels was not provided. **Root Cause**: (1) Teachers needed more time to collaborate as a content to share best practices. (2) Vertical aligned between 6th History and AP World History needs to be prioritized to help close gaps in student learning. (3) Norming on scoring open-ended needs to be implemented.
Problem Statement 3: Overall student growth on TELPAS has been minimal. **Root Cause**: (1) Students need more opportunities to practice speaking in class in order through a variety of class discussions/collaboration. (2) Teachers need to be held accountable to apply instructional strategies that are presented during PDs to support ELs. (3) Teachers need more training around TELPAS expectations so that they can implement best practices throughout the school year.

Goal 3: IDEA achieves an A rating

Performance Objective 3: Increase SPED passing rates to at least 70% approaches on STAAR in reading and math.

High Priority

HB3 Goal

Evaluation Data Sources: utilize unit exams and semester exams to track progress towards STAAR

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Track and monitor SPED data after every assessment using Locus Dashboard. **Strategy's Expected Result/Impact:** increase SPED student performance **Staff Responsible for Monitoring:** SPED teacher, APIs, teacher, principals **TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 5: Effective Instruction				
No Progress Accomplished Continue/Modify Discontinue				

Goal 3: IDEA achieves an A rating

Performance Objective 4: Increase Domain I score from 83 to 87.

High Priority

HB3 Goal

Evaluation Data Sources: STAAR semester exam, exit tickets, unit exams.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use Locus dashboard to track and respond to data. **Strategy's Expected Result/Impact:** meet indicators for domain 1, 2, 3 **Staff Responsible for Monitoring:** APIs, core STAAR tested teachers **Title I:** 2.6 - **TEA Priorities:** Build a foundation of reading and math - **ESF Levers:** Lever 5: Effective Instruction **Funding Sources:** Interventionist - Federal Grant	90%	95%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: students will close gaps by taking accelerated courses in AR and Hotspot **Strategy's Expected Result/Impact:** These accelerated course offer individualized instruction for students. **Staff Responsible for Monitoring:** AR/Hotspot Facilitator **Title I:** 2.4 - **TEA Priorities:** Build a foundation of reading and math - **ESF Levers:** Lever 5: Effective Instruction **Funding Sources:** AR and Hotspot Facilitator - Federal Grant	85%	90%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: host parent engagement events to increase knowledge of ways to partner in increasing student achievement data **Strategy's Expected Result/Impact:** higher student achievement data **Staff Responsible for Monitoring:** Principal, counselor, APIS **Title I:** 2.4 **- TEA Priorities:** Connect high school to career and college **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 2, 3				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 4 Problem Statements:

Perceptions
Problem Statement 2: Connection with families with school is lacking. **Root Cause**: Root Cause (1) Time limitations, work conflicts and childcare needs are causing lack of participation in family events.
Problem Statement 3: Lack of clear visions and goals of family engagement events that lack tracking of family demographic participation. **Root Cause**: Root Cause (1) There is no tracking of family participation in family events. Root Cause (2) Lack of surveys on family engagement events geared towards our demographic.

Goal 4: Increase student daily attendance

Performance Objective 1: Increase ADA from 91% to 97%.

High Priority

Evaluation Data Sources: utilize locus dashboard and Power BI

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: bi-weekly student incentives such as moon jump party, monthly ADA dance for all students who have perfect attendance and no more than 3 tardies. **Strategy's Expected Result/Impact:** This strategy will help increase student investment and motivation. **Staff Responsible for Monitoring:** Principal, APO, Lead Team, GTLS **TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1	90%	95%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: We did not meet ADA goal of 97% **Root Cause**: There was a lack of investment from parents and students around ADA. Parents had concerns regarding COVID and wanted virtual option. We started ADA matrix very late in the year due to COVID.

Goal 4: Increase student daily attendance

Performance Objective 2: Implement the ADA matrix with fidelity.

High Priority

Evaluation Data Sources: track ADA using locus dashboard and PowerSchool

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Create bi weekly, monthly and quarterly incentives to encourage student ada. **Strategy's Expected Result/Impact:** Students will find pride in being invited to these events and in turn will assist school with more fidelity. **Staff Responsible for Monitoring:** SSI, APO,GTL,APIs **Title I:** 2.4, 2.6 **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 1, 3	60%	75%	15%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: We did not meet ADA goal of 97% **Root Cause**: There was a lack of investment from parents and students around ADA. Parents had concerns regarding COVID and wanted virtual option. We started ADA matrix very late in the year due to COVID.
Problem Statement 3: There is a lack of student centered school culture. **Root Cause**: Root Cause (1) school culture geared more towards middle school activities, lacking high school student participation Root Cause (2) lack of interest surveys on what students perceive as the high school experience and building cultural events that are high school student centered.

Goal 5: Increase student persistence

Performance Objective 1: Increase student persistence from 86% to 90%.

High Priority

Evaluation Data Sources: locus dashboard

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide Monthly opportunities for student events, led by students. **Strategy's Expected Result/Impact:** Students will get invested in their own school because they are the ones that are planning the events they would like to see on their campus. **Staff Responsible for Monitoring:** Principal, Grade Team Leaders, School counselor **TEA Priorities:** Connect high school to career and college, Improve low-performing schools **Problem Statements:** Demographics 2, 3	80%	85%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 2: Student persistence was not met. **Root Cause**: Root Cause: (1) lack of consistent and clear communication around campus activities. 25% of students left IDEA Owassa stating lack of school electives. Root Cause: (2) lack of interest surveys on what students/families at IDEA Owassa needs to offer for extra-curricular activities, athletics, or clubs.
Problem Statement 3: There is a lack of student centered school culture. **Root Cause**: Root Cause (1) school culture geared more towards middle school activities, lacking high school student participation Root Cause (2) lack of interest surveys on what students perceive as the high school experience and building cultural events that are high school student centered.

Goal 5: Increase student persistence

Performance Objective 2: Increase Move this World participation to 90%.

High Priority

Evaluation Data Sources: Move this world dashboard

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: track and monitor the move this world dashboard and provide feedback to teachers on progress of lessons **Strategy's Expected Result/Impact:** increase participation of move this world among teachers and students **Staff Responsible for Monitoring:** School counselor, principal **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Demographics 3	20%	50%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Reflections	
Areas of Strength	**Areas of Need**
The team had a very good set of key points for every objective taught.	The team determine that one area of growth will be to teach the students from the very beginning test strategies and skills that might help them more successful.
The team had a very good tracking and monitoring students performance.	The team needs to improve on the way we differentiate during class and during review time
The team was good at finding misconceptions and using them to close learning gaps.	The team wants to create a tutoring buddy system when the students from higher grades can come and help the ones on the lower grades.

Reflections	
Areas of Strength	**Areas of Need**
Unpresendeted amounts families came to the welcome to Idea.	more festivals
Families are getting more comfortable coming to WTI events, participating and asking questions	more family oriented days
Facilities and admin do a great job at accomodating award assemblies and getting everything ready/set up	Incentives for report card pick up night for parents. Something more inviting like snacks, meeting the teachers in the classroom so parents can see where their kids are learning

IDEA Public Schools

Palmview Academy

2022-2023 Campus Improvement Plan

Accountability Rating: Not Rated

Board Approval Date: October 21, 2022
Public Presentation Date: September 16, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communitiesÂ for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates. At IDEA Academy Palmview, weÂ prepare all students for success in college and citizenship.Â Our scholars understand and embrace the journey to and through college. Our staff, families and the Palmview community are invested in our scholarsâ€™ success and embrace the college going identity as they supportÂ our scholars in their journey. We are true to our Team and Family core value because we care about our scholars, staff, families, and community. At IDEA Academy Palmview, scholars receive the highest quality academic education and enrich their learning through hands on activities and real-world learning through an agricultural focus. We understand that the experiences and relationships they build at IDEA Academy Palmview will impact their contributions to their community and beyond. We are aggies because we â€œKnow the wayâ€**,** â€œGo the wayâ€ and â€œShow the wayâ€**.** To be true to our vision, we will operate each year with three pillars of commitment: Experiences Relationships Excellence

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Recruiting and hiring certified special education teachers **Root Cause:** Lack of qualified/certified SPED candidates

Problem Statement 2: Increase culturally diverse celebrations to bring awareness and acceptance of other cultures **Root Cause:** Over 95% of population are Hispanic.

Problem Statement 3: Increase parent involvement by establishing a culture of collaboration and commitment. **Root Cause:** Parents work schedules

Problem Statement 4 (Prioritized): Implementation of a program to support with EB learners. **Root Cause:** High percentage of EB learners

Student Learning

Student Learning Summary

Region	3rd Grade Reading	3rd Grade Math
RGV	**55/36/11** LEP: 48/29/8 SpEd: 8/0/0 Eco Dis.:53/34/10	**54/26/10** LEP: 47/24/9 SpED: 23/8/0 Eco. Dis: 51/23/8

Student Learning Strengths

See PDF in Addendum for more information

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Students in 3rd and 4th grade have significant academic gaps and are over two years behind in reading and math. **Root Cause:** Students are able to read in isolation, but comprehension is lacking.

Problem Statement 2: Students missing out weeks of instruction **Root Cause:** Student's attendance is inconsistent

Problem Statement 3 (Prioritized): Students are struggling with basic operations such as addition, subtraction, multiplication and division. **Root Cause:** Learning gaps due to pandemic

School Processes & Programs

School Processes & Programs Summary

Teacher and Leader Development:

Teachers, co-teachers and leaders had numerous opportunities for professional development. In addition to professional development provided by the campus (Tuesdays, ongoing, year-round), teachers engage in the following professional development provided by the district.

New Teacher Institute (July)

BOY PD (August)

Content Wednesday Webinars (On going, year-round)

Content Course Collaboration (Quarterly)

Teachers receive support from their assistant principal of instruction and feedback and coaching using the GET (Guidepost for Excellent Teaching) Rubric.

Leaders follow the SLLs (School Leadership Levers)

See PDF in Addendum for additional information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA Palmview exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school

year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.

- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA Palmview hired a Social Workers to support students and their families
- IDEA Public Schools pre-pandemic ADA averaged 97.4%, and IDEA Palmview is committed to reaching prepandemic
- 88% of students persisted at IDEA Palmview Academy
- 100% of SPED/RISE students Approached or Mastered Reading and Math STAAR test

See PDF in Addendum for more information

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Content Specific teacher pool is low. **Root Cause:** Low vacancy: candidate ratio of qualified candidates

Problem Statement 2 (Prioritized): Co-teacher candidate shortage **Root Cause:** Job responsibilities are same as teachers, while pay is lower

Perceptions

Perceptions Summary

Our campus event participation is low for most parent events. Less than 50% of our new families participated in Welcome to IDEA event, report card night and academic performance nights. Higher participation was osbserved have occurred with events such as Thanksgiving pic-nic, Winter performance, and EOY Ceremonies.

Only 33.6% of parent completed parent survey.

See PDF in Addendum for more information

Perceptions Strengths

Many community partnerships with local businesses, campus host fun family oriented activities.

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Family engagement for academic activities is very low **Root Cause:** Transportation, working parents

Problem Statement 2 (Prioritized): Low participation in parent surveys **Root Cause:** Limited access to technology

Priority Problem Statements

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Federal Report Card and accountability data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Texas approved PreK - 2nd grade assessment data
- Other PreK - 2nd grade assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Class size averages by grade and subject
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback

- Parent engagement rate

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation

Goals

Goal 1: Increase staff retention

Performance Objective 1: By August 2022, the 85% or more of teachers and staff will return to IDEA Palmview or IDEA Public Schools

High Priority

Evaluation Data Sources: Staff retention data

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June

Performance Objective 2 Problem Statements:

Perceptions
Problem Statement 1: Family engagement for academic activities is very low **Root Cause**: Transportation, working parents

Goal 4: Increase Student Persistence

Performance Objective 3: Parent participation/engagement will increase by 25% as measured in event sign in sheets.

Evaluation Data Sources: Event sign in sheets.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Use multiple avenues to communicate events to families (social media, flyers, Remind, etc)	100%	100%	100%	

 No Progress Accomplished Continue/Modify Discontinue

Goal 4: Increase Student Persistence

Performance Objective 4: By May 2022, 75% of 1st-5th grade students will meet or exceed 1,200 minutes in moderate to vigorous physical activity as measured by Locus district dashboard.

Evaluation Data Sources: Locus reports

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Track, manage and report data via Locus				

  No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student attendance

Performance Objective 1: IDEA Palmview Academy will average 97% daily attendance as measured by end of the year PEIMS reporting.

High Priority

Evaluation Data Sources: EOY PEIMs report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Teachers will be the first line of communication with parents when students are out	90%			

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student attendance

Performance Objective 2: IDEA Palmview adheres to escalation matrix at least 95% of the time as measured by campus escalation matrix reporting.

Evaluation Data Sources: escalation matrix tracker

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: APO will lead and track use of escalation matrix and report out during check-ins				

 No Progress Accomplished Continue/Modify Discontinue

Goal 5: Increase student attendance

Performance Objective 3: IDEA Palmview Academy leadership team follows ADA minute by minute with fidelity 95% of the time.

Evaluation Data Sources: APO feedback

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: All lead team members will have invites which reflect ADA support expectations.	0%			

 No Progress Accomplished Continue/Modify Discontinue

Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

IDEA Palmview College Prep

"Of the thousands, be the one." -Drew Brees; NFL quarterback.

Vision: IDEA Palmview College Prep strives to ensure 100% of students reach their full potential of being "the one" prepared for success in college and citizenship. We are guided by three pillars that we instill in our scholars everyday: we have a **choice** in the pathway of our lives, engage and partner with our **community,** and become the **change** we want to see.

Pillar 1: Choice

"It is our choices that show what we truly are, far more than our abilities." – J.K. Rowling

According to the USDA, "between 2010 and 2015 there were more jobs available in agriculture and food systems, renewable energy, and environment than qualified graduates to fill them." IDEA Palmview will answer this need by producing scholars prepared for college in many majors of focus including agriculture.

The IDEA Palmview is composed of three integral components:

- Classroom Instruction aligned to Pre-AP and AP Pathways to college
- Supervised agricultural experience (SAE)
- Student organization (4H and/or FFA)

Pathways:

Our Aggie families come together to make an informed choice toward their future college major in the College of Sciences pathways. We will align curriculum, identify strengths, and provide AP coursework to introduce and engage students in their choice major to encourage self-agency.

A study conducted by Texas A&M, found that many students balance college and jobs. Seidman, author of the new book Crossing the Finish Line: How to Retain and Graduate Your Students. Students "don't understand the cost-benefit of going to college" — the typically higher wages earned by degree-holders — "and we do a bad job of explaining that." I have also seen this firsthand while working in Laredo ISD, IDEA San Juan and Mission. Many of our students, both struggling and high achieving, are enticed by the quick money or easy wages of the pipeline, welding, and trucking industries. They see family members working or are recruited by companies because of their age and resiliency. IPCP will combat this short-term mentality of a "quick win" and focus on long-term effects by creating foundational awareness (family graduation plan meetings, classroom instruction, and labs), learning to balance academics and work (internships, SAEs), along with college experiences (FFA, CSAP) and field lessons (you cannot dream about what you don't know exists).

Supervised agricultural experience (SAE):

Students learn by doing with the SAEs. Agricultural Education teachers assist students in developing an SAE project based on their interests and available opportunities in our community. Most SAE programs are performed outside of regular class time, either after school, at home, or in a place of business. There are four types of SAE programs: exploratory, entrepreneurship, placement, and research/experimentation. This experience allows students to explore possible careers in agriculture and become a competitive college candidate ready to become leaders in their chosen field/college major.

Student organization:

FFA is an intracurricular student organization for those interested in agriculture and leadership. A study conducted by the American Association for Agricultural Education found that the majority of FFA members' three basic human needs are met due to their involvement in career development events, leadership positions, and other FFA activities including "love and belonging, self-esteem, and self-actualization." Of all research questions, the highest concentration of members claimed to have a more enjoyable high school experience as a result of their membership in FFA allowing them to build life-long friendships.

FFA members embrace concepts taught in agricultural science classrooms, build valuable skills through hands-on experiential learning, and each year demonstrate their proficiency in competitions based on real-world agricultural and leadership skills used to prepare them for 235 unique college majors/careers in agriculture and leadership. Competitions also render scholarship opportunities and networking with leaders in the agricultural sciences and business. To date, more than $44 million in FFA collegiate scholarships have been awarded to students pursuing higher education.

Pillar 2: Community

"Alone we can do so little; together we can do so much." - Helen Keller

Family:

When we share connections, values, and work together as a family (parent/school team), we become committed to each other. We cannot achieve our goals alone. We are all partners each giving 100% every day.

Commitment: Upon entering the commitment of joining IDEA Palmview for the duration of our Aggies' middle/high school career, our families start with the end in mind. During WTI, our families experience testimonials from students who have graduated from IDEA, parents of those students, and watch a video of College Signing Day or even visit the event. Many families know there are possibilities but seeing an exemplar that met the goals of being accepted into college(s), moving away/staying local, returning, graduating from college, and starting a career is proving the possible. Families hear testimonies of the parents who sacrificed to know that their sacrifice will also pay off. We won't stop at WTI; every assembly of families will begin with a story of the possible to keep the feeling fresh until our school begins to produce exemplars of our own.

Open, consistent, two-way communication: As a parent, all I really want is for my children to be safe, learn, and be celebrated for their successes. I want to be notified of the struggles in behavior, academics, when they grow, and overcome their obstacles. I want to know what is going on each week/month/year on campus whether it is an event, something is due, informed of a need in advanced with frequent reminders, and know that I am a partner not an obstacle.

As a team it is important to hold each other accountable and welcome feedback. In addition, we will call our families. If a student is absent, we will call because we know they are missing instruction. We will call if the child is out of uniform because professionalism and safety is essential. We want families to call us when they have questions or share a home

situation to make our Aggies feel comfortable and safe. Teachers will call/text/send home notes (called Aggie mail) with updates on progress and positive accolades at least twice a month, if not more, to every single student.

Our families are part of the campus: Our Aggie families know they are part of our everyday by receiving information in several ways including: the parent weekly we call "The Paw Print," a text system called REMIND, our IDEA website, and our Facebook page. Aggie families know what our children are experiencing so they can see the joy through photos and extend support at home. We get to know our families and build quality relationships with them. Our Aggie families are partners and are encouraged to call, send notes, leave comments on our pages, and visit our campus. Our families are welcome to share concerns, accolades, perspectives and ideas.

We know it is crucial to not only be a team but to get to know each member on the team. IPCP will host family events because we want our school to feel like a home away from home for the whole family. Our families participate whether in Donuts with Dad, chaperoning field trips and field lessons, being a guest speaker, attending college counseling sessions, attending Report Card/Open House nights, or simply observing in school tours. Our families participate and are present.

Community:

Our Palmview community is made up of a fellowship with others, as a result of sharing common experiences, attitudes, interests, and goals. We share the goal of having our children meet their full potential, do better than we did, and have a life full of purpose and wellbeing. IDEA Palmview will support this by serving our community and sharing our why we chose to "be the one."

Community Service: At IDEA Palmview we build empathetic students who aren't only prepared to get into college but enter with a purpose, skill sets, and use those skills to get through college in order to return and improve their community. A 126-hour graduation requirement for our students, community service will build joy, belonging, and application of the skills in social engagement, self-agency like problem-solving, advocating, etc. resulting in self-efficacy (independence) and a college-going identity.

Studies conducted by Georgetown, DePaul University (2015), and Birkenholz (1993), have shown that participating in campus organizations increase the likelihood of students not only graduate from college but within the 4-5year mark rather than the 6+ year mark. Students tend to be more successful with higher GPAs if they are involved in student-life organizations on campus because participating creates support-systems, leadership skills, communication skills, time management, and social awareness.

We practice this to learn how to handle all AP coursework and the demands of advanced curriculum by teaching them to get involved with community organizations such as Habitat for Humanity, Mujeres Unidas, participating in pantries, crop sharing with local farmers, becoming historians of the elder community, correct stereotypes with organizations like LUPE who help advocate for the rights of immigrants to be a big brother/sister mentor to our younger students at the academy level.

Service to others helps push our students in the direction of true college readiness by practicing what they learn in the classroom, taking it to the real world, and partnering with people the content is written about and applies. Aggies will engage in community service by grade level to help their community build, act, and thrive. This ranges from being able to 5 times per year (for at least 4 hours each day= 140 hours of service) students will go out to engage in community service projects developed by the school appropriate for the grade level, FFA, and/or mini-capstone/AP Capstone requirements aligned to WE Service.

College and Sharing our Why:

In my leadership story, I mentioned one of the reasons I became the person I am today was due to the realization that it was not my fault that I had obstacles in my life, but it was my responsibility to figure out how to deal with them and build success. I also shared how I feel that it is my responsibility and those of all our Aggie family members to lead by example, show students that anything is possible, and there is no excuse that can stop us. Rather, these are opportunities to answer the call of leadership. We do that by sharing our stories of how we were "the one" in our family and community.

When you walk into classrooms, you'll hear how teachers answered the vocation of education, their underdog stories that took resilience, and turning point moments in their lives. When you set foot in our assemblies, you will hear professionals from our community share their breakthrough moments of "being the one" in their family as a 1st generation college student. When you listen to the student leaders on our campus, you will hear how they have chosen to "be the one," overcome hurdles, and take responsibility. You can also see this in our monthly showcase highlighting a nonstudent Aggie family member who sacrificed and lead their family.

CSAP internships, partnerships with Colleges of Agriculture, and internships with career experts further help our students follow a pathway into college through firsthand experience, inspiring stories, and mentorships. Guest speakers showcase their why, what it takes to be admitted into college as undergraduates and graduate students, follow career paths, and inspire innovation. Everyone on campus will be encouraged to share their story whether it is an administrator, teacher, operations member, student, or even parents because we are proud of where we come from because it helps shape who we are and who we can be in the future!

Pillar 3: Change Agency

"There is no power for change greater than a community discovering what it cares about." – Margaret J. Wheatley

Mini-Capstones:

Academy and middle school students will prep for rigorous independent AP Capstone classes in high school by engaging in mini-capstone projects with a gradual release from whole class projects to small group projects. Students as young as Kindergarten host plant and animal project-based learning experiences in order to be exposed to cause/effect and problem/solutions in agriculture and life sciences to enact change in their community.

AP Capstone:

By their senior year in high school, students can earn the AP Capstone Diploma or the AP Seminar and Research Certificate. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing receive the AP Capstone Diploma. Students who earn scores of 3 or higher in AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate. This endorsement is highly valued on college transcripts and furthers our students' competitive appeal. Benefits include standing out to colleges in the application process, develop key academic skills students use in college and beyond, become self-confident, independent thinkers and problem solvers, and earn college credit that many colleges offer for qualifying scores.

WE Service (AP Partnership):

Through WE Service AP partnership Aggies become agents of change. For instance, students in ourAP Environmental Science students can propose a solution to reduce biodiversity loss; AP Human Geography students can develop an action plan that addresses hunger in our community; AP Studio Art: 2-D Design students can paint a mural to demonstrate their individual perspectives on man-made and natural environments. Service learning incorporated in our AP courses further our students' college-going identity.

Students who earn AP credit with WE Service Recognition may be eligible to apply for AP with WE Service-Learning Scholarship, made possible by the Allstate Foundation. This award recognizes exceptional students who have made a positive impact through their service-learning project (can be combined with their Capstone). $50,000 scholarships are awarded to either an individual student or a team annually. With the WE Service AP endorsement IDEA Agriculture & Science students are that much more sought after, recognized, and competitive in the college admission market. Rather than asking our Aggies what they want to be when they grow up, we ask what problems they want to solve and how can they "be the one."

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**

- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Staff Quality, Recruitment, Retention

Reflections

Areas of Strength

1 Teacher Retention

2 Feedback from teachers/staff surveys for org health

3 Honoring time with purposful training and meetings

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Lack of community partnerships built by our leaders with SEL and persistence as their driving goal. **Root Cause:** Families of low-socioeconomic category do not have the knowledge or means to learn about or seek out support from services provided (community partnerships for SEL, SPED, EL, 504).

Problem Statement 2 (Prioritized): Lack of knowledge and experience in educating individuals at differing level of special needs. **Root Cause:** Professional development was not focused on how to serve and differentiate for students in special populations.

Problem Statement 3: Insufficient certified special education teachers in order to facilitate the needs of our special education scholars and fulfill compliance mandates. **Root Cause:** Lack of candidates with RISE/SPED certifications.

Student Learning

Student Learning Summary

Reading Intervention:

% Meeting CSI Goal	Reading CP CSI
% CSI (EOY Ren.)	64
% of CSI Passing STAAR	58
% of SPED Passing STAAR	60

ELA STAAR:

	STAAR Reading 6th	STAAR Reading 7th
% Approaches	76.6%	76.5%
% Meets	41.6%	47.2%
% Masters	23.3%	28.3%
% Student Achievement Average	47.1%	50.3%

Math STAAR:

	STAAR Math 6th	STAAR Math 7th
% Approaches	73%	61%
% Meets	34%	31%
% Masters	10%	14%

	STAAR Math 6th	STAAR Math 7th
% Student Achievement Average	39%	35%

Student Learning Strengths

ELA:

Areas of Strength

1. 92.2% of students met growth goal

2 Domain 2- All indicators met for both Relative Performance and Academic Growth

3 Domain 3- All indicators met for Academic Growth and all but 1 met for Academic Achievement

Math:

Areas of Strength

1 Mastery Tracking student growth goals- 90% of students in math met/exceeded their growth target.

2 Mastery Tracking student STAAR goals. All Domain 3 categories hit their target %.

3 Co-Teacher Math Interventionist provided by ESSR funding. Helped with full year push-in/pull-out and small group reteach.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): iLearning Hotspot was not aligned to the needs of our students from the beginning of the school year. **Root Cause:** Switched from Dreambox

because it did not meet the needs of our students especially our special populations.

Problem Statement 2 (Prioritized): Isolated push in/pull out support for students in math was only available in 6th or 7th grade every other day. **Root Cause:** By having only 1 ESSR funded intervention co-teacher, their ability was limited to serving push in/pull out students every other day.

Problem Statement 3 (Prioritized): Lack of ELA- specific interventions/strategies for Sped population **Root Cause:** SPED teacher/point person was not used to observe and check for student accommodations usage and accuracy.

Problem Statement 4: Did not focus on tracking Meets from BOY- Mastery tracking **Root Cause:** Focused on Academic Growth for our A rating.

School Processes & Programs

School Processes & Programs Summary

Vision and Rationale:

At IDEA Palmview CP, we believe that exemplars are the roadmaps/guides for our Aggies. Students will have the opportunity, in every classroom, to engage in rigorous course work whether it is Pre-AP or AP. However, to produce AP level work themselves, they must first see it.

Every educator will be carefully selected and coached in how to produce exemplar work/practices during BOY and throughout the year. This will allow our educators to show students the standard of work needed to master content for college readiness. Exemplars will give the educators look-fors when aggressively monitoring student work, giving instant feedback, tracking trends of misconceptions, and using the opportunity to reteach in real-time before our students practice incorrectly. As coaches we will engage in instructional rounds, instructional scripting, coaching conversations, and follow-up to uphold this vision (aka: The Coaching Cycle).

Our WIG, wildly important goal, is to move our SAS from X to Y by Semester exams (example move our SAS from 38% to 47% by STAAR season to become an "A" Rated campus). We will then engage in a Stepback, to reassess/reset our Lead measures. Using the Scoreboarding technique, the data will narrow our focus and advise the team on where observations are needed as a group. We will do this during our WIG meetings.

Once we have narrowed our focus for the week, we will engage in the Coaching Cycle Instructional Rounds that consist of:

Monday

- **WIG meeting (During Tactical for 30 mins)**
- **Norming the GET/GBF focus**
- **Initial observations**
- **Scripting coaching conversations**
- **Rehearsals & feedback for the leader**
- **Observing check-ins & feedback for the leader**

Tuesday

- **Follow-up observations with receipts**
- **Debrief observations**

Principal will observe the instructional leader tight loop coach the teacher

Wednesday

- **Repeat Tuesday as needed to coach to mastery**
- **Observations to ensure the teacher can produce results without real-time coaching**

Thursday

- **Lesson plan feedback- must reflect the planning of the last action step**
- **Criteria for success on the campus GET/GBF focus of the week**

further opportunity to coach to mastery if needed

Friday

- **SWAM/Data conversations over the current data (UE, BWA, Mastery tracking reteach TEKS/Standards)**
- **Setting up reteach over lowest scoring high priority TEKS/Standards**

student/teacher awareness come from Mastery tracking

- **Instructional leader scoreboarding EOD**
- **Instructional leader reflects and preps for Monday's WIG meeting**

In order to fulfill our vision, we must the following SMART goals:

1. **100% of teachers will meet the action steps consistently within 1 week of it being given.**
2. **100% of teachers will be Advanced or better in Aggressive Monitoring by end of Semester 1. (priority GET for S1)**
3. **100% of teachers will be Advanced or better in Remediation and Reteach. (priority GET for S2)**

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.

- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): SPED/EL Point person did not own observations and PTGs for student accommodation usage and educating the teacher on best practices. **Root**

Cause: Professional development of the point person's role and knowledge of the job requirements was not clearly defined.

Perceptions

Perceptions Summary

IDEA Palmview College Prep conducts beginning of year strengths interviews, staff retreat to share vision, our why, and mindset, monthly pulse checks, and quarterly surveys. Our GPTW survey has been one of if not the highest in the network for 2 year in a row.

Student and Parent surveys and feedback are incoorporated throughout the year and used for teacher and leader developement and annual performance reviews.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lack of community partnerships for services in SEL, SPED, and other resources to help parents and families. **Root Cause:** Lack of skill setting them up through our Family Engagement point person.

Priority Problem Statements

Problem Statement 1: Lack of community partnerships for services in SEL, SPED, and other resources to help parents and families.

Root Cause 1: Lack of skill setting them up through our Family Engagement point person.

Problem Statement 1 Areas: Perceptions

Problem Statement 2: Lack of community partnerships built by our leaders with SEL and persistence as their driving goal.

Root Cause 2: Families of low-socioeconomic category do not have the knowledge or means to learn about or seek out support from services provided (community partnerships for SEL, SPED, EL, 504).

Problem Statement 2 Areas: Demographics

Problem Statement 3: iLearning Hotspot was not aligned to the needs of our students from the beginning of the school year.

Root Cause 3: Switched from Dreambox because it did not meet the needs of our students especially our special populations.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Isolated push in/pull out support for students in math was only available in 6th or 7th grade every other day.

Root Cause 4: By having only 1 ESSR funded intervention co-teacher, their ability was limited to serving push in/pull out students every other day.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: SPED/EL Point person did not own observations and PTGs for student accommodation usage and educating the teacher on best practices.

Root Cause 5: Professional development of the point person's role and knowledge of the job requirements was not clearly defined.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Lack of knowledge and experience in educating individuals at differing level of special needs.

Root Cause 6: Professional development was not focused on how to serve and differentiate for students in special populations.

Problem Statement 6 Areas: Demographics

Problem Statement 7: Lack of ELA- specific interventions/strategies for Sped population

Root Cause 7: SPED teacher/point person was not used to observe and check for student accommodations usage and accuracy.

Problem Statement 7 Areas: Student Learning

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant information
- Student Success Initiative (SSI) data for Grades 5 and 8
- Local benchmark or common assessments data
- Observation Survey results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio

Goals

Goal 1: Increase staff retention

Performance Objective 1: Become known as the greatest place to work in education by May 2023.

Vision

IDEA Public School will become known as the greatest place to work in education by being a high performing, rewarding, and supportive organization where all students and staff can succeed. Our greatest resource to achieve our mission of preparing 100% of our students for college is the people we attract and retain. We believe that when our adults are supported, developed, and celebrated - our students thrive.

As an organization that benefits from the rich and diverse backgrounds of nearly 75,000 students and 11,000 staff members, we acknowledge that this is a lifetime journey and one in which each IDEA team member plays a critical role. This year, on our path to becoming the best place to work in education, our focus will specifically be on:

Defining and aligning our organization around our Employee Value Proposition (EVP) to clarify what makes IDEA Public School the greatest place to work in education.

Growing and developing Effective People Managers by capturing and transferring resources and promising practices from IDEA leaders who have created environments where all staff and students can succeed.

Increasing Employee Engagement through successful internal communication that creates clarity, fosters transparency, champions diversity, equity, and inclusion, and builds connection to the IDEA network.

At our best, we have a clear understanding of what attracts and retains the IDEA Team & Family , develop and strengthen the people management skills of all IDEA leaders, and effectively communicate to meaningfully engage our uniquely diverse and widespread staff.

Supporting Research
External:
Great Place to Work (GPTW) Trust Model provides a recognized standard of what it means to be a great workplace. Learn more here.

A strong employee value proposition (EVP) is an effective tool for attracting and retaining talent. See visual aid at bottom of this document and learn more here.

Once an organization has a strong employee value proposition, ensuring person-organization (P-O) fit between candidates and their colleagues is a strong

predictor of teacher retention. Learn more here.

Internal communication is key to employee engagement. Learn more here.

Employee recognition can prevent employee attrition. Learn more here.

Effective people-management skills and mindsets must be practiced and refined regularly. Teaching from the work of Dr. Brene Brown (Dare to Lead) and Elena Aguilar (Onward and The Art of Coaching Teams) guided the manager training scope and sequence.

Internal:
The 5 GPTW Impact Statements (fun, pride, cooperation, resources, and hiring for fit) have a strong correlation to retention. See research here.

Yearlong Performance Indicators
85% Staff Retention
By region
By job group
By race/ethnicity
80% New Staff Retention

2% average improvement across the 5 impact statements from fall 2022 org-wide pulse check to spring 2023 org-wide pulse check

Role Overview: Key Impacts
What will be true at the end of the year for the various IDEA stakeholders?
Students
Staff
Performance Managers
Executive Leadership
Students demonstrate high achievement because they feel a sense of stability knowing they will interact with, learn from, and be supported by the same individuals throughout the entire school year.

Students persist at IDEA because they are surrounded by joyful, motivated and skillful staff that have significant positive impacts on their growth each day.

New Staff feel motivated by the workplace culture and are clear about their role expectations and how they will develop and be supported to meet those expectations.

Returning Staff feel a sense of belonging at IDEA and are consistently reminded of why they love working here.

All Staff feel informed, inspired, and connected to IDEA in a genuine way.

All Staff desire to return to IDEA the following year due to their confidence in the path IDEA is on and how it fits their long-term career goals.

Performance Managers implement practices that create a high-performance environment that supports staff development and well-being.

Performance Managers are trained, supported, and empowered to foster a strong team and staff culture that enables the realization of their vision and goals.

Senior Leaders champion our employee value proposition (EVP) and work strategically to ensure all our regions and campuses feel connected to the q1 mission and core values of our organization.

Senior Leaders adapt to the diverse needs of our staff, students, and schools to provide support and direction that leads to success.

High Priority

Evaluation Data Sources: Milestone 1 (July-Dec)

Milestone 2 (Jan-June)

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Frequent pulse checks and surveys. **Strategy's Expected Result/Impact:** Teachers report that they have all of the resources and PD to do their work well each time. **Staff Responsible for Monitoring:** API AA Principal **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture	0%	0%		

Strategy 2 Details	Reviews

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: Excellent writing, discourse, and use of evidence in every classroom.

Priority Overview

Vision Our scholars will get better at what they do every day. Scholars at IDEA write, have meaningful discourse, and support their ideas with evidence in class every day. Our future leaders, scientists, doctors, educators, etc. need to be prepared starting in Pre-K and Kindergarten with the knowledge and skills they will need in college and their future careers. When our teachers engage students in rigorous practice and hold students to an excellent standard of writing, discourse, and use of evidence every day in every class, students learn what they are capable of, gain critical thinking skills, and master grade level content. When campus leaders coach teachers in real time to build skill, provide feedback on lesson plans and observations, and deep dive into student work with teachers, our teachers gain the capacity to make an even bigger impact on our scholars. When our regional and national leaders are aligned in their campus support, have a common vision of excellence, and provide research-based development and resources, our campus Team and Family members are empowered to focus on what they do best: teach and lead our scholars on the path to fulfilling their potential. Instructional Priority Look-Fors: Click here

Supporting

Research Writing improves reading comprehension & memory of what was read (Naka & Naoi, 1995) Writing about content in science, social studies, and mathematics enhances learning in all subjects (Graham, Kiuhara, MacKay, 2020) Discussion helps students share and build meaning collaboratively and serves as an essential process for learning in the mathematics and science classrooms because it leads to collective, reciprocal, supportive, cumulative, and purposeful interactions (Hattie, 2012) Discourse promotes higher-cognitive learning (Gall & Acheson, 2011) Students develop problem solving abilities during discourse when they look at material from several points of view and build on earlier understandings through frequent discussions with peers (Sergiovanni, 2014) Key Performance Indicators End of year (EOY) student achievement with no statistically significant gaps across lines of difference: - RMT (on level) - State/Non-State (on or above GL) - AP (2+/3+) - ACT (21+)" *Still pending 21-22 data, this section will be finalized by Milestone 2. We believe that when our instructional staff are supported to have success in their roles related to this priority, it will also drive success with staff experience. See the staff experience priority KPIs as a way to measure this.

Goal 4: Increase student daily attendance

Performance Objective 1: Milestone 1 [July-Sept 2023]: Family Engagement

Priority Overview:

Vision Family engagement begins before students enter an IDEA school--our recruitment process needs to be founded on strong marketing campaigns and communication so that families learn the academic reputation of our schools and they clearly understand the commitment they make when they choose IDEA. Responsiveness and informative onboarding for new families are an opportunity to further invest students and families before their first day at IDEA. Families who feel connected to their school are more likely to return year after year. Students who are engaged and feel cared for at school are more likely to attend school every day. Students who attend school each day are more likely to have improved academic outcomes that will set them on a successful path--academically, socially, emotionally, and physically--to and through college. IDEA must be more than just what happens in the classroom. Not only do we commit to supporting the whole child, but we also have the discipline to invest in and uphold that commitment to the whole child--from rigorous and joyful instruction and school culture; to consistent extracurriculars and athletics; to a strong infrastructure of non-academic supports; and to staff who are well-trained with the skills to build relationships, communicate, and stay with IDEA to strengthen bonds. Genuine family engagement requires strong multi-way communication and feedback loops among schools, families, students, and communities to inform how we continue to improve our schools together and tackle local needs. This means that our families interact with their school and are informed about their student through weekly newsletters, frequent Remind communication from teachers and administrators that is responsive and appropriately addresses individual needs, frequent vibrant social media posts, academic updates through progress reports and parent portals, and ongoing surveys and family needs assessments. Creating and reinforcing healthy family engagement mindsets, processes, and systems will drive higher family and student investment, higher attendance leading to better academic and non-academic outcomes, higher persistence into the next academic year, and more stable demands on enrollment.

Key

Performance

Indicators

(KPIs) Outcome Metrics: * ADA (Texas: 97%; IPS: TBD) * ADA Compliance (100% attendance verifications and 95% Daily Teacher submission) * Chronic Absenteeism * Enrollment (Rolling Enrollment to Schools Projected Enrollment) * Persistence Rates: Overall, New, and Targeted Grades o 90% Overall Persistence o 90% New Persistence o 1% Increase for Specific Grades (Pre-K/K/6th/8th) * 1% decrease in persistence leaver codes for lack of communication * Parent Rating of 4.5 on Panorama Survey Question: "The school asks parents for their opinions on the school and its programs." (LY: 4.3) * Parent Rating of 4.7 on Panorama Survey Question: "The school provides materials and training to help parents work with their children to improve student achievement." (LY: 4.5) Supporting Research: * Research shows that parental or family engagement in a child's education can improve their test scores, attendance, social skills, relationships, behavior, and how a child feels about school. (https://www.canr.msu.edu/news/the-importance-of-family-engagement) * Parents are the experts on their children. Yet, district leaders know that promoting family engagement is far from a simple endeavor. Educators and administrators play a large role in shaping family-school partnerships. When schools elevate families as true partners and the experts that they are, students benefit significantly. When districts support families through thoughtful, equitable policies and programs, it encourages broader community engagement that can help to enrich student learning and

optimize student success. (Panorama Ed) * National Association of Family, School, and Community Engagement: High-impact family and community engagement is collaborative, culturally competent, and focused on improving children's learning (Parent involvement and student academic performance: A multiple mediational analysis https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3020099/) * Research shows that parental or family engagement in a child's education can improve their test scores, attendance, social skills, relationships, behavior and how a child feels about school. (https://www.canr.msu.edu/news/the-importance-of-family-engagement).

Strategy 1: Build investment and capacity of campus leaders to impact enrollment, ADA, and persistence

* Tactic #1: Develop a training scope and sequence that targets principals, APIs, and PIRs, specifically building capacity to communicate and invest parents in Pre-K/K, 6th, and 8th grades. The organization's training sessions on priorities will occur the second and third Thursday of every month.

* Tactic #2: Train campus cohort teams on course collaboration days. Require principals, APOs, APIs, Counselors, SIS Coordinators, and Registrars to attend a 2-hour training session that holds the team accountable to the co-dependent goals and builds capacity to manage and meet goals.

Strategy #2: Increase family feedback strategically throughout the year- Building authentic relationships with families through high-quality two-way communication

* Tactic #1: Every campus meets standard expectations to build 2-way communication with families (ex. REMIND, social media, Parent Comms Flow Charts)

* Tactic #2: Standardize the expectations for schools to host academically aligned parent engagement and academic celebration events such as "Meet the Teacher," report card pickup night and/or curriculum nights, monthly town halls, etc. (ex. 4: 1 required MTT, schools pick 2-4 example: DI on track night, CSI night)-

* Tactic #3: Implementation of 3 parent surveys to increase parent feedback (1. BOY survey 2. Fall Survey (October)- 50% of every campus 3. Spring Panorama Survey)

* Tactic #4: Identify trends in feedback from parents and create focus area for improvement. This will include a National ALP Project around non-academic programs and extracurricular.

Evaluation Data Sources: National Collaboration: Operating Mechanisms

Family Engagement Core Committee:

* AST: Heather, Joelisse, Maya

* IST: Amanda, Grace, Inelba, Lisa

* MCC: Andie, Matt, Shalimar

* Ops: Abby, Derrick, Jovanna, Liz, Osvaldo

* Schools: TBD (designated by Superintendent)

* Data Reporting (Dashboard): Adriana

Goal 5: Increase student persistence

Performance Objective 1: We operate physically and emotionally safe schools:

Creating safe, orderly, and welcoming learning environments is critical to educating and preparing IDEA students to achieve their highest potential and contribute to society. Efforts to improve school climate, safety, and learning are not separate endeavors and must be designed and implemented as a comprehensive school-wide approach. Ensuring that mental health and safety programming and services are appropriately integrated into the overall multitiered system of support is essential for successful and sustainable improvements in school safety and academic achievement. Students spend most of their waking lives in schools. Our school-based staff are the life of our school buildings. School safety and positive school climate are not achieved by singular actions like purchasing a designated program or piece of equipment but rather by effective comprehensive and collaborative efforts requiring the dedication and commitment of all school staff. At IDEA Public Schools, we are committed to providing a safe and secure environment to support our mission of preparing students from the communities we serve for success in college and citizenship. Physical and Emotional Safety Priorities: 1. Our students and staff must first feel physically and emotionally safe to achieve our mission a. We set a vision and create ambitious goals to promote physically and emotionally safe schools b. We track progress to our goals and make our data visible to all stakeholders c. We believe that meeting foundational needs will lead our students and staff towards their full potential 2. Physical and emotional safety is everyone's responsibility a. We invest our staff, families, and students in the importance of safety and the need for standardized safety practices and routines b. We cross-functionally train, coach, and support our school, regional, and national staff in proactive/preventative and reactive/responsive safety measures c. We empower students to build capacity in self-awareness, self-management, responsible decision-making, relationship skills, and social awareness 3. Everything I say and do matters (and so does everything I don't say and don't do) a. We hold team members accountable to this priority by inspecting what we expect b. We execute safety and security program, mental health, and SEL initiatives transformationally (not transactionally) to maximize their impact c. We model actions and behaviors aligned to our physical and emotional safety strategy.

Supporting Research * SEL interventions that address the five core competencies increased students' academic performance by 11 percentile points, compared to students who did not participate (CASEL, 2022). * Students participating in SEL programs showed improved classroom behavior, an increased ability to manage stress and depression, and better attitudes about themselves, others, and school (CASEL, 2022). * Additional meta-analyses echoed these findings. Consistency across independent research teams offers strong support that well-implemented SEL programs are beneficial (CASEL, 2022). * Our students and families respond to several questions each year through the Panorama Survey reporting their feelings about safety at school. Last year, students reported they "feel safe at school" at a 4.2 out of a 5-point scale. Parents responses to questions were rated at a 4.6 out of 5 last year. * Any effort to address school safety should balance building and security/physical safety with psychological safety. Relying on highly restrictive physical safety measures alone, such as increasing armed security or imposing metal detectors, typically does not objectively improve school safety. In fact, such measures may cause students to feel less safe and more fearful at school and could undermine the learning environment. In contrast, combining reasonable physical security measures with efforts to enhance school climate more fully promotes overall school safety (Framework for Safe and Successful Schools, NASP, 2013). Key Performance Indicators Outcome Metrics 100% of Staff complete BOY Crisis Management / Emergency Response Training 100% Safety Drill Execution o Monthly, Quarterly, Annually 80% of campuses are rated Proficient or higher by the end of the year on the Campus Safety Score (Regional & National Aggregate) o Intruder Assessment o Physical Building Safety o Climate & Culture SS Staff, Students, Families o Compliance SS Training, Facility Safety, Execution 100% of lead facilitators deliver Move This World with fidelity (3 days a week) 100% of teachers are trained in trauma informed practices at BOY training before the first day of school Leaders rate org priority training throughout the year as a 60+ NPS score Student and family survey goals: 1. Students rate the statement "I feel safe at school" a 4.5 out of 5 2. Parent safety and security Composite rating of 4.8 out of 5.

Evaluation Data Sources: Milestone #1: July - September Milestone #2: October- December Milestone #3: January-February Milestone #4: March- June

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Develop and distribute Parent and Family Engagement Policy The following individuals, including roles (parents, teachers, admin, etc.) assisted with the development of the Parent and Family Engagement Policy:				

Parents - PTO and SDMC
Teachers
Campus Leadership Team
The PFE was distributed
On the campus website
The Parent Weekly
PTO meeting
English
Spanish

Four strategies to increase Parent and Family Engagement include:
1. Develop with parents a parent-school compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement.
2. The school will provide full opportunities for the participation, including virtual participation, of all parents especially those with limited English proficiency, parents of students with disabilities, and parents of migratory children.
3. Campus will provide materials and training to help parents work with their children to improve their children's academic achievement and encourage their participation. These meetings will be held at flexible times to accommodate parents' schedules.
4. Campus will take the following actions to ensure that information related to the school and parent programs, meetings, and other activities is sent to parents in an understandable and uniform format, including alternate formats upon request, and to the extent practicable, in a language the parents can understand. All Title I materials will be sent in English and Spanish versions.

Strategy's Expected Result/Impact: 90%+ parents report that they have access to Parent Weekly and other communication.

90%+ parents attend at least 4 family engagement events throughout the year.

Students and parents report out on survey's that they feel safe at school.

IDEA Public Schools

Parmer Park Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in Science

Board Approval Date: October 21, 2022
Public Presentation Date: September 12, 2022

Mission Statement

IDEA Public Schools will prepare students from underserved communities for success in college and citizenship.

Parmer Park Academy Vision 2022-2023â€‹

At IDEA Parmer Park academy, our staff will work synergistically by instilling our panther values of pride, academic excellence, accountability and community. As a result, every single one of our students will leave our building as proud panthers, readily equipped with crucial skills to be agents of change and transformative leaders within their communities .

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 1, 2022

Demographics

Demographics Summary

IDEA Parmer Park sets high expectations for every student and goes the extra mile to make sure every student realizes their own potential. Personalized learning, critical thinking skills, mastery of core subjects is our recipe for success. School was founded in 2019 , we serve grade levels k-5, we currently have 714 students , 30% of our students are bilingual/ ESL, 33.7% of our students are categorized at risk, our students are predominantly african american and hispanic, teachers have an average experience on 1.6 years. The majority of our staff are also African American and Hispanic. See PDF in adendum for more information.

Demographics Strengths

See PDF in adendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): School did not have a clear behavior management system **Root Cause:** Leadership team did not implement behavior matrix, incentives, interventions

Problem Statement 2: Staff members were moved around different roles through the year **Root Cause:** High performing teachers were moved to STAAR subjects, instability was caused in grade levels

Problem Statement 3 (Prioritized): Only 67% of instructional staff returned for 22-23. **Root Cause:** Inconsistent leadership and inconsistent development led to high turn over in priority subject areas.

Student Learning

Student Learning Summary

Students in fourth grade struggled with exams. Our students did well across science subjects. Students struggled mostly in mathematics. Students performed better in ELA/Reading.

Mastery in 3rd grade reading and math was also below 10%

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Limited cross curricular opportunities **Root Cause:** systems not in place to allow teachers to collaborate

Problem Statement 2 (Prioritized): 3rd grade students lack foundational math skills **Root Cause:** Due to staff shortages, students did not receive support and planned intervention with computational fluency and reading comprehension of complex math problems post pandemic.

Problem Statement 3 (Prioritized): 5th grade students lack foundational math skills **Root Cause:** Lack of consistent teacher coaching and teacher preparation

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Lack of timely communication to parents regarding school events **Root Cause:** Designated family engagement staff member was tasked with assistant principal of instruction role and limited their capacity to fulfill the duties of their role.

Problem Statement 2 (Prioritized): 77% of students persisted from 21-22 into 22-23 **Root Cause:** Lack of behavior management systems within classrooms.

Priority Problem Statements

Problem Statement 1: School did not have a clear behavior management system

Root Cause 1: Leadership team did not implement behavior matrix, incentives, interventions

Problem Statement 1 Areas: Demographics

Problem Statement 2: 5th grade students lack foundational math skills

Root Cause 2: Lack of consistent teacher coaching and teacher preparation

Problem Statement 2 Areas: Student Learning

Problem Statement 3: 3rd grade students lack foundational math skills

Root Cause 3: Due to staff shortages, students did not receive support and planned intervention with computational fluency and reading comprehension of complex math problems post pandemic.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Only 67% of instructional staff returned for 22-23.

Root Cause 4: Inconsistent leadership and inconsistent development led to high turn over in priority subject areas.

Problem Statement 4 Areas: Demographics

Problem Statement 5: Lack of timely communication to parents regarding school events

Root Cause 5: Designated family engagement staff member was tasked with assistant principal of instruction role and limited their capacity to fulfill the duties of their role.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: 77% of students persisted from 21-22 into 22-23

Root Cause 6: Lack of behavior management systems within classrooms.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Average of all Great Place to Work Survey statements was 52% for IDEA Parmer Park employees for 21-22 school year

Root Cause 7: Three principal transitions throughout the 21-22 school year.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Inconsistent attendance tracking for parent and family engagement events; attendance for events that was tracked was approximately 50%

Root Cause 8: not enough events and no tracking available.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data
- Alternative Education Accountability (AEA) data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- ASPIRE
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- Equity data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data

- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results
- Other additional data

Goals

Goal 1: Increase staff retention

Performance Objective 1: Execute weekly and monthly staff appreciation/recognition

High Priority

Evaluation Data Sources: GPTW Survey

Summative Evaluation: No progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Joy Calendar For teachers **Strategy's Expected Result/Impact:** GPTW 80% or higher **Staff Responsible for Monitoring:** Lead team **TEA Priorities:** Recruit, support, retain teachers and principals **- ESF Levers:** Lever 3: Positive School Culture				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 60 % Students score meets and 30% of students achieve masters on major IAs

High Priority

HB3 Goal

Evaluation Data Sources: end of module assessments, exit ticket data, SE, Mocks, STAAR

Summative Evaluation: Some progress made toward meeting Objective

2.2: Regular monitoring and revision

We will use weekly tactical meetings to evaluate and respond to data.

2.3: Available to parents and community in an understandable format and language

All documentation will be provided in Spanish and English.

2.4: Opportunities for all children to meet State standards

We will provide strong lessons, tutoring and interventions to support all of our scholars.

2.5: Increased learning time and well-rounded education

Students have access to electives classes.

2.6: Address needs of all students, particularly at-risk

our school counselor and social worker will use data to drive priorities around family meetings and student supports.

3. Annual Evaluation

3.1: Annually evaluate the schoolwide plan

We will look at school wide plans at the end of the year to evaluate efficacy.

4. Parent and Family Engagement (PFE)

4.1: Develop and distribute Parent and Family Engagement Policy

We will host monthly parent events to allow parents to provide feedback.

Everyone must respond to parents within 24 hours.

4.2: Offer flexible number of parent involvement meetings

We will host monthly parent events to allow parents to provide feedback.

5. Targeted Assistance Schools Only

	State TELPAS Report	Comprehensive Needs Assessment 2022 TELPAS	This data set will outline the percentage of students that earned proficiency in the areas of Listening, Speaking, Reading, and Writing, as indicated in the State TELPAS report. List a minimum of 3 areas of strength and 3 areas of need in full sentences, rather than phrases, in the space provided.	Pending	We do not have all of the data here but we hit the state benchmark for TELPAS for 21-22	Action Required	Idea: implement a writing structure every Wednesday as part of do now to get students used to the writing component of TELPAS	
	Locus Dashboard: Staff Retention	Staff Quality, Rentention, & Recruitment 2021-2022 School Year	Under the %SPED Data Point, this should reflect the percentage of SPED certified teachers, compared to the overall SPED staff. Under number of teacher applicants, note how many teachers were interviewed by campus leaders for positions during the 2021-2022 School Year. List a minimum of 3 areas of strength and 3 areas of need in full sentences, rather than phrases, in the space provided.	Complete	teacher retention is higher than LT retention, need to explore what is working for teachers that is not for leaders	Action Required	Create a strong onboarding plan for lead team to ensure we have high LT retention for 23-24	
	Locus Dashboards: Student Persistence, Enrollment, ADA	School Culture & Climate 2021-2022 School Year	For the Withdrawals/Level 3 Offenses data point, list the number of withdrawals or offenses. All other data points should reflect percentages. List a minimum of 3 areas of strength and 3 areas of need in full	Complete	this is complete but the data looks inaccurate	Action Required		
	Campus Academic Counselor Tracking Systems	2022 Family & Community Involvement	In addition to listing data percentages, list a minimum of 3 areas of strength and 3 areas of need in full sentences, rather than phrases, in the space provided.	Complete		Action Required	there seems to be a system for peristence but its not centralized- need to work on centralizing this data as well	

IDEA Public Schools

Parmer Park College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: C

Distinction Designations:
Academic Achievement in Science
Academic Achievement in Social Studies

Board Approval Date: October 21, 2022
Public Presentation Date: October 7, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 15, 2022

Demographics

Demographics Summary

IDEA Parmer Park College Prep is an open enrollment charter school within the IDEA network. The school is in year four and serves grades 6-9 and will continue to grow until it serves grades 6-12. We currently have CTE in 8th and 9th grade as well as Spanish. Our 8th graders experience a schedule that is more like high school to prepare them for an experience of seven classes. We have a thriving Special Education program and opened up a RISE (Life Skills) unit this year.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Communication between lead, teacher teams, and stakeholders was weak. **Root Cause:** Underdeveloped systems.

Problem Statement 2 (Prioritized): African American students are leaving in a larger proportion than others. **Root Cause:** Students feel lack connection to the schools, students, and community.,

Student Learning

Student Learning Summary

We have made progress in ELA in all domains, but we are still not on track as a fourth year campus. Our math scores across the board, every subpopuliation are substantialy lower. This is a result of a number of factors, but the numbers bear out that there needs to be math growth at every grade with every popoulation of students. Finally, our SPED performance did not meet their goals and thus this affected our Domain 3 rating. We also did not meet our TELPAS growth measure.

See PDF in addendum for more information.

Student Learning Strengths

Our students have received strong humanities instruction and the numbers bear out

Our students are invested in electives, especially the athletics and PE programs.

See PDF in addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The most relevant problem is our low math performance. It is low on assessments, as well as number sense and foundational skills. **Root Cause:** The root cause is linked to the two years of COVID and because we did not have strong teachers of record in the classroom all year this past year.

Problem Statement 2 (Prioritized): New teachers lack development. **Root Cause:** Lack of strong coaching systems.

School Processes & Programs

School Processes & Programs Summary

We develop instructional leader through a combination of district training and traditional coaching on campus. This includes facitilating proficient check-in, running, strong instructional rounds, and responding to data. We plan for professional development that aligns to the arc of the year and the fact that we must develop our current staff.

See PDF in addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years

- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Our family engagement and communication is not as strong as founding schools. **Root Cause:** The root cause is leader vision.

Problem Statement 2 (Prioritized): Our families lacked ouchpoints on campus in the first 4 years. **Root Cause:** Lack of tight management of the school counseling team.

Perceptions

Perceptions Summary

The staff turnover rate this past year is approximately 30%. This is higher than other years and we have addressed this proactively with recurring operating mechanisms. Additionally, we have done the same with conflict. We have an experienced social worker and a discipline system that emphasizes the root cause of misbehavior over merely consequences.

See PDF in addendum for more information.

Perceptions Strengths

See PDF in addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): School lacked a system to cascade information to families about events. **Root Cause:** There have been disparate communication methods. We will communicate in only 2-3 ways with families.

Problem Statement 2 (Prioritized): Perception that leadership changes each year. **Root Cause:** Frequent turnover in the past for various reasons.

Priority Problem Statements

Problem Statement 1: Communication between lead, teacher teams, and stakeholders was weak.
Root Cause 1: Underdeveloped systems.
Problem Statement 1 Areas: Demographics

Problem Statement 2: African American students are leaving in a larger proportion than others.
Root Cause 2: Students feel lack connection to the schools, students, and community.,
Problem Statement 2 Areas: Demographics

Problem Statement 3: The most relevant problem is our low math performance. It is low on assessments, as well as number sense and foundational skills.
Root Cause 3: The root cause is linked to the two years of COVID and because we did not have strong teachers of record in the classroom all year this past year.
Problem Statement 3 Areas: Student Learning

Problem Statement 4: New teachers lack development.
Root Cause 4: Lack of strong coaching systems.
Problem Statement 4 Areas: Student Learning

Problem Statement 5: Our family engagement and communication is not as strong as founding schools.
Root Cause 5: The root cause is leader vision.
Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Our families lacked ouchpoints on campus in the first 4 years.
Root Cause 6: Lack of tight management of the school counseling team.
Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: School lacked a system to cascade information to families about events.
Root Cause 7: There have been disparate communication methods. We will communicate in only 2-3 ways with families.
Problem Statement 7 Areas: Perceptions

Problem Statement 8: Perception that leadership changes each year.
Root Cause 8: Frequent turnover in the past for various reasons.
Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Communications data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% staff retention

High Priority

Evaluation Data Sources: Survey data, TCP levels

	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: RTTC do nows and morning work are aligned to	20%	20%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: Teachers, students, and families describe our school as "safe" per internal safety survey.

High Priority

Evaluation Data Sources: Survey data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Track attendance by grade **Strategy's Expected Result/Impact:** draw trends so that we can target attendance strategically **Staff Responsible for Monitoring:** Grade level principals **Title I:** 2.5, 2.6	25%	50%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 2: IDEA Parmer Park College Prep passes external door audit for safety

Evaluation Data Sources: Audit results

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Meet district deadlines for drills and crisis team meetings **Strategy's Expected Result/Impact:** prepare for crisis **Staff Responsible for Monitoring:** Assistant Principal of Operations	25%	75%		

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: IDEA Parmer Park College Prep will meet 90% persistence for all and new students

High Priority

Evaluation Data Sources: leaver data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 95% of students will meet TSI goals and thus want to remain at school. **Strategy's Expected Result/Impact:** students feel success and belonging at our school **Staff Responsible for Monitoring:** College Counselor **TEA Priorities:** Connect high school to career and college	10%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 2: 98% of middle school students will participate in the IDEA Coordinate Health Program.

Evaluation Data Sources: Surveys from 6th and 7th PE and 8th grade health.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Students will continue with health lessons when applicable to increase interest and knowledge in health.				

  No Progress Accomplished Continue/Modify Discontinue

Reflections	
Areas of Strength	**Areas of Need**
1 Students perform well on short story fiction analysis and annotations.	1 Students need more opportunities to write about the reading.
2 Teacher delivery of novel study units and student interest proved to be strong in this area.	2 The guided reading intervention group did not make the requisite growth.
3 The shift to Peardeck in multiple classes allowed for real time feedback	3 Grammar and vocab instruction needs to be present to prepare for the new STAAR format and to bolster writing.

Reflections	
Areas of Strength	**Areas of Need**
1 Math pullout groups demonstrated growth during the push to STAAR.	1 Vertical alignment in the instruction and teams did not happen often.
2 Leader support in classes led to growth/	2 Lesson pacing and teacher internalization of the materials was insufficient.
3 Strong culture in math classes led to high numbers of students attending tutoring and extra support.	3 Errors in 7th grade curriculum hindered instruction.

Reflections	
Areas of Strength	**Areas of Need**
1 Students had opportunities for hands-on learning	1 Content meetings are rare.
2 Student engagement was high with labs and projects	2 Classroom management training is necessary so that students can do exciting science activities.
3 Student collaboration and group-learning opportunities were present in 8th grade.	3 We must utilize elective teachers for project-based learning and/or extra practice.

Comprehensive Needs Assessment
COLLEGE PREP

TELPAS Composite Rating (Listening, Speaking, Reading, Writing)

	Listening	Speaking	Reading	Writing	% of ELL Students who grew one or more levels
% Beginning	3	17	9	13	39
% Intermediate	18	57	25	35	39
% Advanced	26	25	29	27	39
% Advanced High	53	1	36	25	39

Reflection	
Areas of Strength	**Areas of Need**
1 Mock TELPAS exams were run well and provided strong practice.	1 Mock TELPAS data is not used to drive instruction.
2 Students often used Spanish/English dictionaries	2 There was a lack of programs for ELL students. (Duolingo, Rosetta Stone etc.)
3 Sentence starters in English are often used to support language acquisition	3 There was a lack of quality PD around instruction that benefits ELL.

Reflections	
Areas of Strength	**Areas of Need**
1 Dojo communication about behavior provided clear progress monitoring for families.	1 School needs a system to cascade information to families about events.
2 Sports develops character and motivates families	2 The school promotes family businesses at events and contracts with them
3 Teachers are willing to translate for each other when needed	3 There is a strong sense of community in the school

IDEA Public Schools

Pflugerville Academy

2022-2023 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:
Academic Achievement in Science

Board Approval Date: October 21, 2022
Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to improve achievement in Math due to it being at 39% in grades 3-5. **Root Cause:** (1) Poor scholar attendance and (2) lack of data-driven instruction with poor to no re-teach plan for skills not mastered

Problem Statement 2 (Prioritized): 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause:** (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

Problem Statement 3 (Prioritized): There is a need to increase student persistence specifically for new to IDEA students because it has declined over the past two years. **Root Cause:** Lack of consistent and clear communication around school culture and expectations to parents and students during the entire onboarding process (Welcome to IDEA), and (2) lack of "joy" (opportunities for scholars to engage in after-school clubs, pep-rallies, and/or other events that create school spirit.

Problem Statement 4 (Prioritized): There is a need to increase student attendance because it has declined over the past two years. **Root Cause:** (1) High volume of absences due to COVID (or other illnesses) and (2) lack of consistency in holding families and students accountable. (3) Weak operating mechanism to track and respond to gaps in ADA

Problem Statement 5 (Prioritized): There is a need to create more space for Academy scholars on campus to ensure there are designated spaces for intervention, Direct Instruction, and electives. **Root Cause:** (1) Lack of creativity in finding alternate learning space.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause:** (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

Problem Statement 2 (Prioritized): There is a need to increase student persistence specifically for new to IDEA students because it has declined over the past two years. **Root Cause:** Lack of consistent and clear communication around school culture and expectations to parents and students during the entire onboarding process (Welcome to IDEA), and (2) lack of "joy" (opportunities for scholars to engage in after-school clubs, pep-rallies, and/or other events that create school spirit.

Problem Statement 3 (Prioritized): There is a need to increase student attendance because it has declined over the past two years. **Root Cause:** (1) High volume of absences due to COVID (or other illnesses) and (2) lack of consistency in holding families and students accountable. (3) Weak operating mechanism to track and respond to gaps in ADA

Priority Problem Statements

Problem Statement 1: There is a need to increase student attendance because it has declined over the past two years.

Root Cause 1: (1) High volume of absences due to COVID (or other illnesses) and (2) lack of consistency in holding families and students accountable. (3) Weak operating mechanism to track and respond to gaps in ADA

Problem Statement 1 Areas: Demographics - School Processes & Programs - Perceptions

Problem Statement 2: There is a need to increase student persistence specifically for new to IDEA students because it has declined over the past two years.

Root Cause 2: Lack of consistent and clear communication around school culture and expectations to parents and students during the entire onboarding process (Welcome to IDEA), and (2) lack of "joy" (opportunities for scholars to engage in after-school clubs, pep-rallies, and/or other events that create school spirit.

Problem Statement 2 Areas: Demographics - School Processes & Programs - Perceptions

Problem Statement 3: There is a need to improve achievement in Math due to it being at 39% in grades 3-5.

Root Cause 3: (1) Poor scholar attendance and (2) lack of data-driven instruction with poor to no re-teach plan for skills not mastered

Problem Statement 3 Areas: Demographics - Student Learning

Problem Statement 4: 48.60% of scholars classified as ELs are struggling with literacy across core contents.

Root Cause 4: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

Problem Statement 4 Areas: Demographics - Student Learning - School Processes & Programs

Problem Statement 5: There is a need to create more space for Academy scholars on campus to ensure there are designated spaces for intervention, Direct Instruction, and electives.

Root Cause 5: (1) Lack of creativity in finding alternate learning space.

Problem Statement 5 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data
- Alternative Education Accountability (AEA) data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- ASPIRE
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- Equity data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data

- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results
- Other additional data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 100% of staff members complete 30 hours professional development for their core subject by April.

High Priority

Evaluation Data Sources: RoadMap, Texas Reading Academies, Bi-monthly Webinars, and Course Collab.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 100% of instructional staff members will attend bi-weekly webinars, monthly content PDs, quarterly course collaboration days in their core content. **Strategy's Expected Result/Impact:** Highly-qualified instructional staff members who feel successful and supported in teaching their content. **Staff Responsible for Monitoring:** Assistant Principal of Instruction(s) **TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: IDEA Pflugerville Academy scores a 80% of higher on GPTW Survey in the Spring.

High Priority

Evaluation Data Sources: Great Places to Work Survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Hold quarterly Think Tank Meetings with staff to address results/feedback provided in GPTW surveys. **Strategy's Expected Result/Impact:** Staff members will be retained due to feeling heard and supported. **Staff Responsible for Monitoring:** Principal **TEA Priorities:** Recruit, support, retain teachers and principals	25%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 1: Increase staff retention

Performance Objective 3: Scholars will engage in 170 minutes of vigorous physical activity during PE.

Evaluation Data Sources: Increased physical activity and health among students.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: API managing Physical Education will provide real-time coaching and lesson plan feedback to PE teachers on a consistent basis. **Strategy's Expected Result/Impact:** Increased vigor in physical activity for scholars. **Staff Responsible for Monitoring:** API, Teachers **Title I:** 2.6 **- TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture	25%	50%		
0% No Progress 100% Accomplished Continue/Modify Discontinue				

Goal 2: IDEA achieves an A rating

Performance Objective 1: 100% of 3rd-5th grade scholars achieve 90/60/30 on the Math and ELA STAAR in May.

High Priority

HB3 Goal

Evaluation Data Sources: Mock Math STAAR, Mock ELA STAAR, Math STAAR, and ELA STAAR

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Scholars who failed Math and/or ELA STAAR in the 3rd and 4th grade will be provided with 30 hours of remediation in a small group setting with a interventionist. **Strategy's Expected Result/Impact:** Struggling scholars will get individualized instruction. **Staff Responsible for Monitoring:** Math and ELA APIs **Title I:** 2.4 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Demographics 1, 2 - Student Learning 1, 2 - School Processes & Programs 1	25%	50%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: There is a need to improve achievement in Math due to it being at 39% in grades 3-5. **Root Cause**: (1) Poor scholar attendance and (2) lack of data-driven instruction with poor to no re-teach plan for skills not mastered
Problem Statement 2: 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause**: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

Student Learning
Problem Statement 1: There is a need to improve achievement in Math due to it being at 39% in grades 3-5. **Root Cause**: (1) Poor scholar attendance and (2) lack of data-driven instruction with poor to no re-teach plan for skills not mastered
Problem Statement 2: 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause**: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

School Processes & Programs

Problem Statement 1: 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause**: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.

Goal 2: IDEA achieves an A rating

Performance Objective 2: 90% of scholars in Kinder-2nd grade are reading on or above grade level.

High Priority

HB3 Goal

Evaluation Data Sources: DIBELS, RenSTAR, Direct Instruction Mastery Tests

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Daily classroom observations and tight-loop coaching in high-priority classrooms. **Strategy's Expected Result/Impact:** Ensure scholars are receiving quality instruction. **Staff Responsible for Monitoring:** Direct Instruction API **Title I:** 2.6 - **TEA Priorities:** Recruit, support, retain teachers and principals, Build a foundation of reading and math **Problem Statements:** Demographics 2 - Student Learning 2 - School Processes & Programs 1	25%	50%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 2: 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause**: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.
Student Learning
Problem Statement 2: 48.60% of scholars classified as ELs are struggling with literacy across core contents. **Root Cause**: (1) Lack of academic supports (staffing for EL Coordinator/interventionist) for EL scholars and (2) lack of professional development for teachers providing instruction to EL scholars.
School Processes & Programs

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

1. Award ceremony, meet the teacher, AR family reading, curriculum night, open house, parent conferences, parent shadows (Academic support)	Curriculum night, Parent Conferences 3 times a year. Rentention Communication. Report Card Night Q1-Q4
2. Parents are eager to be engaged and respond with teachers and class	2. Parent suggestion box or suggestion survey sent to parents, coffee with the prinicipal/counselor, PTO
3. Dojo and Remind translate, dual print in Spanish/English, We have access to headphones for translating	3. High population of Vietnamese families in need of translation, Designated translator for each gradelevel
4. Food trays, extra backpacks, extra clothes, coat drive, after school programs with snacks, social work referrals to outside services	4. More access to extra food and resources, GoFund Me for family needs
5. Dojo is primary form of communication	5. Google number to make phone calls, regular phone calls to parents, parent conferences BOY, MOY & EOY (focus on 10 critical students), STAAR night, curriculum night
6. Language Line Solutions, teachers and students as translators	6. Teachers learning to communicate in broken language

7. Informal communication between parents and staff	7. Survey attached via QR code to flyers, incentivize students for providing feedback, "review booth"
8	8. Hold parents accountable to return papers with at-risk data so that we can continue to receive resources, use social media to promote events/resources, brocure/newsletter, Calendar

IDEA Public Schools

Pflugerville College Prep

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Academic Achievement in Social Studies
Postsecondary Readiness

Board Approval Date: October 21, 2022
Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

As a campus, we also focus on being:

Challenge Seekers

Creative & Critical

Community Centered

Secure & Proud

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

IDEA Pflugerville College Prep currently serves grades 6-10 and will serve grades 6-12 starting in 2024. Our founding class of students who started with us as a sixth graders will graduate in May of 2025. IDEA Public Schools follows an "AP For All" program, and our students take their first AP Course in 9th grade. This is our first year offering CTE Programming; we plan to offer two pathways: Multimedia and Nursing Science. We also offer Band and Art and have a robust and ever-growing Athletics program. Approximately 14% of our student body receives Special Education services, and we also have a RISE unit.

Demographics Strengths

See PDF in Addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Our Average Daily Attendance fell short of our district goal of 97%; we ended the year with 90.70% Average Daily Attendance. **Root Cause:** Lack of consistent tracking to identify large number of absences and lack of meetings with families to inform them of attendance policies and impact on academic development. Lack of differentiation between COVID absences and general absences.

Problem Statement 2 (Prioritized): Our New Student Persistence was 57.38%. **Root Cause:** 1) Parents did not receive frequent or systematic communication about academic progress of their students. 2) Our consequence system lacked uniformity on the teacher level.

Student Learning

Student Learning Summary

Our school was rated a B (88) for our Academic Achievement during the 2021-2022 school year. We earned an 80 in Academic Achievement, a 90 on School Progress, and an 83 in Closing the Gaps.

The last year we received a rating was pre-pandemic in our founding year, 2018, when we earned an 87 (B). During this past school year, we also earned our Distinctions for Academic Achievement in Reading, Math, and Social Studies. We also earned our Postsecondary Readiness Distinctions. Our distinctions indicate that we are peforming well above schools with a similar student body.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Only 39% of our students in grades 6-8 were at Meets Grade Level Standard or Above on the STAAR. **Root Cause:** 1) We did not sufficiently address conceptual gaps in math understanding; 2) We need more robust math intervention; 3) We did not have a strong understanding of math gaps or track performance until second semester.

Problem Statement 2 (Prioritized): Less than 50% of our sixth and seventh grade cohorts made 1 year of growth on TELPAS. **Root Cause:** 1) Speaking was the lowest performing category across all grade levels, which indicates a need for more practice and evaluation embedded in the curricula. 2) We need to strengthen our ELL supports.

School Processes & Programs

School Processes & Programs Summary

Our campus develops instructional leaders through collaboration with our Regional Team and a robust coaching and collaboration cycle. We observe classrooms daily and go on weekly Lead Team rounds for instruction and culture. Our professional development prioritizes teacher growth in instructional skills and data analysis. All teachers have weekly check-in's, unless they are on the path to master teacher, which focus on specific and targeted skills for their practice.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

All of our instructional lead team members at IDEA Pflugerville College Prep stayed at IDEA Public Schools.

See PDF in Addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Almost all of our ninth grade teachers left to pursue other opportunities. **Root Cause:** 1) Lack of vision for high school culture and discipline 2) New teacher onboarding was not sufficient (all but one teacher was new to the school)

Problem Statement 2 (Prioritized): Overall, our teacher retention is low **Root Cause:** 1) Our hiring process did not identify staff who wanted the experience of founding a school 2) Lack of monitoring staff culture more closely throughout the year and offering opportunities for feedback and staff voice.

Perceptions

Perceptions Summary

IDEA provides bi-annual surveys for families and students to share their experiences, opinions, and feelings about our school the Panorama Platform. Teachers provide feedback on the Great Places to Work Survey, and we offer a place for teachers to offer suggestions throughout the school year to improve our campus. We have monthly events for families and advertise through social media and our Weekly Newsletter. We are gradually cultivating partnerships with our community through inviting them to our events, such as Trunk or Treat. We have a strong partnership with Backpack Friends, which ensures that our students do not experience food insecurity over weekends. Our most popular events are Beginning of Year Orientation, Step Up's/Graduations, and Trunk or Treat.

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Our families did not have access to staff except for administrators, which led to lack of community and also a lack of awareness around academic progress. **Root Cause:** 1) No system or technology was in place for teachers to reach out to families ; the existing technology (Remind) was hard to navigate 2) Little expectations or guidance were provided to teachers around what communication needed to be

Problem Statement 2 (Prioritized): We saw a dip in engagement during the winter events, with families only attending graduation and Trunk or Treat. **Root Cause:** 1) Lack of social media presence for engaging families 2) Hard to navigate communication platform (Remind) 3) Insufficient advertising to students

Priority Problem Statements

Problem Statement 1: Less than 50% of our sixth and seventh grade cohorts made 1 year of growth on TELPAS.

Root Cause 1: 1) Speaking was the lowest performing category across all grade levels, which indicates a need for more practice and evaluation embedded in the curricula. 2) We need to strengthen our ELL supports.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Only 39% of our students in grades 6-8 were at Meets Grade Level Standard or Above on the STAAR.

Root Cause 2: 1) We did not sufficiently address conceptual gaps in math understanding; 2) We need more robust math intervention; 3) We did not have a strong understanding of math gaps or track performance until second semester.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Almost all of our ninth grade teachers left to pursue other opportunities.

Root Cause 3: 1) Lack of vision for high school culture and discipline 2) New teacher onboarding was not sufficient (all but one teacher was new to the school)

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Overall, our teacher retention is low

Root Cause 4: 1) Our hiring process did not identify staff who wanted the experience of founding a school 2) Lack of monitoring staff culture more closely throughout the year and offering opportunities for feedback and staff voice.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: We saw a dip in engagement during the winter events, with families only attending graduation and Trunk or Treat.

Root Cause 5: 1) Lack of social media presence for engaging families 2) Hard to navigate communication platform (Remind) 3) Insufficient advertising to students

Problem Statement 5 Areas: Perceptions

Problem Statement 6: Our families did not have access to staff except for administrators, which led to lack of community and also a lack of awareness around academic progress.

Root Cause 6: 1) No system or technology was in place for teachers to reach out to families ; the existing technology (Remind) was hard to navigate 2) Little expectations or guidance were provided to teachers around what communication needed to be

Problem Statement 6 Areas: Perceptions

Problem Statement 7: Our New Student Persistence was 57.38%.

Root Cause 7: 1) Parents did not receive frequent or systematic communication about academic progress of their students. 2) Our consequence system lacked uniformity on the teacher level.

Problem Statement 7 Areas: Demographics

Problem Statement 8: Our Average Daily Attendance fell short of our district goal of 97%; we ended the year with 90.70% Average Daily Attendance.

Root Cause 8: Lack of consistent tracking to identify large number of absences and lack of meetings with families to inform them of attendance policies and impact on academic development. Lack of differentiation between COVID absences and general absences.

Problem Statement 8 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data

Student Data: Behavior and Other Indicators

- Attendance data
- Student surveys and/or other feedback
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Communications data
- Budgets/entitlements and expenditures data

Goals

Goal 1: Increase staff retention

Performance Objective 1: Ensure all staff participate in the staff development cycle to increase feelings of being coached, personal and professional growth, and being able to give feedback.

Evaluation Data Sources: Percentage of staff members who have completed each aspect of staff development cycle.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Communication on campus level is sent 3 weeks in advance of each cycle's start date. **Strategy's Expected Result/Impact:** Completion and investment in staff development. **Staff Responsible for Monitoring:** Admin Assistant, Principal, Talent Partner, API's **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2				

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Train and support all managers to ensure completion effectively and with fidelity, including scheduling time into pre-existing check-in's for high leverage conversations around the cycle. **Strategy's Expected Result/Impact:** Effective implementation of each Staff Development cycle task. **Staff Responsible for Monitoring:** Admin Assistant, Principal, Talent Partner **Problem Statements:** School Processes & Programs 1, 2				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 1: Almost all of our ninth grade teachers left to pursue other opportunities. **Root Cause**: 1) Lack of vision for high school culture and discipline 2) New teacher onboarding was not sufficient (all but one teacher was new to the school)
Problem Statement 2: Overall, our teacher retention is low **Root Cause**: 1) Our hiring process did not identify staff who wanted the experience of founding a school 2) Lack of monitoring staff culture more closely throughout the year and offering opportunities for feedback and staff voice.

Goal 1: Increase staff retention

Performance Objective 2: Achieve 75% or higher average on Great Places to Work Survey.

Evaluation Data Sources: Final Great Places to Work Survey Results

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Comprehensive communication and tracking plans to ensure high completion rate. **Strategy's Expected Result/Impact:** Ensure high completion rate that leads to broader staff input. **Staff Responsible for Monitoring:** Admin assistant, principal, managers **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2	0%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Use monthly pulse points from district to analyze data with campus lead team and present findings to staff in whole or small group setting to provide more detailed ideas around what changes would make our campus staff feel supported. **Strategy's Expected Result/Impact:** Improve employee engagement and satisfaction **Staff Responsible for Monitoring:** Principal, Admin Assistant, Talent Partner, Managers **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1, 2	0%			

0% No Progress 100% Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 1: Almost all of our ninth grade teachers left to pursue other opportunities. **Root Cause**: 1) Lack of vision for high school culture and discipline 2) New teacher onboarding was not sufficient (all but one teacher was new to the school)
Problem Statement 2: Overall, our teacher retention is low **Root Cause**: 1) Our hiring process did not identify staff who wanted the experience of founding a school 2) Lack of monitoring staff culture more closely throughout the year and offering opportunities for feedback and staff voice.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: Increase percentage of students who are TSI exempt on campus: 90% of all sophomores are TSI reading and writing exempt by end of year and 90% of freshmen and sophomores are TSI math exempt by EOY.

HB3 Goal

Evaluation Data Sources: TSI end of year testing data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: All tenth graders will take ACT Prep every other day to improve their overall test readiness. **Strategy's Expected Result/Impact:** -Increase percentage of students who are TSIA exempt in the 2025 cohort. -Average increase of at least 1 point on ACT each semester. **Staff Responsible for Monitoring:** College Counselor, ACT Prep Teacher, Testing Coordinator, Principal **TEA Priorities:** Build a foundation of reading and math, Connect high school to career and college	25%	25%		

Strategy 2 Details	Reviews			
	Formative			Summative

	Oct	Jan	Mar	June
Strategy 1: Increase data tracking of Special Education students' performance through developing case managers' knowledge and skill of state goals and school systems of data tracking and investment. **Strategy's Expected Result/Impact:** Increased family, student, and staff awareness of our Special Education students' academic progress in math.	10%	15%		

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 3: 50% of 7th grade students taking TELPAS assessments will maintain or increase a proficiency level.

Evaluation Data Sources: Internal Exam Dashboard, Instructional Dashboard, Monthly Internal Data Analysis

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Targeted instruction with strategic seating. **Strategy's Expected Result/Impact:** Increase staff knowledge of students who qualify as EL. **Staff Responsible for Monitoring:** Classroom Teachers, Assistant Principal of Instruction, Campus Principal, National and Regional EL Coordinators/Coaches **Problem Statements:** Student Learning 2	20%	50%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Coach and develop all leaders and teachers in implementing learning opportunities for all emergent bilingual students focused on listening, speaking, reading, and writing. **Strategy's Expected Result/Impact:** Increase emergent bilingual students' language attainment to increase proficiency. **Staff Responsible for Monitoring:** Classroom Teachers, Assistant Principal of Instruction, Campus Principal, National and Regional EL Coordinators/Coaches **Problem Statements:** Student Learning 2	15%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 3 Problem Statements:

Student Learning
Problem Statement 2: Less than 50% of our sixth and seventh grade cohorts made 1 year of growth on TELPAS. **Root Cause**: 1) Speaking was the lowest performing category across all grade levels, which indicates a need for more practice and evaluation embedded in the curricula. 2) We need to strengthen our ELL supports.

Goal 4: Increase student daily attendance

Performance Objective 1: Reduce chronic absenteeism rate among student population from 37.01% (2021-2022 end of year average) to 10% or less by the end of 2022-2023 school year.

High Priority

Evaluation Data Sources: ADA Dashboard

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Build data visibility through regular use of the Chronic Absenteeism report on the ADA dashboard to facilitate conversations and interventions around learning loss. **Strategy's Expected Result/Impact:** School and community wide awareness of current chronic absenteeism risk. **Staff Responsible for Monitoring:** Assistant Principal of Operations, Principal, School Success Advisor, Social Worker, College Counselor **Problem Statements:** Demographics 1	0%			

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Leverage district approved ADA escalation matrix to ensure structured accountability for students missing multiple days of instruction. **Strategy's Expected Result/Impact:** Increased communication and engagement with families of frequently absent scholars to change trajectory early in the year. **Staff Responsible for Monitoring:** Assistant Principal of Operations, Principal, School Success Advisor, Social Worker, College Counselor **Problem Statements:** Demographics 1	15%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Our Average Daily Attendance fell short of our district goal of 97%; we ended the year with 90.70% Average Daily Attendance. **Root Cause**: Lack of consistent tracking to identify large number of absences and lack of meetings with families to inform them of attendance policies and impact on academic development. Lack of differentiation between COVID absences and general absences.

Goal 4: Increase student daily attendance

Performance Objective 2: Campus receives a score of proficient or higher on the campus safety scorecard for the 2022-2023 school year.

Evaluation Data Sources: Campus Safety Score Card

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Campus implements actions and recommendations identified in audit finding reports in quarters 2 and 4. **Strategy's Expected Result/Impact:** Improve overall safety and security readiness; ensure families feel safe sending students to school daily. **Staff Responsible for Monitoring:** Assistant Principal of Operations, Facilities Manager, Principals **Problem Statements:** Demographics 1 - School Processes & Programs 2	0%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Our Average Daily Attendance fell short of our district goal of 97%; we ended the year with 90.70% Average Daily Attendance. **Root Cause**: Lack of consistent tracking to identify large number of absences and lack of meetings with families to inform them of attendance policies and impact on academic development. Lack of differentiation between COVID absences and general absences.
School Processes & Programs
Problem Statement 2: Overall, our teacher retention is low **Root Cause**: 1) Our hiring process did not identify staff who wanted the experience of founding a school 2) Lack of monitoring staff culture more closely throughout the year and offering opportunities for feedback and staff voice.

Goal 5: Increase student persistence

Performance Objective 1: Increase new student persistence to 80% across all grade levels and increase overall student persistence to 90% by 11th day of 23-24 School Year.

Evaluation Data Sources: Student Persistence Dashboard (sourced through Powerschool)

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Increase family communication between teachers and families around academic performance through Deanslist platform and bi-weekly progress reports. **Strategy's Expected Result/Impact:** Increased connection to campus and family understanding of student progress and daily campus life. **Staff Responsible for Monitoring:** Student Success Advisor, College Counselor, Principal, Grade Team Leaders, Assistant Principals of Instruction **Problem Statements:** Demographics 2 - Perceptions 1, 2				

Strategy 2 Details	Reviews

Reflections

Areas of Strength	Areas of Need
1 - Students did well problem solving by breaking down the questions and being sure to use what they know to answer questions.	1 - In science courses, students struggled with foundational math skills to solve the mathematics problems.
2 - Students completed labs where they were able to apply their learning to the lab.	2 - In science, we need more emphasis on vocabulary and teaching students science words and concepts that occur throughout an entire unit of study.
3 - Students received material in different ways. Students worked in small groups and pairs. They did research projects and presentations to help apply their learning.	3 - Working on writing in science. As students move through high school and college, they will need to be able to explain and justify their scientific knowledge. Focusing more on writing in science will be these foundational skills.

Reflections

Areas of Strength	Areas of Need
1 - Student achievement. Students in 7G and 8G performed well this year on their end of semester assessments; this teacher taught the course for two years, so retenention has helped.	1 - Late start to data tracking. Once systems were in place, the tracking was effective. We would like to start these earlier in the year to ensure we can follow student progress throughout the entire year.
2 - Data Tracking - Once systems and expectations were set, data tracking became a strength on our campus. Humanities teachers were able to use the data to inform their instrucitonal choices specifically regarding individual students and their goals.	2--Skills around contextualization within timeframes. Our students need to understand how to contextualize different events in history in accordance with timelines.
3 - When high annotation expectations were set, teachers helped students meet these expectations by holding them accountable and expecting best efforts from students.	3 - Study and memorization skills--our students need to learn to memorize facts about history.

Reflections	
Areas of Strength	**Areas of Need**
1 100% of our SPED Certified teachers are planning on returning next year; one transferred to an IDEA Academy.	1 Almost all of our ninth grade teachers left, which indicates a need to look at our high school systems and culture.
2 All of our instructional lead team stayed in roles at IDEA Public Schools with one leaving to become a prinicpal and another taking a teaching role, which indicates a strong lead team culture and belief in the work our school does.	2 Overall, our teacher retention is low, indicating a need to closely monitor staff culture throughout the year and to review hiring practices to ensure that we are hiring for fit.
3 Two of our three teachers who had the highest achievement are returning next year.	3 We need to invest our hourly staff in our team and advocate for their pay in order to retain them.

Reflections	
Areas of Strength	**Areas of Need**
1 Our eighth grade graduation ceremony was so well attended that we were at capacity in our gym, which indicates strong communication with families and investment in our community from the class of 2026.	1We need to strengthen the frequecy with which we share on social media, to allow for a wider variety of family and community engagement.Our daytime events were not well attended (Coffee and Conversations, etc)
2 Our weekly newsletter is sent with fidelity and contains important information about our school events, updates, and expectations.	2 We need to offer parents access to the curricula through parent-facing content nights. We could also offer parent information nights on parenting strategies and helping students grow emotionally.
3 Despite the challenges of the pandemic, we still had community events monthly.	3 We need to increase teacher-parent contact by dedicating specific times during Staff Meetings for family contact and through updating our technology and resources for teachers to reach out.

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

IDEA PHARR ACADEMY is a PreK-5th grade school campus in the Rio Grande Valley that serves a high number of English Language learners and Economic Disadvantage students

See PDF addedndum for more information

Demographics Strengths

"See PDF in Addendum for more information"

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Lack of student attendance for 22-23 school year. **Root Cause:** Lack of parental investment due to covid guidelines, teachers lacked training on building a strong relationship with students.

Problem Statement 2 (Prioritized): Lack of knowledge and capacity in identifying students with special needs. **Root Cause:** Campus lacked a clear vision, and failed to align PD scope and sequence for teacher development in this area. Teachers lacked knowledge on referring students that struggled academically.

Student Learning

Student Learning Summary

"See PDF in addendum for more information"

Student Learning Strengths

"See PDF in Addedndum for more information"

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Teachers lacked the capacity to increase rigor in the classroom to ensure students received plenty of at bats. **Root Cause:** During planning stage teachers did not differentiate type of questioning in content to push higher order thinking skills. Leaders lacked clear plan on how to train teachers in the expectations of differentiation.

Problem Statement 2 (Prioritized): Teachers struggled to internalize lessons and ensure they have unpacked the criteria for success based on standards. **Root Cause:** Teachers struggled to keep fidelity to the campus internalization process. Leaders lacked the foundation of a clear system for lesson internalization and submission with a clear focus on feedback turnaround. (follow through)

Problem Statement 3 (Prioritized): The percent of students on grade level between the transition of 2nd to 3rd grade was below 50% **Root Cause:** Lower grade ELA instruction was effected during COVID online years, where students struggled to master key reading skills.

School Processes & Programs

School Processes & Programs Summary

"See PDF in Addendum for more information"

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Many of our teachers are not bilingual certified, and or/ working on teacher certification. **Root Cause:** Not a very large pool of candidates with required certifications.

Problem Statement 2 (Prioritized): Lack of teacher investment led to an 85% retention rate, a double digit decrease from previous year. **Root Cause:** Teachers struggled with investment in our district/campus mission/vision.

Perceptions

Perceptions Summary

"See PDF in Addendum for more information"

Perceptions Strengths

"See PDF in Addendum for more information"

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lack of parent investment in parent events. **Root Cause:** Due to COVID regulations campus shifted towards having majority of our campus parent events virtually.

Problem Statement 2 (Prioritized): Lack of operating systems to track and ensure goal of 97.5% ADA for 21-22 school year. **Root Cause:** Leaders failed to create a system to inform and meet with priority students that failed to be present at school.

Priority Problem Statements

Problem Statement 1: Lack of student attendance for 22-23 school year.

Root Cause 1: Lack of parental investment due to covid guidelines, teachers lacked training on building a strong relationship with students.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Lack of knowledge and capacity in identifying students with special needs.

Root Cause 2: Campus lacked a clear vision, and failed to align PD scope and sequence for teacher development in this area. Teachers lacked knowledge on referring students that struggled academically.

Problem Statement 2 Areas: Demographics

Problem Statement 3: Teachers lacked the capacity to increase rigor in the classroom to ensure students received plenty of at bats.

Root Cause 3: During planning stage teachers did not differentiate type of questioning in content to push higher order thinking skills. Leaders lacked clear plan on how to train teachers in the expectations of differentiation.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Teachers struggled to internalize lessons and ensure they have unpacked the criteria for success based on standards.

Root Cause 4: Teachers struggled to keep fidelity to the campus internalization process. Leaders lacked the foundation of a clear system for lesson internalization and submission with a clear focus on feedback turnaround. (follow through)

Problem Statement 4 Areas: Student Learning

Problem Statement 5: The percent of students on grade level between the transition of 2nd to 3rd grade was below 50%

Root Cause 5: Lower grade ELA instruction was effected during COVID online years, where students struggled to master key reading skills.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: Many of our teachers are not bilingual certified, and or/ working on teacher certification.

Root Cause 6: Not a very large pool of candidates with required certifications.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Lack of teacher investment led to an 85% retention rate, a double digit decrease from previous year.

Root Cause 7: Teachers struggled with investment in our district/campus mission/vision.

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: Lack of parent investment in parent events.

Root Cause 8: Due to COVID regulations campus shifted towards having majority of our campus parent events virtually.

- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Budgets/entitlements and expenditures data

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% of staff will persist into the 23-24 school year.

High Priority

Evaluation Data Sources: We will evaluate based on EOY PTG staff retention goal rubric.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Differentiated PD based on TCP levels and content **Strategy's Expected Result/Impact:** Increase staff satisfaction by targeting their specific areas of opportunity by having a differentiated plan that considers their strengths and maximizes time. **Staff Responsible for Monitoring:** Sonia Aguilar, Brianda Martinez, Narcedalia Briseno, Gerardo Garza, Annia Nuno, Brenda Garcia				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of seniors will matriculate into college or join the armed forces

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Senior Parent Meetings **Strategy's Expected Result/Impact:** 100% of parent meetings for seniors happen in each semester, to ensure every student has an application for college. **Staff Responsible for Monitoring:** College Counselors, SSA's, Lead Team	25%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: IDEA PHARR ACADEMY will increase 3rd Grade Reading STAAR and 3rd Grade Math.

High Priority

HB3 Goal

Evaluation Data Sources: STAAR 22-23 data, and TEA accountability report.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: IDEA Pharr will continue to make data drive decisions by unpacking teks, prioritizing first instruction execution, and aggressive monitoring for student understanding in each class. **Strategy's Expected Result/Impact:** Increase teacher capacity in delivering teks based instruction through increased knowledge and awareness of potential misconceptions. Teachers will be able to further differentiate their reteach practices based on data collected in aggressive monitor laps. **Staff Responsible for Monitoring:** Sonia Aguilar, Brianda Martinez, Gerardo Garza, Brenda Garcia, Annia Nuno **Funding Sources:** ILearning HotSpot Facilitator - Federal Grant - $36,289.44	20%			

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 2: IDEA PHARR ACADEMY 100% Sped students will achieve at least an approaches level in all STAAR assessments by EOY 22-23.

High Priority

Evaluation Data Sources: STAAR 22-23 data, TEA accountability report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: IDEA PHARR will ensure that students in special education receive the appropriate accommodations based on IEP's, and differentiation in all content classes to ensure they reach a minimum of approaches level in STAAR. **Strategy's Expected Result/Impact:** Increase the student achievement in all STAAR level exams for all students in special education by receiving a collaborative teaching that is teks based by both the Gen Ed teacher and Special Ed teacher. **Staff Responsible for Monitoring:** Lead Team, General Education Teachers, and Sped teacher **Funding Sources:** Interventionist - Federal Grant - $61,300	30%			

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 1: IDEA Pharr will achieve 97% ADA for the 22-23

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Leaders will own a grade level to ensure teacher accountability in communication and support with next steps following the ADA escalation matrix. **Strategy's Expected Result/Impact:** Increase daily ADA in each grade level by targeting daily communication that increases a culture of attendance and accountability. **Staff Responsible for Monitoring:** Sonia Aguilar, Brianda Martinez, Narcedalia Briseno, Gerardo Garza, Annia Nuno	20%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 4: Increase student daily attendance

Performance Objective 2: IDEA Pharr will follow our campus healthy school initiative to coordinate various health components such as students fitness activity, fitness assessments and other health components.

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: IDEA Pharr will continue to promote the healthy snack initiative and wellness activities with the community. **Strategy's Expected Result/Impact:** Increase the physical activity in our scholars to lead a healthy active lifestyle. **Staff Responsible for Monitoring:** Annia Nuno	20%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 1: 90% of IDEA Pharr students will persist into the next grade level for the following school year.

High Priority

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: IDEA PHARR will follow a three prong approach that targets the highest risk student populations (PreK, 5th, and New Families) through a the implementation of a microplan that addresses the greatest needs of each of populations and their care givers. **Strategy's Expected Result/Impact:** We mitigate the loss of students in these 3 student populations further increasing overall and new student persistence. **Staff Responsible for Monitoring:** Sonia Aguilar, Brenda Garcia, Annia Nuno, Gerardo Garza, Brianda Martinez, Narcedalia Briseno **Funding Sources:** Pre-Kindergarten Teacher - Federal Grant - $55,500, Pre-Kindergarten Teacher - Federal Grant - $54,250, Co-teacher - Federal Grant - $29,304	55%	0%	0%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Increase student persistence

Performance Objective 2: IDEA Pharr will have a physical and emotional safe campus to achieve our overall mission of having all students attend college.

High Priority

HB3 Goal

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: We will continue to set a vision of promoting physical and emotional safe classrooms, by focusing on holding staff members accountable for implementing Move This World. **Strategy's Expected Result/Impact:** A decrease in student attendance concerns due to physical or emotional safety in school. **Staff Responsible for Monitoring:** All lead team members	30%			

 No Progress Accomplished Continue/Modify Discontinue

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

Reflections	
Areas of Strength	**Areas of Need**
1Hotspot Goal was met as a campus, and in the top quartile in RGV region.	3rd Math & 4th math, critical students need more support to meet approaches level, this can be implemented with an increase in fidelity to dress rehearsals, unit unpacking, and aggressive monitoring.
K-2nd Math grew double digits in all performance bands from 20-21 year.	2: New teacher in 5th grade will be new to unpacking STAAR teks, focus on tight loop coaching, and co planning for unpacking of modules with leader..

4/5th Math met growth targets needed. According to preliminary reports about 90% of students met growth.	3 Focus on potential master's students to ensure that students receive student at bats on level of a Master's level student.

% of CSI Passing STAAR	32%					
% of SPED Passing STAAR	100% in 5th					

Reflections	
Areas of Strength	**Areas of Need**
1. 5th grade met SAS of 60, as well as meets and masters goal.	1. Incoming 4th grade is a priority based on student culture and results. Planning ahead how to maximize instructional time in those classrooms and incorporation of growth goals/trackers.
2. AR facilitator and ELA teachers owned the RR and WM goal in order to expose students to more independent reading.	2. 3rd-4th grade ELA teachers will be new to a teacher role at IDEA. 5th grade teacher is transitioning from Kinder to 5th. As leader, Q1 ELA PD planning has been made to ensure the support for internalization, standard alignment, and continuos improvement is provided.

3. ELA collaboration through PLC and dress rehearsals was evident when sharing best practices. RTC and lesson rehearsals helped tremendously at the end of the year to show growth from Mock to STAAR socres.	3. One area that is not a need because they were done with fidelity was PLC. However, I want to transform them into practice clinics based on teacher gaps and classroom observations.

Pharr Academy

Comprehensive Needs Assessment ACADEMY

					5th

Reflections	
Areas of Strength	**Areas of Need**
TELPAs had a high % of participation overall during testing.	There was room for improvement in the areas of spea to the pandemic students came with gaps and limited time on writing and speaking skills.
Teachers were aware of students' composite score since BOY due to being part of the accountability board and BOY PD.	Implement Imagine Learning in all grade levels with fi students are receiving the extra support in their secon IL leader to assign individual work to target skills stud
Teachers would support our EL students by translating and accommodating to students as needed with the English language.	Teachers translated well into the second semester for st support. Moving forward, teachers should work with ou intermediate students to build the speaking and writing

Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 16, 2022

Demographics

Demographics Summary

IDEA College Preparatory Pharr is a 6th through 12th grade school that services students from the Pharr, San Juan, Alamo area. The school was opened in 2011 and is located in Pharr, Texas. ICP Pharr is an open-enrollment charter school. There are 15 AP classes offered from grades 8 through 12, with 100% of students participating in the AP program. The athletics program has many state titles in volleyball, track, and soccer. The arts program includes mariachi, folklorico, and numerous other activities for students to participate in, with state finalists in UIL Physics and Drama, amongst others. ICP Pharr has over 550 students identified as English Language Learners.

See PDF in Addendum for more information

Demographics Strengths

A factor of strength at ICP Pharr is our sense of community and belonging. With all students participating in AP for all, all students comign from our neighboring area, and our families having been at our school since its inception, our families have a strong sense of ownership over our school and therefore work hard to see its continued success.

See PDF in addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Last year we had many families not bringing students to school for various reasons, meaning our attendance was low throughout the year. **Root Cause:** Families did not feel that the school was a safe or healthy environment for their students due to poor communication from school.

Problem Statement 2 (Prioritized): There is a need to improve disciplinary actions against male students. **Root Cause:** There has not been enough training and leader vision specifically geared towards assisting male students deal with their emotional states.

Student Learning

Student Learning Summary

ICP Pharr received an A Rating from TEA, and also received 7 out of 7 distinctions this past year. We are performing as well or better than schools with similar demographics, and are able to ensure that our students are meeting their growth goals. Our middle school was able to achieve greater numbers of students achieving at least approaches in than in previous years on all tests, with our high school staying steadily high. Our students are consistenly on track to graduate, with over 95% hitting CCMR every year. Students perform as well or better on state exams than on benchmarks.

Our areas of need are mostly around where we can improve our meets and masters for our subjects, specifically in math. Our domain 3 scores in math were our lowest as a school.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Percentage of students reaching meets and masters in math was much lower than in other subjects. **Root Cause:** Math instruction is lacking targeted intervention for students needing more rigor, meaning more students need to engage in productive struggle with proper scaffolds.

Problem Statement 2 (Prioritized): Students passing with a 3 or higher in AP in STEM subjects is lower than students passing in Languages and Arts. **Root Cause:** Instruction in STEM subjects needs more scaffolding for students who lack foundational skills.

School Processes & Programs

School Processes & Programs Summary

Our campus uses core leader levers to ensure instructional leaders are able to accomplish their duties well, and with clear expectations for their duties and roles. Our professional development follows a scope and a sequence that assists teachers in the ways that they will need throughout the year, with addtional topics being added as needed. We observe our teachers frequently, and provide feedback on our observations in various ways to ensure that teachers are able to improve often.

See PDF in addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful.

See PDF in addendum for more information.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Leaders do not have all the skills necessary to deal with student mental health issues. **Root Cause:** Our school does not have a comprehensive training program for leaders on how to ensure students are able to identify coping strategies when needing support.

Problem Statement 2 (Prioritized): Lack of family engagement across whole school. **Root Cause:** Grades were prioritized due to historical data pre-pandemic, but we needed to engage with the whole school in order to improve trust and engagement.

Perceptions

Perceptions Summary

ICP Pharr has a 100% graduation rate, with 100% of our students making it to a college of their choice. Our students are able to are 99% Hispanic, with over 97% of them coming from low-income backgrounds. We had only 1 teacher leave us last year, with our turnover rate being less than 3%. We did have frequent teacher absences, however, due to COVID.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): We struggled to ensure that all students attended class as frequently as before the pandemic. **Root Cause:** Leaders and teachers did not have adequate training or accountability around attendance procedures and following escalation protocols when faced with high volume of absences.

Problem Statement 2 (Prioritized): Our teachers struggled to make meaningful connections with families throughout the year before crises began. **Root Cause:** Teachers were not trained by leaders around a central vision concerning family engagement and events.

Priority Problem Statements

Problem Statement 1: Percentage of students reaching meets and masters in math was much lower than in other subjects.

Root Cause 1: Math instruction is lacking targeted intervention for students needing more rigor, meaning more students need to engage in productive struggle with proper scaffolds.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Students passing with a 3 or higher in AP in STEM subjects is lower than students passing in Languages and Arts.

Root Cause 2: Instruction in STEM subjects needs more scaffolding for students who lack foundational skills.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Leaders do not have all the skills necessary to deal with student mental health issues.

Root Cause 3: Our school does not have a comprehensive training program for leaders on how to ensure students are able to identify coping strategies when needing support.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 4: Lack of family engagement across whole school.

Root Cause 4: Grades were prioritized due to historical data pre-pandemic, but we needed to engage with the whole school in order to improve trust and engagement.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: We struggled to ensure that all students attended class as frequently as before the pandemic.

Root Cause 5: Leaders and teachers did not have adequate training or accountability around attendance procedures and following escalation protocols when faced with high volume of absences.

Problem Statement 5 Areas: Perceptions

Problem Statement 6: Our teachers struggled to make meaningful connections with families throughout the year before crises began.

Root Cause 6: Teachers were not trained by leaders around a central vision concerning family engagement and events.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: Last year we had many families not bringing students to school for various reasons, meaning our attendance was low throughout the year.

Root Cause 7: Families did not feel that the school was a safe or healthy environment for their students due to poor communication from school.

Problem Statement 7 Areas: Demographics

Problem Statement 8: There is a need to improve disciplinary actions against male students.

Root Cause 8: There has not been enough training and leader vision specifically geared towards assisting male students deal with their emotional states.

Problem Statement 8 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant information
- SAT and/or ACT assessment data
- PSAT
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant achievements by race, ethnicity,

gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data
- Dual-credit and/or college prep course completion data
- STEM and/or STEAM data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Action research results

Goals

Goal 1: Increase staff retention

Performance Objective 1: 80% of staff will indicate that they believe that "IDEA Pharr is a great place to work" on the GPTW survey.

High Priority

Evaluation Data Sources: GPTW Survey

Demographics

Demographics Summary

IDEA Quest Academy is located in McAllen TX (with an Edinburg address). We currently serve Pre-Kinder through fifth grade and have a current student population of 778 (as of 8/29/22) and still enrolling at our campus. We are considered an open enrollment campus and we are a part charter. We currently have after school programs coordinated through our 21st Century Grant facilitiator that covers academic and extra curricular activities. We have service programs for Bilingual/ESL, 504, and Special Education.

See PDF in addendum for additional information.

Demographics Strengths

See PDF in addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): The need to increase student average daily attendance for the entire school year because we were below 97% last school year **Root Cause:** 1) Parent safety concerns when it came to students who presented symptoms. 2)Lack of school communication on attendance expectations/policies after virtual learning 3) lack of consistent ADA celebrations

Problem Statement 2 (Prioritized): The need to increase overall student persistence since over the past two school years we have been below 90%. **Root Cause:** 1)Lack of communication among parents and school through onboarding process. 2)Student expectations are high and cause families to retract their commitment, 3)Families are interested in Athletics for thier children other than those we provide.

Problem Statement 3 (Prioritized): The need to increase student enrollment becuase we did not have 100% projected enrollemnt this past school year **Root Cause:** 1)Lack of promoting academic excellence during recruitment efforts. 2)Parents wanting door to door transportation pick up and drop off to and from their house.

Student Learning

Student Learning Summary

This year we achieved an 'A' Rating based on TEA rubric. Also, six out of six distinctions were met this past academic year. In grades 3-5 and overall SAS of 60 was achieved for Reading, Math and Science STAAR. Our Over 90% of PK-2nd grade students end the year on or above grade level in reading and math. TELPAS measures were met this past year with a 56% from our target of 36% (surpassing our taget by 20%). Science and social studies across all grades achieved an SAS of 50 or higher in grades PK-5th.

See PDF in Addendum for Aditional information

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The need for academic vocabulary alignment across grade levels because students scored lower on questions that contained content vocabulary **Root Cause:** 1)Vertical alignment meetings focused on strategies for problem solving and lesson rehearsals but not specifically on academic vocabulary 2) Students struggle to comprehend questions with academic vocabulary

Problem Statement 2 (Prioritized): The need to increase writing across all content areas because state testing format is changing **Root Cause:** 1)Mindset of this only being on Writing teacher portfolio 2) format of test did not call for open ended responses 3) More time to have students write out responses vs. selectin a multiple choice.

School Processes & Programs

School Processes & Programs Summary

At my campus consistent coaching for leaders is provided through an established rubric (SLL). New leaders are provided with an additional coach and also attend a training path that sets them up for success. Professional development is provided to staff based on trends identified throughout the school. Teachers are observed and coached through a normed rubric (GET). In addition to the set curriculum that is used we also provide academic support through HB4545 for Accelerated learning and also computer software that supports content achievement.

See PDF in Addendum for additional information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years

- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

See addendum for more information

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): The need to increase comprehension skills in 3rd grade students. **Root Cause:** 1)Lack of alignment in 2nd grade curriculum with question format to 3rd grade state assessment. 2) Lack of academic vocabulary to build comprehension 3) lack of content meeting towards vertical alignment for 2nd and 3rd grade teacher

Problem Statement 2 (Prioritized): The need to retain Co-Teachers due to large turn over last year **Root Cause:** 1) Lack of team building 2) Lack of strategic questions during interview. to seek committment despite the compensation

Problem Statement 3 (Prioritized): The need to establish a work life balance among staff because last year Great Place to Work survey indicated 73% people are not encourage their work life balance. **Root Cause:** 1)Lack of follow up to ensure teachers were not staying late and or taking work home 2)tempature checks not consistent with staff. 3)Lack of not removing but rather adding items to teacher load

Perceptions

Perceptions Summary

Conflict is reduced by ensuring utilizing different strategies/programs that promte well rounded citizens: Project R.E.S.S.P.E.C.T, Citizenship skills, Core Values, Move this world, and restoritive justice. Teacher Turn over is low compared to Co-Teacher turn over. Participation rates for events are measured through Sign in sheets.

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): The need for an increase in family attendance for academic events **Root Cause:** 1) Parents have heard the information from previous grade level 2) If students are not failing, they feel this information does not pertain to them 3) Meeting are not made a requirement for parents 4) Ample time of notice for scheduled events

Problem Statement 2 (Prioritized): The need for parents and community to see and undersatand that we are not primarily focused on just academis but also building well-rounded citizens **Root Cause:** 1) Lack of communication to parents on building character programs 2) Lack of social worker and school counselor last year 3) Lack of posting recognition towards these skills to community

Priority Problem Statements

Problem Statement 1: The need to increase student average daily attendance for the entire school year because we were below 97% last school year

Root Cause 1: 1) Parent safety concerns when it came to students who presented symptoms. 2)Lack of school communication on attendance expectations/policies after virtual learning 3) lack of consistent ADA celebrations

Problem Statement 1 Areas: Demographics

Problem Statement 2: The need to increase overall student persistence since over the past two school years we have been below 90%.

Root Cause 2: 1)Lack of communication among parents and school through onboarding process. 2)Student expectations are high and cause families to retract their commitment, 3)Families are interested in Athletics for thier children other than those we provide.

Problem Statement 2 Areas: Demographics

Problem Statement 3: The need to increase student enrollment becuase we did not have 100% projected enrollemnt this past school year

Root Cause 3: 1)Lack of promoting academic excellence during recruitment efforts. 2)Parents wanting door to door transportation pick up and drop off to and from their house.

Problem Statement 3 Areas: Demographics

Problem Statement 4: The need to increase writing across all content areas because state testing format is changing

Root Cause 4: 1)Mindset of this only being on Writing teacher portfolio 2) format of test did not call for open ended responses 3) More time to have students write out responses vs. selectin a multiple choice.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: The need for academic vocabulary alignment across grade levels because students scored lower on questions that contained content vocabulary

Root Cause 5: 1)Vertical alignment meetings focused on strategies for problem solving and lesson rehearsals but not specifically on academic vocabulary 2) Students struggle to comprehend questions with academic vocabulary

Problem Statement 5 Areas: Student Learning

Problem Statement 6: The need to retain Co-Teachers due to large turn over last year

Root Cause 6: 1) Lack of team building 2) Lack of strategic questions during interview. to seek committment despite the compensation

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: The need to establish a work life balance among staff because last year Great Place to Work survey indicated 73% people are not encourage their work life balance.

Root Cause 7: 1)Lack of follow up to ensure teachers were not staying late and or taking work home 2)tempature checks not consistent with staff. 3)Lack of not removing but rather adding items to teacher load

Problem Statement 7 Areas: School Processes & Programs

Problem Statement 8: The need to increase comprehension skills in 3rd grade students.

Root Cause 8: 1)Lack of alignment in 2nd grade curriculum with question format to 3rd grade state assessment. 2) Lack of academic vocabulary to build comprehension 3) lack of content meeting towards vertical alignment for 2nd and 3rd grade teacher

Problem Statement 8 Areas: School Processes & Programs

Problem Statement 9: The need for an increase in family attendance for academic events

Root Cause 9: 1) Parents have heard the information from previous grade level 2) If students are not failing, they feel this information does not pertain to them 3) Meeting are not made a requirement for parents 4) Ample time of notice for scheduled events

Problem Statement 9 Areas: Perceptions

Problem Statement 10: The need for parents and community to see and undersatand that we are not primarily focused on just academis but also building well-rounded citizens

Root Cause 10: 1) Lack of communication to parents on building character programs 2) Lack of social worker and school counselor last year 3) Lack of posting recognition towards these skills to community

Problem Statement 10 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Other PreK - 2nd grade assessment data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data

- Discipline records
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: Increase staff retention

Performance Objective 1: 85% of Staff will agree that IDEA Quest Academy is a Great Place to Work

High Priority

Evaluation Data Sources: GPTW Survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide Puposeful professional development for staff that is condusive to their need **Strategy's Expected Result/Impact:** Increase teachers responses to GPTW Survey **Staff Responsible for Monitoring:** Direct Managers **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 2, 3	100%	100%	100%	

Strategy 2 Details	Reviews

Reflections

Areas of Strength	Areas of Need
1 Students were provided with journal notes, anchor charts, key points, and vocablulary for lesson reference.	1. Students struggled with solving multi-step problems.
2 Manipulatives, models, and multiple strategies were used for understanding and solving basic multiplication/division/additon/subtraction.	2 All math classes need to use the same academic vocabulary.

3 Students are able to compose and decompose numbers by using number bonds.	3 Identifying shapes and listing their attributes.
4 Students are able to solve basic addition and subtraction equations (with no regrouping)	4. Determine the value of a collection of coins, up to one dollar
5 Students can compare and order numbers by using the place value chart.	5. Students struggled with division, using the long division strategy.

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Revised/Approved: September 16, 2022

Demographics

Demographics Summary

- IDEA Quest College Preparatory opened in 2006, located in Edinburg, Texas by the Mexican border. A total of 731 students. 96% are low economic- disadvantaged, 94.5% student population consists of 91% Hispanic, 4 % White, 3% Asian, and .3% black American. Within the past three years, enrollment numbers show an increase in at-risk students from 110 to 180 during 2021-2022. EL/LEP students are at an utmost high from 40 to 86 and Sped students 14 to 21.Staff diversity 93% Hispanic, 5% White, 0% African American, 1% Asian, 1% American Indian with 21 students per teacher. 90% teachers, 6% co-teachers, 4% interventionists (support). 20% new teachers, 40% have 5 years of teaching, 40% have 1-2 years of teaching experience. Each grade level has a leader, and a mentor is assigned to each new teacher. There are 4 content leaders in science, math, Reading/Writing, and Social Studies, who meet once a month to vertically align skills. The principal and 3 other assistant principals are instructional managers and coach 56 teachers, co-teachers, and interventionists.

Demographics Strengths

See PDF in the addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Emergent bilinguals are currently underserved in and out of the classroom **Root Cause:** The curriculum is not aligned to English second language

Problem Statement 2: In middle school, students need to be educated on utilizing mental skills and provide lessons on bullying. **Root Cause:** Students do not know how to process emotions and distinguish bullying.

Problem Statement 3 (Prioritized): Teachers and coteachers lack professional development on how to support Special needs and emergent bilingual student needs **Root Cause:** We have a high rise of El students and the ratio is to high for teachers to identify resources, how to scaffold and at the same time teach rigor.

Student Learning

Student Learning Summary

- Total Graduates- 87 CCMR 83= 95% met
- English Language Proficiency status Target Met yes; goal was 35 met 44%
- Special education data math and ELA/Reading both targets met ELA by 10%(29%) and math by 1%, 24%

Student Learning Strengths

see pdf in addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Special Ed students are not reading at grade level or mastering math skills needed for their grade. Sped Teachers are not effectively helping students during push in for content mastery. **Root Cause:** Highly qualified and effectively sped teachers who can support and model what and how to help students in the classroom.

Problem Statement 2 (Prioritized): 6-8th grade students lack skills and foundations in math, therefore rigor is lacking. **Root Cause:** Lack of instructional time allotted for student practice

Problem Statement 3 (Prioritized): Support staff lack resources for pull outs and interventions **Root Cause:** lack of collaboration from sped teacher to teacher of record (content)

School Processes & Programs

School Processes & Programs Summary

Quest College Prep receives bi-weekly coaching from its principal. Instructional leaders are observed and feedback is given through teachboost and coaching follows. Roles and responsibilities are clear and shared during begging of the year and aligned to campus priorities and goals. At beginning of the year, professional development is created based on campus needs assessment. Actions taken to support powerful teaching are done through data analysis and by hosting after-school lesson rehearsals. Teachers utilize student-teacher exemplars and analyze exit tickets each period in order to adjust their instruction.

see pdf in addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Assignment of highly effective staff to support the highest need of students, special pops, and ELs **Root Cause:** Sped Teachers lack training from the district and/or not collaborating with school personnel

Problem Statement 2 (Prioritized): Developing teachers through effective coaching from managers, content dept chair and mentors. **Root Cause:** follow through with bite-size actions step, track and follow up. Role out role and responsibilities to all managers and mentors to ensure coaching is occurring monthly.

Perceptions

Perceptions Summary

Quest College Preparatory strongly believes that in order to invest and build strong stakeholders, a variety of channels of communication is imperative and key to academic success. Every week, parents receive information through remind and campus newsletters on ongoing events in and outside of the school. As a campus, we coordinate two-way feedback. Surveys are done monthly through on different components of campus life, valuing family input and feedback from parents and the community. We are fully committed to improving a strong academic and athletic program with clear channels of communication that allows our students to develop their individual interest in many organizations.

Quest College Preparatory faculty and staff are proud to be part of an amazing team and family. 50% of teachers and staff have been with Quest for over 7 years. Staff and teachers feel highly supported by their direct managers, mentos, grade-level chairs, and colleagues. As a campus, everyone comes together to ensure everyone feels safe and supported in everything we do.

Parent participation is low and a need for parent- teacher organization is highly needed. Parents are willing to engage and participate in various tasks but the campus lacks organization around family engagement.

Vision is there but lacks support and leadership participation.

See PDF in Addendum for more information

Perceptions Strengths

Quest College Preparatory develops teachers to be high-performing teachers in their content. 50% of Teachers are distinguished master teachers will high records of results in student achievement.

Direct managers and campus coaches have been with Quest for over 10 years and have a strong sense of pride. A team of 4 counselors follow up with our scholars and ensure every student is on track to graduate and matriculate to the university of their choice.

The social and emotional counselor provides lessons on bullying and supports teachers and students with skills needed that are conducive to a safe learning environment. The counselor provides mental support sessions and meets with new families for any support needed as they transition to a new campus.

See PDF in Addendum for more information

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Recruit highly effective Sped teachers in order to help in and outside of the classroom. **Root Cause:** New and veteran teachers need to be effectively onboarded and receive individualized professional development to break old habits or update new ways to teach and close academic gaps with more research-based tools. Sped teachers lack observations and on-the-spot feedback that will help students close any academic gaps. More frequent observations and coaching around best practices.l

Problem Statement 2: Parent involvement and family events are at their low. **Root Cause:** Due to limited restrictions due to safety school (covid and other) school events have not been organized in a way that promotes safety.

Problem Statement 3: During the last couple of years, staff and students' mental cases continue to increase each year. **Root Cause:** A lack of training for administrators and staff on how to cope with social and emotional stress and emotional intelligence so they can turn around and helps students with necessary skills.

Priority Problem Statements

Problem Statement 1: Emergent bilinguals are currently underserved in and out of the classroom

Root Cause 1: The curriculum is not aligned to English second language

Problem Statement 1 Areas: Demographics

Problem Statement 2: Special Ed students are not reading at grade level or mastering math skills needed for their grade. Sped Teachers are not effectively helping students during push in for content mastery.

Root Cause 2: Highly qualified and effectively sped teachers who can support and model what and how to help students in the classroom.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: 6-8th grade students lack skills and foundations in math, therefore rigor is lacking.

Root Cause 3: Lack of instructional time allotted for student practice

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Assignment of highly effective staff to support the highest need of students, special pops, and ELs

Root Cause 4: Sped Teachers lack training from the district and/or not collaborating with school personnel

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Recruit highly effective Sped teachers in order to help in and outside of the classroom.

Root Cause 5: New and veteran teachers need to be effectively onboarded and receive individualized professional development to break old habits or update new ways to teach and close academic gaps with more research-based tools. Sped teachers lack observations and on-the-spot feedback that will help students close any academic gaps. More frequent observations and coaching around best practices.l

Problem Statement 5 Areas: Perceptions

Problem Statement 6: Developing teachers through effective coaching from managers, content dept chair and mentors.

Root Cause 6: follow through with bite-size actions step, track and follow up. Role out role and responsibilities to all managers and mentors to ensure coaching is occurring monthly.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: Teachers and coteachers lack professional development on how to support Special needs and emergent bilingual student needs

Root Cause 7: We have a high rise of El students and the ratio is to high for teachers to identify resources, how to scaffold and at the same time teach rigor.

Problem Statement 7 Areas: Demographics

Problem Statement 8: Support staff lack resources for pull outs and interventions

Root Cause 8: lack of collaboration from sped teacher to teacher of record (content)

Problem Statement 8 Areas: Student Learning

Goals

Goal 1: Increase staff retention

Performance Objective 1: Teachers feel Quest College Preparatory is a safe, great place to work and will be retained.

High Priority

Evaluation Data Sources: GPTW Survey and results, Strength Interviews, 2x2 and talent reviews

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Great place survey feedback will be utilized to identify areas of strength and areas we need to improve. **Strategy's Expected Result/Impact:** Increase teacher satisfaction with the final GPTW survey **Staff Responsible for Monitoring:** Lead team members, administrators, and Grade Level Leaders **TEA Priorities:** Recruit, support, retain teachers and principals **- Targeted Support Strategy**				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Increase staff retention

Performance Objective 2: Goal to improve employee's overall well-being related to physical, emotional, and financial health. Teachers need training on how to cope with students and their own social and emotional needs.

High Priority

Evaluation Data Sources: ongoing school survey from professional development training

Goal 1: Increase staff retention

Performance Objective 3: 100% of Quest College Prep staff will complete IDEA's required Annual All Staff Training (AAST), including preventing sexual misconduct (staff to
students and staff to staff), mandatory reporting of child abuse, McKinney-Vento identifying homeless students, internet security, campus emergency operations plan, overtime management, bloodborne pathogens & communicable diseases.

High Priority

Evaluation Data Sources: Roadmap surveys, exit tickets from professional development, collect low inf data from observations during safety drills.

Goal 2: All IDEA students matriculate to college

Performance Objective 1: 100% of students will be on track to graduate.

High Priority

HB3 Goal

Evaluation Data Sources: OTG Report every 3 weeks, ADA report, student of concern report, TSI and ACT report. AT risk student tracker.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: DCC run report for 6-12 grade students who have an average of 69 or below. Report is presented to grade level teams, where they identify interventions for students and get them back on track. **Strategy's Expected Result/Impact:** Teachers identify students and startegies and implement a strategy meeting presented to parents and students to get them back on track to graduate **Staff Responsible for Monitoring:** all teachers of record, API, Counslors and principal **Title I:** 2.5, 2.6 - **TEA Priorities:** Connect high school to career and college **Funding Sources:** College Counselors - Federal Grant - $69,973.72	60%			

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 2: 100% of students be CCMR ready by meeting TSI/ACT.

High Priority

HB3 Goal

Evaluation Data Sources: AT benchmarks, AP mocks, TSI tutorial and in-class trackers for each assessment.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: 9-12 grade students receive ACT tutorials through RTTC class and receive tutorials as TCI preparation. **Strategy's Expected Result/Impact:** Students to master and track act benchamrks and attend specific tutporials based on needs. **Staff Responsible for Monitoring:** DCC, CC, RTTC teachers **Title I:** 2.5 - **TEA Priorities:** Connect high school to career and college **Problem Statements:** Student Learning 1 - School Processes & Programs 1 **Funding Sources:** RTTC Teacher - Federal Grant - $56,000				

0% No Progress 100% Accomplished → Continue/Modify ✕ Discontinue

Performance Objective 2 Problem Statements:

Student Learning
Problem Statement 1: Special Ed students are not reading at grade level or mastering math skills needed for their grade. Sped Teachers are not effectively helping students during push in for content mastery. **Root Cause**: Highly qualified and effectively sped teachers who can support and model what and how to help students in the classroom.
School Processes & Programs
Problem Statement 1: Assignment of highly effective staff to support the highest need of students, special pops, and ELs **Root Cause**: Sped Teachers lack training from the district and/or not collaborating with school personnel

Goal 3: IDEA achieves an A rating

Performance Objective 1: Increase student achievement on meets and masters for 6-11 grade staar/ eoc exams.

High Priority

HB3 Goal

Evaluation Data Sources: Internal assessments, bi-weekly, summative, IXL programs, exit tickets

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Implement, monitor effective remedation durng catalyst, math, english seminar for 6-11 grade STAAR/EOC subjects to ensure students are on track to pass and be at grad elevel and beyond. **Strategy's Expected Result/Impact:** Students to attain meets and masters in all staar/.eoc exams in all core classes **Staff Responsible for Monitoring:** all teachers, api, and principal **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Perceptions 1 **Funding Sources:** RTTC teachers and college Counselors - Federal Grant - $195,973.72	60%			

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 1: Recruit highly effective Sped teachers in order to help in and outside of the classroom. **Root Cause**: New and veteran teachers need to be effectively onboarded and receive individualized professional development to break old habits or update new ways to teach and close academic gaps with more research-based tools. Sped teachers lack observations and on-the-spot feedback that will help students close any academic gaps. More frequent observations and coaching around best practices.l

Goal 3: IDEA achieves an A rating

Performance Objective 2: Close Gap in reading and math for 100% of special pop and emergent bilingual students.

High Priority

HB3 Goal

Evaluation Data Sources: otg report, Internal assessment, student work analysis on all assessments, csi class observations and student independent work.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Provide EB support during catalyst and seminars to increase english language profiency, reading comprehension and math skills **Strategy's Expected Result/Impact:** 6-10 grad etsudents be reading at grade level and beyond. Master math skillls based on grade level **Staff Responsible for Monitoring:** Teachers, sped teachers, co teachers, apis **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math **Problem Statements:** Demographics 1 - Student Learning 1, 2 - School Processes & Programs 1 **Funding Sources:** RTTC Teachers - Federal Grant - $56,000				

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Emergent bilinguals are currently underserved in and out of the classroom **Root Cause**: The curriculum is not aligned to English second language
Student Learning
Problem Statement 1: Special Ed students are not reading at grade level or mastering math skills needed for their grade. Sped Teachers are not effectively helping students during push in for content mastery. **Root Cause**: Highly qualified and effectively sped teachers who can support and model what and how to help students in the classroom.
Problem Statement 2: 6-8th grade students lack skills and foundations in math, therefore rigor is lacking. **Root Cause**: Lack of instructional time allotted for student practice
School Processes & Programs
Problem Statement 1: Assignment of highly effective staff to support the highest need of students, special pops, and ELs **Root Cause**: Sped Teachers lack training from the district and/or not collaborating with school personnel

Goal 3: IDEA achieves an A rating

Performance Objective 3: 100% of special needs students, RTI and emergency bilinguals close 2 year gap in reading and math through various interventions

High Priority

Evaluation Data Sources: CSI data, measure and track growth goal, renstar assessment begging of year, middle of year and end of year.

Goal 4: Increase student daily attendance

Performance Objective 1: 100% of students will attend school every day.

Evaluation Data Sources: Run daily reports, escalation matrix on ada tracker, home visits, grade level at risk students noted, failing report, Quarterly report

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: ADA calls every day and home visits to ensure students return back to shool. Utilize Transportationduring Middle of day when necessary **Strategy's Expected Result/Impact:** high attendance 6-1q2 grade and higher student achievement **Staff Responsible for Monitoring:** All staff				
No Progress Accomplished Continue/Modify Discontinue				

Goal 5: Increase student persistence

Performance Objective 1: 100% of 6-11 grade students will persist at Quest College Preparatory.

High Priority

Evaluation Data Sources: Student and family survey, new student check ins, Grade level mission list noted at risk for follow up.

Strategy 1 Details	Reviews

Reflection

Areas of Strength	Areas of Need
Students worked on the writing portion through tutorials and teachers pushed writing in classes which helped the overall scores in writing section. Students grew overall.	Students need to write out their responses before recording and play back what they have recorded before submitting. I believe we will now have the program for students to practice on this and that will allow for pratice. Students practicing writing in all classes will help the process.

Reflections

Areas of Strength	Areas of Need
6 Reading Areas of strength: Students excelled in the areas of poetry, figurative language, inferencing, and author's purpose. Students were given multiple opportinites to have hands-on interactions with the skills and I believe that is what lead to them having success in these areas. Requiring students to have mutliple approaches and activity types like escape rooms, word puzzels, murder mysteries, repetitivie verbal definitions sporadically, and encouraging them to create their own texts (like poetry) built their confidence with the materials. Lastly, students were required to analyze question types and it helped them realize the type of questions and answer accordingly. "□	6 Areas of weakness: Students struggled with vocabulary/dictionary skills, informational text, and plot. I believe that the reason for their struggle was because they were not properly introduced to the skills early on and they struggled to learn it in the second half of the year. To remedy this, I'd like to introduce plot during our catalyst class and focus on informational text components as well so they aren't so confused when they are required to take their Semester Exam. I'd also like to have the writing class practice and work on dictionary skills earlier in the year, possibly Quarter 2, so that by mid-year students will be confident and believe they are masters at it."□

7th Reading - Areas of strengths: Students were did well in author's purpose. I was able to target author's purpose as we read throughout the year, asking high order thinkig questions. Students also did well determining how the author supported the central idea. which again, connects back to the level of questiong during class. "□	7 Students struggled with characterization . Fiction is an area of weeknes since our curiculum focus more on history based anchor texts for most of the year. Next year I would like to spiral in characterization and plot during module 2 in order to solidify their understanding. "□
8th Reading - Areas of Strength Author's purpose and craft: listening, speaking, reading, writing, and thinking using multiple texts. The student uses critical inquiry to analyze the authors' choices and how they influence and communicate meaning within a variety of texts. analyze how the use of text structure contributes to the author's purpose; 8.5 D create mental images to deepen understanding; "□	8th Reading - Areas of Growth Comprehension of Informational Text/Culture and History. Students analyze, make inferences and draw conclusions about the author's purpose in cultural, historical, and contemporary contexts and provide evidence from the text to support their understanding. Students are expected to analyze works written on the same topic and compare how the authors achieved similar or different purposes. (10) Comprehension of Informational Text/Expository Text. Students analyze, make inferences and draw conclusions about expository text and provide evidence from text to support their understanding. Students are expected to: (A) summarize the main ideas, supporting details, and relationships among ideas in text succinctly in ways that maintain meaning and logical order; (B) distinguish factual claims from commonplace assertions and opinions and evaluate inferences from their logic in text; (C) make subtle inferences and draw complex conclusions about the ideas in text and their organizational patterns; and (D) synthesize and make logical connections between ideas within a text and across two or three texts representing similar or different genres and support those findings with textual evidence. Root of the problem: curriculum focuses on literary texts leaving space for informationnal only during catalyst. Despite it being the lowest reporting category, gearing catalyst towards informational texts alone, allowed this category to go up by 15% "" "□
9th Reading - Areas of strength E1.6/E1.7/E1.8 comprehend the author's purpose and meaning in increasingly complex texts and in multiple genres; analyze the relationships among literary elements and structures and how they contribute to the overall meaning. Students were able to build meaning and analyze text by scaffolding the rigor as the year progressed. E1.10(B) compose informational texts such as explanatory essays, reports, and personal essays using genre characteristics and craft. Students started from a base point learning the components of each part of the essay. They built that foundation as the year went by and were able to master each component of the essay to reach mastery.□	9th Reading - Areas of growth E1.8(F) analyze how the author's diction and syntax contribute to the mood, voice, and tone of a text (R) Students struggled wiht unerstanding the persuasive manner a character is using to convey mood and tone. Next steps is work on argumentative text more often. break it down to students. E1.8(G) explain the purpose of rhetorical devices such as understatement and overstatement and the effect of logical fallacies such as straw man and red herring arguments (S) Students confused were able to grasp irony and the different ironies, but red herring confused them. Next steps is to incorporate red herring using video clips and visualize that example for the.□

10th Reading - Areas of strength: The student will demonstrate an ability to compose an argumentative text with a clear, thesis; appropriate organizing structure; engaging idea development; and effective use of language and conventions. - Students have become very recpetive to feedback and as a result really grew in their writing. Another thing that I think truly helped was tutoring. Separating students by levels of writing and in turn separated them by what they needed to work on to achieve the next level of writing is what helped them grow. Another really important factor was feedback and writing conferences. The student will demonstrate an ability to revise and edit a variety of written texts. Students have become really good at revising and edit through the use of quill. Quill helped students progress by not only knowing the rules but also their purpose. The key thing is though that it was important for me to actually revise the do nows so that I could explain the reasoning to them becuase I had them all work on the same skills at the same time. Students will demonstrate an ability to make inferences and use evidence to support understanding. After demonstrating examples, students have become accustomed to using appropriate textual evidence to support their claims. A large part of this is due to having students highlight the claim and evidence in a text when reading springboard, having students use textual evidence to support their claims in open-ended responses, and also because when completing multiple choice practice, students had to use textual evidence from the text to give proof as to why their	10th Reading - Areas of growth The student recognizes and analyzes literary elements within and across increasingly complex traditional, contemporary, classical, and diverse literary texts. - This is a TEK that I noticed students struggling in the entire school year. While there was progress, students are only able to isolate themes, conflicts, characters, etc. within one text but have a difficult time finding the connection to across other texts and especially across other genres. I do think this can be addressed by practicing more since the beginning of the school year and especially by helping students find the textual evidence to connect the claims both texts are making. Analyze the use of literary devices such as irony, sarcasm, and motif to achieve specific purposes While students are able to identify literary devices, explaining their purpose within a text is difficult for them. They are aware of definitions and key words to finding specific literary devices within a text, but being able to explain the reason the author inlcluded it is what they can't seem to understand. Because this is a key part of AP English Lang, I do think this is a skill they will grow on just because of the amount of practice they'll have. Analyze isolated scenes and their contribution to the success of the plot as a whole Students have always been taught to read passages as a whole,
11th AP English - district curriculum is effective; use of textbook is helpful; anchor texts reinforce unit concepts and preparation for unit exams. extensive writing each quarter; minimum of 4 essays per quarter; thematic units per quarter with anchor texts; participation in bi-monthly Webinars is essential; NMSI support reinforces taught concepts and provides additional helpful resources; participation in AP Bootcamp□	11th AP English - establish better communication with parents on assignments. Ensure parents access Remind on a bi-monthly basis; better use of curriculum timeline to ensure systematic unfolding of the AP exam; Continuously emphasize rhetorical situation; Introduce Style as subheading of Rhetoric; ensure students master writing effective thesis statements to attain thesis point on the AP essays; establish a better routine use for computer applications: Quill, AP Classroom, Revision Assistant; NMSI modules□

12th AP English Literature - The new Bedford text is outstanding. Writing workshops have been extremely effective, as well. □	12th AP English Literature - While Bedford is an excellent platform, it is new and we are still in the process of familiarizing ourselves with how to utilize it to its fullest potential. In particular, we need to focus on lessons for the Spring Semester when we transition into full length novels. It is the novel units in Bedford that seem less developed. We need beginning and closing activities to augment close reading assignments for each class period. However, I do believe this will be addressed at bootcamp this summer. "□

Areas of Strength	**Areas of Need**
6.) -Can keep an Interactive Notebook updated - Adapt really well to change of intructions - Work effectively with partners and with groups - Hands on and note taking skills - Learn well with foldables and diagrams - Alot of the students are visual learners they need visuals in order to graps content, once content is grapsed they can work well on OERs - Top 3 Content Strengths: 6.7 B, 6.10A, 6.10B - Top 3 Content Weakness: 6.6E, 6.13B, 6.6A	6.) More time to review taken exams either student/teacher or student/student - Curriculum needs to be put in order, this year it kept jumping from one to topic to another and then returning to a previous topic - Writing Skills need to improve in order to answer labs and CERS in full well written sentences

7. 1) Exercised Activity before Content effectively with many actual and virtual labs and activities. 2) Implemented rigorous instruction including higher order thinking integrating math, reading and writing skills. 3) Used many acronyms, visuals, anchor charts and manipulatives for vocabulary acquisition 4) 90/60/30 was achieved in semester exam and expected for final exam.	7. More time per unit to allow for more labs and deeper understandings. 2) Remove high school concepts from curriculum such as osmosis 3) More time to practice IV, DV and constants in unit 0. 4)More spiraling of IV, DV and constants in subsequent units. 5)More labs for measuring skills 6) more ACT preparation skills at grade level 7)More teacher resources that match our curriculum 8)Truancy officer to decrease and hold parents and students accountable for excessive tardies and absences.
8 • High expectations, and delivered rigorous instruction everyday bell to bell, with no down time. • Interactive notebook, with student trackers for all assessments. Class tracker posted based on mastery level, color coded by homeroom and containing all assessment data including identification of special pops. Free response questions on unit and mid unit exams.	8 • Lab skills such as measuring speed, mass, force and density using lab equipment. • Finding volume of regular & irregular shaped objects. - Finding independent variable, dependent variable, constant • Modification & Accommodations for 504/Sped, adequate classroom support & intervention.
9 -High expectations; rigorous instruction; interactive notebooks; CER and FRQ in unit exams; Individual and wall	9 -General lab skills (due to pandemic shutdown/virtual); Inquiry lab research/project; AP level
10 - -Strong lesson delivery and high expectations for students in note taking and exit tickets.	10 -FRQ practice with an exemplar
11 - High Expections, Algebraic manipulations	11 - Graph Interpretations, Data collection strategies
12- Strong classroom procedures & policies - Multiple opportunities for students daily to process and apply material- On demand student support through AP Classroom-Joyful and welcoming classroom environment. - Instructional shifts driven by data - student ownership of goal setting and goal tracking- Revisiting and revising goals after each major assessment - Public classroom goal tracker to identify trends. - Data analysis post assessment to identify individual strengths & gaps - Frequent practice with FRQ's - timed activities to increase test endurance - Meaningful lab activities for every unit of study	12-*Areas of growth are based on when students initially enroll in the course* Gaps in chemistry knowledge & skills - Gaps in academic writing - Gaps in scholarly reading endurance- Gaps in time management and organization - Lack of confidence - Gaps in creating graphs & interpreting data from tables and graphs

Reflections

Areas of Strength	Areas of Need
6 The students did well with keeping their notes in their interactive notebook. They were able to reference their notebook while doing reviews. Students did well with opened ended responses and extra practice with map skills. I	6 Students will needed extra practice with map skills. Another growth would be taking grades for strategies so students will show their strategies on their exams.
7An area of growth for my students are questions posed as EXCEPT/NOT. We have practiced these all year, but they still struggle with understanding what they should do to answer the questions.	FRQ students need to make connections with key people and how those events had impact on ooutcomes.
8 : Students were able to track with mastery machine individually and as a whole, which helped them see their growth early on. Graphic organizers and anchor charts were helpful in retaining information. Students strongest unit was Early republic, first 5 presidents.	Students struggled with Academic language when it came to the Government Unit as well as interpreting the language included in the primary sources involved in the Unit. (Ex. Declaration of Ind, Constitution & the 3 Articles as well as the Bill of Rights)
9 great collaboration amongst all grade levels. I enjoyed being part of a team full of strong individuals. A lot of great takeaways when we met such as writing conferences and/or reteaching plans. materials ordered and delivered on time helped.	FRQ writing.

10 Students have strong content knowledge and can articulate information in their SAQ responses. Students can summarize information from college level textbooks. 60% of students are able to obtain mastery on multiple choice questions. Students are able to create thesis statements and develop historical context	Students need to work on LEQ and DBQ writing. Students need to work on time managment for exam taking.
11 Students did will with content knowledge and multiple choice. Our vertical alignment helped create writing and conference strategies	District assessments didn't always align with the scope and sequence of the CED
12 Students really by into the government class, and tend to do quite well with it, and I have the resources needed to make sure they understand the material. In economics they tend to understand the concept but struggle with the application of the concept.	I tried out a different scope and sequence this year flipping back and forth between subjects by unit, hoping it would boost government scores by not having a big gap at the end of the year where it isn't discussed, however based on the mock scores I am not sure the boost to the Gov scores will be worth the hit to the Econ scores, as students really struggeled this year with understanding the concepts and graphs enough to apply them.

Comprehensive Needs Assessment

Revised/Approved: September 16, 2022

Needs Assessment Overview

Needs Assessment Overview Summary

Needs assessment overview on September 16, 2022.

Demographics

Demographics Summary

IDEA Rio Grande City Academy is a Pre-K-5th grade campus established in 2017 in Rio Grande City, Texas. Serving 800 students from a low economic population in Rio Grande City, Roma and La Grulla, Texas. Our staff currently consists of 56 staff members ranging in expierence from 1-10 years in the classroom. We offer a varitey of programs at our campus that focus on student learning and student development, such as Special education, RISE, Critical student intervention and electives to name a few. See PDF in addendum for more information.

Demographics Strengths

See PDF in addendum for more information

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Student persistence was at an all time low. Persistence was at at an 86% **Root Cause:** There has been a lack of commitment from parents after Welcome to IDEA. We need to continue to build opportunities for parents to establish relationships with the school from Welcome to IDEA to first day of school. Once school starts, we need to invest parents by opening our doors to them so they can build that investment.

Problem Statement 2 (Prioritized): ADA was not met. We consistently had students struggling to get to campus and were out alot due to being sick. ADA was at a 86%, **Root Cause:** Lack of focus on parent meetings and our escalation matrix has been revised to better meet the needs of our campus and parents in order to better support ADA. Teacher buy in with ADA phone calls.

Student Learning

Student Learning Summary

This academic school year, our students had large gaps post pandemic. We knew that our focus was going to be heavily on student growth due to our circumstances. We prioritized knowing the data, knowing our students and we made strategic moves and observations based on our data. Data tracking was at the forefront of our focus and that became the way that we started seeing changes and growth. On Domain 1 we were rated a 75/100 on student achievement. Domain 2 ended up at a 96/100 based on school progress and Domain 3 was a 84/100 for closing the gaps. Data shows us that our ELA outperformed Math, making Math our big focus this school year. We hit over 95% of our growth measures in both Reading and Math and will be focusing on our Non-cont'd enrolled students as this was a measure that we did not it. In our lower grades, our Pre-K-2nd grades ended the year on/ above level in Reading and Math and performed well on subjects such as Math, Science and Social Studies. Our focus this school year remains on student performance, student growth, meets and masters and most importantly, pushing the rigor in all classrooms.

Please see PDF in addendum for more infomation.

Student Learning Strengths

Please see PDF in addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Overall, our meets and masters were low across all contents, causing low Meets and Masters percentages. **Root Cause:** Teachers were doing the heavy lifting in almost all subjects due to being new to curriculum, grade, teaching..etc and this caused teachers to do the work and left students relying on teachers to do the hard work for them causing rigor overall to be affected.

Problem Statement 2 (Prioritized): Critical student intervention did not meet the needs of our most critical students. **Root Cause:** Students in CSI are not getting enough practice and tutorials.

Problem Statement 3 (Prioritized): Math overall and 5th Science remain our priority subjects and we've seen a decline specifically in 5th Science. **Root Cause:** Math is foundational and gaps in instruction due to COVID amounted to large gaps overall. 5th Science lacked consistent hands on labs.

School Processes & Programs

School Processes & Programs Summary

Programs

GET

Imagine learning

CSI

Processes:

Professional Development on Campus

Lead team tacticals

Instructional rounds

Instructional tactical

Our leaders on campus receive quality instructional coaching through our district called Coaching Academy. This is something that all first year leaders attend. We then build upon that at our campus by having campus based instructional rounds that allow us to determine strengths and trends that we need to coach our teachers on. We use tools such as the GET to determine what the teachers need to work on. This allows my leaders to coach their teachers effectively and consistently.

See PDF in addendum for more information

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as

the STAAR/EOC and AP exams.

- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Social and emotional supports were needed on campus and this lead to behavior issues. **Root Cause:** Focus on gaining certified counselor.

Perceptions

Perceptions Summary

Leadership Team is highly visible to parents, teachers, and community members. Parents and community members often seek out opportunities to volunteer on the campus and support teachers. Our overall retention of teachers is not a priroity, however, our focus remains on retaining all staff members, whether teacher or co-teacher. Our overall teacher retention was at a 97% but our overall staff retention was at a 93% so our focus is going to be on ensuring that we retain our co-teachers. A big way to do that is leverging their strenghts and utilzing them accordingly for future promotions.

We utilize staff feedback surveys to ensure that we are consistently meeting the needs of teachers and staff. These are often issued out two times a year. Once during the Fall and one in the spring. We also utilize our GPTW surveys to receive feedback from our staff.

Please see PDF in addendum for more info.

Perceptions Strengths

Please see PDF addendum for more info.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Lack of parent investment regarding curriculum or instruction. **Root Cause:** The same parents join us for instructional meetings and we don't target parents of students that are struggling.

Problem Statement 2 (Prioritized): Lack of consistent parent support with goals night. **Root Cause:** Lack of knowledge of what goals are and the impact that they make on a student's success.

Priority Problem Statements

Problem Statement 1: Overall, our meets and masters were low across all contents, causing low Meets and Masters percentages.

Root Cause 1: Teachers were doing the heavy lifting in almost all subjects due to being new to curriculum, grade, teaching..etc and this caused teachers to do the work and left students relying on teachers to do the hard work for them causing rigor overall to be affected.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: Lack of parent investment regarding curriculum or instruction.

Root Cause 2: The same parents join us for instructional meetings and we don't target parents of students that are struggling.

Problem Statement 2 Areas: Perceptions

Problem Statement 3: Critical student intervention did not meet the needs of our most critical students.

Root Cause 3: Students in CSI are not getting enough practice and tutorials.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Math overall and 5th Science remain our priority subjects and we've seen a decline specifically in 5th Science.

Root Cause 4: Math is foundational and gaps in instruction due to COVID amounted to large gaps overall. 5th Science lacked consistent hands on labs.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: ADA was not met. We consistently had students struggling to get to campus and were out alot due to being sick. ADA was at a 86%,

Root Cause 5: Lack of focus on parent meetings and our escalation matrix has been revised to better meet the needs of our campus and parents in order to better support ADA. Teacher buy in with ADA phone calls.

Problem Statement 5 Areas: Demographics

Problem Statement 6: Student persistence was at an all time low. Persistence was at at an 86%

Root Cause 6: There has been a lack of commitment from parents after Welcome to IDEA. We need to continue to build opportunities for parents to establish relationships with the school from Welcome to IDEA to first day of school. Once school starts, we need to invest parents by opening our doors to them so they can build that investment.

Problem Statement 6 Areas: Demographics

Problem Statement 7: Social and emotional supports were needed on campus and this lead to behavior issues.

Root Cause 7: Focus on gaining certified counselor.

Performance Objective 2: By the end of the 22-23 school year, we will retain 100% of our 5th graders.

High Priority

Evaluation Data Sources: Persistence data & stream

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Leaders will build opportunities for 5th graders to build traditions and see the middle school experience through joy. **Strategy's Expected Result/Impact:** 100% persistence of 5th graders **Staff Responsible for Monitoring:** Student success advisor and APO **Problem Statements:** Demographics 1				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 1: Student persistence was at an all time low. Persistence was at at an 86% **Root Cause**: There has been a lack of commitment from parents after Welcome to IDEA. We need to continue to build opportunities for parents to establish relationships with the school from Welcome to IDEA to first day of school. Once school starts, we need to invest parents by opening our doors to them so they can build that investment.

Goal 3: Increase student daily attendance

Performance Objective 1: 97% of our students will attend school daily.

Evaluation Data Sources: ADA dashboard, exam data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Increase parent engagement through our parent volunteer program and have multiple opportunities for our parents to connect with our students and school. **Strategy's Expected Result/Impact:** Attendance goes up because they feel an attachment to our school. **Staff Responsible for Monitoring:** Leaders and teachers. **TEA Priorities:** Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 1	25%	45%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Lead strong efforts with the Healthy kids initiative to ensure that students are healthy so they can be at school every day. **Strategy's Expected Result/Impact:** Students attend school regularly and are succeeding in class. **Staff Responsible for Monitoring:** Lead team, teachers **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 1	25%	40%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Perceptions
Problem Statement 1: Lack of parent investment regarding curriculum or instruction. **Root Cause**: The same parents join us for instructional meetings and we don't target parents of students that are struggling.

Goal 4: Increase student persistence

Performance Objective 1: Students persist year after year.

High Priority

Evaluation Data Sources: New student persistence, student persistence

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Ensure that we operate in a violence free environment for our students. **Strategy's Expected Result/Impact:** Strong student culture **Staff Responsible for Monitoring:** Teachers and leaders **TEA Priorities:** Recruit, support, retain teachers and principals, Improve low-performing schools **- ESF Levers:** Lever 3: Positive School Culture	25%	45%		

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Provide strong communication expectations with our parents to keep them in the loop and engaged throughout the year. **Strategy's Expected Result/Impact:** Students persist year after year. Parents are satisfied. **Staff Responsible for Monitoring:** SSA, Lead team, teachers **ESF Levers:** Lever 3: Positive School Culture **Problem Statements:** Perceptions 1	25%	45%		

Strategy 3 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 3: 100% of teachers use move this world daily. **Strategy's Expected Result/Impact:** Increase persistence through SEL topics through move this world. **Staff Responsible for Monitoring:** Teachers, leaders **ESF Levers:** Lever 3: Positive School Culture	25%	35%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Perceptions

Problem Statement 1: Lack of parent investment regarding curriculum or instruction. **Root Cause**: The same parents join us for instructional meetings and we don't target parents of students that are struggling.

Goal 5: Increase staff retention

Performance Objective 1: We will retain high quality staff year after year.

Evaluation Data Sources: GPTW surveys, teacher retention data.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Teachers will receive high quality feedback to ensure that they are growing and learning. **Strategy's Expected Result/Impact:** Retain high quality teachers **Staff Responsible for Monitoring:** Lead team **TEA Priorities:** Recruit, support, retain teachers and principals -	25%	50%

Reflections	
Areas of Strength	**Areas of Need**
1. Lower grades all met their reading goal. The focus was remediation and small group focus this year along with growth.	1. Concentration on meets and masters needs to happen. We need to know who are our students that can do it and target them from the get go.
2. Strong focus on pushing rigor in ELA, especially in 3rd-5th.	2. Focus on rigor. We need to do a better job at focusing on the rigor in all grade levels.
3. Strong focus on thinking jobs across all contents in STAAR grade levels.	3. Pushing CSI and sped data .

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Campus Funding Summary 26

Addendums 27

Comprehensive Needs Assessment

Revised/Approved: September 14, 2022

Demographics

Demographics Summary

Our school opened in 2017 to serve only 6th grade students that year. For the 22-23 school year we serve 6th - 11th grade. We are located in Rio Grande City but serve all of Starr County. We are an open enrollment charter school.

The following special programs exist at our school: Emergent Bilingual, Special Education, Athlectics, CTE, RISE. Since our priority goal for all of our students is for them to attend college, it is important to prioritize setting up systems to support all students in any special program.

See PDF in Addendum for more information.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is a need to have stronger recruitment plans need to be put in place and followed with fidelity. **Root Cause:** Recruitment plans are surface level and not being followed with fidelity. What the school has to offer is not being showcased.

Problem Statement 2 (Prioritized): There is a need to increase student persistence. **Root Cause:** Persistence events are not well attended. Events planned are not targeting the wants of teenagers.

Problem Statement 3 (Prioritized): There is a need to well inform parents of the school expectations so that they can support students. **Root Cause:** Parent meetings were not be held early on in the year. Expectations have not been clear to parents.

Student Learning

Student Learning Summary

Students have made large gains in closing gaps by meeting or exceeding their growth goals. Data significantly increased from previous years.

During the 21-22 school year, students showed significant improvement from benchamark 1 to STAAR testing.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The percent of students at meets and masters have increased minimally from BOY to EOY. **Root Cause:** Teachers are not giving students sufficient practice time so that they can practice various question types.

Problem Statement 2 (Prioritized): There is a gap in performance between students in the general education population and students in special education. **Root Cause:** There are not any strong operating mechanisms between GenEd and SpEd teachers.

Problem Statement 3 (Prioritized): In Biology, there are very few students scoring at the masters level. **Root Cause:** Teacher lacks the knowledge to be able to push the high level students.

Problem Statement 4 (Prioritized): In Humanities, there is a problem with low student achievement data. **Root Cause:** Humanities teachers lacked content knowledge.

Problem Statement 5 (Prioritized): There is a low percentage of students scoring Advanced High in the Speaking portion of TELPAS. **Root Cause:** Students are not being pushed to practice their English speaking year around.

Problem Statement 6: There is a low passing rate on the TSI. **Root Cause:** Students are unfamiliar with the format and content of the test due to not being exposed to practice tests.

School Processes & Programs

School Processes & Programs Summary

Instructional leaders all attend coaching academy at the regional level. They all have clear roles and responsibilities and are encouraged to reach out for support. We have weekly professional development held on campus led by instructional leaders. Professional development topics are aligned to the most pressing problems that have been identified at the campus level.

See PDF in Addendum for more information.

School Processes & Programs Strengths

See PDF in Addendum for more information.

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Our teachers do not feel prepared at the beginning of the year and become stressed and overwhelmed early on in the year. **Root Cause:** 1 week of BOY Professional development is not enough for teachers to prepare for the school year.

Problem Statement 2 (Prioritized): We have a low turn out for most parent events. **Root Cause:** Parents are not informed nor invested in our goals because we have not prioritized investment over the last 2 years.

Perceptions

Perceptions Summary

Parents, students and staff receive feedback surveys at least 2 times per year. This feedback is looked at by campus leaders and changes are made based on feedback given. Currently, we have a 0% drop out rate and have not had our first graduating class. During the 21-22 school year, staff retention increased from the previous year.

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Parents often feel uninformed about events taking place on campus. **Root Cause:** School is only utilizing Remind and Facebook to communicate and not all parents have access to either.

Problem Statement 2 (Prioritized): We have had a decrease of parent/teacher collaboration. **Root Cause:** Teachers feel overwhelmed by the amount of work that they do.

Priority Problem Statements

Problem Statement 1: There is a need to have stronger recruitment plans need to be put in place and followed with fidelity.
Root Cause 1: Recruitment plans are surface level and not being followed with fidelity. What the school has to offer is not being showcased.
Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a need to increase student persistence.
Root Cause 2: Persistence events are not well attended. Events planned are not targeting the wants of teenagers.
Problem Statement 2 Areas: Demographics

Problem Statement 3: There is a need to well inform parents of the school expectations so that they can support students.
Root Cause 3: Parent meetings were not be held early on in the year. Expectations have not been clear to parents.
Problem Statement 3 Areas: Demographics

Problem Statement 4: The percent of students at meets and masters have increased minimally from BOY to EOY.
Root Cause 4: Teachers are not giving students sufficient practice time so that they can practice various question types.
Problem Statement 4 Areas: Student Learning

Problem Statement 5: There is a gap in performance between students in the general education population and students in special education.
Root Cause 5: There are not any strong operating mechanisms between GenEd and SpEd teachers.
Problem Statement 5 Areas: Student Learning

Problem Statement 6: There is a low percentage of students scoring Advanced High in the Speaking portion of TELPAS.
Root Cause 6: Students are not being pushed to practice their English speaking year around.
Problem Statement 6 Areas: Student Learning

Problem Statement 7: In Biology, there are very few students scoring at the masters level.
Root Cause 7: Teacher lacks the knowledge to be able to push the high level students.
Problem Statement 7 Areas: Student Learning

Problem Statement 8: In Humanities, there is a problem with low student achievement data.
Root Cause 8: Humanities teachers lacked content knowledge.
Problem Statement 8 Areas: Student Learning

Problem Statement 9: We have a low turn out for most parent events.
Root Cause 9: Parents are not informed nor invested in our goals because we have not prioritized investment over the last 2 years.
Problem Statement 9 Areas: School Processes & Programs

Problem Statement 10: Our teachers do not feel prepared at the beginning of the year and become stressed and overwhelmed early on in the year.
Root Cause 10: 1 week of BOY Professional development is not enough for teachers to prepare for the school year.
Problem Statement 10 Areas: School Processes & Programs

Problem Statement 11: Parents often feel uninformed about events taking place on campus.
Root Cause 11: School is only utilizing Remind and Facebook to communicate and not all parents have access to either.
Problem Statement 11 Areas: Perceptions

Problem Statement 12: We have had a decrease of parent/teacher collaboration.
Root Cause 12: Teachers feel overwhelmed by the amount of work that they do.
Problem Statement 12 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Local benchmark or common assessments data

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- School safety data

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Communications data

- Action research results

Goals

Goal 1: Increase staff retention

Performance Objective 1: By the end of 2023, 100% of teachers will attend at least 2 professional development opportunities that align to their growth.

High Priority

Evaluation Data Sources: Teacher Surveys
Instructional Rounds

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Campus leaders will use data from instructional rounds to determine what are the greatest needs of the teacher. **Strategy's Expected Result/Impact:** Teachers to close gaps within their own growth. **Staff Responsible for Monitoring:** Campus Principal **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1	50%	75%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

School Processes & Programs
Problem Statement 1: Our teachers do not feel prepared at the beginning of the year and become stressed and overwhelmed early on in the year. **Root Cause**: 1 week of BOY Professional development is not enough for teachers to prepare for the school year.

Goal 1: Increase staff retention

Performance Objective 2: 100% of weekly campus professional development will be tied to problems of practice that are evident on campus.

High Priority

Evaluation Data Sources: Instructional Rounds Data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Campus principal will work directly with talent partner to set up monthly meetings to discuss current and previous teachers. **Strategy's Expected Result/Impact:** Determine the quality of teachers being recruited. **Staff Responsible for Monitoring:** Campus Principal Campus Talent Partner **TEA Priorities:** Recruit, support, retain teachers and principals **Problem Statements:** School Processes & Programs 1	50%	100%	100%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

School Processes & Programs
Problem Statement 1: Our teachers do not feel prepared at the beginning of the year and become stressed and overwhelmed early on in the year. **Root Cause**: 1 week of BOY Professional development is not enough for teachers to prepare for the school year.

Goal 2: IDEA achieves 100% Enrollment

Performance Objective 1: By the end of the 2022 - 2023 school year, we will increase the number of applications received by 50%.

High Priority

Evaluation Data Sources: Stream

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: The operations team will hold monthly recruitment events throughout the community. **Strategy's Expected Result/Impact:** Increase number of applications **Staff Responsible for Monitoring:** APO Enrollment Coordinator **Problem Statements:** Demographics 1, 2	25%	100%	100%	

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: There is a need to have stronger recruitment plans need to be put in place and followed with fidelity. **Root Cause**: Recruitment plans are surface level and not being followed with fidelity. What the school has to offer is not being showcased.
Problem Statement 2: There is a need to increase student persistence. **Root Cause**: Persistence events are not well attended. Events planned are not targeting the wants of teenagers.

Goal 2: IDEA achieves 100% Enrollment

Performance Objective 2: By the end of the 2022 - 23 school year, we will retain 100% of 8th grade students.

High Priority

Evaluation Data Sources: Persistence Data

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Leaders will develop systems that allow students to embrace the high school experience at IDEA through building traditions and bringing joy. **Strategy's Expected Result/Impact:** 100% Persistence **Staff Responsible for Monitoring:** School Counselor APO **Problem Statements:** Demographics 2, 3 - School Processes & Programs 2	5%	25%		

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Performance Objective 2 Problem Statements:

Demographics
Problem Statement 2: There is a need to increase student persistence. **Root Cause**: Persistence events are not well attended. Events planned are not targeting the wants of teenagers.
Problem Statement 3: There is a need to well inform parents of the school expectations so that they can support students. **Root Cause**: Parent meetings were not be held early on in the year. Expectations have not been clear to parents.
School Processes & Programs
Problem Statement 2: We have a low turn out for most parent events. **Root Cause**: Parents are not informed nor invested in our goals because we have not prioritized investment over the last 2 years.

Goal 3: IDEA achieves an A rating

Performance Objective 1: 7th grade students performing at or above grade level in mathematics as measured by the Meets Grade Level Standard on STAAR will increase from 35% to 50% in Spring 2023.

High Priority

Evaluation Data Sources: Internal Exam Dashboard, Bi-weekly Internal Data Analysis, Benchmark Exam Data Conversations, Student Work Analysis Meetings.

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Mathematics teacher will attend all Lead4ward trainings, receive support from Regional Mathematics Coach and will have job-embedded coaching throughout the year. **Strategy's Expected Result/Impact:** Increase students scoring at the Meets Performance Level **Staff Responsible for Monitoring:** Instructional Leader Regional Math Coach **Title I:** 2.4, 2.5, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **Problem Statements:** Student Learning 1, 2 **Funding Sources:** Jessica Villarreal - State Funding	25%	100%	100%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 2: Campus will use HB 4545 to accelerate student learning in order to close gaps. **Strategy's Expected Result/Impact:** Increased student data. **Staff Responsible for Monitoring:** Instructional leaders **Title I:** 2.4, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **Problem Statements:** Student Learning 1, 2 **Funding Sources:** Karen Alanis - State Compensatory Education	50%	75%		

No Progress | Accomplished | Continue/Modify | Discontinue

Performance Objective 1 Problem Statements:

Student Learning

Problem Statement 1: The percent of students at meets and masters have increased minimally from BOY to EOY. **Root Cause**: Teachers are not giving students sufficient practice time so that they can practice various question types.

Problem Statement 2: There is a gap in performance between students in the general education population and students in special education. **Root Cause**: There are not any strong operating mechanisms between GenEd and SpEd teachers.

Goal 3: IDEA achieves an A rating

Performance Objective 2: By then end of the 2022 - 2023 school year, the number of students that show college readiness on the TSI will reach 40%.

High Priority

HB3 Goal

Evaluation Data Sources: TSI Data

Strategy 1 Details	Reviews

Reflections

Areas of Strength	Areas of Need
1. Early implementation of STAAR formated questions and passages early on with effected resources.	1. Stronger operating mechanisms between SpEd and GenEd teachers needs to be true.
2. Students, parents, teachers and leaders were aware of student growth goals earlier than in previous years and set ups systems to help students meet their individual goals.	2. Data review and remediation needs to be true earlier in the year.
3. Teachers were able to provide rigorous instruction by focusing on the quality of work.	3. More support is needed for students who are lacking foundational skills.

Reflections	
Areas of Strength	**Areas of Need**
1. Teachers felt supported by their managers and by the organization.	1. It would be effective to have 2 weeks of BOY PD rather than just 1 week. Teachers need to feel prepared early on.
2. Staff was allowed to provide feedback to campus principal which was implemented, where applicable.	2. Teachers need to feel comfortable providing feedback to their managers in order to feel better supported.
3. Teacher retention was higher than the previous school years.	3. Staff need more time to build relationships with each other.

Data Source: School Culture and Climate	
Reflections	
Areas of Strength	**Areas of Need**
1. More persistence events were incorprated this year.	1. Stronger recruitment plans need to be true.
2. Teachers were able to build stronger relationships with parents than in years past.	2. Parent meetings need to take place earlier in the school year in order to target students with ADA concerns.
3. There were no administrative withdrawls this school year.	3. Persistence events need to be focused more on student wants.

IDEA Rio Grande City College Prep

% Families Attended WTI	85%
% Families Attended Curriculum Night	85%
% Families Who Attended EOY Ceremonies	90%
% Families who attended Fall Festival	70%
% Families who attended Winter Festival	75%
% Families who attended Spring Festival	70%

Reflections	
Areas of Strength	**Areas of Need**
1. Compared to previous years, attendance was higher for our campus. Parents were excited to have in person meetings regarding their children.	1. It would be effective to be able to purchase tangible items to give parents as part of our joy factor.
2. Communication - All parents received personal phone calls from homeroom teachers inviting them to meetings.	2. Meetings need to be bilingual or we need to provide two different session in both English and Spanish.
3. Parent feedback was positive and parents were comfortable giving feedback for growth.	3. Invest more staff members to participate in these events.

IDEA Public Schools

Rio Vista Academy

2022-2023 Campus Improvement Plan

Accountability Rating: B

Distinction Designations:
Academic Achievement in English Language Arts/Reading
Academic Achievement in Science
Top 25 Percent: Comparative Academic Growth

Board Approval Date: October 21, 2022
Public Presentation Date: September 14, 2022

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Comprehensive Needs Assessment

Demographics

Demographics Summary

IDEA Rio Vista Academy is an open enrollment public sharter serving grades PK - 5th grade. We proudly serve a diverse array of schoalrs. Our special programs include Emerging Bilingual, Special Education, and Athletics.

See PDF in Addendum for more information.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August). **Root Cause:** Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.

Problem Statement 2 (Prioritized): EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars. **Root Cause:** A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Problem Statement 3 (Prioritized): Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August). **Root Cause:** Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.

Problem Statement 4 (Prioritized): Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August). **Root Cause:** Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.

Student Learning

Student Learning Summary

We are proud to be an A rated campus (94), having earned domain ratings of 86, 92, and 99, for student achievement, school progress, and closing the gaps respectively. Our scholars have increased their achievement scores for meets and masters over 30% points in the last school year. IDEA Rio Vista also earned all eligible disctiontions.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Scholars in Special education performed significantly lower than scholars in other accountable subgroups. **Root Cause:** Interventions were primarily fluency based and did not emphasize standard and skill based supports.

Problem Statement 2 (Prioritized): RTI is not being implemented effectively. No clear communication between SEL department and instructional team. **Root Cause:** Ownership at the campus levels was associated with the counseling department.

School Processes & Programs

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year
- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA’s individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: While there is strong TEKS alignments, the campus has gaps implementing the ELPS. **Root Cause:** No clear vision for ELPS and EB support across campus.

Problem Statement 2: Gap communicating goals and performance expectations to all stakeholders. **Root Cause:** Campus has no effectively invested parents in students individual performance and progress goals.

Perceptions

Perceptions Summary

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system. **Root Cause:** The campus does not have a clear and consistent discipline management system.

Problem Statement 2 (Prioritized): Unclear vision to reduce the threat of bullying. High volume of family and student reported bullying concerns led to persistence concerns. **Root Cause:** The campus does not have a clear and consistent vision to educate all stakeholders on bullying. Campus does not have a clear protocol to address bullying when reported.

Priority Problem Statements

Problem Statement 1: Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system.

Root Cause 1: The campus does not have a clear and consistent discipline management system.

Problem Statement 1 Areas: Perceptions

Problem Statement 2: Unclear vision to reduce the threat of bullying. High volume of family and student reported bullying concerns led to persistence concerns.

Root Cause 2: The campus does not have a clear and consistent vision to educate all stakeholders on bullying. Campus does not have a clear protocol to address bullying when reported.

Problem Statement 2 Areas: Perceptions

Problem Statement 3: Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August).

Root Cause 3: Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.

Problem Statement 3 Areas: Demographics

Problem Statement 4: EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars.

Root Cause 4: A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Problem Statement 4 Areas: Demographics

Problem Statement 5: Scholars in Special education performed significantly lower than scholars in other accountable subgroups.

Root Cause 5: Interventions were primarily fluency based and did not emphasize standard and skill based supports.

Problem Statement 5 Areas: Student Learning

Problem Statement 6: RTI is not being implemented effectively. No clear communication between SEL department and instructional team.

Root Cause 6: Ownership at the campus levels was associated with the counseling department.

Problem Statement 6 Areas: Student Learning

Problem Statement 7: Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August).

Root Cause 7: Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high

value.

Problem Statement 7 Areas: Demographics

Problem Statement 8: Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August).

Root Cause 8: Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.

Problem Statement 8 Areas: Demographics

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Federal Report Card and accountability data

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Observation Survey results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Attendance data
- Discipline records
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Teacher/Student Ratio
- Campus leadership data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data

Goals

Goal 1: Increase staff retention

Performance Objective 1: By June 2022, we will increase staff retention by 5% for instructional staff in grades three through five.

High Priority

Evaluation Data Sources: Great Places to Work Survey

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Recognizing teachers' success through shout out during weekly faculty meetings, teacher weekly newsletter, and/or social media. Recognizing teachers who exhibit IDEA core values every month. **Strategy's Expected Result/Impact:** Increase Staff Retention **Staff Responsible for Monitoring:** All Campus Managers **TEA Priorities:** Recruit, support, retain teachers and principals				

 No Progress Accomplished Continue/Modify Discontinue

Goal 2: All IDEA students matriculate to college

Performance Objective 1: By June 2022, 96% of scholars on grade levels PK through five are on track to graduate as measured by academic promotion.

HB3 Goal

Evaluation Data Sources: Report Cards

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Measuring on track levels in grades PK through 2nd **Strategy's Expected Result/Impact:** Alignment to STAAR on grade level metrics **Staff Responsible for Monitoring:** PK - 2nd DI Teacher **Title I:** 2.4, 2.5, 4.2				

 No Progress Accomplished Continue/Modify Discontinue

Goal 3: IDEA achieves an A rating

Performance Objective 1: By June 2022, the percent of students reading at or above grade level for grade three will increase by at least three percentage points as measured by STAAR and monitored by district wide universal screener.

High Priority

HB3 Goal

Evaluation Data Sources: Benchmarks and summative assessments

Strategy 1 Details	Reviews			
	Formative			Summative
	Oct	Jan	Mar	June
Strategy 1: Hold after-school tutoring for scholars who failed the STAAR assessment in reading. **Strategy's Expected Result/Impact:** Increase passing rates in reading STAAR **Staff Responsible for Monitoring:** Instructional Lead Team **Title I:** 2.4, 2.6 **- TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools **Problem Statements:** Demographics 1, 2 **Funding Sources:** - Federal Grant - $61,000				

 No Progress Accomplished Continue/Modify Discontinue

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 1: Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August). **Root Cause**: Scholars in the Socorro community are attracted to fine arts and bilingual options. For the community, a bilingual program where students learn Spanish has very high value.
Problem Statement 2: EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars. **Root Cause**: A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Goal 3: IDEA achieves an A rating

Annual Performance Objectives (APO)

PRIORITY #1: Students Graduate College-Ready

1A. % of graduates who matriculate to a College or University: 100%

1B. % of graduates matriculate to a Tier I/II College or University: 15% | 25%

1C. % of Seniors accepted to a College or University: 100%

1D. % of Seniors named AP scholars | Earn IB diploma: 30% | 25%

1E. Earned State Rating: A

1F. % Basic | % Mastery | % Advanced on LEAP: 82% | 44% | 11%

1G. % Approaches | % Meets | % Masters on STAAR/EOC: 90% | 60% | 30%

1H. % Level 3 | % Level 4 | % Level 5 on FSA/FSAA: 70% | 40% | 20%

1I. % of Pre-K-2nd Students End The Year On/Above Grade Level in Reading - Year 1 Campuses | Year 2 Campuses: 80% | 90%

1J. % of students in CSI achieve 2 years growth in Reading | Math (measured by Ren STAR) 50% | 60%

1K. Average ACT score: 21

1L. % of students graduating college in 4 | 6 years: 25% | 55%

PRIORITY #2: Build a Strong & Sustainable Organization

2A. % Teacher Retention | Employee Retention: 85% | 85%

2B. 80% composit score on GPTW: 82%

2B. %Average Daily Attendance: 97.50%

2C. New Student Persistence: 90%

2D. Operating Income: $133M

2E. FIRST Rating: A

PRIORITY #3: Achieve Mission at Scale

3A. % of students with low socio-economic status: 80%

3B. Enrollment in August 2020: 83,894

3C. Schools in operation in August 2020: 149

3D. Total Funds Raised (millions): $93M

TELPAS Composite Rating (Listening, Speaking, Reading, Writing)

	Listening	Speaking	Reading	Writing	% of ELL Students who grew one or more levels
% Beginning	6%	21%	21%	39%	54%
% Intermediate	31%	39%	33%	31%	
% Advanced	37%	28%	24%	19%	
% Advanced High	26%	12%	23%	10%	

Reflections

Areas of Strength	Areas of Need
1 Deliberate practice scohlars' listening and speaking before assessments.	1 We did not have a cross-curricular approach for literacy. Reading and writing were isolated to the ELAR classroom.
2 Targetted vocabulary through membeam during the intervention block.	2 Teachers did not receive tools to implement SIOP strategies and differentiate material for LEP scholars.
3 DISE intervention for Spanish speakers showed positive impact for the speaking component.	3 We did not monitor progress on TELPAS levels through out the school year. Once we received mock data, we did not utilize it to monitor progress or support scholars in their areas of need.

Mission Statement

IDEA Public Schools prepare students from underserved communities for success in college and citizenship.

Vision

To ensure students reach their potential, IDEA Public Schools will become the region's largest creator of college graduates.

Core Values

Our drive to translate our mission and vision into reality are based upon the following core values:

- We achieve **Academic Excellence**
- We deliver **Results**
- We ensure **Equity**
- We build **Team & Family**
- We act with **Integrity**
- We bring **Joy**
- We **Sweat the Small Stuff**

Addendums 25

Comprehensive Needs Assessment

Revised/Approved: September 15, 2022

Demographics

Demographics Summary

IDEA Rio Vista College Prep is an open enrollment public sharter serving grades 6th - 10th grade. We proudly serve a diverse array of schoalrs. Our special programs include CTE, Emerging Bilingual, Special Education, and Athletics).

See PDF in Addendum for more information.

Demographics Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August). **Root Cause:** Scholars in the Socorro community are attracted to early college and dual credit options. For the community, the idea of graduating with an associates degree has more value than attaining AP credit.

Problem Statement 2 (Prioritized): EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars. **Root Cause:** A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Student Learning

Student Learning Summary

We are proud to be an A rated campus (94), having earned domain ratings of 86, 92, and 99, for student achievement, school progress, and closing the gaps respectively. Our scholars have increased their achievement scores for meets and masters over 30% points in the last school year. IDEA Rio Vista also earned all eligible disctiontions.

See PDF in Addendum for more information.

Student Learning Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Scholars in Special education performed significantly lower than scholars in other accountable subgroups. **Root Cause:** Interventions were primarily fluency based and did not emphasize standard and skill based supports.

Problem Statement 2 (Prioritized): RTI is not being implemented effectively. No clear communication between SEL department and instructional team. **Root Cause:** Ownership at the campus levels was associated with the counseling department.

School Processes & Programs

School Processes & Programs Summary

Our campus uses the School Leadership Levers and Relay School of Education coaching structures to develop leadership. Development goals and individual learning plans for leaders are also clearly communicated to them during weekly coaching session. We host monthly coaching academies to emphasize leadership levers of focus.

See PDF in Addendum for more information.

School Processes & Programs Strengths

Curriculum & Instruction:

- At least one-third of IDEA students graduate with the "AP Scholar" designation, evidence of earning a qualifying score on at least three AP exams, demonstrating successful completion of college-level coursework prior to graduation.
- IDEA provides students access to accelerated instruction through the 1:1 technology device, including adaptive software for mathematics and literacy and access to hundreds of thousands of books in the district's digital library.
- IDEA curricular resources include high-quality instructional materials that earn the highest ratings on national evaluation measures.
- IDEA curriculum is regularly evaluated using a quality evaluation tool, ensuring alignment to the Texas Essential Knowledge and Skills and AP course standards, as well as the STAAR/EOC and AP exams.
- IDEA implements a variety of training opportunities for teachers and leadership staff with the goal of developing teachers' pedagogical content knowledge and leaders' coaching skills.
- For 15 years in a row, 100% of IDEA students have been accepted into college, demonstrating that IDEA academic programming is adequately preparing students for post-secondary education.
- In 2022, four IDEA schools were ranked in the top 10 Most Challenging Schools in the Nation and 13 were ranked in the top 1% of schools nationwide, by the Jay Mathews Challenge Index High School Rankings.

Special Programs

- IDEA exceeded the expected growth target for EL student performance on TELPAS in 2021 with 48% of ELs meeting that target.
- IDEA provide targeted research based instruction to students who have a 2.0 year gap in Reading and/or Math with the goal of closing that gap by 2.0 years during the school year with our initiative called Critical Student Intervention (CSI). During the 21-22 school year, 2,562 out of 6,632 students meet that goal for Reading and 703 out of 1,268 students met the goal for Math.
- IDEA is in Year 3 of our TEA awarded Autism Grant. Through this grant we were able to increase support for 195 students with autism in Rio Grande Valley and Austin who met the criteria outlined by TEA for this grant.
- IDEA submitted and was awarded a Dyslexia Grant by the TEA so that we will be able to provide increased professional development to teachers and leaders on working with students with dyslexia and increase the support resources for our students with dyslexia.

SEL/ Mental Health and Family Engagement

- IDEA has increased the number of licensed counselors and Social Workers by 50% over the past 2 years
- IDEA pre-pandemic ADA averaged 97.4%, district is committed to get back to that average
- IDEA reatins an average of 84% of students year over year

- IDEA parents rate IDEA as 4.8/5 on the statement "My school is preparing my child for college"
- IDEA parents rate IDEA as 4.8/5 on the statement "My school hold my child to high academic standards"
- IDEA students rate IDEA as 4.6/5 on the statement "My teachers challenge me to do my best"

IDEA's individualized coaching and development of its employees is a contributing factor in getting new employees to proficiency quickly and providing an internal pool for promotions.

Ongoing feedback, effective accountability mechanisms, and consistent follow through also provide a supportive environment where employees have clear expectations for performance.

IDEA is currently undertaking an initiative to redefine its employee value proposition (EVP) to better identify, promote, and implement recruitment and retention strategies that can provide the talent needed to be successful

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): While there is strong TEKS alignments, the campus has gaps implementing the ELPS. **Root Cause:** No clear vision for ELPS and EB support across campus.

Problem Statement 2 (Prioritized): Gap communicating goals and performance expectations to all stakeholders. **Root Cause:** Campus has no effectively invested parents in students individual performance and progress goals.

Perceptions

Perceptions Summary

See PDF in Addendum for more information.

Perceptions Strengths

See PDF in Addendum for more information.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system. **Root Cause:** The campus does not have a clear and consistent discipline management system.

Problem Statement 2 (Prioritized): Unclear vision to reduce the threat of bullying. High volume of family and student reported bullying concerns led to persistence concerns. **Root Cause:** The campus does not have a clear and consistent vision to educate all stakeholders on bullying. Campus does not have a clear protocol to address bullying when reported.

Priority Problem Statements

Problem Statement 1: Enrollment numbers are decreasing in transitional years such as 5th grade and 8th grade. We have seen the highest persistence leavers during summer months (June-August).

Root Cause 1: Scholars in the Socorro community are attracted to early college and dual credit options. For the community, the idea of graduating with an associates degree has more value than attaining AP credit.

Problem Statement 1 Areas: Demographics

Problem Statement 2: EB scholars enrollment rates have increased significantly. As such, campus must adapt and incorporate more urgent interventions for our beginner and intermediate EB scholars.

Root Cause 2: A significant increased of EB scholars has enrolled this year. Many of them, are first year in America students who need more urgent support with language acquisition.

Problem Statement 2 Areas: Demographics

Problem Statement 3: RTI is not being implemented effectively. No clear communication between SEL department and instructional team.

Root Cause 3: Ownership at the campus levels was associated with the counseling department.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: While there is strong TEKS alignments, the campus has gaps implementing the ELPS.

Root Cause 4: No clear vision for ELPS and EB support across campus.

Problem Statement 4 Areas: School Processes & Programs

Problem Statement 5: Gap communicating goals and performance expectations to all stakeholders.

Root Cause 5: Campus has no effectively invested parents in students individual performance and progress goals.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: Inconsistent and reactive disciplinary practices led to administrative and parent withdrawals. This could have been prevented with more consistent discipline management system.

Root Cause 6: The campus does not have a clear and consistent discipline management system.

Problem Statement 6 Areas: Perceptions

Problem Statement 7: Unclear vision to reduce the threat of bullying. High volume of family and student reported bullying concerns led to persistence concerns.

Root Cause 7: The campus does not have a clear and consistent vision to educate all stakeholders on bullying. Campus does not have a clear protocol to address bullying when reported.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: Scholars in Special education performed significantly lower than scholars in other accountable subgroups.

Root Cause 8: Interventions were primarily fluency based and did not emphasize standard and skill based supports.

Problem Statement 8 Areas: Student Learning

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Observation Survey results

Student Data: Student Groups
